DEPARTMENT OF AGRICULTURE, BENGAL.

Final forecast of the Sugarcane crop of Bengal, 1924-25

(NOTE.—On an average of the five years ending 1921-23, the area under sugarcane in Bengal has represented some 7·7 per cent. of the total area under sugarcane in British India.)

Character of the season.—As stated in the preceding two forecasts, the weather was generally unfavourable at the outset owing to drought and high temperatures especially in the deltaic tracts of the Presidency. With the break of the monsoon in June, the condition and prospects of the crop generally improved, but excessive rain and flood caused damage in some East Bengal districts. Subsequently since October the weather conditions were generally fair. On the whole a fair crop has been reaped for the Province.

Acreage.—The total area planted with the crop for the Province is estimated at 206,200 acres this year as against 201,900 acres (revised) last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the Province works out at 76 per cent. of the normal this year as against 80 per cent. last year.

Taking 36½ maunds as the normal yield of cane *gur* per acre, the gross outturn for the Province is estimated at 210,100 tons this year as against 216,600 tons (revised) last year.

Other sources of gur.—The total quantity of *gur* likely to be obtained from date palm juice and others is estimated at 116,500 tons this year as against 119,300 tons last year.

The quantity of *gur* for the Province from all sources is thus estimated at 326,600 tons this year as against 335,900 tons (revised) last year.

APPENDIX I.

Final Forecast of the Sugarcane crop of Bengal, 1924-25.

District.	Estimated normal area under sugarcane.	Estimated area under sugarcane.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the harvesting of the crop generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.				
24-Parganas ...	4,600	1,400	1,400	58	50	November. Normal ...	The weather was unfavourable. Damage to the extent of eight annas owing to drought is reported from Basirhat subdivision. The outturn is much below the normal owing to want of sufficient and timely rain and to defective seedlings on account of last year's drought.
Nadia	7,900	5,700	6,500	67	67	Latter part of December. Normal.	The increase in area is due to high price of molass s that prevailed last year. The weather condition continued favourable since the submission of the second forecast. The outturn is anticipated to fall much below the normal for want of rain at planting time.
Murshidabad ...	3,600	3,200	3,300	50	83	Normal in some places in Sadar and Jangipur, elsewhere not commenced yet.	The increase in area is due to favourable weather condition at planting time. Since the submission of the second forecast the weather was favourable. The outturn is anticipated to fall below the normal owing to damage caused by drought.
Jessore	5,200	3,200	2,500	75	67	December. Normal ...	The decrease in area was due to insufficient rainfall at planting time. The weather was not favourable since the submission of the second forecast. The outturn is anticipated to fall much below the normal owing to want of soil-moisture. Excessive rain also caused slight damage in Narail subdivision.
Khulna	1,500	700	400	67	75	.....	The decrease in area is mostly attributed to want of timely rain. The weather has been normal since October. The outturn is below the normal owing to untimely rain and floods which caused some damage in Terokhada police-station in the Sadar subdivision.
Burdwan	11,600	17,000	13,500	83	75	Will commence by the end of February next in the normal time.	The decrease in area is due to insufficient rainfall at the time of planting. The weather has been favourable since October. The crop has been slightly damaged in Asansol subdivision owing to late rain. The outturn is anticipated to fall below the normal owing to want of rain at planting time.
Birbhum	9,800	9,000	6,000	83	92	Will begin in February in the normal time.	The decrease in area is due to want of irrigation water at planting time. The weather is now favourable. The crop has improved since the submission of the second forecast.
Bankura	3,100	3,000	2,100	83	83	Not yet commenced ...	The decrease in area is due to scarcity of rain at the time of the planting. The character of the weather is now favourable. The outturn is anticipated to fall below the normal owing to unfavourable weather at planting time.
Midnapore	6,600	5,700	6,400	75	58	End of December. Normal.	The increase in area is due to extended cultivation on account of high price of *gur*. The weather and its effects on the growth of crop were not favourable. The outturn is much below the normal owing to want of irrigation and to destruction of some plants by white ants.
Hooghly	8,200	3,700	3,500	67	75	Not yet commenced ...	The decrease in area is due to want of rain at the time of planting. The outturn is anticipated to fall below the normal owing to unfavourable weather condition at the beginning. Injury to the extent of eight annas was done in Arambagh by drought at the beginning.
Howrah	5,200	3,900	3,800	47	48	Ditto ...	The decrease in area was due to want of timely rain. The outturn is much below the normal owing to damage caused by drought.
Rajshahi	7,500	5,500	6,000	83	100	December. Normal ...	The increase in area is due to extensive cultivation in the Naogaon subdivision owing to good market. The weather was favourable.
Dinajpur ...	29,500	29,200	29,500	68	80	By the end of November. Normal.	The increase of area is due to high price of molasses. The weather was favourable since October. The outturn is below the normal owing to unfavourable weather condition at planting time.
Jalpaiguri	6,000	5,100	5,000	92	100	October to December...	The weather and its effects on the growth of the crop were favourable.
Darjeeling	300	300	300	75	83	Second week of November. Normal.	The weather was fairly favourable.
Rangpur	11,900	21,200	21,500	100	75	First week of January. Normal.	The weather was not favourable at the planting time, but subsequently on account of sufficient rain, a fair outturn is expected.
Bogra	6,700	3,500	3,900	90	90	January. Early ...	The weather was favourable.

District	Estimated normal area under sugarcane.	Estimated area under sugarcane.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the harvesting of the crop generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year.	This year.	Last year.	This year.

	Acres.	Acres.	Acres.				
Pabna	5,600	3,500	5,000	67	83	By the end of December. Normal.	The increase in area is due to high price of sugar. The weather was favourable from October to December for the growth of the crop. The outturn is below the normal owing to flood which caused damage to the extent of two annas.
Malda	300	300	200	75	75	End of November. Normal.	The weather is favourable. The fall in outturn was due to unfavourable weather during the planting time and period of growth.
Dacca	21,100	20,000	20,100	88	80	July. Normal ...	The slight increase in area is due to high price of sugar. Prolonged drought at the sowing time retarded the growth of the crop. Subsequently sudden flood and heavy rain damaged the crop on low land.
Mymensingh ...	11,100	7,000	16,500	80	75	November-December. Normal.	The increase in area is due to increase in cultivation in certain thanas of the Kishoreganj subdivision. The weather was fairly favourable. The outturn was affected by flood.
Faridpur	7,400	6,900	6,900	89	70	.....	The weather was favourable since October. The outturn is much below the normal owing to damages caused by heavy rain and flood.
Bakarganj	18,800	29,000	29,500	75	67	August and September. Early.	The increase in area was due to high price of *gur*. The crop suffered from excessive rains and flood during the period of growth. The rains in October and November affected the crop. Some damage was also done by stem-borer.
Chittagong ...	5,300	6,000	6,000	92	83	October to February. Normal.	The weather was fair. The outturn further decreased owing to damage caused by a certain disease in the Cox's Bazar subdivision.
Tippera	6,100	6,000	4,100	99	67	In Chandpur will commence in February; late elsewhere; November early.	The decrease in area was due to want of timely rainfall. The weather was not favourable and its effect on the crop not satisfactory. The floods in July and August caused damage to the extent of four annas.
Noakhali	800	900	1,300	92	83	October. Normal ...	The increase in area was due to high prices of molasses. The weather was not favourable and some damage was done by excessive rains in the Feni subdivision.
Chittagong Hill Tracts.	1,000	1,000	1,000	100	80	End of December. Normal.	The weather was fair. Want of rain at planting time caused the outturn to fail below the normal.

GRAND TOTAL ...	1,33,924	1,28,823	1,34,883	GRAND TOTAL ...	1,33,924	1,28,823	1,34,883		

There were opening balances of Rs. 23,789, Rs. 14,609 and Rs. 21,941, respectively, at the beginning of each of these three years 1921-22, 1922-23 and 1923-24, leaving a closing balance of Rs. 25,711 at the end of the year 1923-24. If above opening balances are taken as added to the receipt of respective years leaving a closing balance of Rs. 25,711 at the end of 1923-24, it indicates the surplus rather than deficit which appears to be Rs. 1,043 as shown in column 20 of this statement.
Further by the general revision of assessment the income of the municipality has increased by about Rs. 14,000, so the financial position is secure.

In addition to the details required on the reverse clear information should be given below under the following heads :—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the borrowing body has taken or has agreed to take in order to make good the deficiency.	(*a*) The deficit shown in column 20, viz., Rs. 1,643 is not the correct indication of the financial position of the municipality for reason mentioned in column 21 of the statement. The proposed extension for which the loan is taken will derive an increase of Rs. 4,224 annually in water-rates.
(*b*) The reserve of taxation or other possible means of increase in the revenues of the local body.	(*b*) As mentioned in (*a*).
(*c*) A statement of all outstanding loans as well as the annual charges involved on their account.	(*c*) The outstanding loan is Rs. 20,765-13-9. The annual charges are Rs. 2,924-7-4 including interest paid in two equal instalments regularly.
	(*d*) In the year 1931 the outstanding loan mentioned above will be paid off, and the surplus balance of the water-supply fund will be sufficient in repaying the above loan as also the new loan by equal half-yearly instalments and the general expenditure will not be interfered with.

Secretary to the Government of Bengal.

PART IA.

Orders and Notifications by the Government of India republished for general information.

FINANCE DEPARTMENT.

RESOLUTION.

Delhi, the 22nd January 1925.

No. 655-F.—The Government of India have had under consideration the best method of giving effect to the wishes of the Legislature in connection with the institution of a general economic enquiry in India. They have come to the conclusion that before any wider enquiry can usefully be inaugurated, it is necessary to collate and examine the existing material, to ascertain how it can best be supplemented and to determine what lines an economic enquiry into the resources of the country should take. They have accordingly decided, with the approval of the Secretary of State, to appoint immediately a small Committee for the purpose consisting of the following gentlemen who have consented to serve on it :—

Sir M. Visvesvaraya, K.C.I.E., D.Sc., M.I.C.E., *Chairman* ;
Rai Bahadur Pandit Hari Kishan Kaul, C.S.I., C.I.E., *Member* ; and
Mr. A. R. Burnett Hurst, B.Sc., Professor, Muir Central College, Allahabad, *Member* and *Secretary*.

2. The following are the terms of reference to the Committee :—

To examine the material at present available for framing an estimate of the economic condition of the various classes of the people of British India ; to report on its adequacy ; and to make recommendations as to the best manner in which it may be supplemented, and as to the lines on which a general economic survey should be carried out, with an estimate of the expenditure involved in giving effect to such recommendations.

ORDERED that the Resolution be published in the *Gazette of India*.

A. C. MCWATTERS,
Secretary to the Government of India.

CUSTOMS.

Delhi, the 20th January 1925.

No. 899.—In exercise of the powers conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to prohibit the bringing by sea, or by land, into British India of any copy of either of the following weekly newspapers published in Shanghai, namely the "Hind Jagawa" and the "Pardesi Sewak."

A. TOTTENHAM,
Joint Secretary to the Government of India.

ARMY DEPARTMENT.

Delhi, the 30th January 1925.

PART B.

CANTONMENTS—REGULATIONS.

No. 166.—The following draft of certain rules which it is proposed to make in exercise of the powers conferred by section 280 of the Cantonments Act, 1924 (II of 1924), is published as required by sub-section (*1*) of the said section for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 28th February 1925.

Any objection or suggestion which may be received from any person with respect to the draft before the aforesaid date will be considered by the Governor General in Council.

DRAFT RULES.

PRELIMINARY.

Rule 1.—In these rules unless there is anything repugnant in the subject or contest—

(*a*) the "Act" means the Cantonments Act, 1924;
(*b*) "depositor" means a servant on whose behalf a deposit is made under these rules;
(*c*) "interest" means the interest which is paid on a deposit in a Government Savings Bank or in the Imperial Bank of India under the rules in force for such institutions;
(*d*) "salary" includes all fixed monthly allowances by way of pay or personal allowances, paid from cantonment funds, but does not include allowances granted to meet specific expenditure such as travelling, horse, conveyance or house rent allowances, whether daily, monthly or yearly;
(*e*) "servant" means a person holding a substantive whole time appointment under a Cantonment Authority whether in receipt of a pension from public revenues or not, but does not include any servant who may be serving in a post which is pensionable from public revenues;
(*f*) "temporary servant" means a servant appointed under rule 7.

PART I.—GENERAL.

Cantonment Fund Servants.

Rule 2.—Chapters I to XI of the Fundamental Rules made by the Secretary of State in Council under section 96-B of the Government of India Act shall, so far as they are not inconsistent with these rules, be deemed to apply to all servants of a Cantonment Authority.

Rule 3.—Subject to the provisions of the Act and of the rules made thereunder, every Cantonment Authority shall determine what servants are required for the proper and efficient execution of its duties, and shall fix the salaries to be paid to such servants out of the Cantonment Fund.

Rule 4. (1)—All first appointments to service (other than menial service) under a Cantonment Authority shall be on probation, and no person shall be confirmed in his first appointment until he has satisfied the Cantonment Authority by probationary service for such period, not being less than one year, as the Cantonment Authority may determine, that he is fully qualified to hold such appointment.

(*2*) For the purposes of these rules a servant who has been confirmed in his appointment after a period of probationary service shall be deemed to have commenced his service as a servant of the Cantonment Authority from the date of his appointment on probation.

Rule 5.—(1) The Executive Officer shall appoint all servants of the Cantonment Authority whose salary on appointment will not exceed twenty-five rupees per mensem; all other servants shall be appointed by the Cantonment Authority.

(2) The Executive Officer shall—

(*a*) apportion and control and superintend the performance of the duties of,
(*b*) disburse the salaries of, and
(*c*) deal with applications for leave of absence from,

all servants of the Cantonment Authority.

(3) No person shall be appointed under this rule who has been dismissed from employment under the Government or any cantonment or local authority.

Rule 6.—(1) In the absence of a written contract to the contrary, every servant employed by a Cantonment Authority shall be entitled to three months' notice before discharge or to three months' wages in lieu thereof unless he is discharged during a period of probation, or unless he is removed or dismissed under rule 9.

(2) If a servant employed by a Cantonment Authority, in the absence of a written contract authorising him so to do, and without reasonable cause, resigns his employment or absents himself from his duties without giving one month's notice to the Cantonment Authority, he shall be liable to forfeit such sum, not exceeding one month's wages, out of the wages due to him, as the Cantonment Authority may, by general or special order, direct.

Rule 7.—When in the opinion of the President of the Board, or where there is no Board, of the Commanding Officer of the Cantonment, the employment of temporary servants is necessary, the President, or the Commanding Officer of the Cantonment, as the case may be, shall appoint such temporary servants on such conditions as may be considered necessary :

Provided that—

(*a*) the President of the Board in exercise of such power shall not act in contravention of an order of the Board prohibiting the employment of temporary servants for any particular work, and

(*b*) every appointment under this rule shall be reported in writing by the President of the Board at the next meeting of the Board following the appointment.

Rule 8.—The Officer Commanding-in-Chief the Command may, if in his opinion the number of servants employed or proposed to be employed by a Cantonment Authority or the salary assigned by the Cantonment Authority to any such servant is excessive, require the Cantonment Authority to reduce the number of such servants or the amount of such salary, as the case may be, within such time as he may fix, and the Cantonment Authority shall, subject to the provisions of sub-rule (*1*) of rule 6 and of any lawful contract between the servant and the Cantonment Authority, comply with such requisition.

Suspension, removal, dismissal, etc., of Cantonment Fund Servants.

Rule 9.—The Cantonment Authority, or the officer appointing a servant of the Cantonment Authority may, for reasons to be recorded in writing, fine, suspend, reduce, discharge, remove or dismiss such servant :

Provided that in the case of a servant who is in receipt of a monthly salary exceeding twenty-five rupees, the powers conferred by this rule shall be exercised only by the Cantonment Authority :

Provided further that—

(*i*) no fine shall be imposed upon any servant other than a menial servant and in no case shall a fine exceed one week's salary of the servant fined ;

(*ii*) no servant shall be removed or dismissed otherwise than on proof of dishonesty or of repeated neglect or disobedience of orders, or of continued inefficiency or of any other circumstances by reason of which the officer or authority concerned is of opinion that his retention in service would be detrimental to the efficient administration of the cantonment ;

(*iii*) a list of all punishments inflicted under this rule by the Executive Officer shall be submitted monthly to the Cantonment Authority.

Rule 10.—Before a servant of the Cantonment Authority, other than a menial servant, is reduced, removed or dismissed the charge against him, his defence and the order thereon shall be committed to writing ; he shall be allowed an opportunity of cross-examining witnesses against him and of producing witnesses in his own behalf. If reduced, removed or dismissed, he shall be furnished with a copy of the document showing the grounds on which his reduction, removal or dismissal was ordered. In the event of the reduced, removed or dismissed servant appealing, these documents, together with his character roll or service book, if any, shall be forwarded with the memorandum of appeal.

Rule 11.—Any servant who has been reduced, removed or dismissed by the Executive Officer shall, within 30 days from the date of the order of reduction, removal or dismissal, be entitled to appeal to the Cantonment Authority, and the decision of the Cantonment Authority shall be final.

Rule 12.—Any servant who has been reduced, removed or dismissed by the Cantonment Authority shall, within 30 days from the date of the order of reduction, removal or dismissal, be entitled to appeal to the Officer Commanding the district, whose decision shall be final.

Gratuity on retirement.

Rule 13. (1) If a servant of a Cantonment Authority is not a Government official, and is not eligible to subscribe to the Cantonment Provident Fund, the Cantonment

Authority may grant him a gratuity but no pension on retirement. The amount of such gratuity shall not exceed the sum which would be payable if the service, in respect of which it is paid, had been service under Government.

(2) In this rule "Government" shall mean the Government of India or any local Government.

Service Books.

Rule 14.—A service book shall be kept for every servant of the Cantonment Authority whose salary is Rs. 20 a month or over, and shall be maintained in the form prescribed in the Civil Service Regulations.

Rule 15.—The service book shall be supplied to every such servant at his own cost on his first appointment. It shall be kept in the custody of the Executive Officer and may be given up to the servant if he resigns or is discharged without fault, an entry being first made therein to this effect.

Rule 16.—(1) Full details of the service, pay, leave, periods of suspension from employment or other interruptions in service and references to any records, specially to any good or bad services shall, as occasion arises, be entered in the service book by the Executive Officer.

(2) The Executive Officer shall see that all entries in the service book are duly made and attested. There shall be no erasure or over-writing, all corrections being neatly made and properly attested.

Rule 17.—It shall be the duty of every servant of the Cantonment Authority to see that his service book is properly kept up, and that the entries on the first page are attested annually.

Termination of service.

Rule 18.—No servant shall be retained in the service of the Cantonment Authority after he attains the age of 60 years, except for special reasons to be recorded in writing by the Cantonment Authority; and no extension of service for more than one year at a time shall be allowed in the case of any servant whose age is 55 years or over.

Security to be furnished by certain servants of Cantonment Authority.

Rule 19.—(1) The Executive Officer shall require every servant of the Cantonment Authority who is entrusted with the receipt, custody or control of moneys or securities for money, to furnish security for the due discharge of his office, of a value equivalent to the aggregate value of the maximum amount of moneys or securities for money which the servant concerned is ordinarily likely to have in his hands at any one time.

(2) No security shall be accepted other than a deposit of—

(*a*) cash, or
(*b*) Government securities, or
(*c*) shares in the Imperial Bank of India, or
(*d*) debentures or other securities for money issued by or on behalf of a local authority.

Explanation.—For the purposes of clause (*a*), "cash" shall be deemed to include a Savings Bank deposit if pledged to the President of the Cantonment Board, or where there is no Board, to the Commanding Officer of the Cantonment.

(3) The securities, shares, and debentures referred to in clauses (*b*), (*c*) and (*d*) of sub-rule (*2*) shall be accepted at their market value at the time of deposit.

Rule 20.—Every servant, to whom rule 19 applies, shall execute a bond in the appropriate form included in schedule I to these rules. Such security bonds shall be kept in the same custody as the other valuables belonging to the Board.

Rule 21.—The Executive Officer shall on or about the first day of January in each year, submit to the Cantonment Authority a report as to the sufficiency of the security furnished by or on behalf of its servants.

Rule 22.—The Executive Officer shall deal in the manner prescribed in the Government Securities Manual with all monies and securities deposited as security by or on behalf of servants of the Cantonment Authority.

Rule 23.—Any servant failing to furnish the security required by these rules for more than one month after he has been called on to do so, shall be liable to forfeit his appointment.

Rule 24.—Deposits given as security shall not be claimable till after the lapse of 6 months from the date on which the depositor leaves the service of the Cantonment Authority.

Casual Leave.

Rule 25.—No servant shall be entitled as of right to casual leave, and such leave shall not be granted to any such servant, save in exceptional circumstances at the discretion of the Executive Officer, for more than 10 days in any one year.

Travelling Allowance.

Rule 26.—A Cantonment Authority may fix the rate of travelling allowance to be drawn by its servants ; such rate shall not exceed the rate for the time being admissible to Government servants of the corresponding class employed under the local Government of the Province in which the Cantonment is situate.

Pension.

Rule 27.—Save in the case of a servant who is a Government official, service paid for from the cantonment fund shall not qualify for pension.

PART II.—PROVIDENT FUNDS.

Establishment of Fund.

Rule 28.—The Cantonment Authority shall establish and maintain a Provident Fund for the benefit of its servants.

Rate and realisation of subscription.

Rule 29.—Every servant employed by a Cantonment Authority and appointed or promoted on or after the date of the commencement of these rules to an office of which the salary is not less than Rs. 20 per mensem, shall be required to subscribe at the rate of 6¼ per cent. or one anna in the rupee, on his salary, to the Provident Fund. Subscriptions shall be recovered by the Cantonment Authority by deduction from every salary bill presented, and shall be credited at once to the fund. In making such deductions fractions of a rupee of salary shall be omitted.

Rule 30.—All servants employed by a Cantonment Authority under the Cantonments Act, 1910, who were subscribers to a Provident Fund maintained by the Cantonment Authority, and who are continued in the employment of the Cantonment Authority under the Cantonments Act, 1924, shall be continued as subscribers to the Provident Fund established under these rules and the amount at the credit of every such servant shall be brought forward in the accounts maintained under these rules.

Rule 31.—At the time of making his first deposit a depositor shall be required to furnish a written declaration in the form included in schedule II particularising the person or persons by whom he is desirous that the whole or any portion of his deposit shall be received in the event of his death. Such declaration shall, whenever possible, be in the handwriting of the depositor and shall be signed by him. The declaration shall be attested by two witnesses. The depositor shall be empowered to revise, or revoke any declaration at any time and from time to time. A fresh declaration shall become operative only on being received by the Executive Officer. All declarations for the time being in force shall be carefully recorded by a responsible officer.

Contribution by the Cantonment Authority to deposit account of each servant.

Rule 32.—(1) The Cantonment Authority shall make a contribution to the deposit account of each depositor, equal to, but not exceeding, one half of the amount of the deduction made from his salary under rule 29. Such contribution shall be credited to the Provident Fund, month by month, in favour of such servant, together with the deduction from his salary. The contribution shall be charged in the cantonment accounts to Head H—Contributions for General Purposes.

(2) In addition to the contribution made under sub-rule (1), the Cantonment Authority may, if it deems fit, make further contributions, hereinafter called bonuses, to be credited to the Provident Fund in favour of any servant as follows :—

After	10	years	approved	service,	2	months'	pay.
„	15	„	„	„	3	„	„
„	20	„	„	„	3	„	„
„	25	„	„	„	4	„	„
„	30	„	„	„	4	„	„

Such bonuses are cumulative, that is, a servant who has received a bonus after serving 10 years may, after serving 5 more years, receive a second bonus and so on. Approved service may be reckoned as from the date of commencement of service, but no application for a bonus shall be considered unless it is preferred within six months from the date at which the depositor becomes eligible for a bonus.

(3) For the purpose of sub-rule (2). "Pay' means the pay of the depositor on the date on which he becomes eligible for a bonus.

(4) No contribution shall be made by the Cantonment Authority on the subscription paid by the depositor for any period during which he has been on suspension as a penalty for misconduct.

Investment.

Rule 33.—All subscriptions and contributions under these rules shall be credited into the Provident Fund and paid into the Imperial Bank of India (Savings Bank) or in the Post Office Savings Bank, as the case may be, between the 1st and 4th of the month on which they become due. Such other money as may subsequently become due in any month shall be credited to the Provident Fund and paid into the Imperial Bank or the Post Office Savings Bank as quickly as possible in order that interest may accrue.

These deposits may be invested in Government Securities in accordance with Rule 46 of the "Rules for the guidance of depositors in the Post Office Savings Bank." The deposit may also be invested in Government of India loans.

Withdrawal on retirement or death.

Rule 34.—The deposits and contributions, with interest thereon, at the credit of any servant, shall be withdrawn from the Provident Fund :—

(1) On the decease of the depositor, when the amount with interest up to the date of withdrawal shall be divided among the beneficiaries in accordance with the directions contained in the declaration form ;

(2) On his ceasing to be a servant of the Cantonment Authority either by resignation or by transfer to Government service when the amount will be paid to him ;

(3) On his transfer to the employment of another Cantonment Authority, when the amount may, at the option of the depositor, either be paid to the depositor or transferred by money order to the Cantonment Authority to which he transfers, for credit into his account in the Provident Fund of that cantonment.

Advance for special purposes.

Rule 35.—(1) No withdrawal of the amount at the credit of a depositor in the Provident Fund shall be allowed except as provided in the rule 34 ; provided that when the pecuniary circumstances of a subscriber are such that in the opinion of the Cantonment Authority the indulgence is absolutely necessary, a temporary advance, not ordinarily exceeding three months' pay, may be allowed from the sum at his credit.

(2) The following are instances of the objects for which such advances may legitimately be allowed :—

(*a*) to pay expenses incurred in connection with the illness of a subscriber or of a member of his family ;

(*b*) to pay for the passage of any member of a subscriber's family, coming from beyond the sea to join him or requiring to make a journey beyond the sea ;

(*c*) to pay expenses in connection with marriages, funerals, or ceremonies which by the religion of the subscriber it is incumbent upon him to perform, and in connection with which it is obligatory that expenditure should be incurred ;

(*d*) to build a house for occupation by the subscriber himself at the place where he is actually serving or at which he is permitted to reside while in active service.

(3) Advances are not confined rigidly to the objects set forth in sub-rule (2) but shall be made with due regard to the requirement contained in the proviso to sub-rule (1) as illustrated by the examples set forth in sub-rule (2).

Rule 36.—The order sanctioning the advance shall state the specific purpose for which the advance is granted. Where this purpose is of a confidential nature, it may be communicated to the audit officer personally and confidentially.

(2) When an advance has been granted to a subscriber, subsequent advances shall not be granted to him except for strong reasons to be recorded in writing by the Cantonment Authority until at least twelve months have elapsed since the complete repayment of the last advance taken.

Rule 37.—(1) Advances will be recovered at the discretion of the Cantonment Authority, in not less than twelve instalments or more than twenty-four. A subscriber may, however, at his option make repayment in less than twelve instalments or may repay two or more instalments at the same time.

(2) In determining the advance to be sanctioned, due regard shall be paid to the amount of subscriptions lying to the credit of the applicant. The amount of the advance shall be a sum expressed in whole rupees and ordinarily, the monthly instalments shall also be in whole rupees, the advance applied for being raised or reduced, if necessary, to enable instalments to be thus fixed.

(3) Recoveries shall be made monthly, commencing from the first payment of a full month's salary after the advance is granted, but no recovery shall be made from a subscriber while he is on leave of any kind other than casual leave.

(4) When in accordance with rule 36 two or more advances are made, each advance shall be treated separately, and the monthly deduction of not less than one twenty-fourth of each advance shall be made until that advance is cleared.

(5) The instalments shall be paid by compulsory deductions from salary, and shall be in addition to the usual subscription.

Rule 38.—When an advance is repaid, as regards principal, in not more than twelve instalments, a 13th instalment representing interest, and equivalent to 4 per cent. of the amount of the advance, shall be paid in the month following that in which the last instalment is paid. Similarly, an additional instalment equivalent to 8 per cent. of the total amount of the advance shall be paid when the advance is repaid in more than twelve instalments. In calculating such additional instalments a fraction of a rupee, if it exceeds eight annas, shall be taken at the next higher whole rupee, and if it does not exceed eight annas shall be ignored.

Rule 39.—The sum at the credit of a depositor shall not be liable to forfeiture on dismissal or on conviction by a Criminal Court, except for an offence for which the penalty of forfeiture of the whole of the offender's property is prescribed by law.

Rule 40.—If any payment has to be made during the year on an individual deposit account under rule 34 interest shall be calculated on that account only as nearly as possible in accordance with the rules in force in the Imperial Bank or Post Office Savings Bank.

Rule 41.—A copy of the account of each depositor shall be furnished to him as soon as possible after the close of the financial year to which the account relates, and not later than the fifteenth day of the following month, or at the time of payment in the case of accounts closed in accordance with rule 34.

Prohibition of voluntary deposits.

Rule 42.—No deposits from servants other than those authorized by these rules shall be credited to the Provident Fund.

Subscription during leave.

Rule 43.—Servants shall not be permitted to subscribe to the Provident Fund while absent on leave other than leave on full average salary. They may at their option subscribe while absent on leave on full average salary.

Rule 44.—(1) A servant who desires to subscribe during such leave shall notify his intention in advance in order to allow of the deductions from his leave allowances being noted in his leave and pay certificate. A servant who has notified such intention shall not be permitted to discontinue subscribing during leave.

(2) A servant who fails to notify his intention to continue to subscribe when proceeding on leave, may therefore be allowed to pay his subscription in cash.

Dead Accounts.

Rule 45.—On a depositor leaving the service his account shall be closed, and unless the amount at his credit be withdrawn, in the case of balances not exceeding Rs. 10, within one year and in the case of balances exceeding Rs. 10, within three years, it shall be written off as a dead account, and not repaid save under the orders of the Officer Commanding-in-Chief, the Command.

Rule 46.—The Cantonment authority may withdraw from the Post Office Savings Bank all moneys lying in deposit on or after the date of the commencement of these rules on account of the Provident Fund, and deposit them in the Imperial Bank of India (Savings Bank).

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below, to the undermentioned estates situated in the district of Howrah, will be put up to sale at the Howrah Collectorate on Thursday, the 26th March 1925, corresponding with 12th Chaitra 1331 B. S.

The purchasers will be subject to the following conditions of sale :—

Conditions of sale.

1st.—The estate to be sold to the highest bidder revenue-free above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force : and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase money exceeds Rs 100 one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—A portion of the land along the river side has been partly eroded by the action of the river :—

SUIT No. 1023 of 1922.

In the High Court of Judicature at Fort William in Bengal.

ORDINARY ORIGINAL CIVIL JURISDICTION.

Fernand Goldberg *versus* Bepin Behari Sadhukhan.

Sheriff's Sale Proclamation.

TO be peremptorily sold pursuant to an order of the High Court of Judicature at Fort William in Bengal in its Ordinary Original Civil Jurisdiction made in the above suit and dated the 4th day of August 1924 in execution of the decree made in the said suit and dated the 20th day of June 1923 by the Sheriff of Calcutta in his sale room in the Court house by public auction on Friday the 6th day of March 1925 at 12 o'clock noon the following property belonging to Bepin Behari Sadhukhan of 119, Hurogunj Road, Sulkea, in the district of Howrah, the defendant in the above suit.

1. All that undivided one-fifth share in the three storied brick built tenement and premises No. 3, Fancy Lane together with land about 5 cottahs 3 chittaks 15 square feet on part of which the same is erected and built in the south division of the town of Calcutta being holding No. 2, Block No. 21 and bounded on the north partly by a lane and partly by a godown belonging to the estate of Motilal Seal and partly by a house of Mr. Mulchas, on the south by No. 2, Fancy Lane, on the east by a house belonging to the estate of Motilal Seal and on the west by Fancy Lane. The Government revenue payable to the Calcutta Collectorate in respect of this property is Rs. 8-14-4.

2. One Cabriollette body Renault motor car (no number) lying at No. 75, Park Street in Calcutta.

From a search in the Registration office from 1865 to 1924 it appears that the said first mentioned property No. 3, Fancy Lane is subject to the following encumbrances :—

1. An agreement for sale dated 5th day of October 1918 made between Bepin Behari Sadukhan of the one part and Jogendramohan Dass of No. 20, Gopo Lane, Entally in the suburbs of Calcutta of the other parts, whereby the said Bepin Behari Sadukhan the vendor agreed to sell and the purchaser the said Jogendramohan Das agreed to purchase the undivided ¼th share of the said Bepin Behari Sadukhan in the premises No. 3, Fancy Lane, Calcutta, for the sum of Rs. 19,000 and the said Bepin Behari Sadhukhan acknowledged the receipt of Rs. 6,000 being part of the said sum of Rs. 19,000 from Jogendramohan Das and it was further agreed that the said sum of Rs. 6,000 would bear interest at the rate of 12 per cent. per annum in case the sale did not take place and that the same would remain as a charge on the said property until repayment.

2. A lease dated the 4th day of December 1923 and made between Debendranath Sadhukhan the lessor of the one part and Spences Hotel Limited the lessee of the other part whereby the said premises No. 3, Fancy Lane was leased unto and to the use of the said Spences Hotel Limited for a period of 10 years commencing from the 1st April 1922 on a rent of Rs. 1,000 per month.

3. A security bond by way of mortgage written in Bengalee language dated the 9th day of February 1900 whereby one Jnanendranath Dutt one of the legal representatives of one Bholanath Dutt deceased mortgaged his share in the properties described in the schedule thereto including the said property No. 3, Fancy Lane for payment of any amount up to Rs. 23,000 to one Promoda Prosanna Mukherjee, son of one Saroda Prosanna Mukherjee deceased of Gobardanga in order to secure the said Promoda Prosanna Mukherjee against any liability which the said Promoda Prosanna Mukherjee might have to incur under a security bond in favour of the Registrar, Original Side, High Court, executed by the said Jnanendranath Dutt and the said Promoda Prosanna Mukherjee in pursuance of an order made in suit No. 197 of 1893 (Rakshakali Dasee *versus* Dhirendranath Dutt and others) and dated the 16th day of December 1899.

The amount for the recovery of which the sale has been ordered is Rs. 20,860 with interest at 6 per cent. per annum from the date of the said decree namely the 20th day of June 1923 until realisation and costs of execution.

The conditions of sale may be seen at the office of the Sheriff of Calcutta or at the office of Babu Charu Chandra Mitra, Attorney for the plaintiff at No. 5, Hastings Street, Calcutta, any day before the sale and will be produced at the sale.

CHARU CHANDRA MITRA, Attorney-at-Law and Attorney for the plaintiff.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Report on the Cotton Crops of Bengal, 1924-25.

(NOTE.—On an average of the five years ending 1922-28, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and the Tripura State, and to a small extent also in other districts. The "late" crop is chiefly grown in Bankura and Midnapore.

Character of the season.—As reported in the previous forecasts, the weather was not generally favourable during the early stage owing to unequal distribution of rainfall. Subsequent conditions, however, proved satisfactory, and a good outturn has been reaped except in the Tripura State, and in some less important districts, where excessive rain during the time of flowering caused some damage.

Area sown.—The total area sown with early cotton is returned at 75,575 acres and that with late at 1,207 acres, against 69,601 and 1,437 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 23,506 bales and the late crop at 330 bales, against 21,128 and 326 bales, respectively, in the corresponding forecast of last year.

Director of Agriculture, Bengal (offg.).

(d) For Nadia and Murshidabad.

(1) The weather was favourable at the time of sowing but was not so during the time of flowering. The date of harvesting was normal.
(2) The condition of the crops was not so good as to reach the normal outturn. The decrease in area compared with the third forecast is due to revision of estimates.
(3) The weather was favourable. The increase in area is due to increased cultivation of the crop in thanas Fulbaria and Baluka. The date of harvesting is normal.
(4) The weather was favourable.
(5) Excessive rain in November damaged the crop to a certain extent. The date of harvesting was normal.
(6) The weather was not generally favourable. In Rajshahi the crop was totally destroyed by heavy rain, and in Malda the outturn is expected to be poor owing to damage caused by excessive rain.

NOTIFICATIONS.

The 6th February 1925.

No. F. 35-C.S.R.—25.—In exercise of the powers conferred by Regulation 15 in Schedule IV to the Superior Civil Services (Revision of Pay and Pension) Rules, 1924, the Governor General in Council is pleased to make the following supplementary regulations to govern the drawing of benefits under those rules from the General Passage Fund :—

PART I.—PASSAGES BY SEA.

(1) Every application by an officer for a passage by sea shall be made to the audit officer by whom his pay is audited ; provided that if the officer is in Europe the application shall be made to the High Commissioner for India. If the application is made to the High Commissioner, the officer must present with his application a certificate from the audit officer stating the amount in the General Passage Fund at the credit of each person for whom a passage is to be taken.

(2) The application shall specify the persons for whom it is desired to secure passages. If the audit officer or the High Commissioner, as the case may be, is satisfied that any benefit is admissible under the rules, he will furnish to the applicant a certificate stating the maximum cost of the passage which may be engaged for each such person at the charge of the General Passage Fund.

(3) When the officer engages the passage or passages he will present to the steamship company the certificate and on receiving the ticket or tickets will give the Company a receipt in the form prescribed showing the accommodation engaged, the persons for whom engaged and the cost. If the cost of any ticket should exceed the amount entered in the certificate, the difference must be paid by the officer himself.

Note 1.—Although the benefits admissible from the General Passage Fund are stated in terms of the cost of passages by P. & O., an officer is free to choose the line of steamers by which he will travel.

Note 2.—Nothing in the wording of the supplementary regulations is intended to restrict the employment of agents in booking passages or in other transactions with the steamship companies.

(4) If for any reason the officer, after obtaining the certificate but before presenting it to the steamship company, finds that he does not desire to use it, he should return without delay to the audit officer or the High Commissioner, as the case may be.

(5) If the officer, after presenting the certificate to the steamship company, cancels the passages which he has engaged, he should at once inform the audit officer or the High Commissioner, as the case may be, that he has done so; he should also take steps to obtain back the certificate from the steamship company and return it to the audit officer or High Commissioner.

(6) If the officer cancels a passage which he has engaged he is himself responsible for taking such action as may be necessary to prevent the forfeiture of any sums which may have been paid to the steamship company on his behalf by Government. If, however, the audit officer or the High Commissioner, as the case may be, makes any payment to the steamship company in advance, by way of deposit or otherwise, he will at once intimate to the officer the fact of his having done so. Otherwise, the audit officer or the High Commissioner, as the case may be, is responsible only for checking the admissibility of the claim and for making payment to the steamship company of the cost of the passage.

PART II.—JOURNEY BY LAND.

(1) Every application by an officer for the benefit permissible under Regulation 8, shall be made to the High Commissioner for India. As an exception to this general rule, if the officer obtains from the steamship company in India a through ticket covering the overland journey he may make his claim to the audit officer in India for the whole journey including the cost of the journey by land.

(2) No claim is admissible in respect of a railway journey performed in India or in the country of destination, provided that a person travelling on a through ticket to or from London may make a claim in respect of the journey between London and the Channel port.

(3) The amount payable in respect of a journey by land shall in no case exceed the cost of an ordinary first class railway fare by a direct route.

(4) The application shall specify the persons for whom the benefit is claimed and shall state the facts of the claim in sufficient detail to enable the High Commissioner to satisfy himself that the prescribed conditions are fulfilled. The officer shall be bound to furnish such further information as the High Commissioner may require for this purpose.

(5) In the case of a journey from India the claim should be accompanied by—

(*a*) a declaration signed by the officer that the land journey was actually performed by the persons on whose behalf the claim is made; and

(*b*) a certificate, which the officer should obtain from his audit officer in India, showing the amount to which he is entitled in respect of the journey from India and the cost of the passage actually engaged.

Note.—If an officer intends to present a claim to the High Commissioner under this regulation he should in his own interests take steps to obtain the certificate referred in clause (*b*) before he leaves India.

(6) In the case of a journey to India the officer shall submit to the High Commissioner a declaration stating the route by which he, or the person on whose behalf he makes the claim, intends to travel.

PART III.—GENERAL.

In urgent or special cases the Governor General in Council may sanction such modification of the procedure prescribed in these regulations as he may deem to be necessary.

The 28th January 1925.

No. F.-154-U. S. R.—24.—The following Resolution by the Secretary of State for India in Council is published for general information :—

In exercise of the powers conferred by sub-section (*2*) of section 96B of the Government of India Act, the Secretary of State for India in Council, with the concurrence of the majority of votes at a meeting of the Council held on 2nd January 1925, hereby makes, with effect from 1st January 1922, the following amendments in the Fundamental Rules, namely :—

In Rule 26, at the end of clause (*b*) and of clause (*d*) the following shall be inserted, namely :—

" Provided that the local Government shall have power, in any case where they are satisfied that the leave was taken on account of illness or for any other cause beyond the Government servant's control, to direct that extraordinary leave shall be counted for increments under this clause."

Secretary, Council of Post-Graduate Teaching in Arts.

SENATE HOUSE, *the 9th February 1925.*

CALCUTTA UNIVERSITY.

NOTIFICATION No. Misc. N. 118.

THE following changes in Chapter XI of the Regulations, sanctioned by the Government of Bengal, are notified for general information :—

I. *Section 12, Chapter XI*, as modified, stands thus :—

The Board of Higher Studies in each subject shall, for purposes of Post-graduate teaching and Post-graduate examination, make proposals regarding—

(*a*) courses of study ;
(*b*) text-books or recommended books ;
(*c*) standards and conduct of examinations ;
(*d*) teaching requirements from year to year and preparation of the time-table ;
(*e*) distribution of work among the members of the staff in that department ;
(*f*) appointment of Examiners ; and
(*g*) such other matters as may, from time to time, be specified by the Council with the approval of the Senate.

Proceedings of the Boards of Higher Studies shall be subject to confirmation, revision or modification by the Executive Committee which shall also have the power to send such proceedings back to the Board of Higher Studies for further consideration.

Proceedings of the Executive Committee, except as otherwise provided for, shall be subject to confirmation, revision or modification by the Council which shall also have the power to send such proceedings back to the Executive Committee for further consideration.

Proceedings of the Council shall be transmitted to the Senate through the Syndicate with such observations, if any, as the Syndicate may deem necessary, and shall be subject to confirmation by the Senate.

The Council shall report on any subject that may be referred to it by the Senate. Any member, or any number of members, of the Senate may make any recommendation and may propose any regulations for the consideration of the Council. The Senate may, if necessary, direct the Council to review its decision on any matter.

II. *Section 13* of the same Chapter, as modified, reads thus :—

13. Each Board of Higher Studies shall, not less than six months before the termination of the academic session, formulate the requirements of its special department during the ensuing session, together with an estimate of the probable financial cost. The Executive Committee, shall thereupon scrutinise the said requirements and elect a Committee called Budget Committee, consisting of the President and three members of the Executive Committee who shall in consultation with the University Board of Accounts prepare a consolidated budget. The budget shall then be placed before the Council for such observations as it may make. The budget, thereafter, should be forwarded to the University Board of Accounts to be laid with their comments thereupon before the Senate.

III. *Section 22* of the same chapter, as modified, stands thus :—

The Board of Higher Studies in each subject shall, for purposes of Post-graduate teaching and Post-graduate examination, make proposals regarding :—

(*a*) courses of study ;
(*b*) text-books or recommended books ;
(*c*) standards and conduct of examinations ;
(*d*) teaching requirements from year to year and preparation of the time-table ;
(*e*) distribution of work among the members of the staff in that department ;
(*f*) appointment of examiners ; and
(*g*) such other matters as may, from time to time, be specified by the Council with the approval of the Senate.

Proceedings of the Boards of Higher Studies shall be subject to confirmation, revision or modification by the Executive Committee which shall also have the power to send such proceedings back to the Boa d of Higher Studies for further consideration.

Proceedings of the Executive Committee, except as otherwise provided for, shall be subject to confirmation, revision or modification by the Council which shall also have the power to send such proceedings back to the Executive Committee for further consideration.

Proceedings of the Council shall be transmitted to the Senate through the Syndicate with such observations, if any, as the Syndi ate may deem necessary, and shall be subject to confirmation by the Senate.

The Council shall report on any subject that may be referred to it by the Senate. Any member, or any number of members, of the Senate may make any recommendation and may propose any regulations for the consideration of the Council. The Senate may, if necessary, direct the Council to review its decision on any matter.

IV. *Section 23* has been substituted by the following :—

23. Each Board of Higher Studies shall, not less than six months before the termination of the academic session, formulate the requirements of its special department, during the ensuing session, together with an estimate of the probable financial cost. The Executive Committee shall thereupon scrutinise the said requirements and elect a Committee called the Budget Committee consisting of the President and three members of the Executive Committee, who shall in consulation with the University Board of Accounts prepare a consolidated budget. The budget shall then be placed before the Council for such observations as it may make. The budget, thereafter, should be forwarded to the University Board of Accounts to be laid with their comments thereupon before the Senate.

V. The following section has been added after section 23 of the Chapter :—

APPOINTMENTS BOARD.

23A. All questions relating to appointments, tenure, pay, terms and conditions of service regarding the teaching staff under Chapter XI shall be referred by the Executive Committee of the Post-graduate Council concerned to an Appointments Board which shall hold office till 30th June 1926, or for such short period, after that date, as the Senate may think necessary. The Appointments Board shall be constituted as follows :—

(1) Vice-Chancellor, President, *ex officio ;*
(2) President of the Council concerned, *i.e.*, the President of the Post-graduate Council in Arts in the case of an appointment in Arts Department and the President of the Post-graduate Council in Science in the case of an appointment in the Science Department ;
(3) Chairman of one of the Boards mentioned in sections 8 and 18 in case of an appointment relating to that particular Board ;
(4) One representative of the Board of Higher Studies concerned ;
(5) and (6) Two representatives of the Executive Committee concerned ;
(7) One representative of the Faculty of Arts in the case of an appointment in the Arts Department and one representative of the Faculty of Science in the case of an appointment in the Science Department ;
(8) and (9) Two representatives of the Syndicate one of whom shall be the head of or a Professor in an affiliated College ;
(10) and (11) Two representatives of the Senate one of whom shall be the head of or a Professor in an affiliated College ;
Provided that the two representatives of affiliated Colleges, mentioned in the above two clauses, shall not be members of the staff of one and the same College ;
(12) President of the Board of Accounts.

The quorum for a meeting of the Appointments Board shall be fixed at 8.

The Appointments Board shall, whenever possible, co-opt not more than two members, not being members of the Senate and not in receipt of any salary from the University, on the ground of their special knowledge of, or interest in, the subject or subjects in which appointments shall be made by the said Board. The function of such members shall be to give advice, but they shall not vote at meetings of the said Board.

The Board of Higher Studies concerned shall recommend not more than two names for each of the appointments under the Board, as sanctioned by the Senate, to the Executive Committee of the Post-graduate Council in Arts or Science, as the case may be, who shall thereupon consider such proposal and forward the name or names to the Appointments Board with its observations, if any :

Provided always that the Executive Committee shall have the right to propose one additional name for each appointment if it deems necessary.

The final selection shall then be made by the Appointments Board whose choice shall not be limited by the recommendation or recommendations of the Board of Higher Studies or Executive Committee, but it shall be subject to confirmation by the Senate, which shall have the power to send back the name or names proposed to the Appointments Board for review.

In case any Board of Higher Studies desires the creation of a new post not sanctioned by the Senate or not provided for in the budget or in the case of abolition of any post, the Board of Higher Studies concerned shall make its recommendations to the Executive Committee who shall thereupon consider such proposal in consultation with the Board of Accounts and forward its recommendation to the Senate for necessary orders. Provided always that the Executive Committee of the Post-graduate Council concerned may also recommend the creation of a new post in consultation with the Board of Higher Studies concerned.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 83 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1925), are republished :—

PART I.

Closing of Ports.

Former Notice.—No. 1 of 1924 (*This Office No. 42 of 1924*) ; hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing movable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

Examination Service.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter ports or localities at home or abroad.

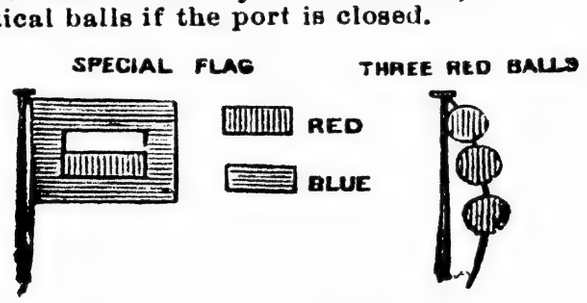
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service will probably be unknown to vessels desiring to enter the port, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any British port in the United Kingdom or abroad, serious delay and risk will be avoided if four efficient all round lanterns, two *red* and two *white*, are kept available for use.

(7) By day the distinguishing flag of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border).

Also, three red vertical balls if the port is closed.



Usually the Examination Steamers will fly the blue ensign, but in certain circumstances they may fly the white ensign.

By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the signal letters of their vessel ready to hoist immediately the Examination Steamer makes the signal: "What ship is that?"

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examining Officer :—

To lower any boat.
To communicate with the shore or with other ships.
To move the ship.
To work cables.
To allow any person or thing to leave the ship.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III.

Mine-Sweeping operations.

H. M. Vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

1. SIGNALS THAT WILL BE SHOWN BY DAY.

(*a*) By vessels working singly :

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen on that side on which it is dangerous to pass. (If a ball is shown at each yard-arm it is dangerous to pass either side.)

Vessels showing this signal should not be approached nearer than 900 yards (822^{m}9).

(*b*) By vessels working in pairs or groups :

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels should not pass within a distance of 400 yards (365^{m}8) astern of a pair or group of sweepers, or when more than one pair or group are working in company within a distance of 400 yards (365^{m}8) astern of the rear pair or group. They should on no account attempt to pass between pairs or groups working in company.

2. SIGNALS THAT WILL BE SHOWN BY NIGHT.

As for day, except that all round green lights will be used in a similar manner to and in place of the black balls.

Note.

This Notice is a repetition of Notice No. 1 of 1924. (This Office No. 42 of 1924.)

CALCUTTA, THE 6TH FEBRUARY 1925.

RESOLUTION—No. 436Medl.

READ—

The triennial report on the working of the Mental Hospitals in Bengal for the period 1921-23.

READ ALSO—

The annual returns of the mental hospitals in Bengal for the years 1921 and 1922, with the remarks recorded thereon by the Surgeon-General with the Government of Bengal.

Bengal maintains two asylums now known as Mental Hospitals—one at Berhampore and the other at Dacca; there is also an Observation Ward at

Bhowanipore and a mental ward at the Gobra Leper Asylum. The new buildings at the Observation Ward at Bhowanipore providing accommodation for 32 inmates were completed in 1923, but in the absence of funds the institution was not opened until 1924. The Superintendent of the ward was authorised to certify patients sent to the institution under section 16 of the Indian Lunacy Act (IV of 1912) from Calcutta and the 24-Parganas. The construction of an additional barrack for males now enables the Superintendent of the Dacca Mental Hospital to take in 343 instead of 319 patients. On the opening of the Indian Mental Hospital at Ranchi in July next, the entire population of the Berhampore and the Dacca hospitals will be transferred to that institution.

2. The various institutions referred to above have accommodation for 1,121 patients, viz., 924 males and 197 females. The average number of patients treated each year of the triennium was 1,215 as against 1,315 during 1918-20. The transfer of European patients from Bhowanipore and of Anglo-Indians from Berhampore to Ranchi was responsible for this decrease. The daily average number of patients during 1921-23 was 954·02, while the average annual number of admissions (including re-admissions) was 199. Out of 136 patients discharged on an average each year, 102 represents the average annual number of recoveries. The average number of criminal insanes, viz., 449·04, was less than in the previous three years.

3. The health of the patients was not on the whole very good. Malaria was prevalent and dysentery appeared in epidemic form at Berhampore where a new segregation ward had to be opened. There was a recrudescence of influenza both at Berhampore and at Dacca. The annual average number of deaths was however only 70 as compared with 102 during 1918-20.

4. The gross annual average expenditure was Rs. 3,17,925 as against Rs. 2,89,071 in the preceding three years. Excluding capital charges, the average cost of a patient per annum was Rs. 249 as against Rs. 218 in 1918-20. The average receipts from paying patients were only Rs. 6,075, while the annual profits from manufactures were estimated at Rs. 10,792.

5. Attempts were made to provide recreation for the patients. At Berhampore reading and work rooms and a club were started, and a committee of lady visitors was formed for the female section of the hospital.

6. The Government of Bengal desire finally to place on record their appreciation of the valuable work done by the officers concerned in the management and administration of the Mental Hospitals during the period under review.

By order of the Governor of Bengal,

S. W. GOODE,

Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Report on the Winter Rice Crop of Bengal, 1924-25.

(NOTE.—On an average of the five years ending 1922-23, the area under winter rice in Bengal has represented some 19·0 per cent. of the total area under rice in British India.)

Character of the season.—Since the publication of the second forecast in December last rain in late December and early January impeded harvest operations and did slight damage in some important districts of the Province, notably in Bakarganj, Dinajpur and Tippera.

Acreage.—According to District Officers' estimates, the total area under winter rice amounts to 15,589,800 acres as against 14,954,400 acres in the corresponding forecast of last year.

Outturn.—From the district returns appended it will be seen that Malda only reports more than normal crop (*i.e.*, 109 per cent.). The districts of Khulna, Burdwan, Howrah, Rajshahi, Jalpaiguri, Rangpur and Chittagong report a normal crop. Twelve districts report crop between 92 and 80 per cent. and the rest between 75 and 65 per cent.

As compared with the second forecast, the crop is a little better in the districts of Chittagong and Noakhali, while in Bankura, Dinajpur, Darjeeling, Bogra, Dacca, Bakarganj and Tippera it has fallen below the previous estimate. In the remaining districts there has been no change since the second forecast.

According to District Officers' estimate, the provincial outturn works out to 86 per cent. of the normal as against 85 per cent. last year.

Assuming 86 per cent. as the provincial outturn, the gross yield of the cleaned grain from the winter rice crop, on the basis of a normal yield of 12½ maunds per acre, amounts to 6,156,400 tons this year as against 5,836,800 tons in the corresponding forecast of the last year.

Director of Agriculture, Bengal (offg.).

Third and Final Report on the Winter Rice Crop of Bengal, 1924-25.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the harvesting generally commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1923-24).	This year (1924-25).	Last year.	This year.		
	Acres.	Acres.	Acres				
24-Parganas	840,600	743,100	709,600	83	92	End of October to end of November. Normal.	The decrease in area is due to want of timely rain and sowing of jute on lands previously sown with *aman* paddy. The weather was favourable on the whole. Untimely rain and want of rain when it was needed caused a little damage to the crop.
Nadia	136,800	154,300	150,400	50	67	Middle of December. Late.	The weather has been favourable since the submission of the second forecast. The outturn is below the normal for want of seasonable rain.
Murshidabad	351,400	344,000	279,900	58	83	Middle of November to middle of December. Normal.	The increase in area is due to favourable weather conditions and timely rainfall. The weather was favourable since the submission of the second forecast. The outturn is below the normal for want of sufficient rainfall at the latter part of the season.
Jessore	659,800	498,000	493,000	75	75	November and December. Normal.	The decrease in area is due to want of timely rain. The character of weather and its effects on the crops are fair. The outturn is below the normal owing to excessive rains which caused damage in parts of Narail and Jhenidah subdivisions.
Khulna	800,000	744,500	740,800	92	100	November. Normal	The decrease in area is due to sudden rise of water in *bâil* areas. The weather was marked with untimely rain in December and January. Some damage was caused by recent rains and insect-pests. A normal outturn has, however, been harvested.
Burdwan	731,100	683,700	755,200	75	100	End of November. Normal.	The increase in area is due to favourabe monsoon. The crop was affected in the beginning by drought, but the condition since improved. Slight damage was caused by late continuance of rain in some places in the Asansol subdivision and by storm in some places in the Kalna subdivision. A normal crop has been harvested, on the whole, this year.
Birbhum	604,700	441,300	446,100	50	52	December. Normal	The increase in area is due to better rainfall in comparison with last year. The weather was generally favourable to the growth of paddy. Rains in November, however, caused slight damage.
Bankura	644,300	595,000	550,000	75	75	Beginning of December. Normal.	The decrease in area is due to late rainfall. The weather was not favourable. Some damage was caused by rains and high wind in the middle of November. The outturn is below the normal owing to late sowing and transplanting.
Midnapore	1,537,100	1,520,000	1,450,000	83	83	November. Normal ...	The decrease in area is due to insufficient rain at the sowing time. The outturn is below the normal owing to drought in sowing time and rain just before harvesting.
Hooghly	352,100	199,400	184,400	75	88	End of November. Normal.	The decrease in area as compared with that of last year is due to unfavourable weather condition at the sowing time. The weather afterwards turned favourable. The outturn has fallen below the normal owing to unfavourable condition of the weather at the beginning.
Howrah	117,000	94,500	92,700	83	100	Middle of November. Normal.	The weather was favourable. A normal outturn has been harvested.
Rajshahi	822,700	675,000	695,500	58	100	December. Normal ...	The increase in area is due to late transplantation of certain area in the Sadar subdivision. The weather was favourable. Slight damage from insects was, however, reported from Nator. A normal outturn has been reaped this year.
Dinajpur	1,035,300	700,000	996,100	45	83	First week of December	The increase in area is due to favourable weather condition. The weather was favourable up to October. But in the second week of November there was a high wind accompanied by rains which caused some damage to the crop especially in the Thakurgaon subdivision. In the Balurghat subdivision slight damage was done to the crop by insect-pests. The outturn has fallen below the normal on the whole.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the harvesting generally commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1923-24).	This year (1924-25).	Last year.	This year.		
	Acres.	Acres.	Acres.				
Jalpaiguri	467,400	387,500	424,000	83	100	Middle of November ...	The increase in area is due to favourable weather. A normal outturn has been harvested.
Darjeeling	30,800	25,100	25,500	92	92	End of November. Normal.	The increase in area is due to timely rain. The weather was favourable.
Rangpur	692,000	435,600	580,000	68	100	November. Normal ...	The increase in area as compared with that of last year is due to favourable weather at the sowing time. The weather was favourable up to October, but the rains in the middle of November were unfavourable. Slight damage was caused to the crops on low lands owing to rains. A normal outturn has been harvested.
Bogra	361,200	267,200	331,000	49	90	2nd week of November	The weather was not favourable in November and December ; hence the low outturn.
Pabna	404,200	396,100	397,100	67	83	End of November. Normal.	The weather was favourable since the submission of the second forecast. The outturn has fallen below the normal and damage to the extent of about two annas of the crop was caused by heavy rainfall and floods.
Malda	304,000	170,000	266,000	55	109	Middle of November. Normal.	The increase in area is due to timely rainfall. The weather condition was favourable. The outturn harvested this year is more than normal.
Dacca	672,400	681,800	684,800	100	65	November. Normal	The increase in area as compared with last year is due to decrease in area under jute. The weather was unfavourable owing to untimely rainfall. Sudden flood and water-hyacinth caused damage to the crop to some extent. The outturn has fallen below the normal.
Mymensingh	1,455,800	1,327,800	1,331,800	75	75	Latter part of November. Normal.	The weather was generally fair. Flood and insect caused damage in the eastern part of the district.
Faridpur	759,900	700,200	702,000	94	80	End of October. Normal.	The increase in area is due to favourable weather at the sowing time. The growth of the crop was partly affected by rains in December. Continuous rains and excessive flood caused damage to the crop. The outturn has fallen below the normal.
Bakarganj	1,300,000	1,372,000	1,374,000	100	83	November. Normal ...	The increase in area is due to more reclamation of new *chars* and forests. The weather was very unfavourable in the latter part of December and early part of January when high rise of water in the fields on account of rains caused great damage to the crop which was very favourable. The outturn has fallen below the normal.
Chittagong	425,000	429,000	429,000	93	100	November and December. Normal.	The weather was seasonable at the sowing time. The crop was expected to be a bumper one, but it was badly affected by the heavy rains in November with the result of a damage to an extent of two annas.
Tippera	787,000	795,500	814,600	92	67	Latter part of November. Normal.	The decrease in area is due to increase in area under jute cultivation. The effects of weather were not favourable. Damage to the extent of four annas was caused by flood and insect pests. The outturn has fallen below the normal.
Noakhali	705,000	630,500	492,900	100	92	November. Normal ...	The increase in area is due to high price of rice. The character of weather was not good at Sadar but favourable at Feni.
Chittagong Hill Tracts	50,000	43,400	43,700	83	67	First week of December. Normal.	The weather condition was promising early in the season and its effect on the crop good. Damage to the extent of eight annas by floods and three annas by insects has been caused in the circle of the Mong Chief. The outturn has therefore fallen below the normal.
Total Bengal ...	17,046,300	14,954,400	15,599,800	85*	86

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 11th February 1925.

Summary.—During the week light to moderate rainfall was nearly general throughout the Presidency. Harvesting of mustard, pulses and other early spring crops and pressing of sugarcane are progressing. Transplantation of summer rice is advanced. Preparatory tillage for jute and paddy continues favourably. The standing crops are doing fairly well except in places of Cooch Behar State where hailstorm has caused considerable damage. The average price of common rice for the province has risen by about 0·83 per cent. as compared with that of the previous week.

LOCAL SELF-GOVERNMENT DEPARTMENT.

NOTIFICATIONS.

No. 340L.S.-G.—The 28th January 1925.—In exercise of the power conferred by section 5 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919) read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, and after consideration of the views of the Mymensingh District Board and the Tangail Local Board, the Governor of Bengal is pleased to direct that thanas Tangail, Bassail, Mirzapur, Nagarpur, Gopalpur, Madhupur and Sarisabari in the Tangail subdivision, in the district of Mymensingh, shall be divided into the local areas as shown in the annexed table, and that every such local area shall be declared a union for the purposes of the Act.

Mymensingh.

2. In exercise of the power conferred by sub-section (*1*) of section 6 of the said Act, read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, the Governor of Bengal is pleased to establish union boards for each of the unions hereby declared and to fix nine as the number of members of each union board.

3. In exercise of the power conferred by sub-section (*3*) of section 6 of the said Act, read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, the Governor of Bengal is pleased to direct that one-third of the members of each union board shall be appointed by the District Magistrate on the grounds that the electors are inexperienced and that such appointment is necessary for the due representation of minorities.

4. This supersedes Notification No. 2534L.S.-G., da td the 17th May 1921.

NOTIFICATION.

No. 535Medl.—The 18th February 1925.—The following draft of a notification which the Governor of Bengal proposes to issue under section 69B of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and clause (*k*) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 10th April 1925, and any objections or suggestions with regard thereto received by the undersigned before that date will be duly considered :—

Draft notification.

In exercise of the powers conferred by clause (*ii*) of section 69B of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and clause (*k*) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, the Governor of Bengal is pleased to make the following amendment in the rules for the establishment and management of hospitals and dispensaries under the supervision of the Government of Bengal, published under Government notification No. 138T.—Medl., dated the 7th June 1915, as subsequently amended, namely :—

To rule 22 *add* the following sub-rule :—

"(*4*) Notwithstanding anything contained in sub-rules (*1*), (*2*) and (*3*) any member of a committee appointed under rule 20, who being a regular contributor to the dispensary fund, allows, after having been served with a notice in this respect, any subscription due from him to remain in arrears for more than six months, shall be deemed thereby to have vacated his seat as a member of such committee, and the Commissioner of the Division may thereupon take steps for filling the vacancy in accordance with the provisions of rule 20. The defaulting member shall be debarred from re-appointment as a member of such committee, until he has first paid up all arrears of subscription due from him."

S. W. GOODE,

Secretary to the Government of Bengal.

PUBLIC HEALTH.

No. 362P.H.—The 23rd February 1925.—Under rule 7 of the Local Authorities Loan Rules, 1915, as subsequently amended, read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, it is hereby notified for general information that the Governor of Bengal intends to sanction the following application from the Chairman of the Jessore Municipality for a loan of Rs. 10,000 from Government, bearing interest at the rate of seven per cent. per annum, and repayable in twenty equal yearly instalments of Rs. 943-14-11 each, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said municipality. **Jessore.**

In addition to the details required on the reverse, clear information should be given under the following heads :—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.

Revenue of the municipality has been increased by a sum of Rs. 5,114 in the year 1923-24 by the general revision of assessment which is sufficient to meet the charges.

(*b*) The reserve of taxation or other possible means of increase in the revenues of the municipality.

Levy of rate on shops which store petroleum varying from 5 to 500 gallons and the assessment on holdings now being constructed and the water rate which is not levied at the maximum rate.

(*c*) A statement of outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.

Additional Statement.

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken in order to make good the deficiency.	By levying water-rate at 6 per cent. on the annual value of holdings a sum of Rs. 17,000 or more is expected, of which Rs. 12,000 or so will be required for the maintenance and establishment charges of the water-works. Rupees 3,608 will be spent towards repayment of loan.
(*b*) The reserve of taxation or other possible means of increase in the revenues of the municipality.	By partial revision of assessment there is expected to be an increase of Rs. 1,000 during the current year. A general revision of assessment is proposed to be undertaken this year, which will probably result in the increase of revenue by Rs. 2,000 in the next year. It is expected that revenue will increase every year as the town is growing and the number of holdings containing pucca buildings is on the increase. The value of lands is also rising.
(*c*) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.	None.
(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.

Orders and Notifications by the Government of India republished for general information.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Delhi, the 6th February 1925.

No. F.-30—25.—The following regulations made by the Secretary of State for India in Council for the probation of candidates selected for the Indian Civil Service are published for general information. They supersede the regulations published with the Home Department Notification No. F.-4—24 Establishments, dated the 21st January 1924.

Examinations of selected candidates for the Indian Civil Service.

Regulations made under section 97 of the Government of India Act for the probation in the United Kingdom and the further examination of Selected Candidates for the Indian Civil Service.

The following regulations made by the Secretary of State for India in Council are liable to alteration from year to year.

(1) Candidates selected at the open competition held in London will be required to remain in the United Kingdom on probation for one or two years as may be decided by the Secretary of State for India in Council.

(2) Candidates selected at the Open Competition held in India and candidates selected in India otherwise than by competitive examination will be required to proceed to the United Kingdom on probation for a period of two years.

ONE-YEAR PROBATIONERS.

(3) One-year probationers will, at the end of the year of probation, undergo an examination called the Final Examination. The subjects and the marks allotted to them are as follows:—

Compulsory Subjects.

		Marks.			Marks.
1.	Indian Penal Code ...	200	5.	The principal vernacular language or the substituted subject	600
2	Code of Criminal Procedure	200			
3.	The Indian Evidence Act ...	200	6.	Riding	200
4.	Indian History	400			

Optional Subjects, one only to be taken.

	Marks.		Marks.
7. Hindu and Mohammedan Law	400	8. A classical language selected from Sanskrit, Arabic, Persian, Pali	400

TWO-YEAR PROBATIONERS.

(4) Two-year probationers will, during their period of probation, undergo two examinations, the Intermediate Examination at the end of the first year and the Final Examination at the end of the second year.

(5) The subjects of the Intermediate Examination and the marks allotted to them are as follows. All the subjects are compulsory :—

	Marks.		Marks.
1. The principal vernacular language or the substituted subject	400	4. Law of Evidence and Criminal Law	200
2. Phonetics	200	5. Indian History	200
3. Jurisprudence	200	6. Notes of Cases	200
		7. Economics	200

(6) The subjects of the Final Examination and the marks allotted to them are as follows :—

Compulsory Subjects.

	Marks.		Marks.
1. The principal vernacular language or the substituted subject	600	4. The Indian Evidence Act ...	200
2. Indial Penal Code ...	200	5. Notes of Cases	400
3. Code of Criminal Procedure	200	6. Indian History	400
		7. Economics	400
		8. Riding	200

Optional subjects, one only to be taken.

	Marks.		Marks.
9. Hindu and Mohammedan Law	400	10. A classical language selected from Sanskrit, Arabic Persian, Pali	400

ONE-YEAR AND TWO-YEAR PROBATIONERS.

(7) The principal vernaculars prescribed for the various provinces are shown in the following table :—

Province.	Vernacular.	Province.	Vernacular.
Madras ...	Tamil or Telugu.	Burma ...	Burmese.
Bombay ...	Marathi.	Bihar and Orissa ...	Hindi.
Bengal ...	Bengali.	Central Provinces	Hindi.
United Provinces	Urdu.	Assam ...	Bengali.
Punjab ...	Urdu.		

(8) An Indian assigned to Madras whose mother tongue is one of the two principal vernaculars of the province must offer the other for examination. An Indian assigned elsewhere whose mother tongue is the principal vernacular language of his province must substitute in place of the principal vernacular language the following subject or subjects :—

ONE-YEAR PROBATIONERS.

British History.

TWO-YEAR PROBATIONERS.

British History at the Intermediate Examination and European History at the Final Examination.

(9) A candidate whose mother tongue is Hindi or Urdu may not offer either of these languages as the principal vernacular languages.

(10) Candidates who at the Final Examination in riding satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of any duties required of members of the Indian Civil service will be awarded marks ranging between 101 and 200 according to the degree of proficiency displayed.

Candidates who fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full

proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Local Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A candidate who fails at the end of the period of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of selected candidates.

Selected candidates will also be examined in riding at such time or times as the Commissioners may appoint during the course of the probationary period.

(11) Such deductions as the Civil Service Commissioners may consider necessary will be made from the marks assigned to candidates at the Intermediate and Final Examinations in order to secure that no credit is allowed for merely superficial knowledge.

(12) The Civil Service Commissioners will prepare lists of the candidates in order of merit; the order for the one-year probationers being based on the sum of the marks obtained by the candidates at the Open Competitive and Final Examinations, the order for the two-year probationers being based on the sum of the marks obtained by the candidates at the Intermediate and Final Examinations.

(13) The selected candidates whose performance in the compulsory subjects of the Final Examination is such as to satisfy the Civil Service Commissioners, and who have also satisfied the Commissioners of their eligibility in respect of nationality, age, health, character, and conduct during the period of probation, shall be certified by the Commissioners to be entitled to be appointed to the Indian Civil Service, provided that they shall comply with the regulations in force, at the time for that service.

(14) If any candidate is prevented by sickness or any other adequate cause from attending the Final Examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination. A selected candidate absent for such adequate cause from the Intermediate Examination may, under similar conditions be allowed to appear at the Intermediate Examination a year later or at a special examination, or may be excused the Intermediate Examination and allowed to appear for the Final Examination in regular course.

Any candidate who at the Intermediate Examination shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected candidates.

J. CRERAR,
Secretary to the Government of India.

JUDICIAL.

The 19th February 1925.

No. F.-611—24.—The following amendment to the rules fixing the salaries, allowances, furloughs retiring pensions and (where necessary) expenses for equipment and voyage of the Chief Justice and other Judges of the Indian High Courts, which were published with the notification of the Government of India in the Home Department, No. F.-70, dated the 29th December 1922, and subsequently amended, has been made by the Secretary of State in Council and is published for general information :—

For Note (2) to Rule 7 (*a*) (*ii*) the following note shall be substituted, namely :—

> "In the case of any Judge who was already in the service of the Government at the time of his appointment to the High Court, leave on half average pay or furlough without medical certificate which he had at his credit, when so appointed, under the rules applicable to the branch of the service to which he belonged, may up to a maximum of one year be treated as furlough standing at his credit for the purpose of clause (*ii*)."

H. TONKINSON,
Joint Secretary to the Government of India.

ERRATUM.

In the Home Department notification No. F. 717—22-Police, dated the 22nd May 1924, as subsequently amended,

(*a*) in the description of the peak of the forage cap for officers other than Inspectors-General, Deputy Inspectors-General and Superintendents with fifteen years' completed service and upwards, *delete* the words "to be worn with a khaki cover;" and

(*b*) immediately before the words "two covers to be provided" at the end of the description of the forage cap, *add* the words "to be worn with a khaki cover."

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[AS INTRODUCED IN THE LEGISLATIVE ASSEMBLY.]

A Bill to amend the law with respect to the carriage of goods by sea.

WHEREAS at the International Conference on Maritime Law held at Brussels in October, 1922, the delegates at the Conference, including the delegates representing His Majesty, agreed unanimously to recommend their respective Governments to adopt as the basis of a convention a draft convention for the unification of certain rules relating to bills of lading :

And whereas at a meeting held at Brussels in October, 1923, the rules contained in the said draft convention were amended by the Committee appointed by the said Conference :

And whereas provision has been made by the Carriage of Goods by Sea Act, 1924, that the said rules as so amended and as set out with modifications in the Schedule shall, subject to the provisions of that Act, have the force of law with a view to establishing the responsibilities, liabilities, rights and immunities attaching to carriers under bills of lading :

And whereas it is expedient that like provision should be made in British India ; It is hereby enacted as follows :—

Short title and extent.

1. (*1*) This Act may be called the Indian Carriage of Goods by Sea Act, 1925.

(*2*) It extends to the whole of British India.

Application of Rules.

2. Subject to the provisions of this Act, the rules set out in the Schedule (hereinafter referred to as "the Rules") shall have effect in relation to and in connection with the carriage of goods by sea in ships carrying goods from any port in British India to any other port whether in or outside British India.

Absolute warranty of seaworthiness not to be implied in contracts to which Rules apply.

3. There shall not be implied in any contract for the carriage of goods by sea to which the Rules apply any absolute undertaking by the carrier of the goods to provide a seaworthy ship.

Statement as to application of Rules to be included in bills of lading.

4. Every bill of lading, or similar document of title, issued in British India which contains or is evidence of any contract to which the Rules apply, shall contain an express statement that it is to have effect subject to the provisions of the said Rules as applied by this Act.

Modification of Article VI of Rules in relation to coasting trade.

5. Article VI of the Rules shall, in relation to the carriage of goods by sea in ships carrying goods from any port in British India to any other port in British India or Ceylon, have effect as though the said Article referred to goods of any class instead of to particular goods and as though the proviso to the second paragraph of the said Article were omitted.

Modification of Rules 4 and 5 of Article III in relation to bulk cargoes.

6. Where under the custom of any trade the weight of any bulk cargo inserted in the bill of lading is a weight ascertained or accepted by a third party other than the carrier or the shipper and the fact that the weight is so ascertained or accepted is stated in the bill of lading, then, notwithstanding anything in the Rules, the bill of lading shall not be deemed to be *prima facie* evidence against the carrier of the receipt of goods of the weight so inserted in the bill of lading, and the accuracy thereof at the time of shipment shall not be deemed to have been guaranteed by the shipper.

Saving and operation.

7. (*1*) Nothing in this Act shall affect the operation of sections four hundred and forty-six to four hundred and fifty, both inclusive, five hundred and two, and five hundred and three of the Merchant Shipping Act, 1894, as amended by any subsequent enactment or the operation of any other enactment for the time being in force limiting the liability of the owners of seagoing vessels. 57 and 58 Vict. c. 60.

(*2*) The Rules shall not by virtue of this Act apply to any contract for the carriage of goods by sea before such day, not being earlier than the first day of January, 1926, as the Governor General in Council may by notincation in the Gazette of India appoint, nor to any bill of lading or similar document of title issued, whether before or after such day as aforesaid, in pursuance of any such contract as aforesaid.

SCHEDULE.

RULES RELATING TO BILLS OF LADING.

ARTICLE I.

Definition.

In these Rules the following expressions have the meanings hereby assigned to them respectively, that is to say—

(*a*) " Carrier " includes the owner or the charterer who enters into a contract of carriage with a shipper :

(*b*) " Contract of carriage " applies only to contracts of carriage covered by a bill of lading or any similar document of title, in so far as such document relates to the carriage of goods by sea, including any bill of lading or any similar document as aforesaid issued under or pursuant to a charter-party from the moment at which such bill of lading or similar document of title regulates the relations between a carrier and a holder of the same :

(*c*) " Goods " includes goods, wares, merchandises, and articles of every kind whatsoever, except live animals and cargo which by the contract of carriage is stated as being carried on deck and is so carried :

(*d*) "Ship" means any vessel used for the carriage of goods by sea :

(*e*) "Carriage of goods" covers the period from the time when the goods are loaded on to the time when they are discharged from the ship.

ARTICLE II.

Risks.

Subject to the provisions of Article VI, under every contract of carriage of goods by sea the carrier, in relation to the loading, handling, stowage, carriage, custody, care, and discharge of such goods, shall be subject to the responsibilities and liabilities, and entitled to the rights and immunities hereinafter set forth.

ARTICLE III.

Responsibilities and Liabilities.

1. The carrier shall be bound, before and at the beginning of the voyage, to exercise due diligence to—

(*a*) Make the ship seaworthy :

(*b*) Properly man, equip and supply the ship :

(*c*) Make the holds, refrigerating and cool chambers, and all other parts of the ship in which good are carried fit and safe for their reception, carriage and preservation.

2. Subject to the provisions of Article IV, the carrier shall properly and carefully load, handle, stow, carry, keep, care for and discharge the goods carried.

3. After receiving the goods into his charge, the carrier, or the master or agent of the carrier, shall on demand of the shipper issue to the shipper a bill of lading showing among other things—

(*a*) The loading marks necessary for identification of the goods as the same are furnished in writing by the shipper before the loading of such goods starts, provided such marks are stamped or otherwise shown clearly upon the goods if uncovered, or on the cases or coverings in which such goods are contained, in such a manner as should ordinarily remain legible until the end of the voyage :

(*b*) Either the number of packages or pieces, or the quantity, or weight, as the case may be, as furnished in writing by the shipper :

(*c*) The apparent order and condition of the goods :

Provided that no carrier, master or agent of the carrier, shall be bound to state or show in the bill of lading any marks, number, quantity, or weight which he has reasonable ground for suspecting not accurately to represent the goods actually received, or which he has had no reasonable means of checking.

4. Such a bill of lading shall be *prima facie* evidence of the receipt by the carrier of the goods as therein described in accordance with paragraph 3 (*a*), (*b*) and (*c*).

5. The shipper shall be deemed to have guaranteed to the carrier the accuracy at the time of shipment of the marks, number, quantity, and weight, as furnished by him, and the shipper shall indemnify the carrier against all loss, damages, and expenses arising or resulting from inaccuracies in such particulars. The right of the carrier to such indemnity shall in no way limit his responsibility and liability under the contract of carriage to any person other than the shipper.

6. Unless notice of loss or damage and the general nature of such loss or damage be given in writing to the carrier or his agent at the port of discharge before or at the time of the removal of the goods into the custody of the person entitled to delivery thereof under the contract of carriage, or if the loss or damage be not apparent, within three days, such removal shall be *prima facie* evidence of the delivery by the carrier of the goods as described in the bill of lading.

The notice in writing need not be given if the state of the goods has at the time of their receipt been the subject of joint survey or inspection.

In any event the carrier and the ship shall be discharged from all liability in respect of loss or damage unless suit is brought within one year after delivery of the goods or the date when the goods should have been delivered.

In the case of any actual or apprehended loss or damage the carrier and the receiver shall give all reasonable facilities to each other for inspecting and tallying the goods.

7. After the goods are loaded the bill of lading to be issued by the carrier, master or agent of the carrier, to the shipper shall, if the shipper so demands, be a "shipped" bill of lading, provided that if the shipper shall have previously taken up any document of title to such goods, he shall surrender the same as against the issue of the "shipped" bill of lading, but at the option of the carrier, such document of title may be noted at the port of shipment by the carrier, master or agent with the name or names of the ship or ships upon which the goods have been shipped and the date or dates of shipment, and when so noted the same shall for the purpose of this Article be deemed to constitute a "shipped" bill of lading.

8. Any clause, covenant or agreement in a contract of carriage relieving the carrier or the ship from liability for loss or damage to or in connection with goods arising from negligence, fault or failure in the duties and obligations provided in this Article or lessening such liability otherwise than as provided in these Rules, shall be null and void and of no effect.

A benefit of insurance or similar clause shall be deemed to be a clause relieving the carrier from liability.

ARTICLE IV.

Rights and Immunities.

1. Neither the carrier nor the ship shall be liable for loss or damage arising or resulting from unseaworthiness unless caused by want of due diligence on the part of the carrier to make the ship seaworthy, and to secure that the ship is properly manned, equipped and supplied and to make the holds, refrigerating and cool chambers and all other parts of the ship in which goods are carried fit and safe for their reception, carriage and preservation in accordance with the provisions of paragraph 1 of Article III.

Whenever loss or damage has resulted from unseaworthiness, the burden of proving the exercise of due diligence shall be on the carrier or other person claiming exemption under this section.

2. Neither the carrier nor the ship shall be responsible for loss or damage arising or resulting from—

(*a*) act, neglect, or default of the master, mariner, pilot, or the servants of the carrier in the navigation or in the management of the ship :

(*b*) fire, unless caused by the actual fault or privity of the carrier :

(*c*) perils, dangers and accidents of the sea or other navigable waters :

(*d*) act of God :

(*e*) act of war :

(*f*) act of public enemies :

(*g*) arrest or restraint of princes, rulers or people, or seizure under legal process :

(*h*) quarantine restriction :

(*i*) act or omission of the shipper or owner of the goods, his agent or representative :

(*j*) strikes or lock-outs or stoppage or restraint of labour from whatever cause, whether partial or general :

(*k*) riots and civil commotions :

(*l*) saving or attempting to save life or property at sea :

(*m*) wastage in bulk or weight or any other loss or damage arising from inherent defect, quality, or vice of the goods :

(*n*) insufficiency of packing :

(*o*) insufficiency or inadequacy of marks :

(*p*) latent defects not discoverable by due diligence :

(*q*) any other cause arising without the actual fault or privity of the carrier, or without the fault or neglect of the agents or servants of the carrier, but the burden of proof shall be on the person claiming the benefit of this exception to show that neither the actual fault or privity of the carrier nor the fault or neglect of the agents or servants of the carrier contributed to the loss or damage.

3. The shipper shall not be responsible for loss or damage sustained by the carrier or the ship arising or resulting from any cause without the act, fault or neglect of the shipper, his agents or his servants.

4. Any deviation in saving or attempting to save life or property at sea, or any reasonable deviation shall not be deemed to be an infringement or breach of these Rules or of the contract of carriage, and the carrier shall not be liable for any loss or damage resulting therefrom.

5. Neither the carrier nor the ship shall in any event be or become liable for any loss or damage to or in connection with goods in an amount exceeding 100*l.* per package or unit, or the equivalent of that sum in other currency, unless the nature and value of such goods have been declared by the shipper before shipment and inserted in the bill of lading.

This declaration if embodied in the bill of lading shall be *prima facie* evidence, but shall not be binding or conclusive on the carrier.

By agreement between the carrier, master or agent of the carrier and the shipper another maximum amount than that mentioned in this paragraph may be fixed, provided that such maximum shall not be less than the figure above named.

Neither the carrier nor the ship shall be responsible in any event for loss or damage to or in connection with goods if the nature or value thereof has been knowingly mis-stated by the shipper in the bill of lading.

6. Goods of an inflammable, explosive or dangerous nature to the shipment whereof the carrier, master or agent of the carrier, has not consented, with knowledge of their nature and character, may at any time before discharge be landed at any place or destroyed or rendered innocuous by the carrier without compensation, and the shipper of such goods shall be liable for all damages and expenses directly or indirectly arising out of or resulting from such shipment.

If any such goods shipped with such knowledge and consent shall become a danger to the ship or cargo, they may in like manner be landed at any place or destroyed or rendered innocuous by the carrier without liability on the part of the carrier except to general average, if any.

ARTICLE V.

Surrender of Rights and Immunities, and increase of Responsibilities and Liabilities.

A carrier shall be at liberty to surrender in whole or in part all or any of his rights or immunities or to increase any of his responsibilities and liabilities under the Rules contained in any of these Articles, provided such surrender or increase shall be embodied in the bill of lading issued to the shipper.

The provisions of these Rules shall not be applicable to charterparties, but if bills of lading are issued in the case of a ship under a charterparty they shall comply with the terms of these Rules. Nothing in these Rules shall be held to prevent the insertion in a bill of lading of any lawful provision regarding general average.

ARTICLE VI.

Special Conditions.

Notwithstanding the provisions of the preceding Articles, a carrier, master or agent of the carrier, and a shipper shall in

regard to any particular goods be at liberty to enter into any agreement in any terms as to the responsibility and liability of the carrier for such goods, and as to the rights and immunities of the carrier in respect of such goods, or his obligation as to seaworthiness, so far as this stipulation is not contrary to public policy, or the care or diligence of his servants or agents in regard to the loading, handling, stowage, carriage, custody, care and discharge of the goods carried by sea, provided that in this case no bill of lading has been or shall be issued and that the terms agreed shall be embodied in a receipt which shall be a non-negotiable document and shall be marked as such.

Any agreement so entered into shall have full legal effect :

Provided that this Article shall not apply to ordinary commercial shipments made in the ordinary course of trade, but only to other shipments where the character or condition of the property to be carried or the circumstances, terms and conditions under which the carriage is to be performed, are such as reasonably to justify a special agreement.

ARTICLE VII.

Limitations on the Application of the Rules.

Nothing herein contained shall prevent a carrier or a shipper from entering into any agreement, stipulation, condition, reservation or exemption as to the responsibility and liability of the carrier or the ship for the loss or damage to or in connection with the custody and care and handling of goods prior to the loading on and subsequent to the discharge from the ship on which the goods are carried by sea.

ARTICLE VIII.

Limitation of liability.

The provisions of these Rules shall not affect the rights and obligations of the carrier under any statute for the time being in force relating to the limitation of the liability of owners of sea-going vessels.

ARTICLE IX.

The monetary units mentioned in these Rules are to be taken to be gold value.

STATEMENT OF OBJECTS AND REASONS.

A bill of lading was originally a receipt for the goods placed on a ship and also a document for transferring the title of the goods to the consignee. With the development of trade, it became recognised as a negotiable instrument in which shippers, the carriers and the consignees or purchasers of the goods as well as bankers and underwriters became increasingly interested. Concurrently with this it became the custom to show on the bill of lading the terms of the contract on which the goods were delivered to and received by the ship, and from time to time new clauses were added usually in the direction of contracting the carrier out of liability for some kind of loss or damage to the goods. There thus arose great diversity between the conditions on which goods were carried by sea and considerable uncertainty about the liabilities which still attached to the carrier.

2. There has been a demand for many years among the different commercial interests which handle bills of lading for uniformity among all maritime countries in the definition of the liabilities and risks attaching to the carrier of goods by sea. Some countries, *e.g.*, Canada, Australia and the United States of America, enacted legislation prohibiting carriers of goods by sea from contracting themselves out of certain kinds of liability. The matter was discussed at several International Conferences between shipowners, Shippers and bankers in an attempt to secure the universal adoption of an agreed set of rules.

3. A code of rules was drawn up in 1921 by the International Law Association at the Hague. These were subjected to criticism by the various interests affected till finally agreement was reached at the International Conferences on Maritime Law held in Brussels in October, 1922 and again in October, 1923. A code of rules defining the responsibilities and liabilities to which a carrier of goods by sea should be subject and also the rights and immunities he was entitled to enjoy was drawn up, and it was unanimously recommended that every country should give legal sanction to these rules. The United Kingdom has done so by the Carriage of Goods by Sea Act (14 and 15 Geo. 1924). It is proposed to do the same in India by this Bill.

4. This Bill follows closely the English Act. The agreed code of Rules are reproduced in the Schedule. Clause 5 of the Bill exempts from these rules goods carried in the coasting trade under documents other than bills of lading, whilst clause 6 saves the carrier from claims for shortage of weight in certain cases of bulk shipments, where, by the customs of the trade, the weight entered in the bill of lading is a weight ascertained or accepted by a third party other than the carrier or shipper and this fact is so stated in the bill of lading.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[TO BE INTRODUCED IN THE LEGISLATIVE ASSEMBLY.]

A Bill to make provision for the weekly payment of wages to workmen, domestic servants and other employees.

WHEREAS it is expedient to make provision for the weekly payment of wages to workmen, domestic servants and other employees; It is hereby enacted as follows :—

Short title, extent, commencement and application.

1. (*1*) This Act may be called the Weekly Payments Act, 192 .

(*2*) It shall extend to the whole of British India, including British Baluchistan and the Sonthal Parganas.

(*3*) It shall come into force on the first day of June, 1925.

(*4*) It shall apply—

(*i*) to every class of workers engaged in factories which come under the cognizance of the Indian Factories Act, 1911; XII of 1911.

(*ii*) to all employees in Government or private service establishments; and

(*iii*) to all skilled or unskilled workers or employees wheresoever employed, provided that such workers or employees are in receipt of wages which in total amount to less than Rs. 100 per month.

Weekly payment of wages.

2. From the date of the passing of this Act, it shall be unlawful for any employer to engage any workmen, domestic servant or other employees, provided such workman, domestic servant or employee is to be paid his wages at a rate amounting to less than Rs. 100 per month, on any other basis except that of payment of such wages on the weekly basis.

Penalties.

3. Any breach of this Act will be punishable with simple imprisonment which may extend to three months, and may also be punishable with a fine not exceeding Rs. 1,000.

Savings.

4. The provisions of this Act shall not affect the right of employers to make payments to workers on the daily or any other basis provided such payments are not withheld for more than a week.

STATEMENT OF OBJECTS AND REASONS.

During recent strikes in India it has been discovered that certain groups of unscrupulous employers have been in the habit of stopping the wages due to workmen who have worked in their factories even for a full period of a month, thereby causing a great deal of hardship to such workers and their dependants. The scandal created by such action on the part of employers was such that even the Government of Bombay had recently to take notice of it. The matter was subsequently raised in the Houses of Parliament where it was stated that the question of legislation on the lines indicated in the suggestion that payments to workers should be made on the weekly basis was under consideration. The passing of this Bill will certainly go a long way in getting a worker not only out of the clutches of mill Managers and mill Agents, but equally out of the clutches of the average money-lender, considering that under the present circumstances an average worker's family in industrial areas, where payment is made on the monthly basis, has to subsist on credit for a period of six weeks of their initial employment with not a single pice of their remuneration being paid to them during such period of their employment.

SRINAGAR,

The 10th August, 1924.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[AS INTRODUCED IN THE LEGISLATIVE ASSEMBLY.]

A Bill further to amend the Special Marriage Act, 1872.

WHEREAS it is expedient further to amend the Special Marriage Act, 1872; It is hereby enacted as follows :— III of 1872.

Short title and extent.

1. (*1*) This Act may be called the Special Marriage (Amendment) Act, 192 .

(*2*) It extends to the whole of British India.

Amendment of section 2 (*3*) of Act III of 1872.

2. In clause (*3*) of section 2 of the Special Marriage Act, 1872, for the words "has not completed the age of twenty-one years" the words "is a minor, within the meaning of section 3 of the Indian Majority Act, 1875," shall be substituted. III of 1872 IX of 1875

STATEMENT OF OBJECTS AND REASONS.

In order to be competent to contract a marriage under the provisions of the Special Marriage Act, 1872 (III of 1872), that Act provides (*inter alia*) that each party if he or she has not completed the age of 21 years must obtain the consent of his or her father or guardian to the marriage. When this Act was enacted, the Indian Majority Act, 1875 (IX of 1875), had not been passed. Except in cases where a guardian is appointed by a Court of Justice, this Act terminates the minority of a person on completion of the 18th year. The English age of minority extends up to the completion of 21 years, which age was taken as the age of minority in the Special Marriage Act of 1872. Consequently, under this Act, if a person completes his 18th year but is below 21, and has no father alive or present to give his consent, he cannot marry at all. He cannot obtain the consent of his guardian because he can have no guardian on attaining his majority nor can he get one appointed for the purpose of obtaining his consent and thus comply with the provisions of section 2 (*3*) of the Special Marriage Act, since the Guardian and Wards Act, 1890 (VIII of 1890), only applies to persons who are minors within the meaning of the Indian Majority Act, 1875 : (see *ibid*, section 4, sub-clause 1). It is therefore clear that the Special Marriage Act of 1872 has long required to be amended so as to bring its section 2 (*3*) in conformity with the provisions of the Indian Majority Act, since with the statutory fixation of the age of majority in this country at variance with the English law, that section which followed the English law required also to be a mended. Since the provisions of the Special Marriage Act have recently been enlarged by the enactment of Act XXX of 1923, representations have been made that its provisions cannot be availed of by persons between the ages of 18 and 21 owing to this anachronism in the law which requires to be rectified. The present Bill is intended to serve that purpose.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 83 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1925), are republished :—

PART I.

Closing of Ports.

Former Notice.—No. 1 of 1924 (*This Office No. 42 of 1924*) ; hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing movable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

Examination Service.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter ports or localities at home or abroad.

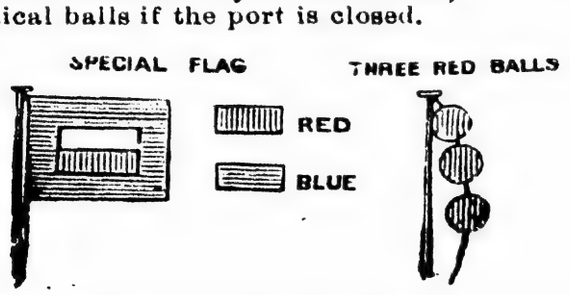
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service will probably be unknown to vessels desiring to enter the port, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any British port in the United Kingdom or abroad, serious delay and risk will be avoided if four efficient all round lanterns, two *red* and two *white*, are kept available for use.

(7) By day the distinguishing flag of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border).

Also, three red vertical balls if the port is closed.



Usually the Examination Steamers will fly the blue ensign, but in certain circumstances they may fly the white ensign.

By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the signal letters of their vessel ready to hoist immediately the Examination Steamer makes the signal: "What ship is that?"

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examining Officer :—

To lower any boat.
To communicate with the shore or with other ships.
To move the ship.
To work cables.
To allow any person or thing to leave the ship.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III.

Mine-Sweeping operations.

H. M. Vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

1. SIGNALS THAT WILL BE SHOWN BY DAY.

(*a*) By vessels working singly :

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen on that side on which it is dangerous to pass. (If a ball is shown at each yard-arm it is dangerous to pass either side.)

Vessels showing this signal should not be approached nearer than 900 yards (822^m9).

(*b*) By vessels working in pairs or groups :

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels should not pass within a distance of 400 yards (365^m8) astern of a pair or group of sweepers, or when more than one pair or group are working in company within a distance of 400 yards (365^m8) astern of the rear pair or group. They should on no account attempt to pass between pairs or groups working in company.

2. SIGNALS THAT WILL BE SHOWN BY NIGHT.

As for day, except that all round green lights will be used in a similar manner to and in place of the black balls.

Note.

This Notice is a repetition of Notice No. 1 of 1924. (This Office No. 42 of 1924.)

LIBERALITY OF BABU PANCHANAN CHONGDAR.

No. 507Medl., dated Calcutta, the 16th February 1925.

From—S. W. GOODE, ESQ., I.C.S., Secretary to the Government of Bengal,

To—The Commissioner of the Burdwan Division.

I AM directed to refer to your letter No. 39 J. G., dated the 20th January 1925, in which you report that Babu Panchanan Chongdar in the district of Howrah has constructed the Barda charitable dispensary buildings and staff quarters and the indoor ward at a cost of about Rs. 16,000 and has made over the buildings to the Howrah District Board and in addition has made an endowment of Rs. 4,500 in 6 per cent. Government Bonds towards the maintenance of an indoor ward with four beds attached to the dispensary.

Howrah.

2. In reply, I am to request that you will be so good as to convey to the donor the thanks of Government for his liberality and public spirit.

CALCUTTA, *the 20th February 1925.*

CHAS. A. BENTLEY, *Director of Public Health, Bengal.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 18th February 1925.

Summary.—During the week light and scattered showers fell in a number of places, especially in parts of west and east Bengal. Ploughing of lands for jute, paddy and *til* is proceeding under favourable conditions, and sowing has commenced in some districts. Harvesting of early spring crops and pressing of sugarcane are in progress. Transplantation of summer rice is well advanced. The state and prospects of standing crops are generally fair. The average price of common rice for the province has slightly fallen as compared with that of the previous week.

RESOLUTION.

FINANCE DEPARTMENT.

Delhi, the 4th February 1925.

No. F. 20 (2)—C. S. R.—25.—The Secretary of State in Council has been pleased to make certain changes in the Study Leave Rules prescribed by him in Council with reference to Fundamental Rule 84 and published with the Resolution by the Government of India in the Finance Department, No. 1698-C. S. R., dated 25th September 1923. The rules as amended are published as an annexure to this Resolution.

2. The Secretary of State has also decided that extraordinary leave may be taken in conjunction with study leave without regard to the maximum prescribed in Rule 2 of the Study Leave Rules.

Ordered that the Resolution be published in the Supplement to the *Gazette of India*.

A. C. MCWATTERS,
Secretary to the Government of India.

ANNEXURE.

Rules for the grant of additional leave to Government servants for the Study of Scientific, Technical or Similar Problems, or in order to undertake special Course of Instruction.

The following rules relate to study leave only. They are not intended to meet the case of Government servants deputed to other countries at the instance of Government, either for the performance of special duties imposed on them or for the investigation of specific problems connected with their technical duties. Such cases will continue to be dealt with on their merits under the provisions of Rules 50 and 51 of the Fundamental Rules. The rules apply to the Archæological Department, the Public Health and Medical Research Departments (other than as regards officers of the Indian Medical Service, to whom special rules apply), the Botanical Survey (including the officers of the Royal Botanic Garden, Calcutta), the Civil Veterinary Department, the Factory Department, the Geological Survey, the Agricultural Department, the Meteorological Department, the Railway Department (Traffic, Locomotive and Engineering Branches), the Telegraph Department, the Zoological Survey, the Education Department, the Public Works Department and the Forest Department (except in respect of continental tours, to which special rules apply). The rules also apply to Government servants selected for the Judicial Branch of the Indian Civil Service who are admitted to the benefit of the rules for the assistance of Government servants prosecuting legal studies at one of the Inns of Court, London, or the King's Inns, Dublin, for the period when they are reading in the Chambers of a practising Barrister in England, but in their case study leave should not ordinarily be granted after the twelfth year of service. The rules may be extended by the authorities empowered to sanction study leave under Rule 1 to any Government servant, including a Government servant of a Provincial Service, not belonging to any of the departments mentioned above, in whose case the sanctioning authority is of opinion that leave should be granted in the public interests to pursue a special course of study or investigation of a scientific or technical nature.

NOTE.—The extension of these rules to the Public Works and Railway Departments does not affect the existing rules under which Government servants are allowed to visit engineering works when on leave in Great Britain.

1. Extra leave on half average pay for the purpose of study leave may be taken either in or outside India. It may be granted to a Government servant of any of the departments named above by the Local Government or Chief Commissioner under whom he is serving, provided that when a Government servant borne permanently on the cadre of one province or department is serving temporarily in another province or department the grant of leave is subject to the conditions (*a*) that the sanctioning authority can make local arrangements to carry on his work in his absence, and (*b*) that the sanction of the province or department to which he is permanently attached is obtained before leave is given. Study leave should not ordinarily be granted to Government servants of less than five years' service or to Government servants within three years of the date at which they have the option of retiring or if they have the option of retiring after 20 years' service, within three years of the date at which they will complete 25 years' service. Nor should it be granted to Government servants who are about to retire on proportionate pension.

NOTE.—Departments of the Government of India may grant study leave to Government servants under their administrative control, subject to the restrictions which apply to the powers of a local Government.

2. The grant of study leave should be made with due regard to the exigencies of the public service. In no case should the grant of this leave, in combination with ordinary leave otherwise than on medical certificate, involve an absence of over 28 months from a Government servant's regular duties, or exceed two years in the whole period of a Government servant's service ; nor should it be granted with such frequency as to remove him from contact with his regular work or to cause cadre difficulties owing to his absence on leave. A period of 12 months at one time should ordinarily be regarded as a suitable maximum, and should not be exceeded save for exceptional reasons.

3. A Government servant whose study leave is combined with any other kind of leave should be required to take his period of study leave at such a time as to retain, at its conclusion, a balance of other previously sanctioned leave sufficient to cover the period spent in returning to duty.

4. When a Government servant has been granted definite period of study leave and finds subsequently that his course of study will fall short of the sanctioned period to any considerable extent, his absence from duty should be reduced by the excess period of study leave unless he produces the assent of the sanctioning authority in India to his taking it as ordinary leave.

5. Except as provided in Rule 6, all applications for study leave should be submitted with the audit officer's certificate to the Head of the Department through the prescribed channel, and the course or courses of study contemplated and any examination which the candidate proposes to undergo should be clearly specified therein.

6. Government servants on leave in Europe or America, who wish to have part of it converted into study leave, should address the High Commissioner for India and should attach (1) a statement showing how they propose to spend the study leave, and (2) documentary evidence that their application for the particular course of study or examination proposed has the approval of the proper authorities in India. Similarly, Government servants on leave in Europe or America who desire to have it extended for purposes of study, should address the High Commissioner, but in addition to the above requirements they must support their applications with documentary evidence of their having obtained the approval of the authorities concerned in India to their applying for an extension of leave.

7. A study allowance will be granted for the period spent in prosecuting a definite course of study at a recognised institution or in any definite tour of inspection of any special class of work, as well as for the period covered by any examination of the end of the course of study. The rates as at present fixed are 12*s*. a day in the United Kingdom, 1*l*. a day on the continent of Europe, and 30*s*. a day in the United States of America. These rates are liable to revision. The rate to be granted to Government servants who take study leave in other countries, including India, will be specially considered by the High Commissioner or the Government of India, as the case may be, in each case. In no case will subsistence allowance be granted in addition to study allowance and ordinarily travelling expenses will not be paid, but in exceptional cases claims will be considered on their merits by the Government of India or High Commissioner.

8. Study allowance will be admissible up to 14 days for any period of vacation. A period during which a Government servant interrupts his course for his own convenience cannot be considered as vacation. In the case of a Government servant retiring from the service without returning to duty after a period of study leave the study allowance will be forfeited. If the Government servant is under civil leave rules the study leave will be converted into ordinary leave to the extent of the ordinary leave standing to his credit at the date of retirement. Any balance of the period of study leave mentioned above which cannot be so converted will be excluded in reckoning service for pension.

9. Government servants granted study leave are ordinarily required to meet the cost of fees paid for courses of study. In exceptional cases the High Commissioner or the Government of India, as the case may be, will be prepared to consider proposals that such fees should be paid by Government.

10. On completion of a course of study a certificate on the proper form (which may be obtained from the High Commissioner), together with certificates of examinations passed or of special study, shall, when the study leave has been taken in Europe or America, be forwarded to the High Commissioner. When the study leave has been taken in any other country certificates of examinations passed or of special study, which should show the dates of commencement and termination of the course, with any remarks by the instructor, shall be forwarded to the authority which sanctioned the leave. In the case of a definite course of study at a recognised institution the study allowance will be payable by the High Commissioner or in India, as the case may be, on claims submitted by the Government servant from time to time, supported by proper certificates of attendance. When the programme of study approved under Rule 5 does not include or does not consist entirely of such a course of study, the Government servant shall submit to the High Commissioner or to the authority in India which sanctioned his leave, as the case may be, a diary showing how his time has been spent, and a report indicating fully the nature of the methods and operations which have been studied, and including suggestions as to the possibility of applying such methods or operations to India. The High Commissioner or the sanctioning authority in India, as the case may be, will decide whether the diary and report show that the time of the Government servant has been properly employed, and will determine accordingly for what period the study allowance referred to in Rule 7 may be granted.

11. Study leave will count as service for promotion and pension, but not for leave. It will not affect any leave which may already be due to a Government servant; it will count as extra leave on half average pay and will not be taken into account in reckoning the aggregate amount of leave on half average pay taken by the Government servant towards the maximum period admissible under the Fundamental Rules.

12. During study leave a Government servant will draw half average pay as defined in Rule 9 (*2*) of the Fundamental Rules, subject to the maxima and minima laid down in Rules 89 and 90, *ibid.* The rate of exchange prescribed by the Secretary of State in Council for the conversion of leave salary (other than that admissible during the first four months of a period of leave on average pay) shall apply to study leave allowances. A Government servant may, subject to the approval of the proper authorities being obtained as required by Rule 5 or 6, undertake or commence a course of study during leave on average pay, and, subject to paragraphs 7 and 8, draw study allowance in respect thereof, provided that study allowance is not drawn for an aggregate period exceeding two years during the whole of a Government servant's service. This rule applies to military officers in civil employment taking leave under the Fundamental Rules.

13. On an application for study leave in Europe or America being sanctioned by the Government of Madras, Bombay or Bengal, the local Government should inform the High Commissioner of the particulars of the case. When such leave is sanctioned by any other local Government or Administration a report should be made to the Government of India, who will inform the High Commissioner. It will be necessary for the Government servant concerned to place himself in communication with the High Commissioner, who will arrange any details and issue any letters of introduction that may be required. In all cases in which study leave in any other country is sanctioned the particulars should be reported to the Government of India.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 22nd January, 1925 :—

No. 2 OF 1925.

A Bill to amend the Indian Merchant Shipping Act, 1923, for a certain purpose.

WHEREAS it is expedient to amend the Indian Merchant Shipping Act, 1923, for a certain purpose; It is hereby enacted as follows :— XXI of 1923

Short title

1. This Act may be called the Indian Merchant Shipping (Amendment) Act, 19

Amendment of section 245, Act XXI of 1923.

2. In sub-section (*2*) of section 245 of the Indian Merchant Shipping Act, 1923, after clause (*b*) the following clause shall be inserted, namely :— XXI of 1923

"(*c*) the charging of fees for the grant of the certificate referred to in sub-section (*4*) of section 243, the amount of such fees and the manner in which they shall be recoverable."

STATEMENT OF OBJECTS AND REASONS.

The Indian Merchant Shipping Act, 1923, does not at present permit the levy of any fees for inspection of the wireless installations of vessels. Power to impose fees for inspections where the installations have been found to be out of order has recently been taken in the United Kingdom by the Board of Trade. It is proposed to take similar powers to permit the levy of such fees in India under section 245 of this Act.

C. A. INNES.

DELHI,

The 15th November, 1924.

L. GRAHAM,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 22nd January, 1925 :—

No. 3 OF 1925.

A Bill to provide for the registration of Trade Unions and in certain respects to define the law relating to registered Trade Unions in British India.

WHEREAS it is expedient to provide for the registration of Trade Unions and in certain respects to define the law relating to registered Trade Unions in British India ; It is hereby enacted as follows :—

CHAPTER I.

PRELIMINARY.

Short title, extent and commencement.

1. (*1*) This Act may be called the Indian Trade Unions Act, 19

(*2*) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.

(*3*) It shall come into force on such date as the Governor-General in Council may, by notification in the Gazette of India, appoint.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "executive" means the body, by whatever name called, to which the management of the affairs of a Trade Union is entrusted ;

(*b*) "officer", in the case of a Trade Union, includes any member of the executive thereof, but does not include an auditor ;

(*c*) "prescribed" means prescribed by regulations made under this Act ;

(*d*) "registered office" means that office of a Trade Union which is registered under this Act as the head office thereof ;

(*e*) "registered Trade Union" means a Trade Union registered under this Act ;

(*f*) "Registrar" means a Registrar of Trade Unions appointed by the Local Government under section 3, and "the Registrar", in relation to any Trade Union, means the Registrar appointed for the province in which the head or registered office, as the case may be, of the Trade Union is situated ;

(*g*) "trade dispute" means any dispute between employers and workmen or between workmen and workmen, or between employers and employers which is connected with the employment or non-employment, or the terms of employment or the conditions of labour, of any person ; and

(*h*) "Trade Union" means any combination whether temporary or permanent, formed primarily for the purpose of regulating the relations between workmen and employers or between workmen and workmen, or between employers and employers, and includes any federation of two or more Trade Unions.

CHAPTER II.

REGISTRATION OF TRADE UNIONS.

Appointment of Registrars.

3. Each Local Government shall appoint a person to be the Registrar of Trade Unions for the province.

Mode of registration.

4. Any seven or more members of a Trade Union may, by subscribing their names to the rules of the Trade Union and by otherwise complying with the provisions of this Act with respect to registration, apply for registration of the Trade Union under this Act.

Application for registration.

5. (*1*) Every application for registration of a Trade Union shall be made to the Registrar, and shall be accompanied by a statement of the following particulars, namely :—

(*a*) the names, occupations and addresses of the members making the applications ;

(*b*) the name of the Trade Union and the address of its head office ;

(*c*) a list of the titles, names, ages, addresses and occupations of the officers of the Trade Union ;

(*d*) a copy of the rules of the Trade Union.

(*2*) Where a Trade Union has been in existence for more than one year before the making of an application for its registration, there shall be delivered to the Registrar, together with the application, a general statement of the assets and liabilities of the Trade Union prepared in such form and containing such particulars as may be prescribed.

Provisions to be contained in the rules of a Trade Union.

6. A Trade Union shall not be entitled to registration under this Act, unless the executive thereof is constituted in accordance with the provisions of this Act, and the rules thereof provide for the following matters, namely :—

(*a*) the name of the Trade Union ;

(*b*) the whole of the objects for which the Trade Union has been established ;

(*c*) the whole of the purposes for which the funds of the Trade Union shall be applicable, all of which purposes shall be purposes to which such funds are lawfully applicable under this Act ;

(*d*) the maintenance of a list of the members of the Trade Union ;

(*e*) the conditions under which any member shall be entitled to any benefit assured by the rules and under which any fine or forfeiture may be imposed on the members ;

(*f*) the manner in which the rules shall be amended, varied or rescinded ;

(*g*) the manner in which the members of the executive and the other officers of the Trade Union shall be appointed and removed, and the scales of salary, allowances and expenses to which they shall respectively be entitled ;

(*h*) the safe custody of the funds of the Trade Union and an annual audit, in such manner as may be prescribed, of the accounts thereof ; and

(*i*) the manner in which the Trade Union may be dissolved.

Power to call for further particulars.

(*1*) The Registrar may, for the purpose of satisfying himself that any application complies with the provisions of section 5, or that the Trade Union is entitled to registration under section 6, call for such further information as he thinks fit, and may refuse to register the Trade Union until such information is supplied.

(2) If the name under which a Trade Union is proposed to be registered is identical with that by which any other existing Trade Union has been registered or, in the opinion of the Registrar, so nearly resembles such name as to be likely to deceive the public or the members of either Trade Union, the Registrar shall require the persons applying for registration to alter the name of the Trade Union stated in the application, and shall refuse to register the Union until such alteration has been made.

Registration.

8. The Registrar, on being satisfied that the Trade Union has complied with all the requirements of this Act in regard to registration, shall register the Trade Union by entering in a register, to be maintained in such form as may be prescribed, the particulars relating to the Trade Union contained in the statement accompanying the application for registration.

Certificate of registration.

9. The Registrar, on registering a Trade Union under section 8, shall issue a certificate of registration in the prescribed form which shall be conclusive evidence that the Trade Union has been duly registered under this Act.

Cancellation of registration.

10. A certificate of registration of a Trade Union may be withdrawn or cancelled by the Registrar—

(*a*) on the application of the Trade Union to be verified in such manner as may be prescribed, or

(*b*) if the Registrar is satisfied that the certificate has been obtained by fraud or mistake, or that the Trade Union has ceased to exist or has wilfully contravened any provision of this Act or allowed any rule to continue in force which is inconsistent with any such provision, or rescinded any rule providing for any matter provision for which is required by section 6 :

Provided that not less than two months' previous notice in writing specifying the ground on which it is proposed to withdraw, or cancel the certificate shall be given by the Registrar to the Trade Union before the certificate is withdrawn or cancelled otherwise than on the application of the Trade Union.

Appeal.

11. Any person aggrieved by any refusal of the Registrar to register a Trade Union or by the withdrawal or cancellation of a certificate of registration may, within such period as may be prescribed, appeal to the Local Government or to such authority as it may appoint in this behalf.

Registered office.

12. All communications and notices to a registered Trade Union may be addressed to its registered office. Notice of any change in the address of the head office shall be given within fourteen days of such change to the Registrar in writing, and the changed address shall be recorded in the register referred to in section 8.

Incorporation of registered Trade Unions.

13. Every registered Trade Union shall be a body corporate by the name under which it is registered, and shall have perpetual succession and a common seal with power to acquire and hold both moveable and immoveable property and to contract, and shall by the said name sue and be sued.

Certain Acts not to apply to registered Trade Unions.

14. The following Acts, namely :—

(*a*) The Societies Registration Act, 1860, XXI of 1860.

(*b*) The Co-operative Societies Act, 1912, II of 1912.

(*c*) The Provident Insurance Societies Act, 1912, V of 1912

(*d*) The Indian Life Assurance Companies Act, 1912, and VI of 1912.

shall not apply to any registered Trade Union, and the registration of any such Trade Union under any such Act shall be void.

CHAPTER III.

Rights and Liabilities of Registered Trade Unions.

Objects on which funds may be spent.

15. The funds of a registered Trade Union shall not be spent on any other objects than the following, namely :—

(*a*) the payment of salaries, allowances and expenses to officers of the Trade Union ;

(*b*) the payment of expenses for the administration of the Trade Union, including audit of the accounts of the Trade Union ;

(*c*) the prosecution or defence of any legal proceeding to which the Trade Union or any member thereof is a party, when such prosecution or defence is undertaken for the purpose of securing or protecting any rights of the Trade Union as such or any rights arising out of the relations of any member with his employer or with a person whom he employs ;

(*d*) the conduct of trade disputes on behalf of the Trade Union or any member thereof ;

(*e*) the compensation of members for loss arising out of trade disputes ;

(*f*) allowances to members or their dependants on account of death, old age, sickness, accident or unemployment of such members ;

(*g*) the insurance of members against death, sickness, accident or unemployment ;

(*h*) the provision of educational, social or religious benefits for members (including the payment of the expenses of funeral or religious ceremonies for deceased members) or for the dependants of members ;

(*i*) the upkeep of a periodical published mainly for the purpose of discussing questions affecting employers or workmen as such ; and

(*j*) subject to any conditions contained in the notification, any other object notified by the Governor-General in Council in the Gazette of India.

Criminal conspiracy in trade disputes.

16. No officer or member of a registered Trade Union shall be liable to punishment under sub-section (*2*) of section 120B of the Indian Penal Code, in respect of any agreement made between the members for the purpose of furthering any such object of the Trade Union as is specified in section 15, unless the agreement is an agreement to commit an offence. XLV of 1860.

Immunity from civil suit in certain cases.

17. (*1*) No suit or other legal proceeding shall be maintainable in any Civil Court against any registered Trade Union or any officer or member thereof in respect of any act done in contemplation or furtherance of a trade dispute to which a member of the Trade Union is a party on the ground only that such act induces some other person to break a contract of employment, or that it is in interference with the trade, business or employment of some other person or with the right of some other person to dispose of his capital or of his labour as he wills.

(*2*) No suit or other legal proceeding shall be maintainable in any Civil Court against a registered Trade Union in respect of any act done in contemplation or furtherance of a trade dispute by any person acting on behalf of the Trade Union, if it is proved that such person acted without the knowledge of, or contrary to express instructions given by, the executive of the Trade Union and that the executive has repudiated such act at the earliest opportunity and by all reasonable means and with reasonable publicity.

Enforceability of agreements.

18. Notwithstanding anything contained in any other law for the time being in force, an agreement between the members of a registered Trade Union shall not be void or voidable merely by reason of the fact that any of the objects of the agreement are in restraint of trade :

Provided that nothing in this section shall enable any Civil Court to entertain any legal proceeding instituted for the express purpose of enforcing or recovering damages for the breach of any agreement concerning the conditions on which any members of a Trade Union shall or shall not sell their goods, transact business, work, employ or be employed.

Right to inspect books of Trade Union.

19. The account books of a registered Trade Union and the list of members thereof shall be open at all reasonable times to inspection by an officer or member of the Trade Union.

Rights of minors to membership of Trade Unions.

20. Any person who has attained the age of fifteen years may be a member of a registered Trade Union subject to any rules of the Trade Union to the contrary, and may, subject as aforesaid, enjoy all the rights of a member and execute all instruments and give all acquittances necessary to be executed or given under the rules:

Provided that no person who has not attained the age of eighteen years shall be an officer of any such Trade Union.

Majority of officers to be connected with the industry.

21. A majority of the total number of the officers of every registered Trade Union shall be persons actually engaged or employed in an industry with which the Trade Union is connected.

Change of name.

22. Any registered Trade Union may, with the consent of not less than two-thirds of the total number of its members, change its name.

Amalgamation of Trade Unions

23. Any two or more registered Trade Unions may become amalgamated together as one Trade Union with or without dissolution or division of the funds of such Trade Unions or either or any of them, provided that the votes of at least one-half of the members of each or every such Trade Union entitled to vote are recorded, and that at least sixty per cent. of the votes recorded are in favour of the proposal.

Notice of change of name or amalgamation

24. Notice in writing of every change of name and of every amalgamation, signed, in the case of a change of name, by seven members and by the Secretary of the Trade Union changing its name, and, in the case of an amalgamation, by seven members and by the Secretary of each and every Trade Union which is a party thereto shall be sent to the Registrar, and where the head office of the amalgamated Trade Union is situated in a different province to the Registrar of such province; and such Registrar shall, if he is satisfied that the provisions of this Act in respect of change of name or of amalgamation, as the case may be, have been complied with and, in the case of an amalgamation, that the Trade Union formed thereby is entitled to registration under section 6,—

(*a*) register the change of name in the register referred to in section 8, or

(*b*) if he is the Registrar of the province in which the head office of the amalgamated Trade Union is situated, register the Trade Union in the manner provided in that section,

and the change of name or amalgamation shall have effect from the date of such registration.

Effects of change of name and of amalgamation.

25. (*1*) The change in the name of a registered Trade Union shall not affect any rights or obligations of the Trade Union or render defective any legal proceeding by or against the Trade Union, and any legal proceeding which might have been continued or commenced by or against it by its former name may be continued or commenced by or against it by its new name.

(2) An amalgamation of two or more registered Trade Unions shall not prejudice any right of any of such Trade Unions or any right of a creditor of any of them.

Dissolution.

26. (*1*) When a registered Trade Union is dissolved, notice of the dissolution signed by seven members and by the Secretary of the Trade Union shall, within fourteen days of the dissolution be sent to the Registrar and shall be registered by him if he is satisfied that the dissolution has been effected in accordance with the rules of the Trade Union, and the dissolution shall have effect from the date of such registration.

(*2*) Where the dissolution of a registered Trade Union has been registered and the rules of the Trade Union do not provide for the distribution of funds of the Trade Union on dissolution the Registrar shall divide the funds amongst the members in such manner as may be prescribed.

Returns

27. (*1*) There shall be sent annually to the Registrar, on on before such date as may be prescribed, a general statement, audited in the prescribed manner, of all receipts and expenditure of every registered Trade Union during the year ending on the 31st day of March next preceding such prescribed date, and of the assets and liabilities of the Trade Union existing on such 31st day of March. The statement shall be prepared in such form and shall comprise such particulars as may be prescribed.

(*2*) Together with the general statement there shall be sent to the Registrar a statement showing all changes of officers made by the Trade Union during the year to which the general statement refers, together also with a copy of the rules of the Trade Union corrected up to the date of the despatch thefeof to the Registrar.

(*3*) A copy of every alteration made in the rules of a registered Trade Union shall be sent to the Registrar within ten days of the making of the alteration.

CHAPTER IV.

Regulations.

Power to make regulations.

28. (*1*) Subject to the control of the Governor General in Council, the Local Government may make regulations for the purpose of carrying into effect the provisions of this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such regulations may provide for all or any of the following matters, namely :—

(*a*) the manner in which Trade Unions and the rules of Trade Unions shall be registered and the fees payable on registration ;

(*b*) the transfer of registration in the case of any registered Trade Union which has changed its head office from one province to another ;

(*c*) the manner in which, and the persons by whom, the accounts of registered Trade Unions shall be audited ;

(*d*) the conditions subject to which inspection of documents kept by Registrars shall be allowed and the fees which shall be chargeable in respect of such inspections ; and

(*e*) any matter which is to be or may be prescribed.

Publication of regulations.

29. (*1*) The power to make regulations conferred by section 28 is subject to the condition of the regulations being made after previous publication.

(*2*) The date to be specified in accordance with clause (*3*) of section 23 of the General Clauses Act, 1897, as that after which a draft of regulations proposed to be made will be taken into consideration shall not be less than three months from the date on which the draft of the proposed regulations was published for general information. X of 1897.

(*3*) Regulations so made shall be published in the local official Gazette, and, on such publication shall have effect as if enacted in this Act.

CHAPTER V.

Penalties and Procedure.

Failure to submit notices or returns.

30. (*1*) If default is made on the part of any registered Trade Union in giving any notice or sending any statement or other document as required by or under any provision of this Act, every officer or other person bound by the rules of the Trade Union to give or send the same, or, if there is no such officer or person, every member of the executive of the Trade Union, shall be punishable with fine which may extend to five rupees and in the case of a continuing default, with an additional fine which may extend to five rupees for each week after the first during which the default continues.

(*2*) Any person, who wilfully makes, or causes to be made, any false entry in, or any omission from, the general statement required by section 27 or in or from any copy of rules or of alterations of rules sent to the Registrar under that section, shall be punishable with fine which may extend to five hundred rupees.

Supplying false information regarding Trade Unions.

31. Any person, who, with intent to deceive, gives to any member of a registered Trade Union or to any person intending or applying to become a member of such Trade Union any document purporting to be a copy of the rules of the Trade Union or of any alterations to the same which he knows, or has reason to believe, is not a correct copy of such rules or alterations as are for the time being in force, or any person who, with the like intent, gives a copy of any rules of an unregistered Trade Union to any person on the pretence that such rules are the rules of a registered Trade Union, shall be punishable with fine which may extend to two hundred rupees.

Cognizance of offences

32. (*1*) No Court inferior to that of a Presidency Magistrate or a Magistrate of the first class shall try any offence under this Act.

(*2*) No Court shall take cognizance of any offence under this Act, unless complaint thereof has been made within six months of the date on which the offence is alleged to have been committed.

STATEMENT OF OBJECTS AND REASONS.

1. This Bill has been prepared in response to the following Resolution which was adopted by the Legislative Assembly on 1st March, 1921 :—

> "This Assembly recommends to the Governor General in Council that he should take steps to introduce, as soon as practicable, in the Indian Legislature, such legislation as may be necessary for the registration of trade unions and for the protection of trade unions."

2. The question was examined in detail by the Government of India and Local Governments were consulted; full opportunity was given for the expression of views by associations of employers and employed, and by the public generally. In the light of the opinions received a draft Bill was prepared and published in September, 1924. The Government of India, after considering the criticisms received on that Bill, see no ground for modifying the general principles underlying the Bill and, except for minor alterations, the present Bill is a reproduction of the Bill previously published.

3. The general scheme of the Bill may be briefly explained. A trade union making the necessary application will, on compliance with certain stated conditions designed to ensure that the union is a *bona fide* trade union, and that adequate safeguards are provided for the rights of its members, be entitled to registration. The union and its members will thereupon receive protection in certain cases in respect both of civil and criminal liability. No restriction is placed upon the objects which a registered trade union may pursue, but the expenditure of its funds must be limited to specified trade union purposes. The legal position of trade unions which do not register will be unaffected by the Bill.

NOTES ON CLAUSES.

Clause 2 (*g*).—The definition is taken from section 5 of the British Trade Disputes Act, 1906.

Clause 2 (*h*).—The definition is based on that contained in section 23 of the British Trade Union Act, 1871.

Clause 4.—Registration is purely voluntary, and it is open to a registered trade union, under clause 10, to apply for cancellation of registration at any time.

Clause 5.—The information is required to enable the Registrar to satisfy himself that the organization applying for registration is a trade union and that its rules satisfy the requirements of clause 6.

Clause 6.—This is adapted from the First Schedule of the British Trade Union Act, 1871.

Clause 14.—The clause does not affect the existing registration of a trade union under any other Act until that union has secured registration under the Trade Union Act.

Clause 15.—The object on which the funds may be spent have been limited to objects generally recognized as legitimate trade union objects. As, however, the clause may not prove sufficiently elastic in practice, it is proposed to empower the Government of India to add to the list of objects. This will make it possible to provide for the extension of the scope of registered trade unions if the development of the trade union movement renders that desirable.

Clause 16.—Under the existing criminal law an agreement to do an illegal act is itself a criminal offence. "Illegal act" includes all acts which provide grounds for civil actions. Thus, for example, two men who agree to persuade workmen to break their contracts with their employers are guilty of criminal conspiracy. The clause, which is similar in its effect to the corresponding provisions of the English law, protects trade unionists from prosecutions for criminal conspiracy where the agreement into which they have entered is not an agreement to commit an offence.

Clause 17.—The first part of this clause corresponds to sections 1 and 3 of the British Trade Disputes Act, 1906, and protects trade unions and their officers and members from certain civil actions. An important type of action which this clause will prevent is a suit arising out of the persuation exercised on trade union members and others to join in a strike, where that strike (as is frequently the case) involves breach of contract on the part of workmen. The second part of the clause gives trade unions a large measure of immunity from liabilities arising out of acts of their agents, and is in accordance with a recommendation made by the majority of the Royal Commission on Trade Disputes and Trade Combinations in England in 1906.

Clause 18.—The first paragraph is based on sections 1 and 3 of the British Trade Union Act, 1871. The proviso, which is taken from paragraph (1) of section 4 of that Act, will render it possible for a trade union to recover unpaid subscriptions, and for a trade union member to sue for benefits withheld, but members of trade unions cannot be compelled by suit to strike or not to strike or to accept any agreed conditions of work.

Clause 19.—This clause is designed to enable members of trade unions to exercise supervision over the financial conduct of the union, if they so desire.

Clause 20.—It is desirable that members and officers of registered trade unions should have attained an age sufficient to enable them to discharge their responsibilities and to enjoy the privileges conferred by the Bill.

Clause 21.—This provision is intended to ensure that those for whose benefit the trade union exists participate in its control.

Clause 23.—This corresponds to section 1 of the British Trade Union (Amalgamation) Act, 1917.

Clauses 27.—The annual audit is essential for the protection of trade union members from the effects of peculation, or the dissipation of funds on extraneous objects. The supply of the list of officers annually and of the rules is required to enable the Registrar to satisfy himself that the union continues to observe the provisions of the Act.

Clause 28.—In the draft Bill previously published the rule-making power rested with the Government of India. It is preferable that the necessary power should be delegated to Local Governments.

Clauses 30 and 31.—The necessary penalties have been provided for breaches of the provisions of the law.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 2nd February, 1925 :—

No. 5 OF 1925.

A Bill further to amend the Indian Income-tax Act, 1922.

Whereas it is expedient further to amend the Indian Income-tax Act, 1922, for the purpose hereinafter appearing; It is hereby enacted as follows :— XI of 1922.

Short title.

1. This Act may be called the Indian Income-tax (Amendment) Act, 1925.

Amendment of section 56, Act XI of 1922.

2. To section 56 of the Indian Income-tax Act, 1922, the following proviso shall be added, namely :— XI of 1922.

"Provided that in computing the total income of a member of a registered firm, where any change occurs in the constitution of the firm, the profits or gains of the firm during the previous year shall be deemed to have been received in that year by the members of the firm as constituted at the time of the making of the assessment to super-tax in proportion to their shares in the firm at that time."

STATEMENT OF OBJECTS AND REASONS.

Difficulty has been felt in assessing *individually* to super-tax partners in registered firms, where there has been a change in the constitution of the firm owing to one or more of the partners retiring, to new partners being taken into the firm, or to a change, for any other reason, in the share of profits to which the individual partners are respectively entitled. The practice hitherto has been to assess the partners with reference to the shares held by them at the time of assessment, though on the profits of the firm in the previous year. The Bombay High Court, however, has recently held that the partners should be assessed not according to the shares to which they are entitled in the year of assessment, but according to the shares to which they were entitled in the previous year in which the profits were earned. The result of this decision is that in the case of retiring partners leaving the country, it is often impossible for the Income-tax Department to recover any super-tax at all from them; while at the same time the new partner who comes in during the year of assessment is not liable to pay the super-tax.

2. To get over this difficulty, it is proposed to legalise what has been the departmental practice hitherto, and the present Bill is intended to secure this object.

NOTIFICATION.

Delhi, the 15th January 1925.

No. 58-I—25-A. C.—Under Rule 18 of the Indian Legislative Rules the Governor General has been pleased to order the publication in the Gazette of India of the following Bill, together with the Statement of Objects and Reasons relating thereto, and the Bill and Statement of Objects and Reasons are accordingly published for general information :—

BILL No. I OF 1925.

A Bill further to amend the Indian Paper Currency Act, 1923.

WHEREAS it is expedient further to amend the Indian Paper Currency Act, 1923, for the purpose hereinafter appearing; It is hereby enacted as follows :— X of 1923.

Short title. **1.** This Act may be called the Indian Paper Currency (Amendment) Act, 1925.

Amendment of section 19, Act X of 1923. **2.** In sub-section (*4*) of section 19 of the Indian Paper Currency Act, 1923, for the words "eight hundred and fifty" the words "one thousand" shall be substituted. X of 1923.

STATEMENT OF OBJECTS AND REASONS.

The Indian Paper Currency Act, 1923 (X of 1923), lays down in section 19 certain temporary provisions which are to remain in force until the Paper Currency Reserve has been brought into conformity with the permanent position envisaged in section 18. The provisions of section 19 are at present operative, and sub-section (*4*) of that section provides that the total amount of securities which may be held in the Reserve (exclusive of the emergency currency which may be made available under section 20 against the security of Bills of Exchange) shall be limited to 85 crores of rupees. Additional currency is required to meet the growing requirements of trade, which is now recovering from the post-war depression, and in particular to meet the seasonal requirements of the busy period of the year. The Government of India have, therefore, both in the last and the present busy season, utilized a portion of their remittances to England to increase the amount of currency available for trade. The effect of the purchases of sterling by Government in India and of the sales of Council Bills in England is to reduce treasury balances in India and to increase those with the Secretary of State. To the extent that these latter are not required to meet disbursements in the near future, they are available for investment in the sterling portion of the Paper Currency Reserve, against which notes can be issued in India replenishing the Indian treasury balances and at the same time adding to the amount of currency in circulation. The total amount of securities in the Reserve is still short of the figure of 85 crores by approximately 7½ crores, but the Government of India, in the interest of trade, desire to raise the permissible limit of investment so that additional currency can be provided, if necessary, in order to prevent excessive monetary stringency. The proposal in the present Bill is therefore to increase the amount of permissible investment by 15 crores of rupees.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

(AS INTRODUCED IN THE LEGISLATIVE ASSEMBLY.)

A Bill to regulate the employment of women in factories and mines and on those estates to which the Assam Labour and Emigration Act, 1901, applies some time before and some time after confinement, and to make provision for the payment of maternity benefit.

Whereas it is expedient to regulate the employment of women in factories and mines and on those estates to which the Assam Labour and Emigration Act, 1901, applies some time before and some time after confinement, and to make provision for the payment of maternity benefit during the period of absence from work due to advanced state of pregnancy and confinement ; It is hereby enacted as follows :— VI of 1901.

Short title, extent and commencement.

1. (*1*) This Act may be called the Maternity Benefit Act, 192 .

(*2*) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.

(3) It shall come into force on the first day of January, 1926.

(*f*) "employer" includes an "occupier" of a factory as defined in the Indian Factories Act, 1911, or the "manager" of a factory, or an "owner" of a mine or his "agent" as defined by the Indian Mines Act, 1923, or the "manager" of a mine, or the "chief person" for the time being in charge of any "estate" ; XII of 1911. IV of 1923.

(*g*) "Inspector of Estates" means an Inspector as defined by the Assam Labour and Emigration Act, 1901 ; VI of 1901.

(*h*) "Inspector of Factories" means an Inspector as defined by the Indian Factories Act, 1911 ; XII of 1911

(*i*) "Chief Inspector of Mines" means a Chief Inspector as defined by the Indian Mines Act, 1923 ; and

(*j*) "Inspector of Mines" means an Inspector as defined by the Indian Mines Act, 1923. IV of 1923.

Employment of women at the time of confinement and payment from Maternity Benefit Fund.

3. In any factory or in a mine or on an estate to which the Assam Labour and Emigration Act, 1901, or any section thereof applies, a woman— VI of 1901

(*a*) shall not be knowingly employed during the six weeks following her confinement ;

(*b*) shall have the right to leave her work if she produces a medical certificate from a qualified medical practitioner stating that her confinement will probably take place within six weeks ;

(*c*) shall, while she is absent from her work in pursuance of clauses (*a*) and (*b*) of this section, be paid by the Local Government in accordance with rules made for this purpose, out of a fund to be established for this purpose and called the Maternity Benefit Fund, benefit sufficient for the full and healthy maintenance of herself and her child, the amount of which shall be determined in accordance with rules made by the Local Government.

Payment in cases of death during period of confinement.

4. If a woman dies at her confinement or during the period for which she is entitled to benefit, the remaining sums due as maternity benefit shall be paid to the person who undertakes the care of the child in accordance with rules made by the Local Government.

Dismissal of woman during confinement.

5. Where a woman is absent from her work in accordance with clause (*a*) or clause (*b*) of section 3, it shall not be lawful for her employer to give her notice of dismissal during such absence or at such a time that the notice would expire during such absence.

Penalty for contravention of Act by employers.

6. An employer contravening any provision of this Act or any rule made thereunder shall be punishable with fine which may extend to five hundred rupees.

Powers of Local Governments to make rules.

7. Every Local Government shall make rules—

(*a*) for the establishment of a Maternity Benefit Fund; for fixing the amount of contribution to be paid to it by each factory or mine or estate; for the collection of the contributions and for the management and safe custody of the fund;

(*b*) for determining the manner of payment of the benefit to the person entitled to receive it; and

(*c*) for fixing the amount of benefit to be paid under this Act.

Duties and powers of Inspectors.

8. The Inspector of Factories or the Chief Inspector of Mines or an Inspector of Mines or an Inspector of Estates shall have and perform the same powers and duties for the purpose of clauses (*a*) and (*b*) of section 3, and section 5 as they have and perform for the purpose of the Indian Factories Act, 1911, the Indian Mines Act, 1923, and the Assam Labour and Emigration Act, 1901, respectively.

XII of 1911.
IV of 1923.
VI of 1901.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is twofold:—Firstly, it is intended to prohibit the employment of women in those industries the work in which is regulated by law, six weeks after confinement to enable them to leave work six weeks before confinement and to prevent them from being dismissed from service during the days of their absence from work due to their advanced state of pregnancy and confinement. Secondly, during the period of her absence due to the above-mentioned reasons a woman worker should be provided with financial help sufficient to maintain herself and the child in a healthy condition. The money necessary for this purpose is to be raised by the Local Government by levying contributions upon the industries covered by the Bill in the form of a small cess on the products of the industries or in some other convenient form to be decided by the Local Government. The amount to be given to each woman entitled to receive the benefit and the manner of payment and other matters connected with the Bill are left to be settled by the Local Governments by rules made by them.

The Bill seeks to carry out some of the proposals contained in the Draft Convention passed at the first International Labour Conference held at Washington in 1919. If India desires to secure her proper place among the civilised nations of the world she cannot plead her inability to treat her women workers in the way in which civilised nations are expected to do. Moreover, there seems to be a natural desire in the country

for rapid industrialization. But if industrialism is to be an unmixed blessing to the working classes timely provision must be made to avoid and counteract the evils incidental to the introduction of the new system. There is no doubt that if women continue their long and arduous work in factories, mines and other organised industries even in an advanced state of pregnancy and immediately after confinement their health and the health of their children will not fail to suffer.

Provision of maternity benefit during the days of enforced absence is necessary, as without such provision mere prevention of work will be a measure of doubtful utility. It is but fair that the financial burden of the provision of the maternity benefit should fall upon industries that employ women with their natural sex disabilities. Moreover, as only a small proportion of women out of the total number of women employed will be eligible for the maternity benefit during the course of the year, the incidence of the burden will be very small. To prevent women workers from being dismissed some time before they become entitled to the maternity benefit it is necessary that the maternity benefit should be paid out of the general fund and not by individual employers. As the welfare of labour is a Provincial subject it is only proper that the working out of the scheme for the maternity benefit should be left to Local Governments.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 83 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1925), are republished :—

PART I.

Closing of Ports.

Former Notice.—No. 1 of 1924 (*This Office No. 42 of 1924*) ; hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing movable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

Examination Service.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter ports or localities at home or abroad.

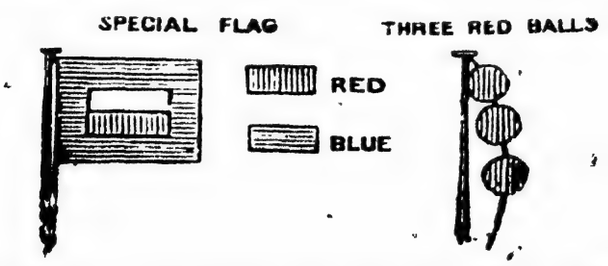
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service will probably be unknown to vessels desiring to enter the port, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any British port in the United Kingdom or abroad, serious delay and risk will be avoided if four efficient all round lanterns, two *red* and two *white*, are kept available for use.

(7) By day the distinguishing flag of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border).

Also, three red vertical balls if the port is closed.



Usually the Examination Steamers will fly the blue ensign, but in certain circumstances they may fly the white ensign.

By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the signal letters of their vessel ready to hoist immediately the Examination Steamer makes the signal: "What ship is that?"

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examining Officer :—

To lower any boat.
To communicate with the shore or with other ships.
To move the ship.
To work cables.
To allow any person or thing to leave the ship.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III.

Mine-Sweeping operations.

H. M. Vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

1. SIGNALS THAT WILL BE SHOWN BY DAY.

(*a*) By vessels working singly :

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen on that side on which it is dangerous to pass. (If a ball is shown at each yard-arm it is dangerous to pass either side.)

Vessels showing this signal should not be approached nearer than 900 yards (822^m9).

(*b*) By vessels working in pairs or groups :

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels should not pass within a distance of 400 yards (365^m8) astern of a pair or group of sweepers, or when more than one pair or group are working in company within a distance of 400 yards (365^m8) astern of the rear pair or group. They should on no account attempt to pass between pairs or groups working in company.

2. SIGNALS THAT WILL BE SHOWN BY NIGHT.

As for day, except that all round green lights will be used in a similar manner to and in place of the black balls.

Note.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Spring Oilseed Crops of Bengal for 1924-25.

(NOTE.—On an average of the five years ending 1922-23, the area under linseed in Bengal has represented some 4·5 per cent. and that under rape and mustard 15·9 per cent. of the total area under these crops in British India.)

Character of the Season :—As reported in the first forecast, the weather was not generally favourable in the early portion of the season owing to unequal distribution of rainfall. Subsequently dry weather during the month of December proved beneficial, while untimely rainfall in the following months adversely affected the mature crops. On the whole, the season has been an unfavourable one for the crop.

Area Sown :—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum, for which separate forecasts are issued) is returned at 881·900 acres this year, as against 881·300 and 882·500 acres, respectively, in the corresponding and final forecasts of last year.

Outturn :—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 73 per cent. of the normal as against 73 and 72 per cent. reported respectively in the corresponding and final forecasts of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Wheat Crop of Bengal, 1924-25.

[NOTE.—On an average of the five years ending 1922-23, the area under wheat in Bengal has represented some 0·4 per cent of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1922-23, averaged (*a*) 45·2 and (*b*) 14·1 per cent., respectively.]

Character of the Season.—As indicated in the first forecast, the rainfall in the early part of the season was adequate for preparatory tillage and for the sowing of the crop which commenced at normal time except in some northern districts and in parts of Faridpur, where it was somewhat late. The dry weather during the month of December proved beneficial to germination and growth while untimely rain in January and first part of February has affected the crop to some extent on comparatively low land tracts. In the important districts of Malda and Nadia, however, the crop suffered through absence of rain. The present outlook on the whole is satisfactory and the crop is expected to be fairly favourable.

Acreage.—According to District Officers' estimates, the total area shown is 126,200 acres this year as against 120,200 and 120,400 acres reported respectively in the corresponding and final forecasts of last year.

Outturn.—The Provincial outturn as worked out from district estimates, is 81 per cent. of the normal as against 63 and 62 per cent. reported respectively in the corresponding and final forecasts of last year.

REPORT ON PUBLIC INSTRUCTION IN BENGAL, 1923-24.

CHAPTER I.

Introductory.

1. **Institutions and pupils.**—This report sets forth briefly the progress of education in Bengal for the year ending 31st March 1924. The number of recognised and unrecognised institutions rose from 54,162 to 56,001 (42,761 for males and 13,240 for females) or by 1,839, and that of pupils attending them from 1,950,929 to 2,057,062 or by 106,133. Recognised institutions increased in number from 52,864 to 54,649; unrecognised institutions from 1,298 to 1,352. The number of pupils reading in recognised institutions rose from 1,906,225 to 2,009,827, or by 103,602; in unrecognised institutions from 44,704 to 47,235 or by 2,531. Of the total number of pupils in all classes of institutions 1,692,688 were males and 364,374 females; in the preceding year the corresponding figures were 1,602,134, and 348,795 for males and females, respectively.

2. **Different classes of recognised institutions.**—Of recognised institutions existing in Bengal on 31st March 1924, 59 (including the university classes) were arts or professional colleges, 955 were high schools, 1,664 were middle schools, 49,425 were primary schools and 2,546 were special schools. On 31st March 1923 there were 53 arts and professional colleges, 933 high schools, 1,718 middle schools, 47,688 primary schools and 2,472 special schools. Of the recognised institutions 373 were managed by Government and 3,465 by District and Municipal Boards; 42,800 were in receipt of aid from public funds and 8,011 were unaided.

3. **Expenditure on public instruction.**—The total expenditure on public instruction amounted, during the year under report, to Rs. 3,44,48,307 as compared with Rs. 3,31,42,296 in the preceding year. Of the total expenditure Rs. 1,30,09,486 were met from Provincial Revenues; contributions from District and Municipal funds amounted to Rs. 14,89,234 and Rs. 3,30,354, respectively; while Rs. 1,40,16,364 and Rs. 56,02,869 were met from fees and other private sources, respectively. The corresponding figures for the previous year were—from Provincial Revenues, Rs. 1,31,62,947; from District and Municipal funds Rs. 15,05,271 and Rs. 3,32,830, respectively; from fees Rs. 1,28,42,355; and from other private sources Rs. 52,98,893. Thus expenditure from private sources increased, while that from public funds slightly decreased during the year.

4. **Noteworthy features of the period under review.**—From the administrative point of view the year was on the whole uneventful, development in education, as in all other branches of the administration, being hampered by inadequate resources. Considerable alarm was caused among departmental officers of all ranks, by the action of the Legislative Council in refusing in March 1924 to vote a large portion, amounting to Rs. 6,35,400, of the sum required for the salaries of the inspecting officers of the department. This necessitated the issue of provisional notices of discharge on all those officers of the inspectorate whose salaries are subject to the vote of the Legislative Council. It is unnecessary here to discuss how far the vote was the product of the policy of obstruction, or how far it arose from a genuine if erroneous belief that Government can control a large school system and distribute large grants-in-aid without the assistance of a considerable inspecting force. So far as the reduction made was not the result of obstructionist tactics, it undoubtedly arose from the popular impression that too much money is expended on inspection having regard to the sum expended on other educational needs, an impression which the Retrenchment Committee's Report undoubtedly reinforced.

The revote of the grant in August last relieved the immediate difficulties which the reduction had caused. Since the episode under review, however, the strength of the inspecting staff has been brought under close scrutiny. The results of that scrutiny fall outside the scope of a report on the year ending 31st March, 1924. It is sufficient here to remark that educational administration cannot be carried on without the performance of a great amount of inspection work, agencies for which must expand as the number of schools increases. The problem is how to get that necessary inspection work done, and it is not yet proved that it can be done without the maintenance of a large special agency

for the purpose. Adjustments and modifications in organisation and minor economies, but no radical change, seem all that is possible at present.

Among measures of economy effected during the year the following may be mentioned :—

(*i*) Reduction in the staff of Government High Schools, certain Colleges, and the Sub-Inspectorate.

(*ii*) Reduction of Circle Schools to the status of Primary Schools, and the transfer of the control of Model Muktabs and Model Girl's Schools from Government to local committees.

(*iii*) Reduction in the allotment available for travelling allowances of inspecting officers, and contingent expenditure.

In days to come the year will, perhaps, be remembered as the year in which two important and long-pending schemes were revived. Under Sir P. C. Mitter's ministry the decision was taken to make a beginning with the construction of the Training College at Ballygunj—a welcome if unexpected, sequel to the reactionary proposals of the Retrenchment Committee, which believed that Bengal cannot afford training colleges. The advent of the Moslem ministry in the closing months of the period under review resulted in budget provision being made in March in order that a beginning might be made with the long-delayed Islamia College in Calcutta.

University reform was found impracticable, as also was the creation of a Board to control secondary education. In primary education there is little to record beyond the increase in the number of pupils and the adoption of a few schemes deriving their impetus and character from the suggestions of Mr. Biss.

The year was unfortunately noteworthy for the retirement, resignation or death of many prominent Bengal educational officers. A year in which Bengal lost the services of Mr. Hornell, Dr. Dunn, Dr. Harrison and Mr. Manmohan Ghosh among many others has a melancholy significance of its own.

CHAPTER II.

Controlling Agencies.

1. The agencies which exist at present for the control of the educational activities of the Presidency are the departmental staff and local and missionary bodies.

2. **The Indian Educational Service: (i) Men's Branch.**—On the 31st March 1923 the Men's cadre of the Indian Educational Service consisted of 68 appointments, including 3 posts in the higher selection grade, 10 in the lower, and 1 on a special rate of pay for the post of Principal, Government School of Art, Calcutta. No change was made, during the year under review, in the strength of the cadre. Of the European members of the service, Messrs. B. Heaton and C. E. Cullis retired on superannuation pension, and Dr. E. P. Harrison and Mr. J. A. Taylor on proportionate pension. Mr. E. H. Roberton and Mr. J. W. Holme proceeded on leave preparatory to retirement on proportionate pension. The services of Mr. R. N. Gilchrist were transferred permanently to the Department of Commerce with permission to retain a lien on the Bengal cadre of the Indian Educational Service.

(ii) Women's branch.—The number of appointments in the women's cadre of the Indian Educational Service on 31st March 1924 was the same as in the previous year, *viz.*, 4, including 1 post in the selection grade.

3. **The Bengal Educational Service: (i) Men's Branch.**—On 31st March 1923 the number of appointments in the men's branch of the Bengal Educational Service was 213 (208 permanent and 5 temporary posts). During the year under review two of them, *viz.*, the post of Headmaster of the Government School of Art, Calcutta, and that of a Professor of Sanskrit, Sanskrit College, were abolished. Thus the total strength on 31st March 1924 was 211 (206 permanent and 5 temporary posts).

(ii) Women's Branch.—On 31st March 1923 the women's branch of the Bengal Educational Service consisted of 20 appointments; this number remained unchanged during the year under report.

4. **The Subordinate Educational Service.**—On 31st March 1923 the strength of the Subordinate Educational Service consisted of 2,003 appointments on varying rates of time-scale pay. During the year under review 24 new posts were added to the cadre, and 232 posts were abolished. The Subordinate Educational Service, therefore, consisted of 1,795 appointments on 31st March 1924.

5. **Posts outside the classified lists.**—Twelve new posts were added, during the year under review, to the list of appointments outside the grades of the Subordinate Educational Service, which comprised on 31st March 1924, 490 appointments, including the post of Principal, Eden High School for Girls, Dacca.

6. **Direction.**—During the year under review the Director of Public Instruction was assisted, as previously, by the two Assistant Directors, one of whom dealt mainly with matters relating to Muhammadan Education. Mr. W. W. Hornell, Director of Public Instruction, proceeded on leave on 23rd January 1924 preparatory to retirement on proportionate pension and took up the position, of Vice-Chancellor, Hongkong University. In Mr. Hornell Bengal lost an administrator who had guided its educational destinies for eleven years, and who had the capacity, had he not been by the special circumstances of the time denied the opportunity, to effect that reform of the whole educational system which the Calcutta University Commission of which he was a member, showed to be so imperative. Dr. T. O. D. Dunn, who succeeded him, held charge of the department up to 21st February 1924, the date of his tragic death by drowning in the Hooghly, while crossing the river from Chinsura to Naihati in a country boat. Mr. E. F. Oaten, who was Assistant Director during the greater part of the year, has acted as Director of Public Instruction since Dr. Dunn's death. The writer of this report, who was for many years a colleague of Dr. Dunn, and for two short periods his subordinate, desires to place on record his keen sense of the loss which the cause of educational progress in Bengal has suffered through Dr. Dunn's early death. Education in Bengal, at this crisis in its history, when so much is waiting to be done, could ill-afford to spare the energy and administrative capacity which combined with scholarly attainments to make Dr. Dunn one of the striking personalities of the service. Mr. J. M. Bottomley performed the duties of Assistant Director of Public Instruction for Muhammadan Education (in addition to his duties as Principal, Calcutta Madrasah) during the whole of the period under review.

7. **Inspecting agency.**—The inspecting agency consisted of 418 officers on 31st March 1923. During the year under review 25 posts of Sub-Inspectors and 5 posts of Assistant Sub-Inspectors were abolished under the scheme for the retrenchment of educational expenditure. The table below indicates the numerical strength of the inspectorate, as it stood on 31st March 1924:—

Division.	Inspectors and Additional Inspectors.	Assistant Inspectors for Muhammadan Education.	District Inspectors of Schools.	Subdivisional Inspector of Schools.	Sub-Inspectors of Schools. 8. **Extra-departmental agencies.**—Among the extra-departmental agencies assisting in the development of education in the Presidency which deserve special mention are the District and Municipal Boards, whose activities are chiefly connected with Primary and Technical Education. Acknowledgments are also due to District and Subdivisional officers, many of whom are Presidents of the Managing Committees of Secondary Schools, for their cordial co-operation and assistance in educational matters. The various Christian Missions and the Society for the Improvement of the Backward Classes, Bengal and Assam, have rendered valuable service for the promotion and advancement of education especially that of girls and of backward classes.

CHAPTER III.

University and Collegiate Education.

1. **Universities.**—The numbers on the rolls of the Arts and Science classes of the Post-Graduate Department of the University of Calcutta on the 31st March 1924, were 1,051 and 199 students, respectively including 175 in the Commerce Department. The long-deferred reconstitution of Calcutta University on the basis of the recommendations made by the Sadler Commission is still receiving the consideration of Government. It was not found possible during the period under review to legislate. Grave divergence of view existed between Government and the authorities of the University, both parties producing abortive draft bills differing widely in character.

There were 761 students including 19 research students in the Arts and Science classes of the University of Dacca on the 31st of March 1924. A decision as to the Government buildings at Ramna to be handed over to the University of Dacca is still pending. The University continues to develop upon its own special lines.

2. **Board of Intermediate and Secondary Education, Dacca.**—The Intermediate Colleges under the control of the Board of Intermediate and Secondary Education, Dacca, were inspected during the year under report by two officers unconnected with the Board. The Board have added Elementary Economics to the list of Intermediate subjects, and have instituted an oral test in English. It has also been laid down that except in science subjects, for which laboratory work is provided, the maximum number of students to be taught together should not exceed forty. The narrowness of the geographical limits within which the Board works continues to hamper its usefulness, and "end or extend" perhaps sums up a very prevalent feeling on the subject of its activities.

The net cost to Government for the upkeep of the Board amounted to Rs. 22,514.

3. **Arts colleges.**—On 31st March 1924 there were in Bengal 36 arts colleges for men, and four (including the Intermediate Department of the Eden High School, Dacca) for women with 21,053 students as compared with 19,460 on the corresponding date of the preceding year.

The total cost of maintaining arts colleges rose from Rs. 28,26,146 to Rs. 29,56,126. Of the 40 arts colleges, 10 were maintained by Government, 17 were in receipt of subsidies from Provincial Revenues, and 13 were unaided. The average cost of maintaining an arts college amounted to Rs. 73,903. The average cost of educating a student in an arts college was Rs. 140-6-7 per annum, of which Rs. 57-10-10 was borne by Provincial Revenues.

Arts Colleges for Men.

4. **Number of colleges.**—On 31st March 1924 there were 36 arts colleges for men as compared with 34 on the 31st March 1923. The increase was due to the conversion of the senior Madrasahs at Dacca and Serajganj into Islamic Intermediate Colleges. Eight colleges were under Government management, the remaining 28 being conducted by private bodies.

5. **Number of students.**—The number of students reading in arts colleges for men rose from 19,219 to 20,805 of whom 17,656 were Hindus and 2, 756 Muhammadans; while 393 belonged to other communities. The corresponding figures for the preceding year were 16,169, 2,589 and 461, respectively.

6. **Expenditure.**—The total expenditure of arts colleges for men amounted to 28,39,808 of which Rs. 11,21,983 were met from Provincial Revenues; Rs. 15,28,115 from fees and Rs. 1,89,710 from other sources.

7. **Grants to private colleges.**—A sum of Rs. 1,29,000 was distributed by Government, in accordance with recommendations made by Calcutta University, among 22 private colleges, the grants being allotted mainly for the improvement of libraries and laboratories. The amount expended directly by Government as capital and maintenance grants to private arts colleges was Rs. 2,30,183.

8. **Government colleges: (1) Presidency College.**—On 31st March 1924 Presidency College had 899 students (including 198 University and 1 research scholars) on its rolls, compared with 960 on 31st March 1923. Of these students 724 were Hindus and 152 Mahammadans; the rest belonged to other communities. The cost of maintaining the college amounted to Rs. 4,85,862 of which Rs. 3,59,644 was borne by Provincial Revenues. The average annual cost of educating a student amounted to Rs. 541 of which Rs. 436 was met with Provincial Revenues.

The committee, which was appointed in October 1923, to advise Government with reference to various problems arising mainly out of the suggestions of the Bengal Retrenchment Committee, was unable to meet, as its President, the late Mr. Bhupendra Nath Basu, was engaged on the Lee Commission; a certain amount of preliminary work was, however, accomplished which facilitated its labours when, after the close of the period under review, it commenced its work under its new President, Sir Nilratan Sirkar.

9. **(2) Dacca Intermediate College.**—The Dacca Intermediate College had 318 students on its rolls on 31st March 1924 as compared with 357 on the corresponding date of the preceding year. Of these students 170 were Hindus and 148 Muhammadans. The total direct expenditure on the college amounted to Rs. 1,23,668 of which Rs. 95,214 was met from Provincial Revenues. The average annual cost of educating a student amounted to Rs. 358-7-3 of which Rs. 275-15-8 was provided from Provincial Revenues. Pending the construction of a building of its own the college continues to occupy the building previously occupied by the School of Engineering. The accommodation is inadequate and unsuitable.

Three new appointments—an Assistant Master of Geography, one Laboratory Assistant for Physics and one for Chemistry—were sanctioned on a temporary basis during the year under report for the improvement of the teaching of science. By the courtesy of the Provost of the Dacca Hall the students of the Dacca Intermediate College were allowed to use the Dacca Hall grounds occasionally for football, hockey and cricket The college year was marred by the death in February 1924 of its principal Rai B. N. Das Bahadur, whose connection with Dacca College (old and new) extended over nearly two decades. The discipline maintained was satisfactory.

10. **(3) Hooghly College.**—The Hooghly College had 273 students (against 258 in 1923) on 31st March 1924, *viz.*, 242 Hindus, 29 Muhammadans and 2 Indian Christians. The total direct expenditure amounted to Rs. 1,25,824 of which Rs. 1,04,202 came from Provincial Revenues. The average annual cost of educating a student was Rs. 843-15-0 of which Rs. 400-12-5 was borne by Government. During the year under report affiliation in Physics and Chemistry to the I. A. and B. A.—(pass) standards was withdrawn from the Hooghly College. As the college is affiliated in these subjects up to the I. Sc. and B. Sc. standards, students reading Physics and Chemistry do so in combination with the other subjects, which make up the complete I. Sc. or B. Sc. course.

11. **(4) Sanskrit College.**—The English Department had 73 students —all Hindus—on 31st March 1924 against 74 on the same date in the year preceding. In the Oriental or *Tôl* Department there were 42 pupils. The cost of the upkeep of the College Department amounted to Rs. 54,799, including Rs. 51,841 borne by Provincial Revenues. The average annual cost per student in the College Department amounted to Rs. 721-0-7 of which Rs. 682-1-10 was borne by Government. The centenary of the college was celebrated on 30th January 1924 in the presence of a large gathering of distinguished officials, non-officials and ex-students. His Excellency the Governor of Bengal presided over the ceremony. The committee constituted by Government in August 1923 to examine various problems connected with the Sanskrit College submitted an *interim* report in April 1924. The final report was delayed owing to the absence through illness of the President, the late Mr. Bhupendra Nath Basu. As a measure of economy one Lecturership in Philosophy and one in English were abolished in the College Department. In the Oriental Department the Lecturership in Kavya was abolished. These reductions of staff were made owing to the great decrease in the number of students.

12. **(5) Krishnagar College.**—Students on the rolls of Krishnagar College numbered 222 on 31st March 1924 against 181 on the corresponding date of 1923. Of these students 203 were Hindus, 14 Muhammadans and 5 belonged to other communities. The cost of maintaining the college, which amounted to Rs. 1,15,506, included Rs. 95,059 from Provincial Revenues. The average annual cost of educating a student was Rs. 555-5-0 of which Rs. 457-0-3 were provided from Provincial Revenues. Attendance at games has been made compulsory at the college. Regular weekly tutorial work and a system of periodical examinations have recently been introduced and are likely to contribute greatly to the success of the college in University Examinations.

13. **(6) Chittagong College.**—The Chittagong College had 546 students on 31st March 1924 compared with 455 on the corresponding date of 1923; 354 were Hindus, 158 were Muhammadans and 34 belonged to other communities. The total direct expenditure amounted to Rs. 1,09,431 of which Rs. 66,878 was provided from Provincial Revenues. The average annual cost of educating a student amounted to Rs. 219-4-9 of which Rs. 134-0-4 was met from Provincial Revenues. The inadequacy of class room, laboratory and hostel accommodation is the most pressing of the needs of the college, and until this difficulty is solved it will not be practicable to deal with the question of wider affiliation combined with general development, which is so urgently needed in the interests of the outlying corner of Bengal in which it lies.

14. **(7) Rajshahi College.**—There were 908 students on the rolls of Rajshahi College on 31st March 1924 as against 894 on the corresponding date of 1923. Of these students 691 were Hindus and 217 Muhammadans.

The total expenditure on the college amounted to Rs. 1,67,373 of which Rs. 87,914 came from Provincial Revenues. The average annual cost per student amounted to Rs. 195-4-10 of which Rs. 102-9-4 was borne by Government. A scheme for opening M. A. classes in History and Mathematics and also B. L. classes in connection with Rajshahi College as an experimental measure for three years was under consideration during the year under review, and there is every hope that the proposal will take shape in 1925-26. Rajshahi College is undoubtedly a college with a future. It owes much to local support, and will long bear the impress of its late principal, Rai Kumudini Kanta Banerji Bahadur.

The Rani Hemanta Kumari Sanskrit College attached to Rajshahi College had 18 students on 31st March 1924 and cost Rs. 3,433 during the year under report.

15. **(8) Islamic Intermediate College, Dacca.**—The Islamic Intermediate College at Dacca had 57 students on 31st March 1924. The expenditure incurred on the maintenance of the college amounted to Rs. 20,066 almost the whole of which was provided by Government. The average annual cost per student amounted to Rs. 334-1-0 of which Rs. 332-0-0 was borne by Government. The college receives successful candidates from the reformed senior Madrasahs of the Presidency, and prepares them for the Islamic Department of the University of Dacca, thus forming a valuable link between the reformed Madrasah system and the University. During the year under report the additional staff (3 lecturers and 3 teachers) required for the college was appointed.

16. **Enhancement of fees.**—In the year under review Government carried out a necessary reform by enhancing the fees at Hoogly, Krishnagar, Chittagong, and Dacca Colleges. The rate is now B. Sc., Rs. 8; B.A., Rs. 7; I. Sc., Rs. 7; and I.A., Rs. 6. The fees at Rajshahi and other Government Colleges remained unaltered, though in the case of some, notably Presidency College, some increase is probable. The cost of education has greatly increased in recent years, and fees cannot remain stationary in Government colleges without depressing the financial condition of the non-Government colleges which depend largely on fees, and cannot easily charge a higher rate than Government.

17. **Aided colleges.**—There were 16 aided private colleges for men with 8,582 students on the rolls on 31st March 1924 as against 14 colleges and 7,440 students reported last year. Of the total number of students 7,021 were Hindus 1,225 Muhammadans, the rest belonged to other communities. The cost of mainting aided colleges amounted to Rs. 8,85,669 of which Rs. 2,12,278 came from Provincial Revenues. The average annual cost of educating a student in an aided college amounted to Rs. 103-3-3 of which Rs. 24-11-9 was borne by Provincial Revenues.

18. **Unaided colleges.**—The number of unaided arts colleges for men was 12 with 9,125 pupils on 31st March 1924 as compared with 12 colleges with 8,400 pupils on the corresponding date of 1923. The total

expenditure on unaided colleges amounted to Rs. 7,51,611, the average annual cost per pupil being Rs. 82-5-11.

19. **Advisory Committee for Higher Education.**—By Government Resolution No. 22-Edn., dated 5th January 1924, a permanent Advisory Committee consisting of 17 members was established to act as a permanent advisory body to Government in their higher Educational policy. The main duties of the committee may be summarised as follows—(1) to co-ordinate the work of the two universities of Bengal; (2) to see that all unnecessary duplication in the work of the universities is avoided; and (3) to ensure that all available resources are distributed between the two universities in some equitable ratio. The committee held its first meeting in February 1924, when it discussed what figure ought to be adopted as the percentage of salary to be contributed to the provident fund of the staff of Dacca University, other provincial needs being borne in mind.

20. **Conclusion.**—The belief referred to in the last report that literary education has no market value tends to increase, and the landslide towards B. Sc. and I. Sc courses continues. Colleges, if they are to live, are forced to provide, often with great financial difficulty, expensive facilities for the new type of university course which are often beyond their resources. Within reason there is much ground for satisfaction in the diversification of college studies which is the result of the change. But the time has come to enter a "caveat" against some of the assumptions of the mass movement which is taking place. A science degree has probably no more strictly "vocational" value at least for most of those who take it, and may have less, than a degree in arts. The degree and the subject studied, are not the sole factor; the educational process through which the degree is attained is equally important. Badly taught and badly studied science is as valueless an instrument of education as badly taught or badly studied arts. While all men should know some science, it is by no means a form of education which, as a main subject, forms the best preparation for those professions which have in the past attracted and will certainly continue to attract the *bhadralog* of Bengal. If a man intends to be lawyer or a civil servant or a clerk or a journalist or to enter commerce in some form or other, it is probably not wise of him to study Chemistry or Physics or Botany until he is 23, save in exceptional instances. It is significant that the movement is so largely simply a reaction against arts classes. When an equal reaction sets in against science classes, as will one day be the case, when it is discovered that they, too, can lead to unemployment, the significance of the demand will be clear. The prevailing dissatisfaction with arts education is really, though disguised as a demand for science, an expression of dissatisfaction with the whole university system as such. It is a demand for good schools, for the transformation of the colleges especially in the intermediate stages into places of sound education, and for the modification of the educational system in the light of ascertained needs and existing realities.

CHAPTER IV.

Secondary Education.

1. **General statistics.**—During the year under review there was a further decline in the number of secondary schools of all types from 2,651 to 2,619; the decrease is due to the extinction of middle vernacular schools for boys. The number of pupils receiving instruction in secondary schools, however, rose from 340,266 to 352,181. The cost of maintaining the secondary school system amounted to Rs. 1,09,56,312 as compared with Rs. 1,06,53,565 in the preceding year. The average annual cost of maintaining a secondary school amounted to Rs. 4,183-6-4, the cost per pupil being Rs. 31-1-9.

Secondary Education for Indian Boys.

[The secondary education of Indian girls and Europeans is dealt with in the appropriate chapters.]

2. **Schools and pupils.**—The number of secondary schools for Indian boys declined from 2,533 to 2,498. High and Middle English schools increased by 22 and 38, respectively; while Middle Verancular schools decreased by 95. The unpopularity of purely vernacular education and the reduction during the year of the circle schools in status account

chiefly for this large decrease in Middle Vernacular schools. High schools gained 8,624, Middle English schools 7,035, pupils, respectively; but Middle Vernacular schools recorded a loss of 4,422 pupils.

3. **Expenditure.**—The direct expenditure on secondary schools for Indian boys amounted to Rs. 89,91,941 of which Rs. 16,99,228 was provided from public funds and Rs. 72,92,713 was met from private sources. In 1923 contributions to secondary education from public and private funds amounted to Rs. 17,32,653 and Rs. 69,74,854, respectively. High English schools cost Rs. 68,66,763; Middle English schools cost Rs. 20,39,457; and Middle Vernacular schools Rs. 85,721, respectively: thus expenditure increased in High and Middle English schools and decreased in Middle Vernacular schools.

4. **Manual instruction.**—Manual Training Classes, as was the case last year, were carried on in conjunction with 22 secondary schools. No new class was opened during the year, funds not being available. Classes in spinning, weaving and other industrial pursuits, which were started in connection with secondary schools as a result of the non-co-operation movement, are gradually disappearing. Hidden away in a corner of the lumber room of the school, the visitor will often find a spinning wheel or even on occasion a discarded typewriter, relics of the time when a false educational theory, attractive because it was the reflection, though the false reflection, of an educational truth, overwhelmed the schools, and for a time tended to obscure their true function.

5. **High schools under the Board of Secondary Education, Dacca.**—A comprehensive inspection of the high schools under the control of the Board of Secondary Education, Dacca, was carried out on behalf of the Board by inspecting officers of the department. A medical examination of a certain proportion of the school boys was also conducted at the instance of the Board by the Health Officer of the Dacca Municipality.

The future of the Board is a question which gives its Chairman and members, as well as Government, much food for thought. The small area which the Board controls is a source of great inconvenience in many ways. Its efforts to introduce new ideals are largely frustrated owing to the case with which students who dislike them can escape outside the area. The long delay in the establishment of the larger Provincial Board is slowly leading in Dacca to the sort of feeling embodied in the phrase "end or extend". It is greatly to be hoped that before this report is written next year, it will be possible to report that some advance has been made in this connection and that the Dacca Board will have been merged in that larger Board which the Commission regarded as essential in the interests of Secondary Education in Bengal.

6. **Provident fund for teachers in non-Government schools.**—A scheme has been submitted to Government for the introduction of provident funds in High and Middle English schools. What is really wanted even more however is more money for wide extension of the grant-in-aid system.

7. **The problem.**—The general problem of secondary education for boys in Bengal remains in the same hopeless condition as that outlined in previous reports. The 900 odd schools, which the University considers to be fit to give an education which the University can recognise, pay in most cases totally inadequate salaries, and are miserably equipped for the work which they do. The Commission considered a new recognising authority and large grants-in-aid to be a prerequisite of any real reform. Bengal has not yet created the one, and there seems little prospect of the other. The first prerequisite—the Board—is in some shape or other probably not far off. The requisite money without which a really efficient system of secondary education is out of the question can only come from three sources. One source is Government in the shape of grants-in-aid,, *i.e.*, from taxation, probably new taxation; the second is fees from parents; the third is private donations and endowments. Additional payment, additional subscriptions, by some body, from some source, are inevitable, if Bengal desires efficient schools. It can of course choose the alternative of continuing to try to build up its school system on a foundation consisting of half-starved teachers, three quarters of whom are anxious, and rightly anxious, to escape from a profession which in most cases leaves them without pride in the present or hope for the future. Increased taxation, increased fees, increased endowments, these are what the reformer who demands an improved school system is really demanding. It is for Bengal to realise this and for her politicians to tell her the truth.

CHAPTER V.

Primary Education.

1. **General statistics.**—At the end of the year under review there were in Bengal 49,425 primary schools for boys and girls with 1,546,402 pupils against 47,688 schools, which had 1,465,107 pupils on the rolls on 31st March 1923. The total expenditure on primary schools amounted, during the year under review, to Rs. 56,73,154 as compared with the expenditure for the previous year, which was Rs. 54,51,741. Each primary school cost annually Rs. 114-12-6 on an average, and the cost per pupil was Rs. 3-10-8.

Primary education of Indian boys.

[The primary education of Indian girls and Europeans is dealt with in other chapters.]

2. **Schools.**—The number of primary schools for Indian boys rose from 35,371 to 36,578, an increase of 1,207. The subjoined table shows the number of primary schools for boys in existence on 31st March 1924 in each division of the Presidency with their enrolment:—

	Number of primary schools in 1923-24.	Number of pupils in primary schools in 1923-24.
Burdwan	8,273	259,084
Presidency (excluding Calcutta) ..	6,215	227,363
Calcutta	346	20,517
Dacca	9,091	321,789
Chittagong ..	5,679	209,117
Rajshahi	6,974	218,034
Total ..	36,578	1,255,904

3. **Pupils.**—The year under review closed with 1,255,904 pupils (including 53,198 girls) reading in primary schools for Indian boys. In the preceding year pupils in boys' primary schools numbered 1,189,606, including 53,117 girls. The enrolment in primary schools for boys therefore increased during the year under review by 66,298. Besides these pupils there were 152,468 pupils under instruction in the primary departments of secondary schools against 150,834 in the previous year. Pupils reading in boys' primary schools and in the primary departments of secondary schools together numbered 1,408,372 during the year under report as compared with 1,340,440 pupils in 1922-23, an increase of 67,932 children.

4. **Relative progress of Hindus and Muhammadans.**—Hindu and Muhammadan pupils attending primary schools for Indian boys numbered 575,637 and 657,204, respectively, on 31st March 1924. The corresponding figures for the preceding year were 558,995 and 612,470. Thus the number of Hindu pupils rose by 16,642, and of Muhammadan pupils by 44,734. Of the total male Hindu population 5·5 per cent. and of the Muhammadan population 5·07 per cent. were in primary schools; the percentages for the preceding year were 5·4 and 4·7 respectively.

5. **Expenditure.**—The total cost of maintaining primary schools for Indian boys was during the year under report Rs. 46,87,765, compared with Rs. 44,80,531 in the preceding year. Of this expenditure Rs. 23,04,821 or 49·16 per cent. and Rs. 23, 82,944 or 50·84 per cent. were contributed by public funds and private sources, respectively. In the year 1922-23 the contributions from public and private funds represented 50·79 and 49·21 per cent., respectively, of the total expenditure on primary schools for boys. The expenditure from public funds comprised Rs. 15,24,200 contributed by Provincial Revenues, and Rs. 6,67,786 and Rs. 1,12,835 by District and Municipal Funds, respectively. The corresponding figures for the previous year were Rs. 15,35,851, Rs. 6,45,173 and Rs. 94,641.

6. **Panchayati Union schools.**—Funds were allotted during the year 1923-24 for the construction of 65 Panchayati Union schools for boys and 27 schools for girls. The scheme makes but slow progress owing to want of funds. These schools require more careful supervision on the part of the District Inspectors. The District Boards have been addressed on the future of these schools, and the scheme is in general under review.

The Inspector of Schools, Chittagong Division, is of the opinion that the money now spent on the construction of Board primary schools might be utilised with greater advantage for the extension of the aided school system. The financial stringency of the times and the vastness of the primary education problem compel us to attempt to obtain the last ounce of power from our available resources, and if it can be ascertained that with the co-operation of local bodies some modification of the existing approved scheme would give us more and better schools for the same expenditure the necessary changes must be made.

7. **Primary schools under Mr. Biss's scheme.**—During the year under review there was a provision of Rs. 75,000 in the Education Budget for giving effect to the scheme of central primary schools formulated by Mr. Biss. Government agreed to contribute one-half of the recurring and capital expenditure required for starting schools. Only 6 municipalities and 10 unions accepted the offer. A sum of Rs. 43,524 was accordingly sanctioned for the purpose. Of the free primary schools started in the Province the school at Zinzira, Dacca District, is reported to have achieved conspicuous success; it had 8 teachers and 322 pupils on 31st March 1924, the annual cost of upkeep being Rs. 2,700. No schools have yet been started anywhere on a compulsory basis.

8. The criticism of Mr. Biss's scheme which is generally made is that it is too expensive. No doubt it is, in comparison with current ideas as to what primary education should cost. But the department lays no stress on the precise details of his proposals; it welcomes cheaper modifications if District Boards and Municipalities will produce them, and finance their share. This last is the crux, as also would be Government's share, if local bodies came forward to any great extent. What is wanted is a general recognition of the fact that Bengal cannot get universal literacy without the expenditure of a large sum of money, and that this money must come from the pockets of the people. When this is universally recognised, both by members of the Legislative Council and by those of District Boards and Municipalities, there will then be some hope of a move forward.

9. **Primary education in Calcutta.**—The condition of primary schools in Calcutta continues to be unsatisfactory; slender resources and high rents are said to be mainly responsible for this state of things. On 31st March 1924 there were in the city 346 primary schools for boys with 20,517 pupils including 1,628 girls. Of these 12,822 were Hindus and 7,563 Muhammadans. Boys reading in primary schools and in the primary departments of secondary schools in Calcutta together numbered 29,432 on the 31st March 1924. Of the direct expenditure on primary schools, which amounted to Rs. 1,70,324, Rs. 70,510 came from public, and Rs. 99,814 from private, sources. Out of 20 free primary schools opened by the Corporation of Calcutta, *viz.*, 11 in 1922-23 and 9 in 1923-24, 2 had to be closed at the end of the year under review, as the numerical strength of these schools failed to reach 100, the minimum standard fixed by the Corporation. With the exception of one which has a suitable building of its own, these free primary schools meet in the mornings in the premises of existing high, middle or primary schools. The majority of the schools are fairly well attended by children of the poorer classes. Nothing but a dominant and overmastering resolution on the part of the whole literate and well-to-do classes that illiteracy must and shall end within a resonable time in the second city of the Empire, accompanied by its necessary concomitant, a willing and ungrudging assumption of the financial burden involved, can ever solve the problem of primary education in Calcutta.

10. **Curriculum.**—The revised curriculum was in force in all the districts of the Presidency except six, as mentioned in the last annual report. The revised syllabus which has been simplified by the exclusion of Geometry and the introduction of English as an optional subject has proved to be generally popular.

11. **General remarks.**—There is a consensus of opinion that the present system of primary education has many serious defects and that the following measures are desirable:—

(1) An increase in the pay of teachers.
(2) The appointment of a larger number of trained teachers in existing primary schools.
(3) The restoration of the public examination.
(4) The introduction, wherever possible, of free primary education.

12. **School post offices.**—The number of teachers who worked as Postmasters, during the year under review, was 544 against 551 in the

preceding year. The decrease was due apparently to retrenchment and readjustment of work in the Postal Department. The remuneration for postal work varied from Rs. 3 to Rs. 16 a month. The performance of postal work necessarily interferes with the legitimate duties of the teachers, but is in existing conditions a convenient expedient.

CHAPTER VI.

The Training of Teachers for Indian Schools.

A—The Training of Men Teachers.

1. **Training Colleges, General.**—The two training colleges at Calcutta and Dacca, which train teachers of Secondary Schools for the B T. degree and the L. T. diploma, recorded an enrolment of 92 students on 31st March 1924 as against 125 on the corresponding date of 1923. This decrease in numerical strength was due mainly to reduction effected during the year under report in the number of stipends available for outside candidates. The training of subordinate inspecting officers and of Government school teachers having been almost completed, the bulk of the pupils admitted to the two training colleges last session were teachers of private schools, and a few graduates or students who desired to become teachers.

2. **The David Hare Training College.**—Twenty-five B. T. and 10 L. T. students were on the rolls of the David Hare Training College on 31st March 1924. The total cost of upkeep amounted to Rs. 49,192 as compared with Rs. 56,952 spent for the purpose in the preceding year. In the B. T. and L. T. Examination the College passed 13 and 7 students out of the 27 and 16 candidates sent up respectively. The arrangements for practical work, physical education and residence continued without change. A sum of Rs. 1,75,000 was provided in the budget estimates of 1924-25 for the construction of the new Training College buildings at Ballygunj.

A course of lectures on hygiene was organised by the Bengal Social Service League for the benefit of the students under training.

3. **The Teachers' Training College, Dacca.**—Of the 57 (45 B. T. and 12 L. T.) students, who were under training at the Teachers' Training College, Dacca, on 31st March 1924, 38 belonged to Bengal, 18 came from Assâm and 1 from Hill Tippera. There were also 3 research scholars pursuing their studies at the college for the M. T. degree. The College cost Rs. 82,064 in direct expenditure as compared with Rs. 47,909 in the previous year. Forty-nine candidates were presented for the B. T. and 12 for the L. T. Examination; 44 passed the B. T. Examination and all the candidates for the L. T. Diploma were successful. The revised curriculum of the University of Dacca came into force last session. More importance is now attached to Special Subjects and Method, and less to Educational Psychology and History of Education.

4. **Vernacular Training Schools.**—Of the 6 Normal or First Grade Training Schools in Bengal 5 were Government institutions, and 1 was an aided school. These schools had 399 pupils on the rolls on 31st March 1924 as compared with the enrolment for the preceding year which was 435. The expenditure incurred on the upkeep of the Vernacular Training Schools amounted last session to Rs. 1,11,757 of which Rs. 1,06,264 came from Provincial Revenues. The figures for the preceding year were Rs. 1,11,920 and Rs. 1,06,969, respectively.

Out of 212 candidates, who appeared at the Final Examination, 181 passed the test.

The Calcutta Training School was removed during the year under report to European Asylum Lane. The scheme for the reorganisation of Vernacular Training Schools has not yet been approved by Government. The time has arrived when the minimum education qualification for admission into normal schools should be the Matriculation Certificate of an Indian University, or a corresponding school final examination. The rate of stipends paid in Training Schools in Bengal (*viz.*, Rs. 7 in Calcutta and Rs. 6 in the mufussal) is inadequate as compared with the monthly stipend of Rs. 10 paid in Guru Training Schools. It has not been possible to increase the rate owing to insufficiency of funds. The importance of normal schools is stated to have diminished with the opening of Guru Training Schools of the improved type. Reorganisation of the normal schools has been suggested with a view to provide a course more suited to the needs of matriculate teachers.

5. **Guru and Muallim Training Schools.**—On the 31st March 1924 there were 99 Guru and Muallim Training Schools in the Province with

1,740 pupils, against 99 schools with 1,850 students on the 31st March 1923. Of the 99 schools 5 were aided; the rest were managed and maintained by the Department. The total cost of maintenance amounted during the year under report to Rs. 2,96,017 including Rs. 2,82,979 borne by Provincial Revenues. The figures for the preceding year were Rs. 3,12,999 and Rs. 2,96,328, respectively. Out of 1,635 candidates who appeared in the Final Examination from Guru Training Schools 1,261 were successful; the figures for the preceding year were 1,746 and 1,423, respectively. It was decided to build central Guru Training Schools of the improved type at Midnapur, Burdwan, Suri, Howrah, Krishnagar, Khulna, Jessore and Berhampore.

B—The Training of Women Teachers.

6. **Training Colleges for Women.**—The scheme for the establishment of a college for the training of women teachers employed in secondary schools is still in abeyance. Eight ladies were under training on 31st March 1924 in the Training Class attached to the Diocesan College. This college presented 6 candidates for the B. T. examination, all of whom were successful. From the Loreto House Training Class 4 candidates appeared at the L. T. examination and all of them passed. "Most of the trained women teachers," says Miss Brock, "proceed up-country where higher salaries are offered to them." The moral is obvious.

7. **Training Schools for Women.**—On the 31st March 1924 there were in the Province 11 Training Schools and Classes (with 189 pupils) which had facilities for training women teachers employed in primary and the lower classes of secondary schools. The corresponding figures for the previous year were 12 and 195, respectively. The decrease in the number of schools last year was due to the abolition of the English training class attached to the Eden High School for Girls, Dacca, owing to the moribund condition into which it had fallen. Eight of these institutions were managed by Christian and Brahmo Missions. The total maintenance charges of these schools amounted to Rs. 71,323 of which Rs. 59,623 came from Provincial Revenues, the figures for the preceding year being Rs. 84,309 and Rs. 73,522, respectively. The Training Class for Moslem Women Teachers, Calcutta, having proved a success, the permanent retention of the school on a reorganised basis is contemplated.

The results of the examinations held during the year 1923-24 are embodied in the subjoined table:—

	Candidates presented.	Candidates passed.	
(1) Senior Vernacular Teachership Examination ..	30	29	West Bengal.
(2) Junior Vernacular Teachership Examination ..	68	43	
(3) Teachership Examination ..	33	20	East Bengal.

8. **General.**—The Retrenchment Committee showed itself hostile to the expenditure of public funds on the training of teachers. Teachers, said the Committee, are born, not made, and much of the material is untrainable. So in a new clime and under another sky do old battles which were long ago fought to a finish have to be refought over again, and, fortunately for educational progress, with the same result. Admitting the fundamental contention of the committee that the material available should be improved by inducing a better type by the offer of higher salaries, the question still remains what is to be done if this cannot be achieved all at once? The answer is that which England gave 70 years ago. Get the best material you possibly can for the teaching profession; if it is bad, training will make it less bad; if it is good, training will make it better. The Retrenchment Committee was a blessing in disguise to the principle of training. The Government of Bengal reacted so strongly against the conclusions of the committee that it decided to build 8 new-type Guru Training Schools, and to proceed with the long-delayed scheme for a new David Hare Training College for secondary teachers, and the year under review is memorable as the year in which budget provision for a start with these schemes was made by Council.

CHAPTER VII.

Professional and Technical Education.

1. **Law Colleges and Classes.**—As in previous years there was provision for the study of law in the Calcutta University Law College and in the Law Departments of the Ripon College and the University of Dacca. The number of students in the three institutions rose from 2,739 to 3,140 of whom 2,709 were Hindus, 406 were Muhammadans and 25 belonged to other communities. The total expenditure on the Calcutta University Law College and the Law Department of the Ripon College amounted to Rs. 2,27,683 as compared with Rs. 2,13,809 in 1922-23: the expenditure incurred on the Law Department of the University of Dacca, which has not been shown separately in the University returns, has been included in the tables under the head " University ". Of the 1,508 candidates who appeared at the B. L. Examination 533 were successful.

2. **Medical Colleges and Schools.**—There were 3 colleges in Bengal for the study of medicine, *viz.*, the Calcutta Medical College, the Carmichael Medical College, Belgachia, and the School (strictly College) of Tropical Medicine. These institutions together had 1,708 students (including 18 women) on 31st March 1924 against 1,710 pupils on the corresponding date of 1923. Of these students 1,527 were Hindus, 125 were Muhammadans, 40 were Christians and 16 of other creeds. The total cost of maintaining the three institutions amounted to Rs. 9,87,741 as compared with Rs. 9,87,344 in the year 1922-23. The three colleges presented altogether 538 candidates at the Final Examination. Of these 270 were successful.

On the 31st March 1924 there were in the Presidency 5 medical schools and classes with 1,478 pupils (including 36 women) on the rolls as against 7 medical schools with 1,664 students in 1922-23. The apparent loss of two medical schools is due to the fact that two such institutions have been returned as unrecognised schools. Medical schools cost altogether Rs. 2,49,813 as against Rs. 2,43,528 in the year preceding. Of 377 students who sat for the Final Examination, 265 were successful.

3. **The Bengal Engineering College.**—On the 31st March 1924 the Bengal Engineering College, Sibpur, had an enrolment of 293 students as against 299 students on the corresponding date of 1923, *viz.*, 123 in the Civil Engineering classes, 125 in the Mechanical and Electrical Engineering and Mining classes and 45 in the Industrial classes. Of these students 249 were Hindus: 19 were Muhammadans and 25 were Anglo-Indians. The college entered 23 candidates for the B. E. and 49 candidates for the I. E. Examination. Of the former 18, and of the latter 28, were successful. The total cost of the upkeep of the institution amounted during the year under review to Rs. 3,08,001 including Rs. 2,72,706 from Provincial Revenues; the corresponding figures for the preceding year were Rs. 3,03,180 and Rs. 2,69,527, respectively. The value of the outturn of work from the college workshops amounted approximately to Rs. 14,500.

The Professorship of Civil Engineering has been vacant since the appointment of Mr. Richardson as Principal; the Mining Professorship also fell vacant in January 1924 when Mr. Roberton proceeded on long leave preparatory to retirement on proportionate pension. Mr. Roberton was a valuable member of the staff and his place as a capable instructor and trusted friend of the students will not easily be filled. Visiting lectures were delivered on Irrigation and Sanitary and Structural Engineering. Out of the sixteen telegraphists, who were deputed to the college for training, 15 completed their course. Twenty-six students appeared at the Final Examination in Mechanical and Electrical Engineering and Mining and of these 20 were awarded certificates. The construction of the new barrack for Anglo-Indian students and the installation of the sewerage system were in process of completion during the year under review. There is, no doubt, that the Bengal Engineering College is one of Bengal's most valuable educational assets, and Bengal will do well to spare no money to equip it with all that is necessary for its work.

4. **The Ahsanullah School of Engineering.**—The Ahsanullah School of Engineering, Dacca, had 481 students (257 in the Upper Subordinate, 130 in the Lower Subordinate and 94 in the Artisan Classes) on the rolls on 31st March 1924 against 417 in the preceding year. Of these students 432 were Hindus, 47 were Muhammadans, 1 was an Indian Christian and 1 a Buddhist. Twenty-six passed students, who were under practical

training in the school workshops, are excluded from this total. The cost of the upkeep of the school amounted to Rs. 1,04,679 of which a sum of Rs. 79,388 was met from Provincial Revenues. The corresponding figures for the preceding year were Rs. 96,216 and Rs. 78,633, respectively. The pressure of admissions necessitated the opening of additional sections in connexion with the Upper Subordinate classes. Proposals for the permanent duplication of the Upper Subordinate classes are under the consideration of Government. A sum of Rs. 40,000 has been sanctioned for the capital expenditure involved in the duplication of the classes in question. The rate of tuition fees charged in the Upper and Lower Subordinate Departments was raised from Rs. 3 to Rs. 5 per month with effect from 1st December 1923. The demand for hostel accommodation was met, to some extent, during the year under report, by hiring four private houses in the town, but the necessity for building the large new hostel contemplated when funds permit remains urgent. Nine out of 20 candidates passed the Pleaders' Survey Examination from the Dacca centre. The total value of the work done by the school workshop amounted to Rs. 7,479 during the year under report. Artisan students received as before half the amount of the value of their labour. The results of the Final Examination are noted below:—

	Presented.	Passed.
(1) Upper Subordinate Examination (Part B)	71	55
(2) Upper Subordinate Examination (Part A)	98	49
(3) Lower Subordinate Examination ..	65	43

5. **The Survey School at Mainamati.**—The Survey School at Mainamati, which was under the control of the Director of Industries, Bengal, had on 31st March 1924 an enrolment of 80 students—53 in the first year and 25 in the second year classes and 2 kanungoes against a total enrolment of 51 on the corresponding date of 1923. The cost of upkeep amounted during the year under review to Rs. 14,736 of which Rs. 11,164 was met from Provincial Revenues; the corresponding figures for the preceding year being Rs. 12,712 and Rs. 10,013, respectively. The construction of a permanent building for the school has received administrative approval, but has not been taken in hand. It is proposed to revive the original scheme of training 8 passed students annually in mine-surveying in the coal-fields. Twenty-one students sat for the Final Survey Examination of whom 19 passed. In the Amin Examination 21 out of 29 students passed.

6. **The Government School of Art, Calcutta.**—The Government School of Art, Calcutta, which has been retransferred to the control of the Education Department, had an enrolment of 340 students including 29 students of other Provinces and States on 31st March 1924. Of these students 315 were Hindus, 11 were Muhammadans and 14 were members of other communities. The maintenance charges amounted to Rs. 49,735 of which Rs. 45,244 was met from Provincial Revenues. The cost of upkeep of the Art Gallery amounted to Rs. 8,068. During the year under report 26 students secured appointments on rates of pay varying from Rs 30 to Rs. 200 a month. Students (both past and present) exhibited a number of paintings, portraits and landscapes which were much appreciated at the Bengal Art Society's Exhibition and the Calcutta Exhibition. The architectural section was responsible for a design for the Mrs. Graham Memorial Entrance at Kalimpong and the design section for a certificate for the Calcutta Exhibition. The school continued to receive from District Boards and other local bodies the usual support in the form of scholarships and stipends.

7. **The Government Commercial Institute.**—The Government Commercial Institute, Calcutta, which has been retransferred to the control of the Education Department, had on its rolls 349 students on 31st March 1924 as compared with 332 on the corresponding date of 1923. One hundred and fifty-three pupils joined the Day Classes and 514 the Evening Classes last session. The total expenditure for the year amounted to Rs. 54,721 including a sum of Rs. 34,554 which was met from Provincial Revenues as against Rs. 41,870 in the preceding year. Forty-seven students, of whom 19 passed, appeared at the Final Commercial Course Examination. In the Special Examination 77 students passed out of 113 who presented themselves. The sanction of Government was accorded, during the year under report, to the raising of the stationery

allotment of the Institute subject to the levy of a fee of one rupee annually from each student of the Typewriting Class. The tuition fee charged in the Day Classes was raised from Rs. 3 to Rs. 5 a month. The committee appointed by Government to draw up a scheme for instituting a separate Examination in Accountancy in Bengal under the control of the Commercial Institute submitted a report, which is now under the consideration of Government. Arising out of the Retrenchment Committee's proposal that the Institute should be deprovincialised and given a fixed annual grant, the whole future of the Institute came under review, but no decision had been reached at the close of the period under review.

8. **The Government Weaving Institute, Serampore.**—The Weaving Institute, Serampore, had 118 students on 31st March 1924 as compared with 163 on the corresponding date of 1923. The abolition of the system of stipends has adversely affected recuitment for the higher classes which are attended by *bhadralog* of the poorer classes. The cost of the upkeep of the Institute amounted to Rs. 45,251, of which a sum of Rs. 44,609 was met from Provincial Revenues as compared with Rs. 42,163 in the preceding year. Fifteen out of 24 students who appeared in the Final Examination were awarded diplomas. Fifty-two students appeared at the last London City and Guilds Examination and of these 39 were successful, 3 being awarded Bronze Medals for proficiency. Four out of the six women who passed out of the Institute last year have been engaged as teachers by different Missions. Other successful students of the Institute have either found suitable employment or have started in business on their own account. During the year under report the Institute conducted demonstrations at important centres in improved appliances and participated in the Exhibitions held at Suri, Guptipara, Dacca and Calcutta. Special efforts were made to introduce fly-shuttle looms amongst the silk-weavers of Vishnupur, Malda, Bogra and other places. There were 14 outlying and peripatetic centres for imparting practical instruction in weaving.

9. **Vocational courses at other centres.**—The following statistics illustrate the progress made in vocational courses pursued at other centres :—

Centre.	Subject.	Number of candidates that appeared in the final examination.	Number of passes.
Jagannath Intermediate College	Intermediate Examination with Dyeing	84	38
Ditto ..	Commerce	77	42
Calcutta University ..	B—Commerce Examination ..	103	49
Dacca University	B—Commerce	28	24

10. **"B" Classes.**—The "B" classes were attached to 5 High English schools in the Province. Of 41 candidates sent up to the Final Examination 26 were declared successful. It is regrettable that the general demand for the biassing of the school curriculum in a less literary direction has not increased the popularity of these classes, but so long as they compete with an easy Matriculation and do not lead to the University, little change can be expected.

11. **The Vocational Education Committee, Dacca.**—The Dacca Vocational Education Committee completed its work during the year, and submitted its report to Government on 15th January 1924. The report is now under consideration. Full discussion of the report must wait until next year's review, but it may be stated now that it makes it clear, though this was already obvious, that vocational education cannot be cheap and involves much new expenditure, and that it is in general waste of money and labour to prepare students for vocations that do not exist or are already overstocked. It disabuses the amateur educationist who would introduce vocational education into high schools as anything but a part of the general educational process, and throws doubt on the belief of the Sadler Commission that at the intermediate stage vocational education can be so combined with general education as to produce a worker competent to earn his living with the vocation which he has learnt at the close of that stage.

CHAPTER VIII.

Education of Indian Girls and Women.

1. **Institutions and pupils.**—Recognised institutions of all grades and types for girls increased in number from 12,429 to 12,961 or by 4·3 per cent.; and the number of pupils attending them rose by 15,614 or 5·4 per cent. Of the 301,997 pupils (excluding 54,096 girls enrolled in boys' schools) reading in recognised schools for girls 128,037 were Hindus and 166,339 were Muhammadans; the rest belonged to other communities. There were 243 unrecognised schools for girls, which had 6,888 pupils on the rolls, *viz.*, 3,301 Hindus, 3,311 Muhammadans and 276 of other creeds, during the year under review.

2. **Controlling Agency.**—There was no change in the Women's Inspectorate which consisted of 2 Inspectresses and 12 Assistant Inspectresses of Schools; of the latter 6 were employed in East and 6 in West Bengal.

3. **Collegiate Education, Arts Colleges.**—The number of Arts Colleges for women, including the Intermediate Classes of the Eden High School, was 4, 3 of them in Calcutta. The Bethune College and the Eden High School at Dacca are maintained by Government. The Diocesan College, Ballygunj, is an aided institution. The remaining institution, Loreto House, Calcutta, receives no financial assistance from Government.

On 31st March 1924 the Bethune College had 134 students on its rolls as against 120 on the corresponding date of the year preceding. Certain desirable reforms in connection with the college have been postponed for lack of funds. The college has recently secured affiliation in Chemistry up to the I. Sc. Standard and in Philosophy and Mathematics up to the B. A. Honours Standard. A new hostel subsidised by the department was opened in the vicinity of the college under the auspices of the Brahmo Samaj. This institution has relieved, in some measure, the pressure on the college hostel, the inadequacy of which is one of the greatest problems of the college. Out of 17 candidates who appeared in the B. A. Examination 12 were successful. Thirty students of whom 26 were successful were presented at the I. A. Examination. The total cost of maintaining the college and the attached hostel amounted to Rs. 71,326 as compared with Rs. 88,355 in the preceding year. The average annual cost of educating a student amounted to Rs. 524-7-2.

The Diocesan College and Loreto House had 64 and 25 students, respectively, on the rolls on 31st March 1924 as compared with 76 and 22 on the corresponding date of the preceding year. The two colleges cost Rs. 20,422 and Rs. 8,270, respectively, during the year under report. The Diocesan College passed 19 candidates out of 20 presented at the B. A. Examination, and 20 out of 21 at the I. A. Examination. Loreto House sent up 9 students for the I. A. Examination, all of whom were successful.

The Intermediate Classes of the Eden High School, Dacca, had 25 students on the rolls on 31st March 1924, against 23 in the preceding year. Nine candidates appeared at the Intermediate Examination in Arts; all of them were successful. The cost of the maintenance of the College Department amounted to Rs. 16,300.

4. **Secondary Education: (1) High Schools.**—The number of High English schools for Indian girls rose from 13 to 14. The increase is accounted for by the conversion of the Middle English school at Kalimpong into a High School. There were 3,166 pupils reading in High Schools for girls as compared with 2,881 in the preceding year. Of the 14 schools 4 were managed by Government and the rest were aided institutions. A systematic medical inspection of the Bethune Collegiate School conducted by Dr. (Miss) Cohen of the Public Health Department revealed the distressing fact that a large proportion of the pupils suffer from defective eye-sight, bad teeth and throat trouble. It is little consolation to know that a recent report on schools in England says much the same thing.

(2) Middle Schools.—On the 31st March 1924 there were 35 Middle English schools for girls with 4,482 pupils; the corresponding figures for the preceding year were 32 and 4,050, respectively. The number of Middle Vernacular schools for girls remained stationary at 27; but

the number of pupils reading in them fell from 3,004 to 2,896. Among the middle schools which are well reported on, the schools at Suri, Berhampore, Baniban, Contai, Kalna and Comilla deserve special mention.

5. **Primary education.**—On the 31st March 1924 there were 12,833 primary schools for Indian girls with an enrolement of 289,792 pupils as against 12,302 and 274,706, respectively, in the previous year. Primary schools for Indian girls may be classified under the following main heads:—

(*a*) *Model Primary Schools.*—These schools which were previously maintained by Government were deprovincialised at the close of the year under report; they will, in future, be conducted by local committees as grant-in-aid institutions.

(*b*) *Urban Girls' Schools.*—These schools are peculiar to East Bengal only.

(*c*) *Panchayeti Union Schools for Girls.*—Funds were allotted during the year under review for the construction of 27 schools.

(*d*) *Peasant Girls' Schools.*—There are 22 such schools located in the Presidency Division; they are reported to be languishing for lack of support and interest on the part of the local inhabitants.

(*e*) *Aided Primary Schools.*—With the exception of a few schools, which are in receipt of aid from the department, the bulk of these schools are aided by District Boards and Municipalities.

The various European Missions, which have rendered valuable service in connection with the expansion of the primary education of Indian girls of the backward classes particularly, have been hampered by the want of adequate funds, the sources of income from Europe and America having diminished considerably as an aftermath of the Great War. Laudable work is being done by the Nari Sikha Samiti, and the Society for the Improvement of Backward Classes, with the financial assistance given by Government. Girls' primary schools in Bengal still fulfil, to a large extent, the function of the *crêche*.

6. **Special schools.**—On the 31st March 1924 there were 46 technical and industrial schools for girls with 1,405 pupils as against 49 schools, which were attended by 1,481 pupils on 31st March 1923. The control of the Industrial Zenana Classes at Dacca has been transferred from the Industries to the Education Department.

7. **Zenana education.**—The 69 zenana teachers had altogether 1,499 pupils under instruction on 31st March 1924. There are two schemes for imparting education to zenana women, *viz.*,—(1) by house-to-house visitation and (2) by instruction at central gatherings. Both schemes have been condemned by the Inspectresses of Schools and it has been decided to reform the system of zenana education on lines which borrow certain features from the Parents' National Union scheme which has achieved signal results in England. The main object of the new scheme is to institute a correspondence system of instruction from a selected centre, supplemented by a certain amount of visiting. A scheme has been approved by Government in terms of which Mr. West, Principal, Teachers' Training College, Dacca, will conduct an experimental centre at Dacca.

8. **Needle-work.**—The peripatetic needle-work teachers are reported to have worked admirably. There has been an appreciable improvement in the standard of needle-work done in girls' schools.

9. **Co-education.**—The number of girls reading in boys' schools rose during the year under report by 235, from 53,861 to 54,096.

CHAPTER IX.

Education of Europeans and Anglo-Indians.

1. **Institutions.**—On the 31st March 1924 there were 64 institutions for the education of European and Anglo-Indian children as against 66 on the corresponding date of the previous year. The decrease in the number of schools was due to—(*i*) the abolition of St. John's Diocesan Day School and (*ii*) the amalgamation of the Calcutta Free

School for Girls (now called St. Thomas Girls' School) with the Kidderpore House School. Of the 64 institutions, 59 were schools for general education and 5 for special instruction. Of the schools for general education, 14 were Higher Secondary, 7 Secondary, 23 Higher Grade, 13 Primary, and 2 Ungraded. The European Schools in the Province, with the exception of 3 which are controlled directly by Government, are managed by various religious denominations.

2. **Pupils.**—The subjoined table shows the number of pupils belonging to the various stages of instruction in European schools during the two years 1922-23 and 1923-24:—

Schools.	1922-23.				1923-24.			
	No. of institutions.	No. of boys.	No. of girls.	Total.	No. of institutions.	No of boys.	No. of girls.	Total.

* Supplementary classes.

The above figures include 1,777 non-European pupils (1,040 boys and 737 girls) attending European schools on 31st March 1924 as compared with 1,781 on the corresponding date of the preceding year.

3. **Expenditure.**—The total expenditure incurred on the education of European and Anglo-Indian children in the Presidency amounted, during the year under review, to Rs. 35,78,078 (including the boarding charges of Rs. 12,91,842) as against Rs. 36,39,763 spent in the year 1922-23. The expenditure was met in the proportions indicated below:—

	Rs.
(*a*) Provincial Revenues ..	9,28,781
(*b*) Municipal Funds ..	4,915
(*c*) Fees	16,45,582
(*d*) Other sources ..	9,98,800
Total ..	35,78,078

4. **Scholarships.**—The expenditure on scholarships amounted, during the year under review, to Rs. 33,833, which included, as in previous years, the amount spent on certain extra-provincial scholarships paid in Bengal; the expenditure under this head amounted to Rs. 32,755 in 1922-23.

5. **Grants.**—The special grant paid during the year was one of Rs. 30,000 sanctioned in favour of the La Martiniere, Calcutta, for liquidation of debt. The special grants sanctioned for certain institutions during the previous year were not renewed in 1923-24 owing to financial stringency.

6. **Teachers.**—The number of teachers employed in European schools on 31st March 1924 was 682 as compared with 683 on 31st March 1923. Of these teachers 60 were graduates; 360 teachers (including 42 graduates) were trained and 322 (including 18 graduates) were untrained. In the preceding year there were 55 graduates and 628 non-graduates.

7. **Training of teachers.**—Nineteen women teachers as compared with 18 in the previous year were under training at Dow Hill Training College at Kurseong on 31st March 1924. At the annual examination held in November 1923, 6 senior or second-year students passed out of 8 who sat for the examination; of the 10 junior or first-year students, all passed and were permitted to complete their course.

8. **Vocational training.**—Seventeen schools altogether maintained classes following the recognised school final courses as well as commercial or technical classes. They had 214 pupils on the rolls on 31st March 1924. Special classes for domestic training in plain cookery

and plain needle-work were held, as before, in Dow Hill School, and St. Helen's Convent, Kurseong, Entally Convent and St. Andrew's Colonial Homes, Kalimpong, had special classes for probationary sick-nurses. Special classes for children's nurses were held at St. Andrew's Colonial Homes, Kalimpong. The domestic science subjects were examined, as previously, by the City and Guilds Examination Committee.

9. **City and Guilds Examinations.**—These examinations were held in November 1923 at Kurseong for candidates from the Dow Hill School and at St. Helen's Convent. The entries and results are given below:—

	Entries.	Passes.
Plain needle work ..	21	20
Plain cookery ..	16	16
Dressmaking	1	1

10. **Examinations.**—The following table shows the results of the various examinations for which pupils entered in 1922 and 1923:—

	1923.				1922.

11. **Education of deficient and defective children.**—The Children's House, Kurseong, continued to train by special methods physically and mentally defective European children, who are unable to profit by the instruction given in ordinary schools. It had 11 pupils on the rolls on 31st March 1924, and received, as before, a monthly grant of Rs. 150. The results achieved so far are reported to be valuable.

12. **The Sussex Trust.**—The following items of expenditure were incurred during the year 1923-24 from the income of the Sussex Trust Fund:—

(*i*) Rs. 20,925-10-4 on account of scholarships (including contingent expenses) for 4 boys and 5 girls in the United Kingdom and 3 boys and 1 girl in India.

(*ii*) Rs. 2,116-14-0 for the construction of schools for pupils of the depressed classes.

(*iii*) Rs. 12,875-0-0 for the construction of the Asansol Orphanage.

(*iv*) Rs. 70,000-0-0 for the construction of an additional dormitory at Dow Hill.

13. **Doveton Trust Fund.**—The total receipts from the Doveton Trust Fund during 1923-24 including the balance on 31st March 1923 and also the interest up to December 1923 amounted to Rs. 13,960-5-3; the total expenditure for the year was Rs. 7,106-14-0, leaving a closing balance of Rs. 6,853-7-3. Eleven scholarships at rates varying from Rs. 30 to Rs. 10 a month were awarded during the year.

14. **Controlling Agency.**—Mr. W. F. Papworth held the post of Inspector of European Schools, Bengal, throughout the period under review.

15. **Noteworthy features.**—During the year under report a singing competition was organised for European schools in Bengal.

Persistent endeavours were also made by the Inspector of European Schools to pursuade the three religious bodies, *viz.*, the Irish Christian Brothers, the Loreto Sisters and the Church of England, who have interested themselves particularly in European education in the Province, to adopt a definite policy of co-ordination, in the absence of which the work hitherto done by European schools has suffered considerably.

A new European Schools Code was under preparation during the year and is now approaching completion. It has not yet been submitted to Government.

CHAPTER X.

Education of Muhammadans.

1. **Statistics of Muhammadan pupils.**—On the 31st March 1924 the number of Muhammadan pupils studying in all types of educational institutions for Indians was 961,101 as compared with 901,714 on the corresponding date of the year preceding. The proportion of Muhammadan pupils to the total number of pupils under instruction rose from 46·4 to 46·9 per cent. In arts and professional colleges the proportion of Muhammadans to the total number of students on the rolls remained almost stationary; in the high stage of instruction the percentage declined from 15·2 to 14·4; in the middle stage also the proportion fell from 19·4 to 18·5; in the primary stage the proportion rose to 50·1 and in special schools to 60·6. The prevailing economic condition of the country coupled with the realisation that the educational process is not an absolute guarantee of a good start in life, and in the absence of a reformed system may even be a hindrance, accounts chiefly for the decline in the high and middle stages. The rise in primary and special schools is due to the growing popularity of muktabs and reformed madrasahs among the Muhammadans.

2. **Hindu and Muhammadan pupils.**—Of the total number of Muhammadan pupils, 791,451 were attending schools for boys at the close of the year under review, and 169,650 schools for girls as compared with 915,664 Hindu pupils attending boys' schools and 131,338 girls' schools.

3. **Madrasahs.**—On March 31st last there were in the Presidency 374 madrasahs with an enrolment of 31,613 pupils. In the preceding year the Province had 346 madrasahs with 26,156 pupils on their rolls. The number of pupils attending these special institutions thus increased by 20·9 per cent. the increase taking place mostly in reformed madrasahs. The total cost of maintaining the madrasahs amounted to Rs. 7,12,067 to which public funds contributed Rs. 3,39,296. Orders of Government were received during the year to enhance tuition fees in all Government madrasahs. Manual instruction in weaving, tailoring, carpentry, and smithy was given, though spasmodically, in some of the junior madrasahs. The demand for technical instruction of this kind is on the wane with the subsidence of the non-co-operation movement, and the realisation that instruction of this kind, valuable as it may be in some cases as a part of general education, has little " vocational " value at the school stage. Senior and junior madrasahs of the reformed type are really high and middle schools on an Islamic basis. They are more in demand than those of the orthodox type.

4. **Maktabs.**—The number of maktabs—recognised and unrecognised—rose from 14,303 to 15,945 of which 10,835 were for boys and 5,110 for girls. The number of pupils reading in maktabs rose from 402,449 to 456,033 of whom 333,543 were boys and 122,490 were girls. Over 42 per cent. of the Moslem boys at school in Bengal receive instruction in maktabs which, by reason of their secularised course, form an important link between the indigenous schools on the one hand and the secondary schools on the other. The total direct expenditure on maktabs rose from Rs. 11,09,071 to Rs. 11,89,079 to which public funds

contributed Rs. 6,19,776 as compared with Rs. 5,89,287 in 1922-23. The special arrangements alluded to in previous reports, which have been in existence in certain areas in regard to the inspection of maktabs by Muhammadan Sub-Inspectors of Schools, are said to be responsible for the large increase in the number of maktabs. As a measure of economy orders were issued by Government during the year under review for the deprovincialisation of all the model maktabs—seven in number—which are to be conducted in future on a grant-in-aid basis. A large number of Koran or Molla schools still remain to be secularised for want of funds.

5. **Curriculum.**—A revised curriculum for maktabs on the lines of that for primary schools is under the consideration of Government.

6. **Maintenance grants for madrasahs.**—A sum of Rs. 9,000 only was available during the year under report for giving additional maintenance grants to madrasahs; the number of madrasahs having increased largely in recent years it is desirable that more funds should be made available for new and additional grants.

7. **Junior Madrasah Examination.**—In the Junior Madrasah Examination held in October 1923, 811 boys appeared, of whom 499 or 61·53 per cent. were successful.

8. **Islamic Matriculation and Islamic Intermediate Examinations.**—One hundred and thirty-one candidates sat for the Islamic Matriculation Examination, and 22 for the Islamic Intermediate Examination conducted by the Board of Intermediate and Secondary Education, Dacca. In the former 74 and in the latter 18 candidates were successful.

9. **Calcutta Madrasah.**—The report of the committee, which inquired into the general condition of the Calcutta Madrasah some time ago and made proposals for its improvement, is still under the consideration of Government. English is an optional subject in the Arabic Department, which follows the orthodox course.

10. **Islamic Intermediate Colleges.**—Dacca Madrasah, a Government institution, and Serajganj Madrasah, an aided institution, are being conducted as Islamic Intermediate colleges linked with the Department of Islamic Studies in the University of Dacca.

11. **Hostel accommodation for Muhammadan students.**—The Taylor Moslem Hostel, which is situated at No. 61/1-C, Wellington Street, Calcutta, provided, as previously, hostel accommodation for under-graduate Moslem students studying in Calcutta non-professional colleges.

12. **Special facilities for Muhammadans.**—Muhammadan pupils continued to enjoy during the year under report the special concessions enumerated in previous annual reports, *viz.*, the reservation of seats in Government and aided schools, the grant of special scholarships and stipends, and free studentships to the extent of 15 per cent. of their total enrolment. Muhammadan pupils are, however, unable at present to take full advantage of the lastmentioned concession owing to the age-limit prescribed.

13. **General remarks.**— Less than 4 per cent. of the Moslem population are at school. Increased facilities for the education of their children as for those of other communities are an urgent need. At the same time the progress recorded during the year is satisfactory, keeping in mind the limited funds available for expansion.

CHAPTER XI.

Education of special classes.

1. **The Nizamat Family, Murshidabad.**—The Nawab Bahadur's Institution at Murshidabad provides special arrangements for educating boys of the Nizamat Family, although as an ordinary High School it is open to all communities. During the year under review the Institution had on its rolls 26 boys of the Nizamat family, the same number as last year. These boys lived in a special hostel, under the supervision of a European officer. The arrangements cost Government Rs. 6,186 in 1923-24 against an expenditure of Rs. 6,531 in the preceding year.

2. **Education of aborigines and the children of backward classes.**—Among backward classes the Namasudras appear to be making noteworthy progress in education. The subjoined table shows the total number of pupils of the backward classes among Hindus, who were under instruction in the various stages during the year 1923-24:—

	Boys.	Girls.	Total.
In primary stage	131,128	14,112	145,240
In secondary stage	7,032	16	7,048
In college	248	..	248
In professional colleges ..	70	..	70
In special schools	6,705	66	6,771
Total ..	145,183	14,194	159,377

The corresponding figures for the preceding year were 116,724, 12,120 and 128,844, respectively. The following paragraphs briefly show the extent to which education has progressed among pupils of the backward classes during the year under review in each division of the Presidency.

Calcutta.—Recognised schools in Calcutta were attended by 3,402 pupils (boys and girls) belonging to the backward classes. Of these, 100 pupils were in the secondary and 2,854 in the primary stages of instruction and 448 were in special schools. Unrecognised schools had an enrolment of 797 pupils.

Presidency Division outside Calcutta.—At the close of the year under report 51,303 pupils of the backward classes were in schools for boys and 2,694 were in girls' schools. The Pods, as previously, account for half the number of pupils classed as backward, the Namasudras coming next. The High English School at Masiahati in Jessore and the Middle English Schools at Meliat and Fulia cater almost entirely for Namasudra pupils, and their staffs and management also are wholly Namasudra. Primary schools are springing up fast in Namasudra localities. There are two primary schools for backward classes in the 24-Parganas which are maintained from the Sussex Trust Fund. One junior, 7 middle and 15 upper primary scholarships were secured by boys of the backward classes.

Burdwan Division.—The Sonthals predominate among the aboriginal tribes in the Burdwan Division. Organised attempts are being made to spread education among them. A Middle English School for boys and a Middle Vernacular School for girls are maintained at Bhimpore in the Midnapore District by the American Baptist Mission with substantial aid from the department. The total number of primary schools for Sonthals in the division was 215 and the total number of Sonthal pupils in all classes of schools was 7,211. One middle, 2 upper primary and 8 lower primary scholarships were awarded to Sonthal pupils. Pupils belonging to backward Hindu communities numbered 19,099 in the year under report. Five middle, 11 upper primary and 4 lower primary scholarships are reserved for them.

Dacca Division.—The Namasudras represented 78·7 per cent. of the pupils of aboriginal and backward classes, numbering 59,503 in all classes of institutions. Local bodies, Christian Missionaries, and the Society for the Improvement of the Backward Classes, Bengal and Assam, continued to encourage and aid schools started mainly for the education of the pupils of these classes. The District of Dacca had 9 schools for fishermen and 5 for muchis. Mymensingh returned 40 schools chiefly intended for aboriginal tribes and 25 schools for backward classes. The Kagtonagar primary school in the Kishoreganj Subdivision intended for the education of boys belonging to criminal tribes is reported to be doing well. The 2 primary schools (one for boys and one for girls) for Bunnas in Faridpur town are progressing satisfactorily. The Bakarganj District Board maintained 12 free primary schools (including 1 for girls) in the colonisation areas which were attended by 403 Mugh boys and 14 Mugh girls. Eight middle and 13 upper primary scholarships were reserved for the children of backward classes.

Chittagong Division.—The Chittagong Division had 3,578 aboriginal pupils and 10,772 pupils of the backward classes under instruction. In the Chittagong Hill Tracts there were 1 High English, 3 middle, 1 industrial, 1 training and 169 primary schools for the education of the children of hill tribes. Tippera had 2 primary schools for Tiparas and Cox's Bazar had 9 primary and 33 Kyang or monastic schools for Mugh boys. The Middle English School at Ramu, which is situated in the Mugh centre, had 91 pupils, and the High English School at Cox' Bazar had 40 Mugh boys. Nine middle and 15 primary scholarships were awarded to boys of the backward classes during the year under review.

Rajshahi Division.—The Rajshahi Division had 3,077 and 2,242 pupils belonging to backword and aboriginal races respectively. The Board of Sonthal Education in Dinajpur continued to encourage Sonthal education in the district. The formation of a similar Board for the encouragement of Sonthal education in Malda was approved by Government during the year under review. Funds for giving effect to the scheme have been also provided. The efforts of the Salvation Army in connection with the education of the Nutts—a criminal tribe—in Syedpur are worthy of honourable mention.

3. **Education of defectives.**—The Children's House, Kurseong, which admits physically and mentally deficient European children had 11 pupils on the rolls on 31st March 1924. The Deaf and Dumb School at Calcutta had 80 pupils including 9 girls, and the Blind School taught 45 pupils of whom 14 were girls. The Deaf and Dumb Schools at Dacca, Faridpur, and Barisal had 19, 7, and 17 pupils, respectively, on 31st March 1924. The Barisal School was provided with a suitable house during the year under report. The Chittagong Deaf and Dumb School which taught 6 pupils is in receipt of a Government grant of Rs. 15 a month. Many of the District Boards and a few Municipalities provided, as before, special stipends for defective children, who were sent to the Deaf and Dumb and the Blind School at Calcutta.

4. **Tea-garden schools.**—Jalpaiguri had 81 (9 A class, 26 B Class and 46 C class) tea-garden schools with 1,085 pupils. Darjeeling had 55 schools with 1,157 pupils. The tea-garden schools cost Rs. 12,525 to which Provincial Revenues contributed Rs. 6,929.

5. **Education of factory children.**—The children of mill hands in the 24-Parganas are educated generally in the primary schools and maktabs existing in mill areas. The school at Titagarh, which is specially intended to serve them, has Urdu, Hindi and Telugu sections; the Urud and the Hindi sections are subsidised by Government, while the Telugu section is aided by the Titagarh Municipality. The Rifle Factory and the Metal Factory schools at Ishapore, of which the former is aided and the latter unaided, are to be amalgamated on the completion of the building, which has been in course of construction. The Labour Union at Kankinara is formulating a project for starting one or two special schools for the children of mill hands.

6. **Additional grant.**—The additional recurring grant of Rs. 20,000, which has been made available since the year 1922-23, for the improvement of education among pupils of the backward classes, has been utilised in affording training facilities, in giving grants-in-aid to primary schools through the Society for the Improvement of Backward Classes, and in creating various classes of scholarships, full advantage of which has been taken by the communities concerned.

CHAPTER XII.

Unrecognised Institutions.

On 31st March 1924 there were 1,352 unrecognised schools, which were attended by 47,235 pupils. The corresponding figures for the preceding year were 1,298 and 44,704, respectively. Of the pupils 22,595 were Hindus and 22,384 Muhammadans, the rest being of other communities. Unrecognised institutions are of various grades from the college down to the primary school; the most notable among them is the Kabindra College, Goila, in the Bakarganj District, which teaches Sanskrit Literature, Ayurved and Hindu Philosophy. These schools do not adopt a course of studies prescribed by the University, the Board of Secondary Education, or the Department; they are also normally

inferior to recognised institutions in management and discipline. In general no rules are laid down by the managers for the guidance of the unrecognised schools; some of them are merely coaching classes. The records of these schools are not kept in a systematic way; and the transfer certificates, which they issue, require as a rule the closest scrutiny by inspecting officers of the Department.

This is written in full remembrance of the fact that the unrecognised school may in special circumstances, and has elsewhere sometimes been the home of fruitful experiment, high idealism, and reform in advance of current standards. But Indian conditions, though this type has been aimed at, have not been favourable to its production or continuance.

CHAPTER XIII.

Physical and Moral Training.

1. **Hostels.**—Towards the close of the year under review 26,964 boarders were residing in the hostels attached to various schools and colleges in the Presidency. Of this number 21,866 lived in hostels for Indians, and 5,098 in boarding houses for Europeans and Anglo-Indians. The statistics for the preceding year were 25,721, 21,056 and 4,665, respectively. Of the boarders residing in Indian hostels 19,253 were males and 2,613 females. Of the European and Anglo-Indian boarders 3,050 were boys and 2,048 girls.

All the blocks of the new hostel (five for Hindus and one for Muhammadans) attached to Rajshahi College were completed during the year under report. The new blocks accommodate 250 Hindu and 50 Moslem students. An aided hostel was opened during the year in Calcutta under the auspices of the Brahmo Samaj for the accommodation of girls, and it has relieved to some extent the congestion in the Bethune College hostel. The increase in the number of students on the rolls of the Ahsanullah School of Engineering at Dacca necessitated the provision of additional hostel accommodation in rented quarters; and in general the need for further boarding accommodation in connexion with professional institutions still continues to be great.

2. **Messes.**—The administration of the mess schemes at Calcutta and Dacca rested, as previously, with local standing committees, who received from Government the necessary financial assistance for the purpose of running them. Proposals were submitted to Government in July 1923 for the abolition of the post of the Inspector of Messes in Dacca and his establishment in favour of a less costly arrangement; the matter has been under consideration, and it has been decided to place the responsibility for the work on the Board of Intermediate and Secondary Education, Dacca.

3. **Physical training.**—The adviser to Government in Physical Education, Mr. N. Ghosh, B. A., continued his work of demonstrating modern methods of physical training and advising the authorities of Indian educational institutions and athletic bodies in matters connected with physical education. A six weeks' training course for Drill and Gymnastic teachers was conducted by him in the Y. M. C. A. gymnasium in Machuabazar, Calcutta, in January-February 1924. The class was composed of teachers employed in Government as well as private institutions. On the conclusion of the course 22 teachers, 10 of whom came from Government schools, were awarded the proficiency certificates. The arrangement cost Government a sum of Rs. 200 which included the rent of the Y. M. C. A. gymnasium and the travelling expenses and house allowances of the Government school teachers.

Games such as football, cricket, hockey, and badminton are popular with town boys; both football and indigenous games are played by country boys, the latter because they are less expensive and do not require extensive playing space. Absence of adequate playgrounds is a general complaint with town schools; schools in rural areas are naturally better off in this respect. The want of a covered gymnasium which would protect the apparatus from the rains, is felt keenly at Rajshahi College; a playground of its own is also badly needed in the Government Intermediate College at Dacca. In this respect, as in many others, Dacca University has indeed devoured Dacca College, though it generously extends facilities to its unfortunate neighbour.

4. **Drill.**—Drill is a compulsory subject in Government and aided schools, but it is not taught systematically everywhere. The utility of well-organised games and specially of drill as an important factor in education has yet to be realised by the majority of school authorities. In connexion with the education of girls in East Bengal Miss. H. Bose, officiating Inspectress of Schools, Dacca Circle, observes that drill cannot be introduced in girls' schools, as the major portion of the population still looks upon it as a form of dancing instead of as a healthy exercise, and therefore deprecates it. One can only hope that time and education will bring in due course those wider and wiser views which are essential in the interests of the future physical welfare of the Bengali race. The Bakerganj District Board continued the arrangement for training primary school teachers in drill by a peripatetic drill master.

5. **Medical inspection of school children.**—The Medical examination, referred to in the last annual report of the students of the Rajshahi College by the local medical officer was continued during the year under review. "The outstanding feature," the Principal remarks, "of the result of the medical examination and care taken for the physical welfare of the students in the way of compulsory games and supervision of diet in hostels is that the students are generally improving in physique". Dr. (Miss) Cohen was deputed by the Department of Public Health to conduct a medical examination of the pupils studying in Bethune Collegiate School.

6. **Hygiene.**—Although a subject in the school curriculum, Hygiene received less than adequate attention. Lectures on hygiene and sanitation illustrated by lantern slides were delivered in some schools in Eastern Bengal by lecturers deputed by the Bengal Social Service League, which were greatly appreciated. Girls' schools in Calcutta are reported to be making satisfactory progress in the matter of hygiene teaching.

7. **Religious and Moral instruction.**—Reilgious instruction is imparted to some extent in denominational schools, such as Moslem high schools, madrasahs, maktabs, mission schools, and *tôls*. No general solution of this most difficult of all problems seems within sight.

As to the teaching of morality, indirect methods largely obtain. Example being more potent than precept in influencing character endeavours are made to inculcate moral principles such as truthfulness, obedience to authority, rspect for superiors and elders, sympathy for the poor, hatred of vice, etc., through stories contained in the text-books The dominant influences in the school making for morality can never, however, be anything but the personailty of the teacher, and the tone of the school, in other words the general character of all persons, teacher or taught, connected with it. These influences predominate in the "bending of the twig," and if these are unsound, all the books in the world will make little difference, however sublime their text or sermon.

8. **Discipline.**—No instance of any serious breach of discipline was reported during the year under review. The tendency towards indiscipline caused by the non-co-operation movement is disappearing gradually, although the officiating Inspector of Schools, Rajshahi Division, takes a rather pessimistic view of the situation and maintains that the discipline, which prevails at present among students, is properly speaking its negation; he states that it is made to suit the temperament and disposition of the boys themselves, and that the boys are feared both by their guardians and their teachers. One can only hope the picture is at least somewhat overcoloured. "Boys will be boys," but there is more in the case than this. The negation of discipline so pessimistically mentioned by the Inspector, is part of the general disease which afflicts the whole school system. Boys know too often that their schools are bad and their teachers incompetent. Better schools mean better boys, and we shall not get satisfactory discipline in the schools until the teacher is treated and paid as one of the nation's most valued servants, and not as one of its despised but unfortunately necessary hacks. One root-cause of the indiscipline is the low pay and the low status of the agency which should, but too often cannot, enforce it.

9. **National schools.**—At the end of the calendar year 1923 there were in the Presidency 109 national schools with 9,081 pupils as against

175 schools with 12,791 pupils in the year preceding. Most of the national schools are reported to be in a precarious condition through lack of funds and of local encouragement. These schools prefer to impart general education with religious teaching, spinning and weaving. The standard of education and the prospects, which they offered at the outset, have fallen far short of the rosy pictures originally painted, and they have lost their attraction.

CHAPTER XIV.

Conferences and Committees.

Conferences of higher educational officers were held during the year under review at the headquarters of the Burdwan and Chittagong Divisions. Each of the six district officers in the Burdwan Division held a meeting at his headquarters to discuss possible lines of advance in primary education. Some of the District Inspectors of Schools held conferences of their subordinates to discuss subjects such as the improvement of primary and secondary education, and the suitability of the new primary school curriculum. The annual conference of Assistant Inspectresses was held by both the Inspectresses.

2. During the year under review the Government of Bengal in the Ministry of Education appointed the following important committees, references to which have been made in the previous chapters—the Sanskrit College Committee, the Presidency College Committee, the Standing Advisory Committee for Higher Education, and the Accountancy Examination Committee. The report of the Committee on Technical and Vocational Education in Dacca was completed in January 1924.

CHAPTER XV.

Text-Book Committees.

The Presidency had, as in previous years, two separate Text-Book Committees—one at Calcutta and the other in Dacca.

2. Five vacancies occurred during the year under review in the Calcutta Text-Book Committee. They were filled by the appointment of new members.

3. Of 918 books considered by the Calcutta Text-Book Committee during the year under review, 323 were approved. The Dacca Text-Book Committee approved 112 books out of 377 which were considered.

CHAPTER XVI.

Education in the Legislative Council.

In the Bengal Legislative Council the interest evinced by members in education mainly took the form of interpellations: questions were asked on subjects such as free primary education, vocational education, education of the backward classes, and hostel accommodation for girls in Calcutta. An interesting debate took place on Dr. Hari Dhan Datt's motion in July 1923 to abolish the Dacca Training College and the Dacca Board of Education, the work of the first being done in Calcutta, and the statutory duties of the Board being imposed on the Vice-Chancellor, Dacca University. It was not difficult to show that the proposal was impracticable and detrimental to the interests of Bengal education and the motion was withdrawn. At its winter session the Council carried by a majority of 70 votes to 50, the motion brought forward by Babu Jatindra Nath Bose that the post of the Director of Public Instruction be not filled on the post becomming vacant by reason of Mr. Hornell's retirement or departure on leave. The discussion betrayed some misconception of the duties of the post, but the logical meaning to be attached to the resolution was the view that there should be no departmental head, but that the department should be administered by the Secretariat, that is by the Secretary, who by statute must be a member of the Indian Civil Service, under the orders of the Minister

and the Governor of the Province. The resolution has since been under careful examination, but as it means the minimising of the influence of educationists upon educational administration—a change which Council probably would not welcome—the resolution raised great difficulties. Again, in the course of the debate on the budget estimates for 1924-25, the Council reduced by Rs. 6,35,400 the provision made in the Education Budget under the head " Salaries of Inspecting officers" (Transferred). This action of the Council alarmed inspecting officers of all grades, and created a sense of insecurity in all Transferred Departments. As the reduction made was practically that recommended by the Retrenchment Committee, though in one of its more iconoclastic moods, it was felt that, if Council persisted in its decision, Government ought to accept it, and notices of discharge were issued on all inspecting officers whose pay was voted. The amount, however, was subsequently revoted, when a supplementary demand for it was submitted to the Council in August 1924. As a result of the vote however the possibility of further reduction in the inspectorate was carefully explored and it is probable that certain posts will be abolished. On the Reserved side also the Council refused a sum of Rs. 99,000 provided in the budget estimates of 1924-25 for direct grants to non-Government primary schools for Europeans and Anglo-Indians. Government announced that though this would not be immediately restored, such sum under this head as might be found to be actually necessary would be found by re-appropriation and a supplementary grant submitted to Council for the balance if any which could not be so found.

J. C. ROY, for *Director of Agriculture, Bengal.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 25th February 1925.

Summary.—The week was rainless. Preparation of lands for *til*, jute and paddy continues favourably and their sowings have commenced in some north and east Bengal districts. Cutting of tobacco leaves, harvesting of potatoes, pulses and other spring crops and planting of sugarcane are progressing. The outlook of standing crops is generally fair, excepting that of mango crop in Malda where it is apprehended to be a total failure. The average price of common rice for the province has risen by about 0·56 per cent. as compared with that of the previous week.

DACCA, *the 28th February 1925.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop report of Bengal for January 1925.

I. **Character of the season.**—During the early part of the month rain fell throughout the Province. The precipitation was above the average in 12 districts and it was below the normal elsewhere. The usual rainfall statement is appended.

II. **Progress of Agricultural operations.**—In the early part of the month harvesting of winter paddy made good progress although the operation was hampered by rain in some districts. Transplantation of summer rice, pressing of sugarcane, and harvesting of mustard and pulses were in progress. Preparation of lands for autumn crops was also proceeding in East Bengal.

III. **State of standing crops.**—The state of standing crops was, on the whole, fair.

IV. **Prospects and probable outturn.**—A fair outturn may, on the whole, be harvested for the spring crops.

V. **Damage to standing crops.**—No appreciable damage to the standing crops was reported from any district.

VI. **Condition of Agricultural stock.**—The condition of live-stock was reported to be fair, on the whole. Stray cases of cattle-disease were, however, reported from eleven districts.

VII. **Failure of pasturage and fodder.**—Scarcity of fodder was not reported from any part of the Province.

VIII. **Prices of food grains.**—During the second-half of the month the price of common rice of the cheapest quality rose in eleven districts, fell in six and remained stationary in the rest of the Province. It ranged from 5 seers and 5 chittacks per rupee at Rangpur to 8 seers per rupee at Birbhum and Midnapore.

IX. **Condition of Agricultural population.**—The condition of agricultural population was, on the whole, fair.

DECLARATION.

No. 1809Com.—The 6th March 1925.—Whereas certain land was acquired by Government, under the provisions of Act I of 1894, and Act XVIII of 1885, for a public purpose, viz., for such portion of the Ondal-Santhia Chord, East Indian Railway, as lies between chainage 617·45 and chainage 669·70 and as is edged with pink on the plan L. A. M. A. No. 497, and whereas coal mines at Baidyanathpur Colliery are situate under the said land, and whereas the Samla Govindpur Collieries, Limited, have given notice to Government, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as the Samla seam, and whereas the mines have been inspected by the officer appointed by Government for the purpose under section 5 (*1*) of Act XVIII of 1885, and whereas it appears to the Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Samla Govindpur Collieries, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working :

Burdwan.

Now, therefore, the Governor in Council is pleased to declare, under section 5, sub-section (*2*), clause (*b*) of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Samla Govindpur Collieries, Limited, in the manner and subject to the restrictions below specified, viz. :—

(1) No gallery shall be driven nor shall any coal be extracted under the areas hatched with yellow on the plan.

(2) No gallery shall be driven nor shall any coal be extracted where the distance from the natural surface of the ground or the bottom of an artificial cutting to the top of the excavation, if made, is less than 50 feet.

(3) Where the distance from the natural surface of the ground or the bottom of an artificial cutting to the top of the excavation, if made, is between 50 and 300 feet, galleries, not exceeding 12 feet in width by 12 feet in height, may be driven at distances apart not less than 72 feet, centre to centre, forming pillars, not less than 60 feet square, to be left unworked.

(4) Where the distance from the natural surface of the ground or the bottom of an artificial cutting to the top of the excavation, if made, is between 300 and 600 feet, galleries, not exceeding 12 feet in width by 12 feet in height, may be driven at distances apart not less than 82 feet, centre to centre, forming pillars, not less than 70 feet square, to be left unworked.

(5) Manholes, not exceeding six feet in height by three feet in width by four feet in depth, may be made where required by any rules made under the Indian Mines Act, 1923.

(6) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(7) Any collapse of workings, or symptoms of collapse or crush, which may endanger the stability of the acquired land, shall be reported to the Chief Inspector of Mines without delay.

(8) These restrictions apply to the Samla seam only at Baidyanathpur Colliery and to the area edged with pink on the plan, and the Samla Govindpur Collieries, Limited, shall give notice under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of acquired land.

The plan marked L. A. M. A. No. 497 signed by the Chief Inspector of Mines may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

(*b*) He must produce a satisfactory certificate of good moral character and be above the age of twenty years.

Examinations. (Rules 7 to 12.)

7. Every candidate for examination for Mukhtarship shall, on or before the 15th November or first open day thereafter in each year, apply to the Commitee[1] for leave to present himself at the ensuing examination, and, before he be admitted to such examination, he shall establish to their satisfaction that he possesses the qualifications prescribed for such candidates, and has complied with the provisions of the following rule. Rule No. 2 of 19th April 1887.

8. Such application is not to be transmitted to the Committee[1] direct, but it is to be filed on or before the said 15th day of November or first open day thereafter in the Court of the District Judge within whose jurisdiction the candidate resides, or is employed (Calcutta for this purpose being taken to be within the district of the 24-Parganas), accompanied with the documents in *original* referred to in clauses (*a*) and (*b*) of Rule 6, together with the receipt of the Officer in charge of a Government Treasury for the fee required previous to examination by Rule 22.

NOTE.—An application for leave to appear at an examination for Mukhtarship should be regarded as made to a Court in its administrative capacity, and should not be held liable to stamp duty. Such applications should, therefore, be received on plain paper. G. L. No. 6 of 11th December 1895.

9. The Judge shall thereupon satisfy himself of the sufficiency of the certificates of character presented by all Mukhtarship candidates, and shall satisfy himself as to the identity of such candidates, and shall, on or before the 1st December, transmit to the Committee[1] all such applications with the documents accompanying, together with a list of such applications and annexures and with his opinion in each case as to the sufficiency of the testimonials produced and any other information he may think it needful in any case to communicate. Rule No. 10 of 7th October 1898. Amended by Rule No. 4 of 1906 and No. 1 of 1907. Also amended in 1922.

10. The Examiners[1] shall, on receipt of the applications from the District Judge, take the case of each candidate, with the report of the District Judge, into their consideration, and shall determine whether or not the candidate is possessed of the necessary qualifications. If the candidate is found qualified the Amplified by Rule No. 4 of 1918. Amended in 1922.

[1] See Rule 1.

Committee[1] shall cause his name, the name of his father, his age and place of residence, and other needful particulars to be entered in a Register of persons permitted to appear at the examination.

Rule No. 3 of 7th March 1884.

11. (*a*) An extract from the Register shall be forwarded to the District Judge with a declaration that the candidate is permitted to appear at the next ensuing examination at . . . . . , for delivery to him. The Judge shall cause a notice of his having received such extracts to be stuck up in his Court-house and shall deliver them to the candidates on application.

(*b*) The District Judge, in carrying out this Rule and Rules 8 and 9, shall conform to such instructions as he may receive from the Committee[1] through their Chairman or Secretary.

12. Every candidate for examination shall produce to the Committee[1] the extract from the Register when he presents himself for examination.

ADMISSION TO PRACTICE. (Rules 13 to 16.)

13. Any person who shall have qualified under these Rules, and who shall desire to be admitted to practise, shall pay into the Government Treasury of the district in which he shall intend ordinarily to practise, the fee prescribed by Rule 22; and shall, on presentation of the certificate of the Committee[1] or of his diploma, or license, of the receipt for the said fee, and of a stamp paper of the necessary value of his first certificate of practice, be entitled to apply to the High Court for admission, stating in what classes of Courts he desires to practise, with reference to Schedule 1 and Schedule 2 of Act XVIII of 1879.

G. L. No. 14 of 18th August 1891.

NOTE.—An application under the Legal Practitioners Act, 1879, for admission as a Pleader or Mukhtar of the Subordinate Courts, or for renewal of a certificate, or for enrolment, being made to a Court in its administrative capacity does not fall within the provisions of the Court-fees Act, 1870, and is not liable to any stamp duty. All such applications will be received by District Judges on plain paper, and where necessary forwarded to the High Court in accordance with these rules.

Rule No. 3 of 7th March 1884.

14. The application, together with the certificate or diploma, the receipt, and the stamp paper required by Rule 13 shall be presented to the Judge of the district in which the applicant intends ordinarily to practise; and shall be forwarded by the Judge to the Registrar of the High Court with such remarks as he may think fit to make thereon.

NOTE.—The form of the letter from the District Judge forwarding the application is given in Volume II, Form No. (M) 184.

15. The name of the applicant and his place of abode, together with his father's name and place of abode, shall be affixed in some conspicuous place in the Court-house of the Judge to whom the application is sent, and also in the High Court, at least six weeks before the applicant is admitted to practise.

[1] See Rule 1.

16. The High Court may call for evidence of the respectability of the applicant in any case in which it may be deemed necessary.

CERTIFICATES. (Rules 17 to 21.)

17. Upon the applicant being admitted by the High Court, the Registrar of the High Court shall cause his name to be entered in the proper Register, and shall grant him a certificate as required by section 7 of Act XVIII of 1879, authorising him to practise up to the end of the current year in the Courts, and, in the case of a Pleader, also in the Revenue Offices, specified therein. Rule No. 3 of 7th March 1884.

NOTE.—Pleaders holding certificates under clause (*e*) of Schedule II of the Legal Practitioners Act, 1879, are entitled to practise before Munsifs when exercising Small Cause Court powers, and lower grade pleaders who formerly practised in the Provincial Small Cause Courts constituted under Act XI of 1865 or Act IX of 1887, may be allowed to practise before Subordinate Judges when exercising Small Cause Court powers; but for this purpose they must hold a certificate under clause (*d*) of the Schedule. G. L. No. 5 of 18th May 1896.

18. The certificate shall bear the number assigned to it in the Register, and shall be signed by the Registrar and forwarded to the District Judge, to be delivered to the applicant. Rule No. 3 of 7th March 1884.

19. Any Pleader or Mukhtar who may apply for renewal of his certificate under section 7, Act XVIII of 1879, unless he has been ordinarily practising in the Court of the District Judge, or other officer authorised to renew certificates, shall, with his application, file a certificate of character from the Judge presiding in the Court in which the applicant ordinarily practises. The Munsif, Subordinate Judge, or Judge of a Small Cause Court may forward the application for a renewed certificate to the District Judge.

NOTE.—See note to Rule 13 above.

20. Certificates may be renewed under section 7 of the Legal Practitioners Act (XVIII of 1879) by the Judge of the District Court, whether the value of the stamped paper on which the renewed certificate is to be issued (as prescribed by the second schedule of the Act) is the same as, or different from, the value of that on which the certificate in force of the particular Pleader or Mukhtar was issued. Rule No. 3 of 1924.

21. The renewed certificate shall state the fact and date of its renewal and shall specify the classes of courts and offices in which the applicant shall be authorised to practise regard being had to schedule II of Act XVIII of 1879. Amended by Rule No. 3 of 1924.

NOTE.—In granting renewed certificates under clause (*c*), Schedule II, Part I, of the Legal Practitioners Act, XVIII of 1879, the words "except the Calcutta Small Cause Court" should be inserted at the end of paragraph 2 of the certificates in the case of pleaders who are not graduates in Law of one of the Universities of Calcutta, Dacca, Madras, Bombay, Patna, Allahabad and the Punjab or of the Muslim University of Aligarh.

Fees. (Rules 22 and 23.)

22. The fees payable by candidates for the mukhtarship examination shall be Rs. 20 previous to examination. The fees payable on application for enrolment shall be as follows:— G. L. No. 5 of 6th May 1898. Amended in 1922.

	Rs.
Pleader	25
Mukhtar	10

Rule No. 1 of 1906.

23. (*a*) If in any case, a candidate for Mukhtarship after having paid the fee required to be paid before examination, and having been found duly qualified and permitted to appear at any examination, is prevented from appearing, one-half of the fee paid by him will be refunded on a written application. If such a candidate apply in writing to the Committee[1] within one month from the date of such examination to be allowed to appear at the next examination, his application shall be allowed on his paying one-half of of the fee.

(*b*) Should a Mukhtarship candidate be refused admission to the examination, the fee paid by him will be refunded on a written application accompanied by a certificate from the Secretary to the Committee[1] to that effect.

Penalties. (Rules 24 to 30.)

Rule No. 3 of 7th March 1884.

24. If any person, having obtained the degree or certificate entitling him to be admitted and enrolled as a Pleader or as a Mukhtar, shall fail to apply for such admission and enrolment for a period of one year from the time of obtaining such degree or certificate, he shall not be admitted and enrolled unless, by special order of the High Court, the time for such application be extended.

25. If any person having been admitted and enrolled as a Pleader or Mukhtar shall neglect to take out a certificate, or having obtained a certificate, shall fail to renew it for a period of three years, he shall be suspended and shall not be entitled to receive a certificate, or to have his certificate renewed, without further orders of the High Court.

26. Any person who shall hold any appointment under Government, or shall carry on any trade or other business, at the time of his application for admission as a Pleader or Mukhtar, shall state the fact in his application for admission; and the High Court may refuse to admit such person, or may pass such orders thereon as it thinks proper.

27. Any person who, having been admitted as a Pleader or Mukhtar, shall accept any appointment under Government, or shall enter into any trade or other business, shall give notice thereof to the High Court, who may thereupon suspend such Pleader or Mukhtar from practice, or pass such orders as the said Court may think fit.

Rule No. 2 of 1917.

28. Any person who, having been suspended from practice under Rule 25 or 27 desires, on relinquishing his appointment under Government or other occupation, or for any other reason, to be readmitted to practice, shall apply through the District Judge to the High Court for permission, and shall furnish with his application such evidence as the District Judge shall require of good conduct and character during the period of his suspension.

[1] Rule 1.

29. Any wilful violation of any of the above Rules shall subject a Pleader or Mukhtar to suspension or dismissal. Rule No. 3 of 7th March 1884.

Rule framed by the High Court of Judicature at Fort William in Bengal under sections 8 and 9 of the Legal Practitioners Act, 1879.

30. A Pleader or Mukhtar desirous of practising in any district other than that in which his certificate was last renewed, shall apply to the District Judge of such district for the entry of his name in the district roll of Pleaders and Mukhtars. Before complying with the application, the District Judge shall satisfy himself, by such enquiries as he may think fit, as to the applicant's identity and previous good conduct. Rule No. 2 of 1923.

NOTE 2.—When a plaint or a written statement is presented or tendered by a Mukhtar (see clauses 4 and 7), an endorsement shall be made thereon by the officer of the Court receiving the same in the following terms:—

"Presented by A. B. Mukhtar."

The endorsement shall be signed by such officer and by Mukhtar. Rule No. 6 of 1913.

NOTE 3.—A Mukhtar shall not be allowed to address the Court except for the purpose of stating the nature and effect of his application, or, without the leave of the Court, specially given, to offer any legal argument or examine witnesses.

32. A Mukhtar shall be allowed reasonable access to the record[1] in any pending case in which he is concerned, for the purposes of his employment in that particular case; * but the examination of records by Mukhtars shall be allowed only on office days and during such office hours as the District Judge may prescribe. * Rule No. 6 of 1906.

33. Every Mukhtar who has acted for a suitor in any appeal or matter shall be bound to furnish to his client, within 15 days after the decree or order of the Court has been signed, an account in the form hereto annexed, and in a language which the client understands, showing all receipts and disbursements which have passed through his hands in the cause; and to such account shall be annexed a receipt signed by the Advocate, Vakil or Pleader for all fees paid to him. Responsibility of Mukhtars in accepting Mukhtarnamas.

Rule No. 3 of 1904.

34. (*a*) When a Mukhtarnama is given by a party who can sign his or her name, it must be signed by the party. When a party cannot sign his or her name, such party must put his or her mark; and the name of the party should be written by some one who must sign his name as the writer, and give the date of his signing.

(*b*) No Mukhtar shall receive a Mukhtarnama except from the party directly or from some person who is the recognised agent of such party within the meaning of the Code of Civil Procedure (see Order III, C. C. P.), or some servant, relative, or friend authorized in that behalf.

(*c*) A Mukhtar accepting a Mukhtarnama shall note on it the name of the person from whom it has been received, with an endorsement to the effect that he is satisfied that the person from whom he received it is either the party himself or one who has been authorised by the party to deliver it to him, as the case may be. He should also note the date of his receipt of the Mukhtarnama.

Rule No. 6 of 1913.

(*d*) The appointment of a Mukhtar in addition to a pleader cannot be authorised on the vakalatnama appointing the latter, but only on a separate document drawn as a mukhtarnama.

PART III.

Rules as to the functions of Mukhtars of the High Court practising in Civil Courts subordinate to the High Court, framed under section 11 of Act XVIII of 1879. (Rules 35 and 36.)

Rule No. 7 of 27th October 1894.

35. The following are the functions, powers and duties of Mukhtars of the High Court practising in Civil Courts subordinate to the High Court, subject to the instructions of their client :—

To communicate with his client.	
To instruct Advocates, Vakils, Pleaders, or Attorneys during the trial of the client's case.	
To make such applications as can be made to an Officer of the Court, but not to the Court itself, provided that he shall not be entitled to apply to inspect records.	
To pay money into, or deposit money in, Court and, where specially empowered by his *mukhtarnama*, to receive and give receipts for payment of money out of Court.	Orders XVI, Rules 2 and 4; XXI, Rules 1, 39, 84 and 85; XXIV, Rules 1 and 4, and XLI, Rule 10 of the Code of Civil Procedure.
To deposit Security when required under Order XLI, Rule 10 of the Code of Civil Procedure.	
To apply for copies of any paper from the record of any case and receive them after paying fees.	
To identify persons before the Court Officers.	
To communicate with the Court Officers for information regarding any case.	

36. The instructions contained in Rule 33 shall also apply to Mukhtars of the High Court practising in Civil Courts subordinate to the High Court.

PART IV.

Annual renewal of Legal Practitioners' certificates, and returns of the same. (Rules 37 to 40.)

37. All Pleaders' and Mukhtars' certificates, whether taken out for the first time or renewed, shall be issued by District Judges as from the 1st January of the year in which they are taken out. District Judges shall submit, during the first week of February in the following year, a return of the certificates renewed by them for the current calendar year, as well as the names of those Pleaders and Mukhtars who had not renewed their certificates up to the date of report, and who are not therefore entitled to practise. A list containing the names of these last-mentioned persons shall be posted in the Court-house, with an intimation that they are liable to penalties if found practising without having renewed their certificates. If any Pleader or Mukhtar, whose name appears in the list, shall subsequently take out a certificate during the year, his name shall be reported to the High Court. C. O. No. 12 of 30th June 1877.

NOTE.—The form of the annual return prescribed by this Rule is given in Volume II, Form No. (M) 148.

38. Separate returns should be submitted of (1) Pleaders of the higher grade, (2) Pleaders of the lower grade, and (3) Mukhtars, and the first part of each return should show, in order of seniority, the names and particulars of those who have renewed their certificates, and the latter part, the names and particulars of those who have not done so. G. L. No. 2 of 30th January 1878.

Information to District Magistrates.

39. District Judges will inform the District Magistrate of the names of any Pleaders and Mukhtars who may enrol themselves in their Courts, or may renew their certificates. G. L. No. 9 of 10th September 1890, and G. L. No. 3 of 31st January 1891.

Annual Returns of Pleaders willing to execute commissions for the examination of witnesses.

40. On the 15th of December of each year every District Judge shall submit to the High Court a list, in duplicate, arranged alphabetically according to their surnames, of all pleaders practising in the Courts in his District who are willing to execute commissions for the examination of witnesses during the ensuing year. From the lists so submitted, a general list shall be compiled by the Registrar of the High Court, and copies thereof shall be supplied to all District Judges for use in their own Court and the Courts subordinate thereto. C. O. No. 11 of 12th January 1880.

PART V.

Rules regarding Vakalatnamas. (Rules 41 to 43.)

Responsibility of Pleaders for their correct execution.

41. (*a*) Vakalatnamas, whether executed by principals or their attorneys and agents, and mukhtarnamas under the authority of which vakalatnamas are executed, shall not be required to be verified on oath. C. O. No. 34 of 15th September 1843, and C. O. No. 19 of 11th May 1878.

The responsibility in regard to all such documents being properly and correctly executed shall rest entirely with the Vakils and pleaders. This rule does not apply to cases in which only mukhtars or agents are employed. In all such cases the mukhtarnama shall be verified on oath except in the case of Mukhtars duly certificated under any law for the time being in force.

NOTE.—This exception does not affect the practice in Criminal Courts. —(*C. O. No. 19 of 11th May 1878.*)

Rule No. 5 of 24th June and No. 13 of 18th September 1884.

(*b*) Vakils practising in the High Court shall note on their vakalatnamas the names of the mukhtars or other persons from whom the vakalatnamas are received.

Responsibility of Pleaders in accepting Vakalatnamas.

C. O. No. 26 of 21st June 1879.

42. (*a*) All District Judges and all Munsifs at out-stations will publicly impress upon Pleaders of all grades a sense of their responsibility to the Courts in which they practise, in the matter of accepting vakalatnamas from parties themselves, or from persons professing to be authorised by special or general powers of attorney to act on behalf of other persons.

(*b*) The Courts accept vakalatnamas on the responsibility of Pleaders. A Pleader accepting a vakalatnama purporting to be executed by his client in person is bound to satisfy himself that it was so executed. When it purports to be executed by a third party, on behalf of his client, he is bound to ascertain that such person has been duly empowered by the client to appoint a Vakil, and has himself executed the vakalatnama.

Rule No. 5 of 1916.

(*c*) No vakil or pleader shall receive a vakalatnama from any person other than the party himself, or his recognised agent, or a person duly authorised by power-of-attorney to act in this behalf, or his servant or relation or a pleader or vakil or mukhtar specially authorised in writing in that behalf.

Rule No. 9 of 1918.

(*d*) Where there are more parties than one and they appear by separate vakalatnamas, the vakalatnama of one may be received from any other similarly authorised, but if they appear by one and the same vakalatnama, it may be received from any one of them or from a person duly authorised by any one of them without special authority from the others.

(*e*) When a vakalatnama is filed by a vakil or pleader, he shall endorse on the back of it, the date of acceptance, the name of the person from whom it is received, and, if such person is neither the client himself nor a vakil, pleader or mukhtar, shall state the precise nature of the authority, with date, of that person.

(*f*) A vakalatnama which has been filed in Court may be subsequently accepted by a vakil or pleader whose name appeared in the vakalatnama at the time when it was first filed; in the case of such subsequent acceptance, an endorsement shall be made as in the case of the first acceptance.

Extent of authority of Vakils and Pleaders in Suits.

43. Vakils and Pleaders in suits cannot receive without a special power, sums realized in execution of decrees. The powers conferred on a Vakil or Pleader cease on the enforcement of the decree,—that is on payment of the money (if money be decreed) into Court. The taking the money out of Court is a subsequent and separate transaction, and a Vakil or Pleader should not be permitted to receive the same except where his vakalatnama, by a special clause to that effect, or some separate instrument, distinctly confers on him the authority to do so. In the case of outlying courts, if the record containing the vakalatnama or separate instrument has been sent to the District Record-room and such authority cannot be proved without reference thereto, the Vakil or Pleader concerned should be required to endorse on the petition for the satisfaction of the decree a certificate to the effect that he has the requisite authority to file the same. C. O. No. 229 of 28th September 1842. C. O. No. 2 of 1913.

PART VI.

Miscellaneous. (Rules 44 to 48.)

No Judicial Officer on leave to practise as a Pleader.

44. No Judicial Officer shall be allowed to practise as a Pleader during the term of any leave that he may obtain from the Court. C. O. No. 15 of 22nd April 1863.

Advocates of other High Courts practising within the jurisdiction of the Calcutta High Court.

45. An Advocate, Vakil, or Attorney of a High Court other than the Calcutta Court, is not entitled to practise as such in the Lower Provinces of Bengal unless he ordinarily practises in the Court on the roll of which he is entered, or some Court subordinate thereto. (*See* sections 4 and 5 of Act XVIII of 1879.) C. O. No. 38 of 15th December 1879.

Dress for Vakils of the High Court.

46. Vakils of the High Court, when appearing in Court, are required to wear a blue gown of the prescribed shade, and of the cut and shape of a B.A. gown. The wearing of a head dress is optional. Rules dated 11th April 1907. (G. L. No. 5 of 1907.)

Dress for Pleaders of the Subordinate Courts.

47. Pleaders of the Subordinate Courts, when appearing in Court, are required to wear a green gown of the prescribed shade, and of the cut and shape of a B.A. gown. The wearing of a head dress is optional. Rule No. 5 of 1915.

Rules regarding Pleaders' and Mukhtars' recognised Clerks.

48. The following rules in regard to Pleaders' and Mukhtars' Clerks supersede all others on the G. L. No. 12 of 1909.

same subject, and should be carefully observed by the subordinate Courts:—

(1) In these rules, the expression "recognized clerk" means a clerk employed by a Pleader or Mukhtar, and permitted, as such, to have access to the Courts in which his employer is authorized to practise, and to the offices attached thereto.

(2) Not more than one clerk at a time in the case of a Mukhtar, and not more than two clerks in the case of a Pleader, shall ordinarily be recognized.

(3) The District Judge shall maintain a register of *all* recognised clerks employed in the district, and to each recognised clerk shall be given, under his orders, a card in the form reproduced as Form No. (M) 185 in Volume II. These cards (which shall be strictly non-transferable) shall be recalled for renewal at the close of each year.

(4) The register prescribed by sub-rule (3) shall contain the name, father's name, and residence of each recognised clerk, the date of his registration, the name of the Pleader or Mukhtar by whom he is employed, the Courts in the district in which his employer is authorized to practise, and a column for remarks. It shall be kept in two parts, the first for Pleaders' clerks and the second for Mukhtars' clerks, and copies of it shall be supplied by the District Judge at the commencement of each year to the District Magistrate and to each Subdivisional Office and outlying Munsifi. Copies shall also, if necessary, be furnished to the various Courts at the Sadar Station.

NOTE.—For form of Register, see Form No. (M) 69 in Volume II.

(5) No clerk employed by a Pleader or Mukhtar shall, as such, be allowed access to any of the Courts of the district, or to any of the offices attached thereto, unless he is for the time being a recognised clerk.

(6) The District Judge in any case, and the District Magistrate in the case of Mukhtars' clerks, may for reasons to be recorded in writing, and after hearing the clerk in his defence, if he so desires—order the removal from the register of any recognised clerk and the cancellation of his card, and on the passing of such order, the clerk shall cease to be a recognised clerk. Every such order passed by the District Judge shall be communicated to the District Magistrate, and *vice versâ*, and the necessary steps shall be taken for the alteration accordingly of the register and the copies thereof.

N.B.—Proceedings taken against clerks under this sub-rule are administrative, and not judicial, proceedings.

(7) No person, whose name has been struck off the register, shall be recommended for registration by any Pleader or Mukhtar at the same or any other station.

(8) On or before the date on which these rules come into force, every Pleader or Mukhtar practising in any of the Courts subordinate to the High

Court, other than the Calcutta Small Cause Court, shall report to the District Judge the names or name of the two clerks or clerk whom he desires to have recognised; and the register shall, in the first instance, be prepared accordingly.

(9) When submitting his report under sub-rule (8), the Pleader or Mukhtar shall certify that the persons or person proposed are, or is, to the best of his belief, fit to be so employed, and will be employed *bonâ fide* in his own service and for the purpose of his legal business. No clerk registered as the clerk of one Pleader or Mukhtar shall do business in the Courts, or offices thereof, on behalf of any other Pleader or Mukhtar.

(10) If, on the death, retirement, or dismissal of any recognised clerk, a Pleader or Mukhtar wishes to entertain another clerk in his place, he shall apply for his recognition as required by sub-rule (8), and the certificate required by sub-rule (9) shall be furnished in regard to all such persons as may be recommended hereafter for recognition under these rules.

(11) Nothing in these rules shall be deemed to authorise indiscriminate entry into the offices attached to the Courts or any violation of the orders contained in the Government of Bengal's Circular No. 1259-J., dated the 13th February, 1901, which was published in the *Caluctta Gazette* of the 17th April, 1901, Part IV-A, page 3, and is reproduced in the note below:

NOTE.—The circular referred to in sub-rule (11) above was as follows:—

The following rule has been issued by the Government for incorporation in the Revenue Officers' Manual :—

"With a view to the better conduct of business in Collectorate offices the Lieutenant-Governor has been pleased to order that at the entrance of each office room occupied by Clerks or Mohurirs or Copyists shall be placed a wicket gate with a spring. Inside each such office is to be kept a list showing who were the officers entitled to occupy the room. Outside the entrance to the room should be hung in a conspicuous place a board, having printed on it both in English and Vernacular, 'No admittance for the public.' The Collector and Deputy Collector in charge of a department should visit at unstated times during office hours the room occupied by its subordinates and call the roll; and, in the event of his finding any outsiders within the room, the ministerial head of the department should be punished, since he is to be held responsible that the public do not enter the room."

2. The Lieutenant-Governor desires that the above instructions should be followed by all Civil Courts for the better conduct of business in their offices, and I am to request that you will be so good as to issue the necessary orders in the matter.

APPENDIX.

See Rule 1.

Bengal Government's Notification No. 4445 J., dated the 1st August, 1923.

In exercise of the power conferred by section 37 of the Legal Practitioners Act, 1879 (XVIII of 1879), and in supersession of all previous notifications and resolutions on the subject, the Governor in Council is pleased to make the following regulations for conducting the examination of candidates for

admission as Mukhtars in the Mufassal courts subordinate to the High Court of Judicature at Fort William in Bengal:—

Regulations.

1. The conduct of the examination is vested in the Committee of Legal Education (hereinafter referred to as the Committee) consisting of—

(*a*) four Judges of the High Court to be nominated by the Chief Justice;

(*b*) the Advocate-General, Bengal;

(*c*) the Legal Remembrancers to the Governments of Bengal and Assam;

(*d*) the Senior Government Pleader in the High Court; and

(*e*) the Registrar, High Court (Appellate Side).

The senior Judge of the High Court on the Committee will act as Chairman.

2. The Committee for the purpose of these regulations shall be assisted by a paid Secretary, to be appointed by the Committee in consultation with Government.

3. Government will, from time to time, on the recommendation of the Committee, appoint Examiners in Law. Examiners shall ordinarily be selected from among gentlemen practising as advocates or vakils in the High Court, but the Committee may at its discretion recommend any other person whom it considers to be duly qualified.

4. The examination of candidates shall be held on such dates within the month of February or March in each year as shall be appointed and duly notified by the Committee.

5. The examination shall be held at Calcutta, Gauhati and Sylhet.

6. The examination shall be conducted in English, by written questions.

7. The questions shall be prepared by the Examiners and shall be so framed as to test the knowledge of the candidates in the subjects mentioned in the rules passed by the High Court for the qualification, admission, and enrolment of Mukhtars in Mufassal courts, and they shall be so drawn that a candidate may be able to pass by studying the regulations, enactments, and text-books therein specified.

8. The number of marks to which each candidate shall be entitled for his answers to the questions shall be determined by the Examiners, subject to the control of the Committee.

9. No candidate will be allowed to take into the examination room any books, private memoranda or paper of any description, and any one detected in doing so will not be permitted to undergo examination. Any candidate found to be using unfair means while undergoing examination may be summarily ejected from the examination room, and refused admittance for the remaining portion of the examination.

All cases in which candidates use or attempt to use any unfair means in connection with the examination, or in which any person assists or attempts to assist any candidate by unfair means, shall be reported to the Committee. The Committee shall have power to pass any order which it may consider to be proper, including forfeiture of all benefit from any part of the examination already undergone, forfeiture of fees paid and prohibition from appearance at the remaining portion of the examination, or at all or any future examinations.

10. When the examination shall have been concluded, the Committee shall submit to Government the names of those candidates who have passed, together with a report of their proceedings.

11. The names of the successful candidates shall be published in the—

(1) *Calcutta Gazette.*

(2) *Assam Gazette.*

and certificates under the signatures of the Chairman and Secretary of the Committee, shall be forwarded for distribution to the successful candidates by the Judges of their respective districts.

12. Government will, from time to time in consultation with the Committee, determine the amounts of the fees to be paid by candidates, and the emoluments to be received by the Secretary and the Examiners, and similar matters. On all points in which the interests of Government are affected, the Committee shall consult Government.

13. The Committee will from time to time determine the number of papers to be set, the number of questions to be comprised in each, the marks to be allotted to each paper, the marks required for a pass, and similar matters:

Provided that the amount of the fees to be paid by candidates under Rule 12, and the matters determined by the Committee specified in Rule 13, shall be set out in the notification to be published under Rule 4.

14. The examination of candidates for Muktarship held at Gauhati and Sylhet will be conducted, under the orders of the Committee of Legal Education, by a Superintendent, to be appointed by the Government of Assam. Such Superintendent may be a judicial officer, or other officer of Government who may be available for the duty, provided that, as a general rule, District Judges and Subordinate Judges should not be so employed. The Superintendent will receive no fee.

IT is ordered that Rule 23 of Chapter XXXVII Crown Side Rules of the "The Rules of the High Court 1914" be amended by substituting therein for the words "The prisoner or person to be tried shall be informed that where he desires to object to any juror he must make his objection before the juror is sworn. The names of the jurors shall then be called aloud"; and the words "As the name of each juror is drawn it shall be called aloud and upon the juror appearing the prisoner or person to be tried shall be asked if he objects to be tried by such juror" with effect from the 1st day of March 1925.

(RAILWAY BOARD.)

No. 2131-F.

Delhi, the 19th February 1925.

RESOLUTION.

Financing of Branch Lines.

The Governor General in Council, with the sanction of His Majesty's Secretary of State for India, is pleased to issue the following orders on the subject of Financing of Branch Lines, in supersession of all previous orders on the subject.

Branch and Feeder Lines are constructed under an agreement by which the State guarantees a minimum return on the capital, or alternatively, undertakes that the line shall receive, out of the earnings of the main line from traffic contributed by the branch, such a sum, known as a rebate, as will make up the total earnings of the branch to a given sum, while the branch in each case shares with the main line any profits exceeding the guaranteed minimum.

2. This method of encouraging the construction of lines originated 30 years ago simply because the Government of India was unable to furnish the necessary capital.

3. The Acworth Committee pointed out that this method, while enabling lines to be built which would otherwise not have been built, has no other merit. The financial terms usual before the war are now quite inadequate and if the system is to continue they will have to be revised. All the witnesses before the Committee who asked for a revision of the terms admitted that, if the main line were in a position to build a given branch itself, they would prefer that it should be done by the main line rather than that it should be done as a separate undertaking.

4. Amongst the disadvantages pointed out by the Committee are the following :—

(*i*) The Branch Line Company is usually a fifth wheel to the coach. It implies in some cases a separate construction staff ; it always implies a separate Board of Directors, and separate accounts.

(*ii*) Where the branch is worked by the main line, if its Directors feel that the management is unsatisfactory, they not only make representations to the main line administration, but in the last resort can appeal to the Railway Board which does not make for harmony.

(*iii*) Capital raised by a small private undertaking, even with a Government guarantee, will cost more than money raised by the State.

(*iv*) Inconceivable confusion results from the multiplication of independent Railway Companies—each company, small or great, desires to reserve for itself a separate sphere of influence ; and jealously demands that, if any newcomer intrudes into that sphere, he shall pay toll to the original concessionaire. This only complicates a situation which ought to be considered solely from the point of view of the public interest. New proposals for the extension or connection of lines by small independent companies are either refused owing to protests by the old company or only permitted on a basis of elaborate accounting between the new company and the old for the profits which hypothetically would have belonged to the old line had the new line not been opened.

5. The only arguments urged in favour of the Branch Line Companies were :—

(*i*) That money had been raised which the Government of India was unable to furnish.

(*ii*) That a claim was made that the Branch Line Company obtained from local sources money that would never be subscribed to a Government loan.

(*iii*) That there may be cases of a Branch Line of smaller gauge *worked independently* which the Branch Line Company can operate more economically than a main line.

6. The Acworth Committee, therefore, so far from approving of this system considered that the aim of the Government should be to reduce by amalgamation the number of existing companies and that it should only be in cases where the State cannot or will not provide adequate funds that private enterprise in this direction should be encouraged.

7. The disadvantages pointed out by the Acworth Committee require to be even further amplified. The existing Branch Line Companies have ceased for some time to raise additional capital for capital requirements. They have either obtained overdrafts from various banks for this purpose at heavy rates of interest or issued debentures at special rates of interest (usually about 7 per cent.) or in several cases asked for money to be advanced to them by the Railway Board. So far, therefore, from reducing the amount that the Government of India have to raise in the open market, they are at present increasing that amount.

8. Another serious disadvantage which is not mentioned by the Acworth Committee is that the main line usually works the Feeder or Branch Line for a remuneration which, in most cases, is limited to a maximum of a fixed percentage of the gross earnings of the Branch Line (usually 40 per cent. or 50 per cent.)—terms of remuneration which at present are grossly inadequate. The result of this arrangement is that many of the main lines whose working expenses are from 60 to 80 per cent. of the gross earnings are saddled with heavy expenditure which ought to have been debited to Branch Line Companies. Where the Branch Line Companies are "successful," that is where the shares stand at a high figure, their profits are inflated owing to their working expenses being thus artificially reduced. Again, where in the case of less "prosperous" Branch Line Companies, the Government has to make a direct subsidy in order to make up the guaranteed interest on the capital, the amount paid by way of subsidy does not reveal the true loss of the Government in connection with the Branch Line Company. To this subsidy should be added also the additional loss incurred from the main line working the Branch Line at less than the actual cost. Even this, however, does not give a complete statement of the loss sustained by Government in connection with these Companies. These Companies have been supplied with land free of charge and the cost of such land is not taken into account either in the Capital or the Revenue Accounts of the Companies concerned.

9. The only real argument in favour of these Companies is that they must be utilised in cases where the Government itself is unable or declines to raise the necessary amount of capital for new constructions. It is doubtful whether such a position is likely to recur in the future. It is admitted that to use the agency of these Companies is a far more expensive method of raising money for the construction of railways than direct Government loans can ever be. The amount of assistance given by Branch Line Companies in the past has been trivial; the total amount of capital raised through the agency of Branch Line Companies has only been about Rs. 10½ crores—an amount which in itself is less than the lapse that occurred last year in the provision for capital expenditure in the Railway Budget.

10. The difficulties and complications now experienced in connection with these Branch Line Companies are out of all proportion to the insignificant financial facilities offered by the Companies. The Government of India have therefore decided that the Branch line policy should be abandoned and that an endeavour should be made to reduce the number of the existing Branch Line Companies. If on any occasion the Government of India should be unable to find funds for construction (which is not the case at present), and should it be considered advisable to tap fresh sources for subscription to railway loans by offering terms different from those given to the ordinary Government loans, that is, by offering not only a fixed rate of interest but a share in the profits of a particular Branch Line, there appears to be no particular advantage of using a financial half-way house specially to float a loan on such terms; there appears to be no reason why the Government should not float the loan direct. But it will probably be found sufficient to raise short term debentures at a high rate of interest—to be liquidated when the loan market is favourable—a procedure adopted now by the Branch Line Companies, but at a higher rate of interest than would be necessary for the Government.

11. There remains the case of the District Board Railways for which some of the capital or the security for the capital is secured by a special cess levied by the District Board throughout the district.

The Acworth Committee pointed out that where a District Board was the promoter of a new Branch Line, considerations other than purely commercial came into play with the result of further complications and confusion. In a footnote to the report they referred to the views expressed by the Madras Government who had drawn attention to a case in which, although no short-circuiting was involved, there had been a delay of over 10 years in arriving at a decision in regard to the terms for working a District Board Railway by the South Indian Railway Company. The amount of capital raised by District Boards for such lines has been only Rs. 137 lakhs while the amount raised by Company lines subsidised by District Boards amounts to Rs. 2½ crores. These amounts are insignificant as compared with the total capital raised by the Government and it is clear that the relief afforded to the Government of India in raising the loans is quite disproportionate to the great complications which have resulted in the working of the railway administration. Loans raised direct by the District Boards do not relieve the market of the Government of India, the money is ultimately borrowed from the Government of India.

12. The legal position regarding the powers of District and Local Boards in the matter of railway construction and management depends in part on the Indian Railways Act, 1890, which, in the absence of express exclusion of its application, extends to all District Board railways and, in part, on the nature of the provision made in the matter in the District or Local Boards Act of the province concerned. It is only in the Madras Presidency that the question has assumed prominence and it will suffice to indicate briefly the nature of the provisions contained in the Madras Local Boards Act, 1920. Action under section 113 of that Act can only be taken "with the previous sanction of the Government of India." Having obtained such sanction, a District Board may either itself construct and maintain a railway within, or partly within, the local area under the control of the Board, or may subscribe to any debenture loan raised by the Government of India or by any other local authority or by any company for the construction or maintenance

of any railway which the Board considers likely to be of benefit to the district or may guarantee the payment from the district fund of such sums as it shall think fit as interest on capital expended on any such railway (that is, whether the railway is constructed by the Government of India or by any other local authority or by a Company).

Section 236 of the same Act provides that the accumulations of a local railway cess may be utilised for all or any of the purposes specified in section 113, including the guaranteeing of payment of interest on capital spent on a railway.

A District Board in Madras, therefore, can guarantee the payment from the district fund of the money sufficient to make up the minimum interest on capital expended on a railway within its area whether such railway is constructed by the Government of India or by a Company, the only disadvantage attaching to this particular form of guarantee being that the Act does not make the payment of the guaranteed interest a first charge on the District Board Fund.

13. The Government of India could not reasonably use their powers under the Indian Railways Act, 1890, or under, *e.g.*, section 113 of the Madras Local Boards Act, 1920, to prevent a District Board or a local body from constructing a light railway or a tramway which had no physical connection with any existing main line and which that local body proposed to work itself or through a local company. But as things stand at present there is no reason for continuing the practice under which District Boards are allowed to make money out of Branch Lines connected with a main line when they themselves cannot make any arrangements for the working of the lines and require to have them run by the main lines.

14. These District Board railways must not be confused with the light and feeder railways which constitute a provincial subject under the Devolution Rules. The provincial subject in question comprises " light and feeder railways and extra-municipal tramways in so far as provision for their construction and management is made by provincial legislation." That is to say, it comprises only individual light or feeder railways or extra-municipal tramways for the construction and management of which specific provision has been made by an Act of the local legislature of the province concerned. Hitherto, no such legislation has been enacted with the result that the entry in question in the provincial schedule, as also the qualifying words in entry 5 (*a*)* in the central schedule, have no operation, and all existing railways of every description are included in the central subject defined in the last-named entry. It should also be observed that the provincial subject in question is " subject to legislation by the Indian Legislature in the case of any such railway or tramway which is in physical connection with a main line or is built on the same gauge as an adjacent line," the effect being that a provincial bill designed to provide for the construction of a light or feeder railway or extra-municipal tramway in physical connection with a main line or built on the same gauge as an adjacent main line would require the previous sanction of the Governor General under clause (*f*) of sub-section (*3*) of section 80 A of the Government of India Act ; and it may be presumed that few occasions are likely to arise in which provision will be made by local legislation for the construction of a light or feeder railway not answering one or other of these descriptions.

15. The proposals set forth in this Resolution are not designed to evade the legitimate operation of the legal position described, in the case of District Board railways, in paragraph 12 and in the case of provincial light and feeder railways, in paragraph 14 ; but it follows from the proposals that Local Governments and District or Local Boards should not, in the absence of special circumstances, be encouraged to build branch or feeder lines. In other words, the normal procedure will be the construction by the Government of India, or, at its cost, by a Company, of a branch line which a District Board or Local Government desires to have constructed and is prepared to guarantee. But, should the railway programme not permit the construction of such a line within a reasonable time, the possibility of permitting a District Board or Local Government to construct it from its own funds would require consideration.

Unremunerative Lines.

16. The above proposals relate to the procedure adopted in the past and the procedure which it is proposed to adopt in the future for the financing of the construction of branch or feeder lines expected to prove remunerative from the point of view of railway earnings only. But there are cases where the Local Governments or local authorities may desire that a line should be constructed which will not be remunerative on railway earnings and the construction of which is desired by them for purely local reasons on account of the administrative advantages it is likely to confer or for the development of a particular area. It is proposed that in future the Railway Board in such circumstances should have power to arrange for the construction of the line from railway funds if the Local Government or the local authority guarantees the Railway Board against loss. The guarantee would be to the effect that the local authority would make up the difference between the net earnings and the interest and other charges payable. As it is not desirable that the Central Government should make any profit out of such contributions by local authorities, it is also proposed that where contributions

* " Railways and extra-municipal tramways, in so far as they are not classified as provincial subjects under entry 6 (*d*) of Part II of this schedule."

have been made by a local authority for this purpose the payment of such contributions should be a first charge on any net profits subsequently realised from the line, should the line prove remunerative.

17. The Central Government must, however, retain the power to decide whether a line is to be built or not; the proposals in the preceding paragraph must not be taken to imply that a Local Government by giving a guarantee can require the Railway Board to construct a line. Proposals of a Local Government might run counter to the general railway policy or might take the form of short-circuiting railway traffic and so lead to a reduction of receipts from existing lines.

18. These proposals have been circulated to Local Governments and have been generally welcomed by them as affording a suitable method of reconciling central and local interests and of providing for local bodies and Local Governments a method of securing the construction of railways which may be required for purely local reasons, and which, while not likely to prove remunerative on purely railway earnings, are likely to provide such indirect benefits to Local Governments and local bodies as will more than repay the amounts paid under the guarantee. Several such arrangements have already been made with Local Governments.

ORDER.—Ordered that a copy of this Resolution be forwarded to all Local Governments and Administrations for information, to all Railway Administrations for information and guidance, and that the Resolution be published in the Supplement to the *Gazette of India* for general information.

Port Commissioners' Office, Calcutta, the 12th March 1925. (512—1)

Notification of Sale.

TO be peremptorily sold by the Sheriff of Calcutta on Friday, the 24th day of April 1925 at 12 noon in his sale-room in the High Court Buildings in Calcutta under an order made by the High Court of Judicature at Fort William in Bengal in its Ordinary Original Civil Jurisdiction on the 28th day of July 1924 in execution of the decree made in suit No. 3024 of 1921 (Narendra Nath Chatterjee *versus* Debendra Nath Dutta) and dated the 19th day of December 1921, the following property :—

All that the undivided one-fifth part or share of the defendant Debendra Nath Dutta of and in the house and premises No. 16, Goloke Dutt Lane in Sutanaty in the town of Calcutta, butted and bounded on the north by a passage leading up to the said Goloke Dutt Lane and forming a branch of the said Goloke Dutt Lane, on the east by the tenanted house of 17, Goloke Dutt Lane belonging to Trailokya Nath Dutta, on the south by Goloke Dutt Lane and on the west by 15, Goloke Dutt Lane.

It appears from the affidavit of search filed that the abovementioned property is subject to the following encumbrance.

That on the 5th January 1909 a mortgage of the entire premises of No. 16, Goloke Dutt Lane, Calcutta, for Rs. 1,500 and interest at the rate of Rs. 10 per month with quarterly rests was executed by Amulya Charan Dutta, Atul Krishna Dutta, Nagendra Nath Dutta and Debendra Nath Dutta, sons and Sreemati Satyangini Dassy, widow of Kedar Nath Dutta, deceased, in favour of one Noot Behary Pal, since deceased. It further appearing from the said affidavit that the widow and administratrix of the said Noot Behari Pal deceased, namely, Makhan Bala Dassy instituted a suit thereon in the said High Court being suit No. 2430 of 1921 wherein a preliminary mortgage decree was made on the 16th January 1922 and pursuant thereto the Registrar of the said High Court made his report whereby he found and reported that Rs. 2,224-11-6 would be due to the plaintiff (mortgagee) on the 23rd day of February 1923 and fixed the 23rd day of February 1923 as the last date of payment thereof and that there have been no further proceedings thereafter in the said suit.

The sum for the recovery of which the sale has been ordered is Rs. 4,800-9 being the amount payable under the said decree with interest thereon at the rate of 6 per cent. per annum from the 19th December 1921 until realization besides the costs of the suit and of the execution proceedings.

The conditions of sale may be seen at the office of the said Sheriff on the ground floor of the Court House on any day before the sale and will be produced at the sale.

Dated this 6th day of March 1925.

ONKARMUL JATIA, Sheriff.

H. B. Dutta plaintiff's Attorney, 9, Old Post Office Street, Calcutta. (511—1)

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[AS INTRODUCED IN THE LEGISLATIVE ASSEMBLY.]

A Bill to define and limit the powers of certain Courts in punishing contempts of courts.

WHEREAS doubts have arisen as to the powers of a High Court of Judicature to punish contempts of subordinate Courts ;

And whereas it is expedient to resolve these doubts and to define and limit the powers exerciseable by a High Court and other superior Courts in punishing contempts of courts ; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Contempt of Courts Act, 1925.

(*2*) It shall extend to the whole of British India.

(*3*) It shall come into force on such date as the Governor General in Council may, by notification in the *Gazette of India*, appoint.

Punishment for contempt of court.

2. (*1*) Whoever by words either spoken or written or by signs or by visible representation or otherwise, interferes with or obstructs or attempts to interfere with or obstruct the administration of justice in, or brings or attempts to bring into contempt, or lowers or attempts to lower the authority of, a Court specified in the Schedule or a Court subordinate thereto, is said to commit contempt of court.

(*2*) Whoever commits any contempt of court in respect of a court specified in the Schedule or of a Court subordinate thereto may be punished with imprisonment for a term which may extend to six months, or with fine, or with both.

Power to take cognisance of offences under the Act.

3. (*1*) A Court specified in the Schedule may on or without application take cognisance of an offence punishable under section 2, when such offence is alleged to have been committed in respect of such Court.

(*2*) A Court specified in the Schedule may take cognisance of an offence punishable under section 2, when such offence is alleged to have been committed in respect of a Court subordinate thereto, of its own motion or on application by the Crown.

(*3*) Save as provided in sub-sections (*1*) and (*2*), no Court shall take cognisance of an offence punishable under section 2.

Powers and procedure of courts.

4. (*1*) A Court specified in the Schedule may prescribe by rule the procedure to be followed by the Court in proceedings in respect of an offence under this Act.

(*2*) The provisions of the Code of Criminal Procedure, 1898, so far only as they are not inconsistent with the provisions of this Act or the procedure prescribed under sub-section (*1*), shall apply to such proceedings; and a Court specified in the Schedule shall have in such proceedings all the powers conferred by the Code on the Court in the exercise of its original criminal jurisdiction. V of 1898

Limitation of powers of certain courts.

5. Save as provided by the Code of Criminal Procedure, 1898, the powers of the Courts specified in the Schedule to punish contempt of court are hereby declared to be limited to the powers vested in them by this Act. V of 1898.

THE SCHEDULE.

(*See section 3.*)

The High Court of Judicature at Fort William in Bengal.
The High Court of Judicature at Madras.
The High Court of Judicature at Bombay.
The High Court of Judicature at Allahabad.
The High Court of Judicature at Patna.
The High Court of Judicature at Lahore.
The High Court of Judicature at Rangoon.
The Court of the Judicial Commissioner of the Central Provinces.
The Court of the Judicial Commissioner of Oudh.
The Court of the Judicial Commissioner of Sind.

STATEMENT OF OBJECTS AND REASONS.

The several high courts of judicature established by letters patent are superior courts of record, and as such they have power to attach and commit for acts amounting to contempt of their own proceedings as contempt of court, and without reference to whether the acts alleged constitute an offence under the Indian Penal Code. Different views have, however, been held by the various high courts in regard to their power to punish for such contempts committed in regard to proceedings in courts which are subordinate to them. The Madras High Court in the case of in *re* Venkata Rao (21, Madras Law Journal, 832) and the Bombay High Court in the case of King Emperor *v.* P. G. Kulkarni (24, Bombay Law Reporter, 16) have held that they possess this power to protect their subordinate courts against such contempts. The Calcutta High Court, on the other hand, in the cases of King Emperor *v.* Girindra Mohan Das and others (17, Calcutta Weekly Notes, 1285) and of Legal Remembrancer *v.* Moti Lal Ghose (I. L. R. 41, Calcutta, 173) has taken a contrary view. In cases in which it is held that the power to attach and commit exists the powers of the courts are as unrestricted as are the powers of superior courts of record in England. It has not been decided whether the Courts of the Judicial Commissioners of the Central Provinces, Oudh and Sind, have these general powers either in regard to contempt of their own proceedings or of the proceedings of courts subordinate to them. In England, in addition to the powers of the superior courts of record to attach and commit for contempt of court, contempts of courts are also indictable misdemeanours at common law. In India, on the other hand, though the Indian Penal Code makes certain acts which would be punishable as contempts of court in England specific offences, it does not provide generally for the punishment of contempts of the authority of judicial officers not committed in their presence.

2. The condition of the law in India as summarised above has long been regarded as unsatisfactory, and in 1914 a Bill was introduced in the Indian Legislative Council which would have increased the classes of cases of contempts of court punishable as offences under the Indian Penal Code, but it was not proceeded with owing to the war. The present Bill proposes to declare and amend the law on other lines. Instead of increasing the classes of cases punishable as contempts of court after trial by magistrates, the Bill restricts the power to protect subordinate courts against contempts which are not already provided for in the Indian Penal Code to the high courts themselves. The Bill resolves any doubts as to the powers of the high courts of judicature in regard to the protection of their subordinate courts from such contempts. It will show clearly that the Courts of the Judicial Commissioners of the Central Provinces, Oudh and Sind, will have the same powers of punishing for contempts committed in regard to their own proceedings or of the proceedings of courts subordinate to them. In lieu of the existing unrestricted powers of the high courts of judicature it will define the nature of the offence of contempt of court and the extent of the punishment which may be awarded. Finally, it bars the inherent powers of the high courts to deal with such offences.

1850	XXXIV	The State Prisoners Act, 1850 ...	The whole.
1867	XXIII	The Punjab Murderous Outrages Act, 1867.	The whole
1911	X	The Prevention of Seditious Meetings Act, 1911.	The whole.

STATEMENT OF OBJECTS AND REASONS.

The ordinary criminal law of the land is sufficient to deal with persons guilty of offences against the State. The Indian Penal Code was not in the Statute-book when the Bengal, Madras and Bombay Regulations were enacted. The other three enactments, viz., Act XXXIV of 1850, Act XXIII of 1867 and Act X of 1911, are no longer necessary.

The following Bill was introduced in the Legislative Assembly on the 3rd February, 1925 :—

No. 10 OF 1925.

A Bill further to amend the Indian Penal Code.

WHEREAS it is expedient further to amend the Indian Penal Code ; It is hereby enacted as follows :— XLV of 1860.

Short title. **1.** This Act may be called the Indian Penal Code (Amendment) Act, 192

Amendment of section 124A, Act XLV of 1860. **2.** In section 124A of the Indian Penal Code, the words " with transportation for life or any shorter term, to which fine may be added, or " shall be omitted, and the word " simple " shall be inserted before the word " imprisonment." XLV of 1860.

STATEMENT OF OBJECTS AND REASONS.

Persons convicted of the offence of sedition are not criminals of ordinary type. They are mostly well-educated ; and instances are not rare when highly intellectual and distinguished men have been found guilty of this offence. Offenders of this class are not accustomed to any kind of manual labour which they have to perform when rigorous imprisonment is inflicted upon them. Sedition is not an offence for which the punishment of transportation or rigorous imprisonment is necessary in the interest of public welfare. The political history of the last five years has clearly shown in all its nakedness the glaring fact that persons convicted of offences against the State have not only been invited to take part in the counsels of Government, but have also been entrusted with the sole administration of a country. The punishment provided for the offence of sedition should, therefore, be simple imprisonment.

The following Bill was introduced in the Legislative Assembly on the 3rd February, 1925 :—

No. 11 OF 1925.

A Bill to explain certain provisions of the Transfer of Property Act, 1882.

WHEREAS it is expedient to explain certain provisions of the Transfer of Property Act, 1882 ; It is hereby enacted as follows :— IV of 1882.

Short title, commencement and extent.

1. (*1*) This Act may be called the Transfer of Property (Amendment) Act, 192 .

(*2*) It shall come into force at once.

(*3*) It extends to those portions of British India to which the Transfer of Property Act, 1882, extends. IV of 1882.

Amendment of section 3, Act IV of 1882.

2. In section 3 of the said Act, after the definition of the word "registered", the following shall be inserted, namely :—

"'attest' includes an attestation by two or more persons each of whom must have seen the executant sign or affix his mark to the instrument, or have seen some other person sign the instrument in the presence and by the direction of the executant, or have received from the executant a personal acknowledgment of his signature or mark, or of the signature of such other person ; and each of the witnesses must sign before the transaction to which it relates is closed ; but it shall not be necessary that more than one witness be present at the same time, and no particular form of attestation shall be necessary."

STATEMENT OF OBJECTS AND REASONS.

Both sections 59 and 123 of the Transfer of Property Act, 1882, require that an instrument of mortgage or gift shall be attested by at least two witnesses. The meaning of the term 'attest' was the subject of serious conflict between the various High Courts of India till the decision of the Privy Council in *Shamu Pattar* versus *Abdul Khan* (1912) I. L. R. 35 M. 607 P. C., in which Mr. Amir Ali delivering the judgment of the Privy Council adopted a narrow interpretation of that term by holding the term "attest" to imply attestation of the signature of the executant. In so holding their Lordships admit that the word "to attest" has a dual meaning and they further admit that the English cases decided since 1752 have construed it in its enlarged sense even where the Statute of Frauds (29 Car. II, C. 3, S. 5) required a Will to be signed by the testator in the presence of the witnesses. But in the view of their Lordships the Indian Legislature was held to have used the term in its narrow sense because while section 50 of the Indian Succession Act, 1865, explains its wider meaning the Transfer of Property Act used the term without any explanatory clause. They also added that some English Judges demurred to the wider use of the term in the earlier English cases. In this state of the law it is for the Indian Legislature to remove the uncertainty held to arise from the mere use of the term "attest" in section 59 of the Transfer of Property Act while it is coupled with an *explanation* in section 50 of the Indian Succession Act. This Bill is intended to place the definition of the term as used in the Transfer of Property Act in line with the earlier Act. The other view would not only create a discrepancy between the two Acts of the same Legislature but at times defeat the very purpose of attestation since as between two witnesses, one of whom was present throughout the whole transaction and the other who was absent during all that time but happened to be casually present when the executant was affixing his signature, the former should be preferred on the principle of law, for

centuries accepted by the Courts as established beyond question, that an attesting witness is one who is a living repository of the facts and circumstances attending the execution of a deed : that is, for instance whether the parties were at arms length, or whether any inducement, fraud, misrepresentation or other influences were brought to bear upon the executant to obtain his consent to the execution of the deed. The narrow view of the Privy Council has led to widespread subordination of witnesses with the result that the mortgagees find their suits a mere gamble, the success of which depends upon the evidence of their attesting witnesses. Where these witnesses lie, being suborned by the mortgagor, the unfortunate mortgagees cannot have recourse to the provisions of section 71 of the Indian Evidence Act, 1872. Several attempts have been made during the last few years in the Legislature to rectify this wrong. A short Bill (Act XXVI of 1917) was passed to legalise certain mortgages executed in the United Provinces where the High Court had taken the wider view before the decision of the Privy Council. That period being passed the United Provinces with the rest of India are now subject to the rule enunciated by the Privy Council, which must therefore be over-ruled by the Legislature. Two attempts were recently made towards this end, but both the Bills had to be rejected upon other grounds.

The following Bill was introduced in the Legislative Assembly on the 3rd February, 1925 :—

No. 12 OF 1925.

A Bill to remove certain doubts as to the right of a person to effect a transfer of property otherwise than as provided by the Transfer of Property Act, 1882.

WHEREAS certain doubts have arisen as to the right of a person to effect a transfer of property otherwise than as provided by the Transfer of Property Act, 1882, and it is expedient IV of 1882. to remove such doubts ; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Law of Property (Amendment) Act, 192 .

(*2*) It extends to the whole of British India.

(*3*) It shall come into force at once.

Insertion of new section after section 9, Act I of 1877.

2. After section 9 of the Specific Relief Act, 1877, the I of 1877. following new section shall be inserted, namely :—

Right of possession of property.

9A. (*1*) The right of a person to obtain possession of specific immoveable property shall not be affected by any Act or omission on the part of the person entitled to possession not legally disentitling him to possession.

(*2*) Without prejudice to the generality of the foregoing provision where a person transfers possession of his specific immoveable property to another under a contract to transfer it to him upon execution of a conveyance the latter shall not be entitled to retain it after his suit for specific performance of his contract has become barred by the law of limitation."

Substitution of section 9, Act IV of 1882.

3. For section 9 of the Transfer of Property Act, 1882, the IV of 1882. following shall be substituted, namely :—

Transfer how made.

"9. (*1*) A transfer of property shall only be made in the manner as hereinafter provided.

(*2*) In other cases a transfer of property may be made without writing in every case in which a writing is not expressly required by law."

STATEMENT OF OBJECTS AND REASONS.

The necessity for this Bill has become apparent by reason of the following facts. It was laid down in several cases that, as provided in section 54 of the Transfer of Property Act (IV of 1882), a sale of immoveable property can only be made as therein provided, namely, that in the case mentioned in clause 2 of that section no sale is valid unless it is evidenced by a registered instrument. That decision also provided that a contract of sale did not of itself create any interest in or charge on such property. Consequently, where in pursuance of such contract the seller transfers his property to the purchaser the latter acquires no interest in the property ; but the cases have held that where the vendor seeks to eject him the purchaser may resist his ejectment on the ground that he was placed in possession in pursuance of a contract of sale to the specific performance of which he is still entitled. It is an equitable right which the Courts have recognised to enable the parties to the contract to maintain a *status quo* pending the execution of a formal sale deed :—

Veerareddi v. *Kurri Bapireddi* 29 M 336 FB ;
Ramanathan v. *Ranganathan* 40 M 1134 ;
Subramania v. *Kalyanasundaram* 53 I C 283 ;
Lalchand v. *Lakshman* 28 B 466 (471, 472) ;
Bapu v. *Kashinath* 41 B 438 FB ;
Gajendra Nath v. *Moulvie Ashrof Hussain* (1922) 27 C. W. N. 159 ;
Sham Kishore v. *Dines Chandra* (1920) 31 C. L. J. 75 ;

Sheorain v. *Lalman* 13 C. P. L. R. 163 ;
Durgai Lodhi v. *Ajab Singh* 15 C. P. L. R. 33 (35) ;
Jevram v. *Ganpati* 17 C. P. L. R. 19 ;
Jairam v. *Balkishendas* 3 N L. R. 72 ;
Gangabisan v. *Tukaram* 5 N. L. R. 70 (75).

2. But more recently in consequence of two decisions of their Lordships of the Privy Council (*Mohamed Musa* v. *Aghore Kumar* 42 C 801 P.C., *Venkayamma* v. *Appa Rao* 39 M 509 P.C.) the Courts have felt constrained to hold that the party in possession is entitled to resist his ouster even though his suit for specific performance of his contract for sale has become barred by time. And the Courts have even gone the length of holding that a sale might be completed otherwise than as required by section 54 of the Transfer of Property Act. The two cases of their Lordships would appear to conflict with their other decisions. [*Immudipattam* v. *Periya* 24 M 377 P.C., *Maung Shwe Goh* v. *Maung Inn* 44 C 542 (552) P.C.]

3. Nevertheless the Courts in India have placed undue emphasis upon certain expressions which occur in the judgments of their Lordships in the two cases first cited in which they seem to imply that a sale may be made good in spite of non-compliance with the rigid provisions of law by invoking the aid of the English equitable doctrine of part performance and "actings of the parties" based upon the English doctrine of equitable ownership which is, however, inapplicable to India. [*Maung Shwe Goh* v. *Maung Inn* 44 C. 542 (552, 553) P.C., *Khagendra Nath* v. *Sonatan* 20 C. W. N. 149 ; *Sham Kishore* v. *Dines Chandra* 31 C. L. J. 75 ; *Shafi Kul Haq* v. *Krishna Gobinda* 23 C. W. N. 284 ; *Meher Ali* v. *Arutunessa*, 25 C. W. N. 905 ; *Salamat-uz-Samin* v. *Masha Alla* 40 A. 187 ; *Venkatesk* v. *Mallia[illegible]pa* 46 B. 722 (726) ; *Vizagapatam & Co.* v. *Muthumareddi* 46 M. 919 (928) F. B.] (rule applies even where the vendee's suit for specific performance has become barred).

4. It is apprehended that their Lordships could not have intended to imply that the actings of the parties were sufficient to evade the provisions of law. But such has been the effect of some of the recent decisions of the High Courts, though, in other cases the Courts have been unable to interpret them as neutralizing the effect of Statute law. This Bill is intended to give Legislative expression to this view which seems sufficiently supported by the language of section 54 of the Transfer of Property Act. The effect of the Bill is to overrule the decisions which have held otherwise.

5. It is of the essence of a Code to be exhaustive and the purpose of a Statute is that on any point specifically dealt with by it, the law should be ascertained by interpreting the language used instead of as before roaming over a vast number of authorities in order to discover what law was. extracting it by a minute critical examination of the prior decisions. [Per Lord Herschell in *Bank of England* v. *Vagliano* (1891) A. C. 107 cited *Norendra Nath* v. *Kamal Basini* 23 C. 503 (572) P. C. To the same effect *Burn & Co.* v. *McDonald* 36 C. 364 ; *Gokul Mander* v. *Pudmanund* 6 C. W. N. 825 P. C.]

6. In the face of this rule it is not open to the Courts to disregard the Statute and introduce into the country the elements of confusion already created and likely to increase by having recourse to the rules of part performance and actings of the parties, which rules, whatever their value in countries which do not enjoy the advantage of codified law, cannot but have that effect in this country. It is for the Legislature to say whether it regards compliance with its enactments compulsory or merely optional.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 3rd February, 1925 :—

No. 13 OF 1925.

A Bill to consolidate and amend the law relating to arbitration in British India.

[The corresponding provisions of the Indian Arbitration Act (I. A. A.), the English Arbitration Act (E. A. A.) and Schedule to the Civil Procedure Code (Sch., C. P. Code) are indicated in the margin.]

WHEREAS it is expedient to consolidate and amend the law relating to arbitration in British India ; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Indian Arbitration Act, 192 .

(*2*) It extends to the whole of British India, *except such districts where the Code of Civil procedure, 1908, is not in force.*

(*3*) It shall come into force on 192 .

PART I.

ARBITRATION WITHOUT THE INTERVENTION OF THE COURT.

Definitions.

2. In this Part, unless there is anything repugnant in the subject or context,— S. 4, I. A. A.

(*a*) "the Court" means the Court which, if the subject-matter submitted to arbitration were the subject of a suit, would have jurisdiction to try the suit ; but shall not include a Court of small Causes ;

(*b*) "submission" means a written agreement to submit present or future differences to arbitration, whether an arbitrator is named therein or not.

Submission to be irrevocable except by leave of Court.

3. A submission, unless a different intention is expressed therein, shall be irrevocable except by leave of the Court. S. 5, I. A. A.

Provisions implied in submission.

4. Submission, unless a different intention is expressed therein, shall be deemed to include the provisions set forth in the First Schedule, in so far as they are applicable to the reference under submission. S. 6, I. A. A.

Reference to arbitrator to be appointed by third person.

5. The parties to a submission may agree that the reference shall be to an arbitrator or arbitrators to be appointed by a person designated either by name or as the holder for the time being of any office or appointment. S. 7, I. A. A.

Illustration.

The parties to a submission may agree that any dispute arising between them in respect of the subject-matter of the submission shall be referred to an arbitrator to be appointed by the Bengal Chamber of Commerce, or, as the case may be, to an arbitrator to be appointed by the President for the time being of the Bengal Chamber of Commerce.

Power for the Court in certain cases to appoint an arbitrator, umpire or third arbitrator.

6. (*1*) In any of the following cases : S. 8, I. A. A.

(*a*) where a submission provides that the reference shall be to a single arbitrator, and all the parties do not, after differences have arisen, concur in the appointment of an arbitrator ;

(*b*) if a single appointed arbitrator neglects or refuses to act, or is incapable of acting, or dies, or is removed, and the submission does not show that it was intended that the vacancy should not be supplied, and the parties do not supply the vacancy ;

(*c*) where the parties or two arbitrators are at liberty to appoint an umpire or third arbitrator and do not appoint him ;

(*d*) where an appointed umpire or third arbitrator refuses to act, or is incapable of acting, or dies, or is removed, and the submission does not show that it was intended that the vacancy should not be supplied, and the parties or arbitrators do not supply the vacancy ;

any party may serve the other parties or the arbitrators as the case may be, with a written notice to concur in appointing an arbitrator, umpire or third arbitrator.

(*2*) If the appointment is not made within seven clear days after the service of the notice, the Court may, on application by the party who gave the notice, and after giving the other party an opportunity of being heard, appoint an arbitrator, umpire or third arbitrator, who shall have the like power to act in the reference and make an award as if he had been appointed by consent of all the parties.

Power for parties in certain cases to supply vacancy.

7. Where a submission provides that the reference shall be to two arbitrators, one to be appointed by each party, then, unless the submission expresses a contrary intention,— S. 9, I. A. A.

(*a*) if either of the appointed arbitrators refuses to act, or is incapable of acting, or dies, the party who appointed him may appoint a new arbitrator in his place ;

(*b*) if, on such a reference, one party fails to appoint an arbitrator, either originally or by way of substitution as aforesaid, for seven clear days after the other party, having appointed his arbitrator, has served the party making default with notice to make the appointment, the party who has appointed an arbitrator may appoint that arbitrator to act as sole arbitrator in the reference, and his award shall be binding on both parties as if he had been appointed by consent :

Provided that the Court may set aside any appointment made in pursuance of clause (*b*) of this section.

Power to supply vacancy in case of three arbitrators.

8. (*1*) Where a submission to arbitration provides that the reference shall be to three arbitrators, one to be appointed by each party and the third to be appointed by the two appointed by the parties, then, unless the submission expresses a contrary intention— S, 16 of the Administration of Justice Act, 1920, 10 and 11 Geo. 5 (c. 81).

(*a*) If any party fails to appoint an arbitrator for seven clear days after the other party, having appointed his arbitrator, has served the party making default with notice to make the appointment, the party who has appointed an arbitrator may appoint that arbitrator to act as sole arbitrator in the reference, and the award of the arbitrator so appointed shall be binding on both parties as if he had been appointed by consent ;

(*b*) If, after each party has appointed an arbitrator, the two arbitrators appointed fail to appoint a third arbitrator within seven clear days after the service by either party of a notice upon them to make the appointment, the Court may, on an application by the party who gave the notice, exercise in the place of the two arbitrators the power of appointing a third arbitrator ;

(*c*) If an arbitrator, appointed either by one of the parties, by the arbitrators, or by the Court refuses to act, or is incapable of acting, or dies, a new arbitrator may be appointed in his place by the party, arbitrators, or Court, as the case may be.

(2) The Court may set aside any appointment of a person to act as sole arbitrator made in pursuance of this section.

Powers of arbitrators.

9. The arbitrators or umpire acting under a submission shall, unless a different intention is expressed therein, have power— S. 10, I. A. A.

(a) to administer oath or affirmation to the parties and witnesses appearing ;

(b) to state an award as to the whole or part thereof in the form of a special case for the opinion of the Court ;

(c) to correct in an award any clerical mistake or error arising from any accidental slip or omission or modify an award by striking out any part which the Court considers to be bad in law where such part can be separated from the rest.

Summoning of witnesses by Court.

10. (1) Any party to the submission may take out through the Court summonses to persons whose attendance is required to give evidence or to produce documents, provided that no persons shall be compelled under any such summons to produce any document which he could not be compelled to produce on the trial of a suit. S. 8, E. A. A.

(2) Except as provided by rules made under this Act, the rules of Order XVI of the Code of Civil Procedure, 1908, shall apply to summonses issued to witnesses by the Court under this Act so far as they are applicable. V of 1908.

Power for Court to enlarge time for making a ward.

11. The time for making an award may, from time to time, be enlarged by order of the Court, whether the time for making the award has expired or not, or whether the award has been made or not. S. 12, I.A.A

Enforcing award.

12. (1) An award on a submission may, by leave of the Court, be enforced in the same manner as if it were a decree of the Court and the provisions of the Code of Civil Procedure, 1908, relating to the execution of decrees shall, so far as they are applicable, be deemed to apply to the enforcement of an award. S. 12, E.A.A. S 15, I.A.A. V of 1908.

(2) No such leave shall be given until the time prescribed by rules made under this Act for making an application to modify, correct, remit, or set aside an award has expired, and if such an application has been made, until it is disposed of. New.

No suit to contest submission or award except for fraud.

13. No suit shall lie to contest the validity of a submission or an award on any ground other than fraud. New.

Power to remit award.

14. (1) The Court may, from time to time, remit the award or any of the matters referred to therein for the reconsideration of the arbitrator or umpire. S. 13, I.A.A.

(2) The arbitrator or umpire shall reconsider the matters remitted to him or if the award is remitted to him make a fresh award, within three months after the date of the order of the Court or such other period as the Court directs.

Power to remove arbitrator or umpire.

15. Where an arbitrator or umpire has misconducted himself, the Court may remove him. S. 16, I.A.A.

Power to set aside award.

16. (1) Where an arbitrator or umpire has misconducted himself, or an arbitration or award has been improperly procured, or where the award is otherwise invalid, the Court may set aside the award. S. 14, I.A.A.

(2) No award shall be deemed to be invalid by reason only of its being based on a reference which amongst other matters includes matters the subject-matter of a pending suit or proceeding. New.

Power to stay proceedings where there is a submission.

17. Where any party to a submission or any person claiming under him commences any legal proceedings in any Court against any other party to a submission or any person claiming under him in respect of any matter agreed to be referred, any party to such legal proceedings may, before filing a written S. 19, I.A.A.

statement or taking any steps in the proceeding, apply to the Court in which such legal proceeding is pending to stay the proceedings, and such Court, if satisfied that there is no sufficient reason why the matter should not be referred in accordance with the submission and that the applicant was, at the time when the proceedings were commenced and still remains ready and willing to do all things necessary to the proper conduct of the arbitration, make an order staying the proceedings.

Statement of case pending arbitration.

18. Any arbitrator or umpire may, at any stage of the proceedings under a submission and shall, if so directed by the Court, state that in the form of a special case for the opinion of the Court any question of law arising in the course of proceedings before such arbitrator or umpire, and such opinion shall form part of the award. S. 19, E. A.A.

PART II.

ARBITRATION THROUGH A COURT.

Parties to suits or proceedings may apply for order of reference.

19. In any suit or proceeding in any Court of civil jurisdiction if all the parties interested agree, the Court may, at any time by order refer such suit or proceeding to the arbitrator agreed on by the parties, and shall fix such time as it thinks fit for the making of the award. Paras. 1 and 3(1), C. P. C., Sch. II.

Court not to deal with the matter referred.

20. Where a matter is referred to arbitration, the Court shall not, save in the manner and to the extent provided in this part of the Act, deal with such matter. Para. 3 (2), Sch. II, C. P. C.

Where reference to two or more order to provide for difference of opinion.

21. (*1*) Where the reference is to to two or more arbitrators, provision shall be made in the order for a difference of opinion among the arbitrators— Para. 4 Sch. II, C. P. C.

(*a*) by the appointment of an umpire ; or

(*b*) by declaring that, if the majority of the arbitrators agree, the decision of the majority shall prevail ; or

(*c*) by empowering the arbitrators to appoint an umpire ; or

(*d*) otherwise as may be agreed between the parties, or, if they cannot agree, as the Court may determine.

(*2*) Where an umpire is appointed, the Court shall fix such time as it thinks reasonable for the making of his award in case he is required to act.

Power of Court to appoint arbitrator in certain cases.

22. (*1*) In any of the following cases, namely :— Para. 5, Sch. II, C. P. C.

(*a*) where the parties cannot agree within a reasonable time with respect to the appointment of an arbitrator, or the person appointed refuses to accept the office of arbitrator, or

(*b*) where an arbitrator or umpire—

(*i*) dies, or

(*ii*) refuses or neglects to act or becomes incapable of acting, or

(*iii*) leaves British India in circumstances showing that he will probably not return at an early date, or

(*c*) where the arbitrators are empowered by the order of reference to appoint an umpire and fail to do so,

any party may serve the other party of the arbitrators, as the case may be, with a written notice to appoint an arbitrator or umpire.

(*2*) If, within seven clear days after such notice has been served or such further time as the Court may in each case allow, no arbitrator or no umpire is appointed, as the case may be, the Court may, on application by the party who gave the notice, and after giving the other party an opportunity of being heard, appoint an arbitrator or umpire or make an order superseding the arbitration, and in such case shall proceed with the suit.

Powers of arbitrator or umpire appointed under section 21 or section 22.

23. Every arbitrator or umpire appointed under section 21 or section 22 shall have the like powers as if his name had been inserted in the order of reference. Para. 6, Sch. II, C. P. C.

Summoning witnesses and default.

24. (*1*) The Court shall issue the same processes to the parties and witness whom the arbitrator or umpire desires to examine, as the Court may issue in suits tried before it. Para. 7, Sch. II, C. P. C.

(*2*) Persons not attending in accordance with such process, or making any other default, or refusing to give their evidence, or guilty of any contempt to the arbitrator or umpire during the investigation of the matters referred, shall be subject to the like disadvantages, penalties and punishments, by order of the Court on the representation of the arbitrator or umpire, as they would incur for the like offences in suits tried before the Court.

Extension of time for making award.

25. Where the arbitrators or the umpire cannot complete the award within the period specified in the order, the Court may, it it thinks fit, either allow further time, and from time to time, either before or after the expiration of the period fixed for the making of the award (whether an award has been made or not), enlarge such period ; or may make an order superseding the arbitration, and in such case shall proceed with the suit or proceeding. Para. 8, Sch. II, C. P. C.

Where umpire may arbitrate in lieu of arbitrators.

26. Where an umpire has been appointed, he may enter on the reference in the place of the arbitrators,— Para. 9, Sch II, C. P. C.

(*a*) if they have allowed the appointed time to expire without making an award, or

(*b*) if thay have delivered to the Court or to the umpire a notice in writing stating that they cannot agree.

Award to be signed and filed.

27. Where an award in a suit or proceeding has been made the persons who made it shall sign it and cause it to be filed in Court, together with any depositions and documents which have been taken and proved before them ; and notice of the filing shall be given to the parties. Para. 10, Sch. II, C. P. C.

Statement of special case by arbitrators or umpire.

28. Upon any reference by an order of the Court, the arbitrator or umpire may, with the leave of the Court, state the award as to the whole or any part thereof in the form of a special case for the opinion of the Court, and the whole shall deliver its opinion thereon, and shall order such opinion to be added to and to form part of the award. Para. 11, Sch. II, C. P. C.

Power to modify or correct award.

29. The Court may, by order, modify or correct an award,— Para. 12, Sch. II, C. P. C.

(*a*) where it appears that a part of the award is upon a matter not referred to arbitration and such part can be separated from the other part and does not affect the decision on the matter referred ; or

(*b*) where the award is imperfect in form, or contains any obvious error which can be amended without affecting such decision ; or

(*c*) where the award contains a clerical mistake or an error arising from an accidential slip or omission.

Where award or matter referred to arbitration may be remitted.

30. The Court may, from time to time, remit the award or any of the matters referred to arbitration to the reconsideration of the arbitrator or umpire, and shall fix a time within which the arbitrator or the umpire has to submit his decision to the Court. Para. 14. Sch. II, C. P, C;

Grounds for setting aside award.

31. (*1*) An award remitted under section 30 becomes void on failure of the arbitrator or umpire to reconsider it. But no award shall be set aside except on one of the following grounds, namely :— Para. 15, Sch. II, C. P. C.

(*a*) corruption or misconduct of the arbitrator or umpire ;

(*b*) either party having been guilty of fraudulent concealment of any matter which he ought to have disclosed, or of wilfully misleading or deceiving the arbitrator or umpire ;

(*c*) the award having been made after the issue of an order by the Court superseding the arbitration and proceeding with the suit or being otherwise invalid.

(*2*) Where an award becomes void or is set aside under sub-section (*1*), the Court shall make an order superseding the arbitration and in such case shall proceed with the suit or proceeding.

Judgment to be according to award.

32. (*1*) Where the Court sees no cause to remit the award or any of the matters referred to arbitration for reconsideration in manner aforesaid, and no application has been made to set aside the award, or the Court has refused such application, the Court shall, after the time for making such application has expired, proceed to pronounce judgment according to the award, and no appeal shall lie from such judgment. Para. 16, Sch. II, C. P. C.

(*2*) Upon the judgment so pronounced in a suit, a decree shall follow, and no appeal shall lie from such decree except in so far as the decree is in excess of, or not in accordance with, the award.

PART III.

MISCELLANEOUS.

THE FIRST SCHEDULE.

(*See section 4.*)

PROVISIONS TO BE IMPLIED IN SUBMISSIONS.

I. If no other mode of reference is provided, the reference shall be to a single arbitrator. Sch. I, I A A.

II. If the reference is to two arbitrators, the two arbitrators may appoint an umpire at any time within the period during which they have power to make an award.

III. The arbitrators shall make their award in writing within three months after entering on the reference, or after having been called on to act by notice in writing from any party to the submission, or on or before any later day to which the arbitrators, by any writing signed by them, may, from time to time, enlarge the time for making the award.

IV. If the arbitrators have allowed their time or extended time to expire without making an award, or have delivered to any party to the submission, or to the umpire, a notice in writing stating that they cannot agree, the umpire may forthwith enter on the reference in lieu of the arbitrators.

V. The umpire shall make his award within one month after the original or extended time appointed for making the award of the arbitrators has expired, or on or before any later day to which the umpire, by any writing signed by him, may, from time to time, enlarge the time for making his award.

VI. The parties to the reference, and all persons claiming through them respectively, shall, subject to the provisions of any law for the time being in force, submit to be examined by the arbitrators or umpire on oath or affirmation in relation to the matters in dispute, and shall, subject as aforesaid, produce before the arbitrators or umpire all books, deeds, papers, accounts, writings, and documents within their possession or power, respectively, which may be required or called for, and do all other things which during the proceedings on the reference the arbitrators or umpire may require.

VII. The witnesses on the reference shall, if the arbitrators or umpire think fit, be examined on oath.

VIII. The award to be made by the arbitrators or umpire shall be final and binding on the parties and the persons claiming under them respectively.

IX. The costs of the reference and award shall be in the discretion of the arbitrators or umpire, who may direct to and by whom, and in what manner, those costs or any part thereof shall be paid, and may tax or settle the amount of costs to be so paid or any part thereof, and may award costs to be paid as between solicitor and client.

THE SECOND SCHEDULE.

(*See section 38.*)

ENACTMENTS REPEALED.

Year.	No.	Short title.	Extent of repeal.
1899	IX	The Indian Arbitration Act, 1899.	So much as has not been repealed.
1877	I	The Specific Relief Act, 1877.	The last 37 words.
1908	V	The Code of Civil Procedure, 1908.	Section 89, clauses (*a*) to (*f*) of section 104 and the Second Schedule.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to amend and consolidate the law relating to Arbitration in British India. The present Arbitration Act came into force on 1st July 1899. Most of its provisions were borrowed from the English Arbitration Act, 1889 (52 and 53 Vict. c. 49). The English Arbitration Act is, however, a consolidated Act containing provisions both as to arbitration through and outside the Court, while the Indian Arbitration Act confines itself to submissions and awards made without the intervention of Court, and governing only certain Presidency towns and other special local areas. In the last Civil Procedure Code of 1908 arbitration provisions were removed from the main body where they existed before, and made an appenage of the Code in Schedule II. Then Sir Lawrence Jenkins, a prominent member of the Select Committee who were engaged on redrafting the clauses of the Bill, observed as follows :—

> "We have determined, therefore, to leave arbitration clauses much as they are in the present Code, but have placed them in a separate Schedule in the hope that at no distant date they may be transferred to a comprehensive Arbitration Act."

After the lapse of sixteen years, it is high time that attempt was made to realise that hope. During the interval, conflicting decisions of High Courts have revealed defects which require to be remedied. Sir Norman McLeod C. J. at page 265 of I. L. R. 45 Bombay remarked :

> "The provisions of the Code relating to arbitration were transferred with certain modifications to a separate Schedule in the hope that at no distant date they might be transferred into a comprehensive Arbitration Act. Unfortunately that hope has not been realised with the result that the law relating to arbitration still remains in a most undesirable condition."

The need for the present piece of legislation has been accentuated now that the dilatoriness of justice in Civil Courts has become so intolerable as to necessitate the appointment of the Civil Justice Committee. All the more imperative, therefore, it becomes that the arbitration law which provides the speediest and cheapest means of administering justice should be placed on a sound basis, purged of all the errors and drawbacks, which a quarter of a century's working has brought to light, and that its scattered provisions be brought together into a consolidated whole. Difficulties felt owing to the absence of provisions relating to appeals, and in construing sections 13 to 15 of the Act have been overcome.

The appointed Chambers of Commerce assembled in Bombay in December last represented to Government the necessity of examining the law of arbitration and remedying its defects.

NOTES ON CLAUSES.

PART I.

Cl. 1. Definitions. In view of the extension of the scope of the present Act, the definition of Court has been altered.

Cl. 6(*b*) The word 'single' has been added in that sub-clause to give effect to the ruling in Gopalji Kuverji v. Murarji Jeram I. L. R. 43 Bombay 809.

Cl. 8. Has been added on the lines of the new section 16 of the English Administration Act to supply an obvious deficiency.

Cl. 10. Has been newly added. The want of this clause has been frequently felt when parties to submission require the attendance of witnesses whom they cannot procure without process of Court.

Cl. 12. At present much confusion has arisen in construing sections 13 to 15 of the Act. Some Courts have held that as soon as an award is filed by the arbitrators it becomes enforceable as a decree though an application to set it aside may be pending. This creates an anomaly, is opposed to the practice obtaining in England, entails great hardship on the defendants and is hardly consonant with justice. It has therefore been thought necessary to enact a provision similar to the one contained in the English Arbitration Act.

Cl. 13. It is but necessary to enact such a provision distinctly as its absence is likely to lead to unnecessary litigation.

Cl. 16(*2*) Is enacted to meet the difficulty created by the decisions in 16 Sind Law Reporter page 174F.B. and I. L. R. 45 Bombay page 245.

Cl. 18. At present considerable difficulty is felt in the absence of a provision whereby the Court can compel the arbitrator to state a point of law for the opinion of the Court. And hence this provision.

PART II.

Cl. 10. It is desirable to extend arbitration provisions to proceedings of a civil nature other than suits.

Cl. 25. It is necessary to make a clear provision that the Court can extend time even after the award has been made.

PART III.

Cl. 33. At present the Arbitration Act applies to Presidency-towns and to Allahabad, Rangoon and Karachi. In Presidency towns and Rangoon appeals are provided in the Charter, so in Allahabad by rules. In Karachi it has been held that no appeal lies. In the course of proceedings under the Indian Arbitration Act many important and complicated questions arise. It is therefore necessary to provide at least one appeal from the Court's orders. Moreover as the scope of the Act has now been extended to the whole of British India the provision as to appeals is necessary. Section 104 did provide appeals against orders under the Second Schedule which applied to the whole of British India. Some of the clauses of that section have been omitted as being out of place in the amended provisions of this Bill.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 3rd February, 1925 :—

No. 14 OF 1925.

A Bill further to amend the Indian Paper Currency Act, 1923.

WHEREAS it is expedient further to amend the Indian Paper Currency Act, 1923 ; It is hereby enacted as follows :— X of 1923.

Short title

1. This Act may be called the Indian Paper Currency (Amendment) Act, 192 .

Amendment of section 13, Act X of 1923.

2. In section 13 of the Indian Paper Currency Act, 1923 (hereinafter referred to as the said Act), for the figures "11·30016," the figures "7·53344", shall be substituted. X of 1923.

Amendment of section 18, Act X of 1923

3. In clause (*a*) of sub-section (*8*) of section 18 of the said Act, for the figures "11·30016", the figures "7·53344", shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to alter the ratio at which notes are issued from the Paper Currency Reserve, for gold coins which are not legal tender, or for gold bullion, from 11·30016 to 7·53344 grains Troy of fine gold per rupee.

A Bill, amending the Indian Coinage Act effecting a change in the rate at which the the sovereign and the half sovereign are at present legal tender, is being separately introduced. The change contemplated by this amending Bill in the Indian Paper Currency Act, 1923, is consequential on the change which is expected to be made in the ratio at which the sovereign and the half sovereign are at present legal tender. The effect of both these amending Bills will be to reverse the principal action taken on the recommendations of the Indian Currency and Exchange Committee, as such reversal appears to be warranted by the experience gained since 1920.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 3rd February, 1925 :—

NO. 15 OF 1925.

A Bill further to amend the Code of Criminal Procedure, 1898.

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898 ; It is hereby enacted as follows :— V of 1898

Short title.

1. This Act may be called the Code of Criminal Procedure (Amendment) Act, 192 .

Amendment of section 4, Act V of 1898.

2. In clause (*i*) of sub-section (*1*) of section 4 of the Code of Criminal Procedure, 1898, the words "or any Colony" shall be omitted. V of 1898.

Amendment of section 275, Act V of 1898.

3. Sub-section (*2*) of section 275 of the said Code shall be omitted.

Amendment of section 528A, Act V of 1898.

4. In sub-section (*1*) of section 528A of the said Code, the words "or where any person claims to be dealt with as an European (other than an European British subject) or an American" and the words "or an European or an American" shall be omitted.

Amendment of section 528B, Act V of 1898.

5. In section 528B of the said Code, the words "or an European (other than an European British subject) or an American" and the words "or an European or an American" shall be omitted.

Amendment of section 528C, Act V of 1898.

6. In section 528C of the said Code, the words "or not being an European (other than an European British subject) or American, is dealt with as an European or American," shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

There is no reason why the inhabitants of British Colonies should enjoy the special privileges that are conferred under Chapter XLIV-A of the Criminal Procedure Code on the inhabitants of Great Britain and Ireland, when as a matter of fact Indians are treated as an inferior race in the various Colonies.

Similarly, unless the European and American countries with which some kind of special treaties have been in existence, have so modified their criminal law as to give special reciprocal treatment to Indians, there is no reason why any special privilege should be extended to the inhabitants of those countries or other countries in Europe and America. No European or American has any right in virtue of his nationality to claim any special privileges in the Criminal Courts in British India.

RESOLUTION ON THE ANNUAL IRRIGATION REVENUE REPORT FOR THE YEAR 1923-24.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

CALCUTTA, THE 25TH FEBRUARY 1925.

RESOLUTION—No. 1 *I.*

READ—

The Annual Irrigation Revenue Report for the year 1923-24.

THE irrigation and navigation works in operation in the Bengal Presidency for which both capital and revenue accounts are maintained, are (1) the Midnapore Canal, (2) the Hijili Tidal Canal, (3) the Calcutta and Eastern Canals, and (4) the Madaripur Bhil Route. Of these, the Midnapore Canal is used both for irrigation and navigation purposes, whereas the other three are for navigation only. All these works are now classed as unproductive. Separate capital accounts were also maintained during the year for dredging the Bidyadhari river, and both capital and revenue accounts for the dredgers "Cowley" and "Burdwan."

A capital account has also been opened and was maintained during the year under report for the Grand Trunk Canal. No revenue account has yet been opened for this canal.

2. The financial results of the year and the capital expenditure to date are exhibited in the following statement :—

3. The capital expenditure of Rs. 4,62,077 during the year on the **Grand Trunk Canal** was principally incurred to meet final payments on account of the dredger " Ronaldshay ".

4. No capital expenditure was incurred during the year on the **Midnapore Canal** which consists of two weirs at Midnapore and Panskura, 69·75 miles of main and branch canal used both for irrigation and navigation, and 284·97 miles of distributaries. The area irrigated during the year was 72,412 acres as compared with 81,940 acres in 1922-23 and an average of 85,339 acres for the triennium ending March 1923. The falling off of the area irrigated was due to the non-renewal of lapsed leases. The receipts and working expenses (direct and indirect) were Rs. 2,21,857 and Rs. 2,21,314 respectively, the result being a net revenue of Rs 543 only against a net revenue of Rs. 54,979 in the preceding year. The water-rates as well as the rates of tolls on the canal were increased during the year.

5. No capital expenditure was incurred during the year on the **Hijili Tidal Canal** which with the Terapakia pass khal, Palaboni khal and the khal leading to the Gewankhali lock entrance, constitutes a navigation canal of 49¾ miles in length. The receipts and working expenses of the canal during the year were Rs. 86,268 and Rs. 25,565, the result being a net revenue of Rs. 60,703 against Rs. 51,798 in the previous year. The rates of tolls on the canal were increased during the year.

6. **The Calcutta and Eastern canals** form a series of natural and artificial navigation channels extending for 1,184 miles for the purpose of maintaining communication between Calcutta and Eastern Bengal. A small capital expenditure was incurred on the canals which was chiefly spent on completing the demarcation of Government lands along Tolly's Nala. The receipts amounted to Rs. 4,70,123 against Rs. 4,22,677 in the preceding year. Expenditure amounted to Rs. 6,64,639 against Rs. 10,24,637 last year, and there was a loss on the year's working of Rs. 1,94,516 against a loss of Rs. 6,01,960 in the preceding year. These losses are due to the large outlay now being incurred on re-building bridges over the canals near Calcutta and to expenditure on the Sunderbans steamer route to keep open the rivers for steam navigation.

7. **On the Madaripur Bhil Route** connecting the Madhumati and Kumar rivers in the Faridpur district a capital expenditure of Rs. 4,78,035 (direct and indirect) was incurred mainly in dredging the Lower Kumar river from Takerhat to Charmaguria, a length of 13 miles. The receipts which are derived for the most part from navigation tolls totalled Rs. 2,67,656 against Rs. 3,08,326 in the previous year. The cost of upkeep of this route was Rs 47,131 against Rs. 1,45,877 last year, and the net revenue Rs. 2,20,525 and Rs. 1,62,449 respectively. The falling off in revenue was the outcome of the silting of the Kumar river due to the high floods of 1922 leading to a restriction on traffic.

8. **The Orissa Coast Canal** in conjunction with the Hijili Tidal Canal affords communication between Bengal and Orissa, and before the opening of the Bengal-Nagpur Railway it was the only inland route by which food could be conveyed into Orissa in time of famine This canal is for navigation only and lies partly in the Bengal Presidency and partly in the province of Bihar and Orissa. The receipts and working expenses for the portion within Bengal were respectively Rs. 22,602 and Rs. 19,844 against Rs. 21,387 and Rs. 14,822 in the previous year. The tolls on the canal were enhanced during the year.

9. The work in the **Nadia Rivers** consists in the training of the river channels by bandals with the twofold object of maintaining by the scouring of shoals a sufficient depth of water for boat traffic and at the same time improving the sanitation of the country. The Hooghly river also depends on these rivers for its head waters. Owing to a steady decline in the tollage receipts from the system since the construction of the Eastern Bengal and East Indian Railways on the two banks of the river Bhagirathi, these rivers were thrown open to free navigation with effect from the 1st September 1923. The receipts during the year under report were Rs. 3,933 only against Rs. 18,989 in the preceding year. The working expenses amounted to Rs. 60,614 against Rs. 64,253 in the previous year.

10. **The Gaighatta and Buxi khal** is a short channel connecting the rivers Damodar and Rupnarain. This khal has been leased for a period of six years from the 15th June 1921 at a rental of Rs. 2,000 per annum on condition that the lessees do all silt clearance at their own cost and maintain the khal to a stated bed-level subject to the control of the Irrigation Department. The receipts during the year amounted to Rs. 2,050.

11. **The Eden Canal** was originally constructed for sanitary purposes, but it is now also used for irrigation. The supply of water in the canal is uncertain owing to absence of a weir in the Damodar river. This state of things will improve when the Damodar Canal project is carried out. The area irrigated from the canal was 20,324 acres against 21,645 acres in the preceding year.

The receipts and working expenses were Rs. 28,467 and Rs. 46,532, respectively, against Rs. 31,313 and Rs. 43,460 in the preceding year.

12. **Bidyadhari dredging.**—The Bidyadhari river is the principal outlet for the sewage and storm water of Calcutta; the river having deteriorated rapidly the "Foyers" dredger was employed during the previous year to clear it, the Calcutta Corporation contributing to the cost. The work was not quite completed.

13. **Training works.**—Training works in connection with the conservancy of the Ganges from Rajmahal to Goalundo were done departmentally with the assistance of an experienced officer of the steamer companies. Bandalling works were also carried out in the Dhalleswari and Buriganga rivers in the Mymensingh and Dacca districts.

14. **Drainage works.**—The Saraswati, Pichaboni, Monikhali, Mellock and Baragatchi schemes were completed and brought into operation during the year, and the Arapanch and Kaorapukur schemes were under construction; work on the Nowi-Sunthi, Jaboona, Ampta and Arool Bhil projects was stopped pending the completion of the procedure under the new Agricultural and Sanitary Improvement Act.

Schemes for reviving the Bhairab and other rivers in the Nadia and Jessore districts were under preparation, and further investigations were made in connection with the possibility of improving the drainage and sanitary condition of the Gangakhali-Soadigi, Dhunia-Barunda, Harihar-Mukteswari, Kodla-Betna and other basins.

15. **Irrigation in Western Bengal.**—Several small projects were under construction in the Bankura and Birbhum districts, financed by co-operative societies: a good many similar schemes are under investigation. The prospects of an extension of irrigation works on a small scale in Western Bengal are good.

The **Damodar Canal** project is under revision : this canal, when carried out, will irrigate about 200,000 acres.

16. **General.**—The Irrigation Department in Bengal have to deal more with the improvement of navigation and sanitary conditions and control of flood water than with irrigation proper. For maintaining and developing the waterways three suction dredgers have recently been bought, one of which is intended for use on the Grand Trunk Canal. This project was held over during the year on account of financial stringency. The excavation of the Gheapatty cut in the Western Sunderbans completed in March 1923 as an alternative to the Doa Agra has proved a failure. The deterioration of the Subtarmukhi river has in recent years been very rapid and threatens to cut off the route entirely in a few years' time : the position is one which cannot be dealt with by dredging except at a very large cost, and as no alternative offers itself in these parts the construction of the Grand Trunk Canal has become a matter of urgency, if inland steam navigation is to be maintained with Calcutta.

ORDER.—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and a copy thereof and its accompaniments be submitted to the Government of India in the Department of Industries and Labour (P. W. Branch) and circulated to all departments and officers of this Government as usual.

By order of the Governor of Bengal,

C. ADDAMS-WILLIAMS,
Secretary to the Government of Bengal.

RESOLUTION ON THE REPORTS OF THE COMMISSIONERS OF DIVISIONS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING THE YEAR 1923-24.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

CALCUTTA, THE 13TH FEBRUARY 1925.

RESOLUTION—No. 549 L. S.-G.

READ—

The reports of the Commissioners of Divisions on the working of District Boards in Bengal during the year 1923-24.

District Boards.—The total number of members increased from 616 to 663 of which 282 were nominated and 381 elected. The increase was due to the enlargement of seven more District Boards during the year. These Boards were also reconstituted with an elective majority with the result that the percentage of the total number of elected members in the Province rose from 53·6 to 57·5.

2. **Local Boards.**—The number of Local Boards was 82 as in the previous year. They were presided over by 76 non-official and 6 official Chairmen. All the latter were elected by the Local Boards concerned. The number of members increased from 1,206 to 1,307 of whom 524 were nominated and 783 elected. A new departure was made in the thana elections for Local Boards in the Hooghly district where groups of Union Boards were made the electoral units instead of police-stations.

3. **Village self-government.**—Up to the end of the year 2,157 Union Boards were sanctioned of which nearly 1,300 were in working order. The formation of new Union Boards was discussed in certain districts by the District Boards and the Subdivisional Officers, and Circle Officers held meetings in their respective jurisdictions, but where any strong local opposition to Union Boards is manifested, however ill-founded it may seem, the creation of Union Boards has not been pressed. The bogey of new taxation is easily raised but less easily allayed and it is essential to explain to the people what exactly can be done by the formation of these Boards and that taxation is not obligatory. The greatest tact is demanded of the Subdivisional Officers and the Circle Officers who organise these bodies; in most places their attempts were successful and as a result many proposals for the creation of new Boards were matured, some of which were sanctioned during the year.

The Union Boards which worked during the year generally showed increased interest in their work, specially in the matter of roads. The free primary education scheme was introduced in several Unions, while some Union Boards established dispensaries of their own and others purchased and distributed quinine to indigent persons. The improvement of water-supply also received attention. But the resources of the Boards are still very inadequate. Reliance is mainly placed on the District Boards and other external sources of finance and the powers given by section 37 (*b*) of the Bengal Village Self-Government Act to increase their resources were not much used by Union Boards. The total amount of taxes realised during the year both under clauses (*a*) and (*b*) of section 37 was Rs. 18 lakhs including the rents of chaukidari chakran lands, almost all of which was spent on establishment leaving a balance of less than Rs. 3 lakhs. This balance is too small for about 1,300 Union Boards in the Province and hardly bears comparison with the large amount required by them for improving communications and water-supply and undertaking other sanitary measures. Self-taxation is, however, a plant of slow growth and where Union Boards, in spite of their exiguous funds, show promise of good and useful work, there are signs that the villagers do not object to light taxation for their own immediate benefit. It is satisfactory to note that District Boards under which Union Boards were started made to these Boards grants aggregating Rs. 2·5 lakhs out of Rs. 4·46 lakhs received

by them during the year as augmentation grant; the Tippera District Board however failed to make any contribution whatever to the 253 Union Boards in the district. The District Board of Birbhum, in view of the water scarcity prevalent in the district also made advances to Union Boards under it for the sinking of wells and re-excavation of tanks out of the loan of Rs. 50,000 sanctioned by Government for the purpose of water-supply. The wise policy of this Board is worthy of emulation by other District Boards.

The general working of Union Boards was on the whole satisfactory. They are showing increased energy and are understanding by degrees the responsibilities laid on their shoulders. Although in some places their working was hampered by party spirit, there is now ample evidence of healthy co-operation which is so essential to the success of these self-governing bodies. It is expected that under the careful guidance of trained Circle Officers and District Boards the Union Boards will gradually develop the spirit of responsibility and become really useful agencies for the improvement of rural conditions.

4. **Finance of District Boards.**—The receipts amounted to Rs. 127 lakhs—the figure of the previous year; if debt heads are excluded, they showed a small increase of Rs. 1·34 lakhs. The increase mainly resulted from larger receipts under Local Rates, Police, Medical and Civil Works; receipts under Education declined. The disbursements rose from Rs. 120 lakhs to Rs. 127 lakhs, the increase being chiefly due to greater expenditure under Administration, Medical, Miscellaneous, Famine Relief and Civil Works. The closing balance amounted to Rs. 36·4 lakhs (of which Rs. 23·5 lakhs were in cash) against an almost equal amount in 1922-23.

5. **Taxation.**—The incidence of taxation was 2 annas 8 pies a head per annum varying in different districts from 1 anna 3 pies to 7 annas 6 pies. Taxation in rural areas may well seem extraordinarily low when the wide range of duties of a District Board is visualized. These Boards are beginning to show energy and enterprize, but they can never rise to the full measure of their opportunities until their income is greatly amplified.

6. **Education.**—The expenditure (Rs. 29·4 lakhs) slightly exceeded that of the previous year. Excluding contributions from Government (Rs. 16·5 lakhs), and other sources (Rs. ·3 lakhs), school fees (Rs. ·4 lakhs and miscellaneous receipts (Rs. ·25 lakhs) the sum contributed by District Boards from their own funds rose from Rs. 11·5 lakhs to Rs. 12 lakhs. The increase was mainly due to the greater attention paid by many District Boards to the expansion of primary education in rural areas. The number of upper and lower primary schools maintained and aided by District Boards rose from 40,152 to 40,859 of which 30,955 were boys' schools and 9,904 girls' schools; those entirely maintained by the Boards increased from 3,229 to 3,348. Schemes for the development of primary education on the lines suggested by Mr. Biss were adopted by the Sultanpur and Astogharia Unions in the Burdwan District and Narendra union in the Midnapore district and steps were taken for the establishment of a school of that type at Bagnapara in the Howrah district, towards which the District Board made a suitable grant. The District Board of Faridpur undertook to introduce a progressive scheme for similar schools in the Gopalganj, Ghagore and Palong Unions and six schools were started in the Mainamati Union in the Tippera district. In Pabna and Malda preliminary arrangements were made for the establishment of free primary schools in certain Unions. The schools opened in the Raruli and Bagerhat Unions in Khulna are already popular and the number of pupils is reported to have exceeded that estimated in the sanctioned scheme. Technical and industrial education continued to receive special attention. But the agricultural school at Chinsura was abolished. The re-establishment of this school which was the only school of its kind in Western Bengal was under consideration at the end of the year. It was proposed to start a technical school at Krishnagar with a private donation of Rs. 1 lakh, and the District Board was in communication with the Director of Industries about the matter.

7. **Medical Relief and Public Health.**—The expenditure under these heads aggregated Rs. 17 lakhs against Rs. 15·25 lakhs of the preceding year. Sixty new dispensaries were opened by

District Boards and the total number of dispensaries maintained and aided by them were 408 and 308 respectively. Medical relief was provided primarily through these institutions, but a small number of homeopathic, kaviraji and hakimi dispensaries was also maintained or subsidized by some District Boards. A striking feature of District Board administration during the year was the lively and almost universal interest shown in combating kala-azar which is making a steady progress in the Province. Numerous centres for the free treatment of this disease were opened in several districts; better facilities for diagnosis were provided and special doctors appointed. In some districts the assistance of private societies was obtained. Many cases of kala-azar were treated and cured by the different agencies. In some districts anti-kala-azar schemes were prepared and sanctioned at the close of the year. Although the measures taken in the different districts were not adequate, they sufficiently indicate that the District Boards have realised the great danger which is threatening the village life and are eager to take steps for the treatment and the eradication of the disease.

As in the previous year, most District Boards provided additional medical relief in the interior of their districts during cholera, small-pox and other epidemics, while measures to check the spread of such diseases were also organised. Quinine was distributed free of cost; in Khulna this distribution was made through village health societies. In several districts cholera broke out in an epidemic form. Anti-cholera inoculation and other preventive measures were promptly taken to check the spread of the disease. In the Birbhum district the protection given by inoculation is said to have been so complete that not a single person who was inoculated fell a victim to the disease.

Free vaccination was introduced in Dacca, Chittagong, Tippera and Noakhali districts, while in the Bakarganj district the system of compulsory vaccination was in its real sense introduced for the first time in the Kotwali thana where over 5,000 persons were vaccinated without opposition. Small-pox broke out in Burdwan, Bankura and Mymensingh districts and in Jalpaiguri the disease in an epidemic form prevailed throughout the year. In all these places vigorous steps were taken by the vaccination staff to combat the evil. In Midnapore and Jessore vaccination was carried on through 90 and 225 depôts respectively.

8. **Veterinary.**—The charges under this head increased from Rs. 1,53,000 to Rs. 1,71,000, the increase being shared by many District Boards, notably by the Noakhali, Dacca and Darjeeling District Boards. In the first two districts the expenditure was nearly doubled. On the other hand, the expenditure fell from Rs. 6,000 to Rs. 2,000 in the Bankura district—a matter which is to be regretted, specially in view of the fact that an epidemic of rinderpest broke out in this district. Cattle disease raged virulently in several other districts where prompt measures were taken to check the disease. The veterinary assistants visited the affected villages, treated cases and inoculated animals. The people are now appreciating the benefits of inoculation and other protective measures of these officers. The remarks of Mr. Marr, Commissioner of the Rajshahi Division, are worth quoting:—

"The loss from epidemics amongst cattle is enormous and the cultivators have just begun to appreciate the methods of the Veterinary Department in dealing with outbreaks and are eager to secure prophylactic inoculation. The expenditure on serum is repaid a thousandfold by the resultant decrease in mortality in the cultivators' flocks and herds and the general prosperity of the district is thereby enhanced. I look on the Itinerant Veterinary Assistant as almost as essential as the roadmaker."

To combat cattle diseases more efficiently in the rural areas the District Board of Khulna resolved to abolish the present dispensaries at subdivisional head-quarters and to appoint itinerant veterinary assistants. A private charitable dispensary was started at Nakashipara in the Nadia district, which is reported to have become a useful institution.

9. **Civil Works.**—The total expenditure under this head, which includes the sums spent on water-supply and drainage, rose from Rs. 57·3 lakhs to Rs. 60·4 lakhs, the expenditure on communications alone (Rs. 36 lakhs) showing an increase of Rs. 1·16 lakhs. The Burdwan District Board spent Rs. 1,40,000 on original works of communications. The

24-Parganas (Rs. 1,08,000) and Mymensingh (Rs. 1,09,000) District Boards also spent large sums for the same purpose. The expenditure of the former on culverts and bridges amounted to Rs. 50,000. The smaller expenditure on communications in the Bakarganj district was due to curtailment of provisions for new works in order to find money for water-supply, drainage, etc. The District Boards in the Chittagong Division as well as those in the Rajshahi Division spent on civil works Rs. 1 lakh less than in the previous year. The decrease in the former is attributed to the fact that many sanctioned works could not be executed for want of funds. The extra demand on the resources of these Boards for medical relief and public health probably tends seriously to limit the amounts available for civil works and it is doubtful if the previous standard of road repair is being maintained; while the extension of metalled roads is becoming almost impossible. The Commissioner of the Rajshahi Division (Mr. Marr) sounds a note of warning here. He says "there is a tendency on the part of most of the Boards to incur new liabilities somewhat recklessly without first providing for their old-standing and essential obligations. Maintenance of communications is the first duty of a District Board and the efficiency of communications reacts directly on the prosperity of the district." The percentage of lapses over the budget allotment was the highest in the 24-Parganas district, although it decreased from 34·7 in the previous year to 30·5. These lapses were partly due to the tardy allotment of the Magrahat interest money. As in the preceding year no part of the allotment lapsed in Nadia. There were also no lapses in the Tippera and Malda districts. The expenditure in the former exceeded the total allotment as it included nearly Rs. 83,000 on account of adjustment of accounts of old relief works which could not be checked earlier.

10. **Water-supply.**—The improvement of rural water-supply is an urgent need. As Mr. Lindsay, late District Magistrate of the 24-Parganas, states:—"Great as is the demand for medical help, it is unimportant as compared with the elementary demand for a good supply of drinking water." The expenditure rose from Rs. 5·3 lakhs to Rs. 6·3 lakhs of which a sum of Rs. 5·5 lakhs was spent on original works and Rs. 0·8 lakhs on repairs. As in the preceding years the bulk of the expenditure was incurred on sinking wells and excavating and clearing tanks. The percentage of public works cess-receipts spent on the improvement of water-supply was the highest in Khulna where it rose from 24·6 to 33·3. There was marked improvement also in the Burdwan district which spent 29 per cent. against 20 per cent. in the preceding year and in the Bakarganj district which spent 24·2 per cent. against 17·6 per cent. The percentage was more than trebled in the Midnapore district where it rose from 5 per cent. to 18 per cent. On the other hand, it fell considerably in the Faridpur district which spent only 17 per cent. against 32 per cent. in the preceding year and in Nadia where it came down from 34·3 per cent. to 28 per cent. It was only ·83 per cent. in the Hooghly district where measures in connection with water-supply were carried out through the agency of Local Boards and Union Boards.

It is satisfactory to note that some District Boards are taking steps to popularise tube-wells. There were 34 tube-wells in the Hooghly district and owing to increase in the number of tube wells the District Board have appointed a permanent tube-well *mistri*. The District Board of Mymensingh contributed Rs. 1,000 to the Sanitation Committee at Iswarganj for sinking a tube-well which is said to be a great boon to the locality. Three tube-wells in the Chittagong district and two in Tippera were also sunk during the year. The 24-Parganas District Board is supplying tube-wells to all parts of the district; a tube-well which was sunk in Faridpur proved a failure as the sub-soil was unsuitable. In Bogra a tube-well policy has been definitely adopted and it is stated that a programme of sinking one hundred wells every year has been prepared by the District Board. The Commissioner of the Rajshahi Division recommends that experiments should be made for providing an inexpensive type of tube-well which will not easily get out of order. What is specially required appears to be a " fool-proof " pump; the Indian masses have more faith in bullying machinery than in humouring it.

Most of the District Boards in the Burdwan Division have to some extent used Union Boards as their agency for excavating tanks or sinking wells,

and have made comparatively large allotments for the purpose. The full allotment made by the Howrah District Board was not however spent as the Union Boards failed to take advantage of the District Board's offer to meet half of the cost of the re-excavation of tanks and the sinking of tube-wells, the other half to be raised locally.

The Khulna District Board obtained a loan of Rs. 40,000 from Government for water-supply and placed it to the credit of the three Local Boards in the district and resolved to take a further loan of Rs. 60,000 during the current year. With these loans the District Board hope to remove to a certain extent the scarcity of water in the rural areas of the district. The District Board of Birbhum also obtained a loan of Rs. 50,000 from Government for the improvement of the water-supply. This Board has shown how even with very limited resources it is possible to achieve a great deal in this direction by the encouragement of private enterprise and self-help amongst the people, grants being made only in those cases where the people themselves are willing to make suitable contributions. It is hoped that this wise policy of the Khulna and Birbhum District Boards will be followed by others and it is gratifying to find that in Faridpur a proposal was actually under the consideration of the District Board to borrow from Government and set apart the borrowed sum for granting loans, repayable in easy instalments with or without interest, to individuals on proper security for excavating tanks or wells in the villages.

Land, however, is not easily obtainable for the excavation of tanks and the sinking of wells. The raiyats often have no right to transfer the whole or any portion of their holdings for the purpose and the zamindars in most cases will neither consent to such transfers nor excavate tanks themselves for the benefit of their tenants. The owners of private tanks are also unwilling to part with their proprietary rights so as to allow a tank, which might be re-excavated at the public cost, to vest in a District Board. It is, however, costly and uneconomical to acquire land and provide new tanks, where ample sources of supply, to which the public already have access, exist and merely require to be improved and conserved. There are, however, indications in some districts of greater co-operation between the owners of private tanks and the local bodies.

11. **Closing balance.**—The year closed with an actual balance of Rs. 23·5 lakhs against Rs. 23·3 lakhs of the preceding year. There were heavy balances in the 24-Parganas (Rs. 4,21,906), Midnapore (Rs. 3,43,185) and Mymensingh (Rs. 2,74,342) districts. The balance at the credit of the 24-Parganas District Board is attributed to the non-payment of the interest of the Magrahat drainage loan and the unspent balance under the head "Civil Works". The large balance in Midnapore has been in part explained, while that in Mymensingh has not been explained at all. The Burdwan District Board succeeded in reducing its balance from Rs. 3,85,457 to Rs. 2,21,196, but the latter is still an unduly large amount. It is accounted for by savings under "Civil Works", for which the Asansol Local Board was perhaps mainly responsible, as it could not collect metal in time and thus failed to carry out the full programme of repairs.

12. **General Remarks.**—As in the previous year, except in the case of the 24-Parganas, where the progress of the Board was to a certain extent held up owing to the xistence of a party opposed to the Chairman, all the District Boards worked satisfactorily during the year. Most of the non-official Chairmen continued to evince a keen interest in their work and devoted a good deal of their time in the discharge of their onerous duties even at some detriment to their private avocations. The introduction of the privilege of electing their own Chairman coupled with the increase in the proportion of their elected members from one-half to two-thirds enhanced the popularity of District Boards. The average percentage of attendance at meetings increased and greater interest was taken in local affairs.

A most noticeable advance was made in almost all the districts in providing medical relief to the people and some attempts were made at organising preventive and health work for rural areas. Schemes for combating malaria and kala-azar were taken up in earnest in most districts. Numerous anti-malarial co-operative societies were started, some of which, specially those in the 24-Parganas district, tackled both malaria and kala-azar in a capable manner. Special centres for the treatment of kala-azar

were opened in the most affected areas and it is noteworthy that many doctors of the rural dispensaries, specially in Burdwan, who received special training at the Ronaldshay Medical School, were in charge of kala-azar treatment in addition to their ordinary duties. The most satisfactory feature, however, of the administration of District Boards generally was the great interest taken by them in improving the sources of water-supply in rural areas. Besides spending large sums on excavation of tanks and sinking of wells, many of them as already stated, took steps to popularise tube-wells. Improvement of communications and the extension of free primary education also engaged their attention.

The difficulty of finance, however, continued to be the chief problem with District Boards. Without increased resources it was impossible for them to discharge their duties properly. Communications, education, water-supply and other sanitary measures called for the expenditure of a large amount, but the inadequacy of funds handicaps the District Boards at every turn. To augment their resources it was proposed to authorise them to impose a tax on carriages including motor vehicles and upon persons attending *melas* as well as upon the owners of such *melas*. It was also proposed to empower them to levy license fees on private markets. It is, however, almost certain that such petty taxes, if levied, would not augment the resources of District Boards to an appreciable extent. As remarked last year, one solution of the problem seems to be the extension of the system of Union Boards. If these bodies are created throughout every district and ultimately accept the necessity of a small local tax for local needs, a great many of the local wants could be effectively and cheaply supplied and the District Board left with problems which it might possibly solve on its existing income. Another solution which also merits careful examination is an increase in the rate at which cesses are levied under the Bengal Cess Act. Both methods may ultimately prove necessary, since the burdens of the larger units of local administration may be expected, in spite of delegation, to grow heavier as higher standards are demanded in the services rendered to the public.

The Governor desires particularly to express his appreciation of the good work done by the following gentlemen and to thank them for their services:—

Chairmen of District Boards.

Raja Moni Lal Singh Roy, C.I.E., Burdwan.
Rai Abinash Chandra Banerji Bahadur, Birbhum.
Babu Sasi Sekhar Basu, 24-Parganas.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 4th March 1925.

Summary.—During the week light rain fell in the districts of the Dacca Division while elsewhere there were scattered showers in a number of places. Ploughing of lands for jute and paddy is proceeding, and their sowings continue on low lands in some North and East Bengal districts. Harvesting of spring crops is progressing. The prospects of standing crops are generally fair. The average price of common rice for the province has risen by about 0·44 per cent. are compared with that of the previous week.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Delhi, the 6th March 1925.

No. F.-82-I.—25-A. C.—Under rule 18 of the Indian Legislative Rules the Governor General has been pleased to order the publication in the *Gazette of India* of the following Bill, together with the Statement of Objects and Reasons relating thereto, and the Bill and Statement of Objects and Reasons are accordingly published for general information :—

BILL NO. 24 OF 1925.

A Bill further to amend the Indian Stamp Act, 1899.

WHEREAS it is expedient further to amend the Indian Stamp Act, 1899, for the purpose hereinafter appearing ; II of 1899
It is hereby enacted as follows :—

Short title

1. This Act may be called the Indian Stamp (Amendment) Act, 1925.

Amendment of Schedule I, Act II of 1899

2. In Article No. 47 in Schedule I to the Indian Stamp Act, 1899, after Division C, the following Division shall be II of 1899 inserted, namely :—

"CC.—INSURANCE BY WAY OF INDEMNITY against liability to pay damages on account of accidents to workmen employed by or under the master or against liability to pay compensation under the Workmen's Compensation Act, 1923, for every Rs 100 or part thereof payable as premium ...	One anna."

STATEMENT OF OBJECTS AND REASONS.

Before the Workmen's Compensation Act, 1923 (VIII of 1923), was brought into force it was noted that insurance policies to cover workmen's compensation would be liable to duty under No. 47-D of Schedule I of the Stamp Act, 1899 (II of 1899), and that the sums insured being the maximum possible amount of compensation payable under the policy, namely, Rs. 3,500 for each workman, the sum payable in the case of permanent disablement, the stamp duty payable on such a policy under Item 47-D would be so high as entirely to prohibit insurance, namely, Rs. 1-8 per workman. After consulting Local Governments it was decided, as an emergency measure which could be carried through before the date when the Workmen's Compensation Act came into force, to reduce the stamp duty chargeable on such policies by the use of the powers conferred upon the Governor General in Council by clause (*a*) of section 9 of the Indian Stamp Act, 1899, and notification No. 2645 of the Government of India in the Finance Department (Central Revenues) was issued on the 26th of June 1924 reducing the stamp duty to one-tenth per cent. of the premium payable.

2. After the issue of that notification, a communication was received from one Local Government supporting a proposal that the stamp duty should be fixed at a uniform rate of eight annas for each policy, irrespective of the number of workmen covered, with the alternative suggestion that, if a scale had been definitely decided upon, the rate ought certainly not to be more than one anna for every Rs. 100 of premium. The Government of India again consulted all Local Governments themselves expressing a preference for a scale on the grounds : firstly, that it might provide for an even smaller fee than eight annas in the case of a policy covering the workers in a small factory ; and secondly, that there was no obvious reason why the duty should be the same in the case of a small factory and in that of a large one, since it was the owners of small factories who needed to be encouraged to ensure. All Local Governments have agreed to the proposal that the rate should be fixed at one anna for every Rs. 100 of premium paid, and the object of the present Bill is to give effect to this agreement. The rate proposed is appreciably less than that now in force under the notification quoted above.

MARINE DEPARTMENT.

NOTIFICATIONS.

No. 30Marine.—The 5th March 1925.—It is hereby notified that under the provisions of section 6 of the Calcutta Port Act, 1890, Mr. Kenneth Campbell of the firm of Messrs. Shaw Wallace and Company has been elected by the Bengal Chamber of Commerce to be a Commissioner for the Port of Calcutta, *vice* Sir Willoughby Carey, who has been granted permission to be absent from the Commissioners' meetings for six months from the 10th February 1925.

No. 31Marine.—The 6th March 1925.—Mr. C. T. Park, Branch Pilot, is granted leave on average pay for six weeks, under article 81 (*b*) (*i*) of the Fundamental Rules, with effect from the 9th March 1925 or any subsequent date.

No. 32Marine.—The 6th March 1925.—The following departmental instructions regarding infectious diseases on vessels arriving at or being in the Port of Chittagong are issued as supplementary to the rules, published under the Government of Bengal, Marine Department, notification No. 16 Marine, dated the 6th March 1917, on the subject :—

Health Regulations for the Port of Chittagong.

Vessels arriving at the Port of Chittagong.

1. **Signals.**—The master of any suspected or infected vessel shall, on arrival at the pilot cutter outside the Karnafuli river, indicate by signal the port from which the vessel has come and shall hoist a signal which shall be by day the code flag over flag L of the Commercial Code and by night a white light over two red lights, forming an equilateral triangle, the lights to be not less than 6 feet apart and not less than 20 feet above the hull of the ship. The master of a healthy vessel shall indicate by signal the fact that his vessel is healthy.

2. (*a*) **Master's declarations.**—The master (or the medical officer, if there be any) of every in-coming vessel shall record without delay in the form appended to these rules a signed declaration in respect of the absence or the presence on board of infectious disease or suspected infectious disease. For this purpose a register containing copies of the declaration form shall be maintained on board the pilot vessel and shall be taken on board the in-coming vessel by the pilot. After obtaining on the form the signature of the master or of the medical officer, as the case may be, the register shall be returned to the pilot vessel by the pilot.

(*b*) **Report to Port Health Officer.**—On arrival of any vessel at the pilot cutter outside the Karnafuli river , the officer in charge of the Semaphore station at Juldia shall communicate by telephone direct to the Port Officer or Harbour Master in regard to the health of the vessel. After mentioning the vessel's name, the message shall report her to be healthy, if she be so, but if she be otherwise, shall next state the name of the particular disease, the number of cases on board and the number of deaths, if any, from infectious disease or other suspicious cause which may have occurred during the voyage. In the latter case the Port Officer or Harbour Master shall immediately forward a report so made to the Port Health Officer, and shall arrange for his conveyance to the ship.

3. **Detention of vessels below Active Spit.**—If a vessel (including a pilgrim or emigrant vessel) has been declared by her master or medical officer to be infected with plague or rat plague or on which more than two cases of or deaths from sleeping sickness, jigger, typhus, small-pox or cholera have occurred, the officer in charge of the Semaphore station at Juldia shall communicate the information to the Port Officer or Harbour Master who shall immediately inform the Port Health Officer. The pilot shall anchor such infected vessel at the quarantine anchorage below the Active Spit, *i.e.*, Juldia flag staff bearing 158½° Coomb's Pillar 85½° for medical inspection and grant of pratique. The vessel shall not proceed further up the river without the permission of the Port Health Officer. The vessel with her crew and passengers shall be dealt with in accordance with the regulations on the subjects published under the Government of Bengal, Marine Department, notification No. 16 Marine, dated the 6th March 1917, as amended from time to time.

4. (*a*) **Chicken-pox, measles or scarlet fever.**—Vessels with chicken-pox, measles or scarlet fever on board may be allowed to proceed up to the inspection anchorage west of the Oil Moorings under the provisions of Regulation 6 for suspected vessels and shall there be granted pratique.

(*b*) But if the number of cases of these diseases exceeds ten, the Port Health Officer shall be informed and the vessel shall be detained at the quarantine anchorage below Active Spit and shall be dealt with as the circumstances demand.

5. **Yellow fever.**—The pilot of a vessel which has, within a period of two months immediately preceding its arrival, started from, or touched *en route* at, a port infected with yellow fever, or communicated (except orally without contact, or by signal) with a vessel, either infected or which has left an infected port within that period, shall anchor the vessel outside the Karnafuli river, *i.e.*, in 6½ fathoms with the Norman's Point Lighthouse east (true), distance 1½ miles, for inspection and grant of pratique and shall not proceed up in the vessel without the permission of the Port Health Officer. The vessel, passengers and crew and their personal effects shall be dealt with according to the regulations issued under Marine Department notification No. 16 Marine, dated the 6th March 1917, and their amendments, if any.

6. (*a*) **Vessels permitted to proceed up to the west of Oil Moorings.**— The pilot of a suspected vessel including any vessel arriving from a locality infected with sleeping sickness or jigger, shall bring the vessel up to the inspection anchorage west of Oil Moorings and shall anchor there for inspection by the Port Health Officer. The master will be held responsible that no one of the passengers or crew having, or suspected to have, any infectious or contagious disease is allowed to depart before inspection, and he shall also prevent the landing of infected bedding, clothes or other personal effects which he has reasonable cause to consider likely to be infected.

(*b*) If, however, any vessel brought up under this regulation is subsequently found to come under one of the clauses specified in Regulations 3, 4 (*b*) and 5, the Health Officer may direct that she be taken back to the quarantine anchorage below Active Spit or to the anchorage outside the Karnafuli river.

NOTE.—When a ship has arrived from East Africa *viâ* Colombo and has been granted formal pratique after examination at Colombo, she shall be taken as arriving from Colombo and as such calling for no special action.

7. **Communication prohibited.**—The master of any suspected or infected vessel specified in Regulations 3, 4 (*b*), 5 and 6 (*b*) shall not, without the permission of the Health Officer, allow any communication, except oral, with the shore or with any vessel or boat, excepting only the pilot boat, and in that case communication shall be limited to receiving only the pilot, the leadsman, their servants and baggage.

8. (*a*) **Inspection of vessels and removal of cases of infectious diseases.**— The Health Officer, on receiving the notice under Regulation 2 (*b*), shall arrange to examine the vessel without delay, and the master shall give him every facility for the examination of the passengers, crew, personal effects, cargo and any part of the ship, and shall comply with all reasonable instructions given by the Health Officer.

(*b*) In a case of infectious disease on a vessel arriving at the inspection anchorage west of Oil Moorings, the Health Officer shall arrange for the removal of the sick person to the hospital by ambulance at the expense of the agents or owners of the vessel. The Inspector of Port Police shall arrange to afford any assistance required by the Health Officer in the removal.

Vessels lying in the Port of Chittagong.

9. (*a*) **Procedure for outbreak of infectious disease on vessels in port.**—On the occurrence of a case of small-pox, chicken pox, measles, plague, cholera, yellow fever, sleeping sickness, typhus, scarlet fever, jigger, influenza or pneumonia on board any vessel lying in the port, the master or medical officer (if any) shall at once intimate the fact to the Health Officer by telephone and in writing. He shall hoist signals specified in Regulation 1, and such signal shall not be lowered until the Health Officer has visited the vessel, arranged for the removal of the patient or patients, and given permission in writing to lower the signal. The Health Officer shall arrange for disinfection to be carried out by the Port Sanitary staff.

(*b*) **Intimation to Superintendent of Jetties.**—If the vessel is lying alongside a jetty, the master shall cause information to be given to the Superintendent of the Jetties, and shall be responsible that the sick person be isolated as much as possible and that free communication with the jetty is stopped until the Health Officer has inspected the vessel.

10. **Duty of master.**—The master or medical officer, if any, shall afford such true and full information as to the occurrence of the disease as the Health Officer may require and shall carry out all reasonable orders of that officer and give such assistance as may be necessary.

11. (*a*) **Infectious disease on inland vessels, flats and cargo boats.**—On the occurrence of a case of one of the diseases specified in Regulation 9 (*a*) on any inland steam-vessel, the rules [Bengal Government notification No. 82 Marine, dated the 16th August 1918] issued under sections 53 and 54 of the Inland Steam-vessels Act, I of 1917, for the protection of passengers in river steamers against the spread of plague and other dangerous epidemic disease by persons travelling in such steamers shall be observed.

(*b*) On any other vessel plying on inland water, such as country boat, flat, etc., the police shall detain the vessel or boat, and shall at once inform the Port Health Officer. If the patient has not been removed by his friends to hospital, the police will arrange for his removal at the expense of the agents or owners of the vessel. The Port Health Officer shall visit the vessel or boat without delay and carry out the necessary disinfection.

12. **Police guard.**—Should the Port Health Officer consider it necessary, the Inspector of Port Police shall provide a guard for any infected vessel, which is lying within Port limits.

13. **Cleanliness of vessels.**—The master of every vessel is responsible for seeing that his vessel is kept in a clean and sanitary condition. Ships' privies may be used in the stream and at the jetties. When the flushing system is disarranged, provision must be made for hand flushing (tub and tin) each time the privy is used; otherwise the privies should be kept locked and use made of overside privies.

14. **Removal of ashes and refuse.**—The master of every vessel in the stream is responsible for seeing that ashes and galley refuse are not allowed to accumulate or remain for more than 48 hours. Any failure of the conservancy system as affecting ships should at once be reported to the Port Health Officer.

Disposal of dead bodies.

15. **Death before reaching the anchorage outside the Karnafuli river.**—If a death occurs on board any vessel before she reaches the anchorage outside the Karnafuli river, *i.e.*, in 6½ fathoms with the Norman's Point Light house east (true), distance 1½ miles, the body shall be buried in a depth not less than 5 fathoms in such a manner as to secure its sinking at once and remaining below water.

16. **Deaths in the river after passing the anchorage outside the Karnafuli river.**—If a death occurs after passing the anchorage outside the Karnafuli river, *i.e.*, 6½ fathoms with the Norman's Point Lighthouse east (true), distance 1½ miles, the pilot shall forward the particulars to the Port Officer who shall immediately inform the Port Health Officer and the Police, and the vessel shall proceed to the usual place of anchorage. The body shall be kept on board until the Health Officer has determined the nature of the disease and has made arrangements, through the Police, if necessary, for its removal.

17. **Death in the Port.**—If a death occurs from any cause on board a vessel within port limits during the day, the ensign and houseflag, if there is one, are to be immediately lowered half-mast and kept in such position from sunrise to sunset as long as the body remains on board; at night one red light is to be hoisted at the peak half-mast. The occurrence of death shall be reported immediately by the master of the ship to the Port Health Officer who shall arrange for the disposal of the body as herein provided.

18. **Certificate as to cause of death.**—On the occurrence of a death on a vessel the Port Health Officer should be informed immediately by the master of the ship. If the vessel carries a medical officer that officer shall certify as to the cause of the death. If there is no medical officer, the above certificate shall be given by the Port Health Officer.

19. **Post-mortem examination.**—When the medical officer of the ship or Port Health Officer is unable for any reason to give a certificate as to the cause of death, the police shall be immediately informed by the medical officer or the Port Health Officer, as the case may be, and asked to arrange for a post-mortem examination.

20. **Report of death by accident.**—In the case of death due to an accident the master of the vessel shall report the occurrence immediately to the nearest police-station.

21. **Certificate of cause of death necessary prior to removal of body.**—A dead body shall not be removed from the vessel until the certificate prescribed in Regulation 18 has been granted by the officer responsible for the same.

22. **Removal of body by the police.**—The police shall be responsible for the removal of a dead body only when (*a*) post-mortem examination is necessary, or (*b*) the body is unclaimed.

Accidents.

23. **Accidents on vessels.**—On the occurrence of an accident on board a vessel, the master, or person in charge, shall give immediate intimation to the nearest police-station. The police will arrange for the removal of the case to hospital by ambulance at the expense of the agents or owners.

Cleanliness of inland craft.

24. **Cleanliness of inland craft.**—The manjhi of every flat or cargo-boat is responsible for seeing that his vessel is kept clean and that foul bilge-water is not allowed to accumulate.

APPENDIX A.

Instructions for reporting cases of infectious diseases to the Port Health Officer.

Intimation of the outbreak of infectious diseases on vessels lying in the port should under the foregoing regulations, ordinarily be made in office hours direct to the Port Health Officer. If the Port Health Office is closed or the intimation is to be given out of office hours (10 A.M. to 4 P.M.) it shall be communicated to the Port Health Officer's residence.

APPENDIX B.

Form A.

(Referred to in Regulation 2.)

I , $\frac{\text{Master}}{\text{Medical Officer}}$ of SS. do hereby declare in presence of Pilot, that—

(*i*) I have not on board and have not had on board any case or suspected cases of infectious disease, nor any noticeable mortality among rats, since my departure from (last port);

(*ii*) I have or have had on board since my departure from (last port) the following cases or suspected cases of infectious diseases.

Dated Signature.

NOTE.—The medical officer will fill up the section required, cancelling the other. In the absence of a medical officer, the master will fill up the form.

ESTABLISHMENT.

NOTIFICATION.

No. 17.—The 11th March 1925.—The following regulations are republished for general information.

G. G. DEY,
Secretary to the Government of Bengal.

INDIAN SERVICE OF ENGINEERS.

Regulations as to appointment of Assistant Executive Engineers in 1925.

[The Secretary of State is unable to give any undertaking that the Regulations will remain unaltered in the future.]

1. Until further notice the Secretary of State for India in Council will, during each year, make a number of appointments of Assistant Executive Engineers in the Public Works Department in India.

In making these appointments he will act with the advice of a Selection Committee including at least one eminent representative of the Engineering profession.

In 1925 it is intended that eight appointments shall be made.

The Selection Committee will probably sit in May.

2. Applications must be made on a printed form, which may be obtained from the Secretary, Public Works Department, India Office, Whitehall, S.W. 1, and should reach the India Office not later than 1st April.

3. Candidates must have attained the age of 21 and not attained the age of 24 years on the 1st August 1925.

4. Every candidate must be a European British subject, and if he or his father or his mother was not born within His Majesty's Dominions and allegiance, the father must at the time of the candidate's birth have been a British subject and still be (or have continued to be until his death) a British subject. The decision of the Secretary of State in Council whether a candidate satisfies these conditions shall be final. A candidate must also be of good moral character and sound bodily health and, in the opinion of the Secretary of State for India in Council, in all respects suitable to hold an appointment in the Indian Public Works Department.

5. Candidates must produce evidence that they have either (1) obtained one of the University degrees mentioned in Appendix I.; or (2) passed Sections A and B of the A.M.I.C.E. Examination; or (3) obtained such other diploma or distinction in Engineering as the Secretary of State may decide to accept in any particular case. It is preferred that candidates should have taken a college course and obtained one of the degrees mentioned in Appendix I. They must in addition have had at least one full year's practical experience of Civil Engineering under a qualified civil engineer at the time when they appear before the Selection Committee. Those whose qualifying diploma has been obtained without a college course should have had a full three years of such practical experience.

6. Selected candidates will be required to undergo further training on works in India for a period of at least one year. During this period they will be on probation and their final appointment will be made dependent upon the result of such probation.

7. Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee.

8. Candidates will further be required, before final appointment by the Secretary of State in Council, to appear, at their own expense, before the Medical Board at the India Office for examination as to their physical fitness for service in India.

The Regulations governing the physical examination of candidates for the Public Works Department in India are at present under revision; but copies, when available, will be supplied to candidates on application.

*9. Selected candidates will also be required to satisfy the Secretary of State of their ability to ride.

---

* Selected candidates will be examined by the Civil Service Commissioners as to their ability to ride, and will be required to obtain either—

(*a*) a certificate from the Civil Service Commissioners that they are sufficiently at home in the saddle for the efficient performance of all the duties of the Indian Public Works Department; or
(*b*) a certificate from the Civil Service Commissioners of minimum proficiency in riding.

In the latter case they will be subjected, on their arrival in India, to such further tests in riding as may be prescribed by their Government.

Candidates are warned that the certificate of minimum proficiency in riding, without which they will not be allowed to proceed to India, is only granted to those who can qualify in a series of tests, which includes jumping.

The chief tests will be: (*a*) saddling and bridling; (*b*) mounting and dismounting; (*c*) trotting; (*d*) cantering; (*e*) trotting without reins; (*f*) trotting without stirrups; (*g*) cantering without stirrups; (*h*) individual exercise; (*i*) jumping a hedge hurdle 3 feet 6 inches high.

Although the examination will, in the main, be confined to these points, the examiner will not be debarred from applying any other tests which may appear desirable.

10. They will on appointment be provided with a free first-class passage to India and they will be expected to proceed thither about the middle of September in the year in which they are appointed.

They will also be entitled to passage pay and the benefits accruing therefrom in respect of passages for themselves and their wives and families on the scale and subject to the conditions prescribed in the rules. (*See* Appendix V.)

11. Their pay and their service for leave will begin from the date of their landing in India, subject to their proceeding immediately to join their appointments. If they so desire, they will be able to obtain an advance of two months' pay, recoverable by monthly instalments of one-third of salary. Of this advance a portion not exceeding one-half may be drawn in England.

12. Candidates will enter the service as Assistant Executive Engineers on a salary of Rs. 5,300 a year. Service for increments and for pension will count from the date of landing in India (subject as aforesaid) or from the 1st October of the year of appointment whichever is earlier.

13. The instruments required by Assistant Executive Engineers are supplied to them in India.

14. Particulars as to pay, pension, &c., are contained in Appendices III, IV and V.

INDIA OFFICE,
14th January 1925.

NOTE FOR THE INFORMATION AND GUIDANCE OF CANDIDATES.

The Selection Committee of 1906 drew attention to the subjects which were held to be of most importance for the Public Works Service, viz.,

Pure Mathematics, including a knowledge of the differential and integral calculus.
Applied Mathematics.
Geometrical and Engineering Drawing.
Surveying and Geodesy.
Strength of Materials and Theory of Structures.
Hydraulics.
Heat Engines.
Materials used in Construction.
Building Construction.—Wood and metal work, limes and cements, and building with stone, brick and concrete.
Knowledge of the principles of road-making, waterworks, sanitary and railway engineering. (Important)

The Selection Committee were further of opinion that all candidates should have had some workshop training.

APPENDICES.

APPENDIX II.

Regulations as to the Physical Examination of Candidates for appointment to the Public Works Department in India

Note.—These are at present under revision; but copies, when available, will be supplied to candidates, on application to this office.

APPENDIX III.

Particulars regarding the Engineer Establishment of the Public Works Department in India.

(The arrangements and salaries hereinafter described are subject to revision according to the requirements of the service.)

1. The Superior Engineer Establishment of the Public Works Department in India consists of a staff of Engineers, military and civil, engaged on the construction and maintenance of the various public works undertaken by the State in India.

2. The permanent establishment of the Department is recruited from the following sources:—

(1) Officers of Royal Engineers.
(2) Persons appointed by the Secretary of State by selection from the United Kingdom.
(3) Persons educated at the Government Civil Engineering Colleges in India.
(4) Occasional admission of other qualified persons.

3. The various ranks of the Department are at present as follows:—

Executive Engineers and Assistant Executive Engineers.

Note—Overseas pay in the time scale will be drawn by officers in sterling (except during the first four years), provided they have their domicile elsewhere than in Asia.

Superintending Engineers.—Rs. 1,750, rising by annual increments of Rs. 100 a month to Rs. 2,150 a month, with overseas pay of 13*l.* 6*s.* 8*d.* a month payable in sterling.

Chief Engineers.—Rs. 2,750, rising by annual increments of Rs. 125 a month to Rs. 3,000 a month, with overseas pay of 13*l.* 6*s.* 8*d.* a month payable in sterling.

The increments will be given for approved service only, and in accordance with the rules of the Department.

Pay on the junior scale will be drawn by officers holding charges of less importance than a Divisional charge, but no such officer will be allowed to draw more than the pay of the ninth year of service on the junior scale unless he is reported to be fully qualified for the charge of a Division.

Pay on the senior scale will be drawn by officers holding charges of not less importance than the charge of a Division.

Promotions above the grade of Executive Engineer are dependent on the occurrence of vacancies in the sanctioned establishment, and are made wholly by selection; mere seniority is considered to confer no claim to promotion.

APPENDIX IV.

(*See* paragraph 14 of the Regulations.)

NOTE.—This appendix is merely intended to show the principal leave rules in the Fundamental Rules and the Pension Rules at present applicable to Engineers appointed to the Indian Services from the United Kingdom without going into minute details, and does not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Fundamental Rules or Civil Service Regulations for the time being.

Leave.

1. Leave is calculated in terms of "leave on average pay," and the amount of "leave on average pay" which an officer earns is five-twenty-seconds of the period spent on duty.

2. Subject to certain maxima and minima, an officer may draw, at his option, leave salary equal to the average pay of the least 12 months of completed duty or to half such average pay. All leave on average pay and half the period on half average pay is counted against the leave earned. An officer may take his leave on average pay, on half average pay, or on a combination of the two, provided that his continuous absence from duty does not exceed 28 months, and that the amount of leave taken on average pay does not exceed eight months at any one time. The maximum amount of leave admissible during an officer's career is the equivalent of leave on average pay for three years plus one-eleventh of the period spent on duty, of which not more than one year plus one-eleventh of the period spent on duty may actually consist of leave on average pay. Leave not due and carrying half average pay may be granted on medical certificate, and, within certain limits, for other reasons, but an officer will not again commence to earn leave until the expiration of a fresh period of duty sufficient to earn a credit of leave equal to the leave he has taken before it was due. After 28 months' absence from duty an officer draws quarter average salary, subject to certain maxima and minima.

3. Leave salary is ordinarily payable in rupees if the officer spends his leave in India or Ceylon, and in sterling if he spends it elsewhere. The rate of exchange for the conversion of leave salary is prescribed from time to time by the Secretary of State.

4. It should be noted that leave can never be claimed as of right, but is given or refused at the discretion of Government.

Pensions.

5. The following is a summary of the pension rules applicable to Engineers appointed to the Indian Services by the Secretary of State from the United Kingdom.

Ordinary pensions.

6. An officer is entitled, on his resignation being accepted, to a retiring pension after completing qualifying service of not less than 20 years.

7. Retirement is ordinarily required at the age of 55 years, but for special reasons an officer is sometimes retained after attaining that age.

8. An officer becomes eligible for full retiring pension on completing 30 years' qualifying service.

9. If before completing this period of service an officer is permitted to retire voluntarily after completion of 20 or more years' qualifying service (paragraph 6) or is compelled

to retire on attaining the age of 55 (paragraph 7), he will be eligible for pension on the following scale :—

Completed years of qualifying service.	Maximum Limit of Pension.	Completed years of qualifying service.	Maximum Limit of Pension.
	Rs.		Rs.
20	4,000 per annum.	28	6,600 per annum.
25	6,000 ditto.	29	6,800 ditto.
26	6,200 ditto.	30	7,000 ditto.
27	6,400 ditto.		

10. Government may retire any officer after he has completed 25 years' service without giving reasons, and without any claim for compensation in addition to pension, and in that event the pension admissible to him will ordinarily be regulated on a scale not exceeding that laid down above. Government also reserves the general power to reduce the pension ordinarily admissible in all cases where an officer's service has been unsatisfactory.

11. An officer who is compelled to retire through ill-health not occasioned by irregular or intemperate habits will be eligible for invalid gratuity or pension as follows :—

(*a*) After a service of less than 7 years a gratuity not exceeding (except in special cases and under the orders of the Government of India, up to a maximum of 12 months' emoluments) one month's emoluments for each completed year of service. If the emoluments of the officer have been reduced during the last three years of his service, otherwise than as a penalty, average emoluments may, at the discretion of the authority which has power to sanction the gratuity, be substituted for emoluments.

(*b*) After a service of not less than 7 years, a pension not exceeding the following amounts :—

Completed years of qualifying service.	Scale of Pension.	Maximum.	Completed years of qualifying service.	Scale of Pension.	Maximum.
		Per annum.			Per annum.
		Rs.			Rs.
7	7 sixtieths of average emoluments.	2,000	19	19 sixtieths of average emoluments.	4,800
8	8 ditto	2,350	20	20 ditto	5,000
9	9 ditto	2,700	21	21 ditto	5,200
10	10 ditto	3,000	22	22 ditto	5,400
11	11 ditto	3,200	23	23 ditto	5,600
12	12 ditto	3,400	24	24 ditto	5,800
13	13 ditto	3,600	25	30 ditto	6,000
14	14 ditto	3,800	26	30 ditto	6,200
15	15 ditto	4,000	27	30 ditto	6,400
16	16 ditto	4,200	28	30 ditto	6,600
17	17 ditto	4,400	29	30 ditto	6,800
18	18 ditto	4,600	30 and above.	30 ditto	7,000

Additional Pensions.

12. The Government of India have classified certain high appointments into two grades, the lower comprising those posts which involve high but intermediate responsibility, the higher consisting of those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments listed in the lower grade will be entitled to an additional pension at the rate of Rs. 300 per year for each completed year of effective service in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 1,500 in respect of service classed in the lower grade. Officers who have held appointments listed in the upper grade will be entitled to an additional pension at the rate of Rs. 500 for each completed year of effective service rendered in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined or in the upper grade alone.

13. These additional pensions will be awarded only to officers who have given proof of special energy and efficiency, and will be subject to the condition that an officer must not retire voluntarily before the age of 55 with less than 28 years' service.

The upper grade includes the Consulting Engineer to the Government of India and Chief Engineers of the Indian Service of Engineers.

The lower grade includes Superintending Engineers, Indian Service of Engineers, and the Deputy Secretary to the Government of India, Department of Industries and Labour, Public Works Branch.

Provident Fund.

14. A general Provident Fund, to which contribution is compulsory, has also been established on the following basis :—

(1) The contribution is compulsory up to 6¼ per cent. on salaries, with voluntary contributions of not more than a further 9⅜ per cent. Subscriptions on leave of any kind are optional.

(2) Compound interest on such payments is annually credited by Government to each officer subscribing.

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the Service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

APPENDIX V.

Passage Pay.

(*The arrangements herein described are subject to the provisions of the authorised text of the rules relating to the grant of Passage Pay.*)

1. In addition to the pay prescribed in Appendix III, passage pay will be payable to every officer of non-Asiatic domicile at the rate of Rs. 50 per mensem or at such different rate as may from time to time be deemed sufficient by Government for the purpose of the provision of the benefits conferred by the rules. This addition will not be taken into account for the purpose of computing the leave salary of the officer. A sum equal to the amount received as passage pay will be deducted monthly from the officer's pay or leave salary, as the case may be, and credited to a General Passage Fund to be administered by Government.

2. The maximum benefits to which an officer will be entitled will be passages of a total value equal to the cost of the number of the passages between Bombay and London by P. and O., 1st Class B, shown below :—

(*a*) For the officer himself, four return passages.

(*b*) For his wife, the number of return passages shown in the following scale :—

Officer's length of service at date of marriage.	Number of return passages.
Less than 7 years	4
7 years but less than 14 years	3
14 years but less than 21 years	2
21 years and over	1

(*c*) For each child, one single passage.

3. If an officer dies while in the service, his wife and children will be entitled to receive from the General Passage Fund single passages by sea from a port in India to a port outside India, but not exceeding in each case the cost of a single passage between Bombay and London by P. and O. steamer, 1st Class B.

4. Any balance remaining at the credit of an officer in the General Passage Fund after he has ceased to be eligible for the benefits conferred by the rules will lapse to the Fund.

For Office use only.

MERCHANT SHIPPING.

Delhi, the 7th March 1925.

No. 40-S. (*3*).—The following draft of certain rules which it is proposed to make in exercise of the powers conferred by sub-section (*1*) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), and in supersession of the notification of the Government of India in the Department of Commerce No. 40-S., dated the 26th January 1924, is published, as required by sub-section (*4*) of the said section, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 1st April 1925.

Any objection or suggestion which may be received in respect of the draft before the said date will be considered by the Governor General in Council :—

1. No petroleum which is dangerous within the meaning of the Indian Petroleum Act, 1899 (VIII of 1899), shall be shipped on board any native passenger ship proceeding or departing from British India, and no other petroleum shall be carried on board such a ship except under the following special conditions, namely :—

A.—Where petroleum is carried as fuel in bulk for use of the ship—

It shall have a flash point of not less than 150° Fahrenheit by Abel's close test and shall be carried in cellular double bottoms under engine and boiler compartments, or under ordinary holds, or in peak tanks, deep tanks or bunkers of approved construction :

Provided that the oil fuel storage tanks and installations in connection therewith fully comply with the conditions described in the Instructions to Surveyors contained in the Board of Trade Circular No. 1647 (Oil Fuel Installation in Passenger Steamships), dated January 1924.

With each supply of oil taken on board a written guarantee must be supplied by the vendor, and signed by a responsible official in his employ, of the actual close test flash point, the type of instrument by which the test was made being in every case specified. These particulars shall be entered in the engine room log.

B.—Where petroleum is carried as cargo—

(i) The master, owner or agent shall give notice to the Chief Customs Officer, or such other officer as the Chief Customs Officer may nominate in this behalf before permitting any petroleum to be shipped.

(ii) Each consignment of petroleum shall be covered by a declaration made and signed by the shipper in Form A (hereto annexed), if the petroleum has been imported into British India, and otherwise in Form B.

(iii) The petroleum shall be shipped either in tins enclosed in outer wooden cases or in hermetically sealed iron or steel drums : provided that petroleum which has a flash point not below 200° Fahrenheit may also be shipped in sound well coopered wooden casks of not more than 50 gallons capacity.

(iv) The nature of every consignment of such petroleum shall be marked on the outside of the package containing it.

(v) The petroleum shall be stored separate from all other cargo and as far as possible away from lights or fires ; and none shall be stored in any hold adjoining an engine room or boiler, or in any compartment situated above the passenger spaces.

(vi) There shall be a water-tight bulkhead between the engine room and any hold in which petroleum is stored, and the sluice-valves of such bulkhead shall be shut down and padlocked.

(vii) Save where electric light is used, no petroleum shall be shipped or discharged except between sunrise and sunset ; no lights other than electric lights shall be lit in a hold in which petroleum is stored ; and no smoking shall be permitted in or near any such hold.

(viii) No person shall otherwise than along, with, or with the authority of an officer of the ship, be permitted to visit a hold in which petroleum is stored.

(ix) No more passengers shall be carried than can with safety be accommodated in the ship's boats in case of accident, unless the vessel is a coasting one proceeding on a short voyage and there are provided life-belts sufficient for such passengers as cannot be accommodated in the boats.

(x) At any port in which a ship carrying such petroleum is for the time being, the Chief Customs Officer or such other officer as the Chief Customs Officer may nominate in this behalf, may take and test any consignment of such petroleum or any single case or drum thereof.

(xi) If any petroleum tested under clause (x) is found to be dangerous petroleum defined as aforesaid, the whole consignment of which the petroleum tested formed a part shall be liable to confiscation.

(xii) The officer authorised to grant a certificate in respect of a ship under section 167 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), shall, if there is petroleum on board, not grant the same without the consent of the Chief Customs Officer or such other officer as the Chief Customs Officer may nominate in this behalf.

2. Whoever commits a breach of any of these rules shall be punishable with fine which may extend to two hundred rupees, and, when the breach is a continuing one, with a further fine which may extend to twenty rupees for every day after the first during which the breach continues.

FORM A.

We do hereby declare that the cases and drums marked as follows—presented for shipment on the S.S. contain imported petroleum and that the petroleum is contained in the original packages, in which it was imported into this country.

Port Commissioners' Office, Calcutta, the 16th March 1925. (555 -1)

THE COMMISSIONERS FOR THE PORT OF CALCUTTA.

Notification No. 52.

It is hereby notified for general information, under the provisions of section 107 of the Calcutta Port Act, and with the approval of the Local Government, that the following revised scales of charges will come into force on 1st April 1925.

By order of the Commissioners,

C. W. T. HOOK, *for* Secretary.

The 7th March 1925.

Charges on goods—Imports.

1. In supersession of section 1 (River Due on Imports) of notification No. 38, dated the 20th March 1922, published in the *Calcutta Gazette* of the 22nd March 1922, river due will be charged as follows :—

(*a*) On all goods discharged directly from any sea-going vessel into a Commissioners' lighter, on to the quay in the Docks, or on to the Calcutta or Garden Reach Jetties—12 annas per ton or part of a ton when the landing-charge is levied by weight and in other cases at a rate equal to three-fifths of the landing-charge.

(*b*) On all other goods discharged from any sea-going vessel—

(*i*) when freight is charged by weight by the steamer companies at the rate of Rs. 1-4 per ton or part of a ton ;

(*ii*) when freight is charged by measurement by the steamer companies at a rate equal to the landing-charge which would have been levied had the same goods been landed by the Commissioners.

In the case of all petroleum to which the Indian Petroleum Act applies, the river due is calculated on the following basis :—

Petroleum in bulk or barrels	...	280 gallons = 1 ton.
,, in cases containing 8 gallons	...	27 cases = 1 ton.

2. In supersession of section 2 (Differential Toll) of notification No. 38, dated the 20th March 1922, the following section will apply :—

In addition to the landing-charges given below a differential toll is levied on all goods landed at the Calcutta Jetties. Differential toll is also levied on all goods landed at the Docks or Garden Reach Jetties which are removed from the transit sheds or yards in foreign railway wagons except sugar, rice, wheat and other grain traffic, copper matte, iron ore and any other commodity which may hereafter be specially exempted under the orders of the Commissioners in meeting. The toll is 12 annas per ton or part of a ton on all goods for which the landing-charge is levied by weight, and three-fifths of the landing-charge in all other cases.

3. In supersession of section 3 (Landing Charges) of notification No. 38, dated the 20th March 1922, the following landing-charges will be levied on goods landed at the Jetties or Docks :—

Schedule No.	Description of goods.	Basis of charge.	Landing charge. Rs. A.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 3rd February 1925 :—

No. 7 OF 1925.

A Bill to amend the Indian Medical Degrees Act, 1916.

WHEREAS medical administration is a provincial subject, and whereas the provisions of the Indian Medical Degrees Act, 1916, appear to have taken away the power of the Provincial Legislatures to enact laws for recognising the power of other institutions besides certain Universities and particular institutions only to confer titles and it is necessary to restore that power ; It is hereby enacted as follows :— VII of 1916.

Short title.

1. This Act may be called the Indian Medical Degrees (Amendment) Act, 192 .

Amendment of Schedule, Act VII of 1916.

2. In the Schedule to the Indian Medical Degrees Act, 1916, after item No. 4 the following new item shall be added, namely :— VII of 1916.

"5. Such other Universities, medical corporations, examining bodies or other institutions as may be empowered under provincial legislation to confer any title or qualification signifying fitness to practise western medical science."

STATEMENT OF OBJECTS AND REASONS.

The Bengal Medical Act, 1914 (Ben. Act VI of 1914), and other Provincial Acts of similar nature legislated for the recognition of medical titles conferred by various institutions, but this power has been taken away by the provisions of sections 3 and 4 of, and the Schedule to, the Indian Medical Degrees Act, 1916, and the recognition of titles has, under item No. 45 in Part II of Sch. I to the Devolution Rules, been made a Provincial subject which is subject to legislation by the Indian Legislature. As medical administration is a Provincial subject, it is desirable that this power should now be made over to the Provincial Legislatures. This Bill is being introduced for purposes of transferring this power.

LIBERALITY OF KHAN BAHADUR MAULVI MUSHARRAF HUSSAIN, M.L.C., OF JALPAIGURI.

No. 861 Edn., dated Calcutta, the 9th March 1925.

From—J. A. L. SWAN, ESQ., C.I.E., I.C.S., Secretary to the Government of Bengal, Education Department,

To—The Director of Public Instruction, Bengal.

I AM directed to request that you will be so good as to convey the thanks of the Government of Bengal to Khan Bahadur Maulvi Musharraf Hussain, M.L.C., of Jalpaiguri for his liberality and public spirit in making a donation of Rs. 20,000 in furtherance of the cause of Muhammadan education in Dacca University and in the Islamia College, Calcutta.

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1924.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 17TH MARCH 1925.

RESOLUTION—No. 3298L.R.

READ—.

The Survey and Settlement Reports for the year ending the 30th September 1924.

The major survey and settlement operations were continued during the year under report in accordance with the curtailed programme, which involves only the employment of two parties for traverse survey and two settlement cadastral parties. The traverse parties surveyed an area of 728 square miles in Murshidabad-Birbhum and 791 square miles in the 24-Parganas. The two settlement parties completed the detailed survey and the preliminary record of 730 square miles in Khulna and 336 square miles in Murshidabad-Birbhum and brought up to date the preliminary record of 621 square miles of Birbhum, which had been prepared two years before. District operations in the later stages were also proceeding in Bankura, Jessore, Nadia and Pabna-Bogra. The work in Jessore will be finished during the current year, and very little will remain to be done in Bankura. In Nadia all work should be completed in 1925-26, but the Pabna-Bogra settlement probably will not be finished till 1926-27. The progress made in the provincial settlement programme has been satisfactory. Records-of-rights have been finally published for almost two-thirds of the total area to which the Bengal Tenancy Act applies.

2. Of the minor operations, the most important was the revisional work in Chittagong district. The settlement made 30 years ago in this district was the first to be conducted under the Bengal Tenancy Act. The expiry of the term of the present settlement in the Government estates, which cover about two-thirds of the cultivated area in the district, has necessitated a new settlement. The experimental revision carried out in two areas during the year under report confirmed the view that the Government estates are so intricately mixed up with the permanently settled estates that the only satisfactory course is to revise the survey and the record-of-rights of the whole district.

3. The Governor in Council notices with satisfaction that the settlement records and maps were freely used in almost all branches of the administration. During the year 11,35,000 copies of *khatians* and 23,000 copies of maps were sold to the public.

4. Mr. A. K. Jameson, I.C.S., was in charge of both the Survey Department and the Department of Land Records throughout the year, and the Governor in Council has much pleasure in acknowledging the care and ability which he devoted to the work. Mr. Sachse's long experience of

settlement work has enabled him to give valuable guidance in the early stages of the work in Chittagong district where he is now Collector. His Excellency in Council is also pleased to direct that the good work done by the survey officers Messrs. C. A. O'Donel and I Newton and the settlement officers Messrs. H. C. V. Philpot, L. R. Fawcus, A. H. Kemm and D. McPherson and by Babu Amulya Kumar Guha and other officers mentioned in the concluding paragraphs of the Survey and Settlement Reports be noted.

ORDER.—Ordered that this resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

W. S. HOPKYNS,

Secretary to the Government of Bengal.

THE BOARD OF TRUSTEES FOR THE IMPROVEMENT OF CALCUTTA.

Notice under section 43 of Bengal Act, V of 1911.

Scheme No. XXV (Kapalitola Lane Widening from Nalanda Square to Scheme No. VIID).

L. BIRLEY,
Chief Secretary to the Government of Bengal.

Examinations of selected candidates for the Indian Civil Service.

Regulations made under section 97 of the Government of India Act for the probation in the United Kingdom and the further examination of Selected Candidates for the Indian Civil Service.

*** The following regulations made by the Secretary of State for India in Council are liable to alteration from year to year.

(1) Candidates selected at the Open Competition held in London will be required to remain in the United Kingdom on probation for one or two years, as may be decided by the Secretary of State for India in Council.

(2) Candidates selected at the Open Competition held in India and candidates selected in India otherwise than by competitive examination will be required to proceed to the United Kingdom on probation for a period of two years.

ONE-YEAR PROBATIONERS.

(3) One-year probationers will, at the end of the year of probation, undergo an examination called the Final Examination. The subjects and the marks allotted to them are as follows :—

Compulsory Subjects.

		Marks.			Marks.

		7. Economics	400
		8. Riding	200

Optional Subjects, one only to be taken.

	Marks.
9. Hindu and Mohamedan Law	400
10. A classical language selected from Sanskrit, Arabic, Persian, Pali	400

ONE-YEAR AND TWO-YEAR PROBATIONERS.

(7) The principal vernaculars prescribed for the various provinces are shown in the following table :—

Province.	Vernacular.
Madras	... Tamil or Telugu.
Bombay	... Marathi.
Bengal	... Bengali.
United Provinces	... Urdu.
Punjab	... Urdu.
Burma	... Burmese.
Bihar and Orissa	... Hindi.
Central Provinces	... Hindi.
Assam	... Bengali.

(8) An Indian assigned to Madras whose mother tongue is one of the two principal vernaculars of the province must offer the other for examination. An Indian assigned elsewhere whose mother tongue is the principal vernacular language of his province must substitute in place of the principal vernacular language the following subject or subjects :—

One-year probationers—

British History.

Two-year probationers—

British History at the Intermediate Examination, and European History at the Final Examination.

(9) A candidate whose mother tongue is Hindi or Urdu may not offer either of these languages as the principal vernacular language.

(10) Candidates who at the Final Examination in riding satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of any duties required of members of the Indian Civil Service will be awarded marks ranging between 101 and 200, according to the degree of proficiency displayed.

Candidates who fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full

proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Local Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A candidate who fails at the end of the period of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of selected candidates.

Selected candidates will also be examined in riding at such time or times as the Commissioners may appoint during the course of the probationary period.

(11) Such deductions as the Civil Service Commissioners may consider necessary will be made from the marks assigned to candidates at the Intermediate and Final Examinations in order to secure that no credit is allowed for merely superficial knowledge.

(12) The Civil Service Commissioners will prepare lists of the candidates in order of merit; the order for the one-year probationers being based on the sum of the marks obtained by the candidates at the Open Competitive and Final Examinations, the order for the two-year probationers being based on the sum of the marks obtained by the candidates at the Intermediate and Final Examinations.

(13) The selected candidates whose performance in the compulsory subjects of the Final Examination is such as to satisfy the Civil Service Commissioners, and who have also satisfied the Commissioners of their eligibility in respect of nationality, age, health, character, and conduct during the period of probation, shall be certified by the Commissioners to be entitled to be appointed to the Indian Civil Service, provided that they shall comply with the regulations in force, at the time, for that Service.

(14) If any candidate is prevented by sickness or any other adequate cause from attending the Final Examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination. A selected candidate absent for such adequate cause from the Intermediate Examination may, under similar conditions, be allowed to appear at the Intermediate Examination a year later or at a special examination, or may be excused the Intermediate Examination and allowed to appear for the Final Examination in regular course.

Any candidate who at the Intermediate Examination shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected candidates.

The Civil Service Commissioners are authorised by the Secretary of State for India in Council to make the following announcements :—

(i) *Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes ; but the requirements of the Public Service will rank before every other consideration.*

(ii) *An allowance of £300 a year, or, in the case of Selected Candidates possessing an Indian domicile, an allowance of £350* a year will be given to any candidate who passes his probation at one of the Universities or other Institutions that have been approved for the purpose by the Secretary of State for India in Council.*

In the case of Selected Candidates on probation for one year the allowance will be payable in four equal instalments on the following dates respectively : December 24th after his selection, March 25th, June 25th and after signature of Covenant on appointment to the Service.

In the case of Selected Candidates on probation for two years the allowance will be payable in eight equal instalments, the first on the December 24th after selection, the second to the seventh on the six following quarter days and the eighth after signature of Covenant on appointment to the Service.

The payment of the various instalments of the allowance except the final instalment, and, in the case of the two-year probationers, the instalment payable at the end of the first year of probation, will be conditional on the receipt by the Secretary of State through the Civil Service Commissioners of a certificate that the candidate has fulfilled up to date the requirements of the authorities and shown satisfactory conduct at the approved Institution.

If an Indian Government Scholar becomes a selected candidate for the Indian Civil Service, his scholarship stipend shall cease to be paid with effect from the 1st October of the year in which he becomes a selected candidate. He may, however, provided he has executed the agreement referred to in (iv) *below, be granted on, or at any time after, the 1st October, an advance on account of the instalment of the allowance payable on the 24th December.*

---

* *The attention of candidates selected at examinations held in London is, however, directed to paragraph* (viii).

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

N.B.—The Secretary of State for India gives notice that the amount of the allowances will be reconsidered in 1925, with a view to a possible reduction with effect from the instalment payable in December 1926.

(iii) *A First Class passage to India will be engaged for Selected Candidates with a view to their proceeding to India during the November following their Final Examination.*

(iv) *Each candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety jointly and severally to refund all moneys he may have received from the Secretary of State for India in the event of—*

(1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or*

(2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*

(v) *All candidates obtaining Certificates will be also required to enter into covenants by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make for the pensions of their families. The stamps payable on these covenants amount to £1.*

(vi) *The seniority in the Indian Civil Service will be determined by the results of the examinations taken during the course of probation.*

(vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the candidate.*

(viii) *"Overseas pay" will not be admissible to Indian members of the Indian Civil Service selected at Open Competitive Examinations held in London in 1925 and subsequent years.*

Civil Service Commission,
January 1925.

REWARDS.

CANTONMENTS—REGULATIONS.

No. 383.—The following draft of certain rules which it is proposed to make in exercise of the powers conferred by section 280 of the Cantonments Act, 1924 (II of 1924), is published as required by sub-section (*2*) of section 281 of the said Act, for the information of all persons likely to be affected thereby and notice is hereby given that the said draft will be taken into consideration on or after the 4th April 1925.

Any objection or suggestion which may be received from any person with respect to the draft before the aforesaid date will be considered by the Governor General in Council.

Draft Rules.

Short title.

1. These rules may be called the Cantonment Land Administration Rules, 1925.

Interpretation clause.

2. In these rules, unless there is anything repugnant in the subject or context,

(*a*) "the Act," means the Cantonments Act, 1924.

(*b*) "building site" means a portion of land held or intended to be held for building purposes, whether any building be erected thereon or not, and includes the open ground or courtyard enclosed by, or adjacent to, any building erected thereupon.

(*c*) "Military Estates Officer" means an officer appointed by the Government of India to perform the duties of a Military Estates Officer under these rules.

General Land Register.

3. The Military Estates Officer of the Cantonment shall prepare and maintain a General Land Register of all land in the cantonment in the form prescribed in Schedule I: and no addition or alteration thereto shall be made for a period of four years.

Register of Mutations.

4. The Military Estates Officer shall maintain a Register of Mutations, in the form prescribed in Schedule II, and shall enter therein :—

(*i*) every transfer of right or interest in land in the cantonment registered under section 54, 59, 107 or 123 of the Transfer of Property Act;

(*ii*) every grant of such right or interest made by the Government of India or the Cantonment Authority; and

(*iii*) every report of the transfer of such right or interest made under section 73 of the Act.

He shall also make an entry therein respecting the transfer of any such right or interest, as aforesaid, which he has reason to believe has taken place and of which no report has been made to him.

Maintenance of registers.

5. Every fifth year the General Land Register shall be re-written so as to include all changes in the rights or interests in land which have been recorded in the Register of Mutations, and a fresh Register of Mutations shall be opened simultaneously.

Classification of land.

6. For the purposes of the General Land Register prescribed by rule 3,

(1) land in the cantonment which is vested in His Majesty shall be divided by the Government of India or such authority as they may empower in this behalf, into two classes, namely :—

Class "A" land.

(*i*) land, hereinafter called Class "A" land, which is required or reserved for specific military purposes, and

Class "B" land.

(*ii*) land, hereinafter called Class "B" land, which is not so required or reserved, but which must be retained in the cantonment for the effective discharge of the duties of the Government of India in respect of Army administration :

Class "C" land.

(2) land which is vested in the Cantonment Authority under section 108 of the Act shall be called class "C" land.

7. Class "A" land shall be divided by the Government of India, or such authority as they may empower in this behalf, into the following sub-classes, namely :—

Class "A" (1) land.

(1) Land, hereinafter called class "A" (1) land, which is actually used or occupied by any Department of the Army or the Royal Air Force in India, for the purposes of fortifications, barracks, stores, arsenals, aerodromes, Government bungalows for military officers, parade grounds, military recreation grounds, rifle ranges, grass farms, dairy farms, brick-fields and other such purposes.

Class "A" (2) land.

(2) Land hereinafter called Class "A" (2) land, which is not actually used or occupied by any Department of the Army or the Royal Air Force, but to the use or occupation of which for any other purpose, except a purely temporary one, there exist specific military objections.

Explanation.—For the purposes of this rule :—

(*i*) Specific military objections shall be deemed to exist to the use or occupation of land the reservation of which is considered desirable by the Government of India in the interests of the discipline, health or welfare of the troops, or of the safety or defence of the cantonment and its inhabitants.

(*ii*) Military recreation grounds shall mean recreation grounds the management and control of which vest exclusively in members of the Army or the Royal Air Force.

8. Class "B" land shall be divided by the Government of India or such authority as they may empower in this behalf, into the following sub-classes, namely :—

Class "B" (1) land.

(1) Land, hereinafter called Class "B" (1) land, which is actually occupied or used by any Department of the Government of India other than the Army Department.

Class "B" (2) land.

(2) Land, hereinafter called Class "B" (2) land, which is actually occupied or used by any Department of a Local Government or by a Railway Administration.

Class "B" (3) land.

(3) Land, hereinafter called Class "B" (3) land, which is granted to any private person under the provisions of these rules, or which has been granted in the past to any private person, or may be presumed to have been granted, under the provisions of the Cantonment Code 1899 or 1912 or under any executive orders previously in force, subject to conditions under which the Government of India reserve, or have reserved, to themselves the proprietary rights in the soil.

Class "B" (4) land.

(4) Land, hereinafter called Class "B" (4) land, which is not included in any other class and which is suitable for disposal as building sites.

Class "B" (5) land.

(5) Land, hereinafter called Class "B" (5) land, which is not included in any other class and which is suitable for disposal for any other purpose except as building sites.

Transfers of land from one class to another.

9. No alteration in the classification of land which is vested in His Majesty or in the Cantonment Authority shall be made except by the Government of India, or by some authority empowered in this behalf by the Government of India, and the conditions on which land may be transferred from one class to another shall be governed by the orders of the Government of India or by the provisions of any law or rule for the time being in force which may be applicable; provided that land in Class "B" (4) and (5) may be transferred to Class "B" (3) by the authority, and subject to the conditions, prescribed by rules 13 and 14.

Standard tables of rent.

10. The Military Estates Officer of the Cantonment, in consultation with the Collector, shall compile standard tables of rent suitable for application to building sites and agricultural land respectively in the cantonment, having regard to the situation of the site, the nature of the soil and the rates charged on building sites in neighbouring municipalities, or on adjacent agricultural lands.

11. The executive management of any land in Class "B" (3), (4) or (5) may be entrusted to the Cantonment Authority, subject to the following conditions, namely :—

Management of land by Cantonment Authority.

(1) that such transfer of management confers upon the Cantonment Authority no proprietary rights in, and no power to sell, exchange or give away, the land; and that the Government of India may impose such restrictions as they consider necessary in the public interest on the use or occupation of any particular areas of land so entrusted to the management of the Cantonment Authority,

(2) that the Cantonment Authority shall have no power to occupy or use the land for the purposes of the Act or for its own purposes without the sanction of the Government of India, but that land required for the aforesaid purposes shall be transferred to Class "C" and vested in the Cantonment Authority by the Government of India in accordance with the provisions of rule 9,

(3) that when the Government of India desire to sell or otherwise permanently dispose of any of the land or to transfer it to Class "A" or to Class "B" (1) or (2), they reserve the right to withdraw such land from the management of the Cantonment Authority and dispose of it as they think fit, without paying any compensation therefor to the Cantonment Authority; provided that the Cantonment Authority shall be given an opportunity of expressing its opinion on the proposed withdrawal and any objections it may have to offer shall be taken into consideration,

(4) that suits affecting the proprietary rights in the land shall be brought by or against the Secretary of State and not by or against the Cantonment Authority; but the cost of such litigation shall be a legitimate charge on the Cantonment Fund,

(5) that the Cantonment Authority shall be liable to pay rent to the Government of India, at half the lowest rates fixed respectively for building sites or agricultural land under rule 10, for all land in Class "B" (4) or (5) so long as such land remains unoccupied,

(6) that one quarter of the annual rent payable for the land, when disposed of by lease, and one quarter of the premia on such leases shall ordinarily be credited to the Government of India and the remainder to the Cantonment Fund; provided that the Government of India may vary the proportion of the income from land payable to the Cantonment Fund in any particular cantonment, when they are satisfied that the ordinary proportion of three quarters is, when combined with the income which the Cantonment Authority might reasonably be expected to derive from other sources, either insufficient to enable the Cantonment Authority to maintain a fair standard of municipal administration, or such as to enable the Cantonment Authority to incur expenditure greater than is strictly necessary for the maintenance of such a standard of administration or to reduce the incidence of taxation below a reasonable level,

(7) that the Government of India shall be entitled to resume direct management of the land or of any part thereof, or to reduce the proportion of the income therefrom payable to the Cantonment Fund in cases in which in the opinion of the Government of India there has been serious mismanagement on the part of the Cantonment Authority,

(8) that it shall not be obligatory on the Cantonment Authority to assume the management of more land than it thinks fit on these terms.

12. The executive management of all land in the cantonment which has not been entrusted to the management of the Cantonment Authority, or which has been resumed by the Government of India under clause (7) of rule 11, or which does not vest in the Cantonment Authority, shall be entrusted to the Military Estates Officer of the cantonment; provided that the management of land actually occupied by any Department of the Government shall vest in that Department in the absence of any direction to the contrary from the Government of India.

Management of land by Military Estates Officer.

13. The following conditions shall apply to the disposal of land entrusted to the management of the Cantonment Authority under rule 11 :—

Rules for disposal of land by Cantonment Authorities.

(1) The Cantonment Authority shall maintain a register, in the form prescribed in schedule III, of all land in Class "B" (3), (4) and (5) which has been entrusted to its management. This register shall be known as the Cantonment Authority's Land Register, and shall be prepared annually with effect from April 1st so as to show the annual demand in the shape of rent from building sites and other land.

Cantonment Authority's Land Register.

(2) Building sites shall ordinarily be disposed of by lease for a minimum period of thirty years in the first instance renewable at equal intervals up to a maximum period of ninety years. The lease shall be subject to an annual rent which shall be fixed in the manner prescribed in clause (6), and which shall be liable to revision at each renewal of the lease. An initial premium shall be charged on the lease and the lease shall be put up to public auction for sale to the person who agrees to pay the highest amount as premium.

BUILDING SITES—Leases—ordinary terms.

(3) Building sites shall be divided into plots of suitable sizes in two classes :—

Classification of building sites.

I.—Plots of one quarter of an acre and over.

II.—Plots of less than one quarter of an acre.

An extract from the Cantonment Authority's Land Register showing the available building sites classified accordingly shall be open to inspection by the public in the Cantonment Office.

(4) Applications for building sites shall be submitted to the Executive Officer of the Cantonment in the printed form prescribed in schedule IV. Every application shall specify the situation of the land required, the exact purpose for which it is wanted and the area of land in the cantonment, if any, already held by the applicant ; and shall be accompanied by a ground plan of the proposed building. Subject to any directions and by-laws made by the Cantonment Authority under section 181 or section 186 of the Act, applications for sites in class I shall also be accompanied by detailed plans and specifications of the proposed building ; and applications for sites in class II shall be accompanied by a general description of the proposed building.

Application for building sites.

(5) The Executive Officer of the cantonment shall lay the application without delay before the Cantonment Authority. The Cantonment Authority may reject the application for reasons to be recorded in writing, and an entry shall thereupon be made accordingly on the application form and the form shall be filled in the manner prescribed by clause (14) (*b*).

Procedure on rejection by Cantonment Authority.

(6) If the Cantonment Authority resolves that the application may be accepted, the Executive Officer shall proceed to have the site surveyed and demarcated, if necessary, and with reference to the standard table of rates prepared under rule 10, shall fix the particular rate of annual rent to be charged and such reserve price for the premium on the lease as may appear to be reasonable. In no case shall the reserve price so fixed be disclosed to the public.

Procedure on acceptance by Cantonment Authority. Fixing of rent and reserve price for premium.

(7) The reserve price shall be calculated so as to include the cost, if any, of surveying and demarcating the site and a proportion of any expenditure that may have been incurred in preparing and laying out land, including the site under application, for building purposes. The cost of such survey and demarcation shall be deposited by the applicant and shall be deducted from the price eventually realised as premium and re-paid to the depositor.

Survey and demarcation.

(8) The Executive Officer shall then publish a notice, in the form prescribed in schedule V, stating the date on which, the time and place at which, and the conditions under which, the lease of the site applied for will be sold.

Notice of auction.

(9) On the date and at the time and place appointed the Executive Officer shall proceed to sell the lease by auction to the person who agrees to pay the highest amount as premium ; provided that in no case shall the lease be sold unless the reserve price fixed under clause (6) has been reached.

Auction

(10) The successful bidder shall be required to deposit immediately 10 per cent. of the amount of his bid and to sign an agreement consenting to forego the deposit in case the balance of the price is not paid within thirty days of the confirmation of the auction.

Deposit by successful bidder.

(11) The Executive Officer shall report the result of the auction immediately to the Cantonment Authority for its approval. Thereafter the proceedings shall be forwarded to the Collector for his concurrence, and if the Collector concurs, the sale shall be deemed to be duly confirmed ; provided that if the estimated market value of the site exceeds Rs. 5,000, the approval of the Officer Commanding-in-Chief, Command, and if it exceeds Rs. 10,000, the approval of the Government of India shall also be required before the sale shall be deemed to be duly confirmed.

Confirmation of auction

Explanation.—For the purposes of this clause, the market value shall be estimated, as far as possible, on the basis of actual sales of unoccupied land for building purposes

in the locality, but if the market value cannot be estimated on such basis, it shall be taken to mean 20 times the annual value of the site. In calculating the annual value, the rent fixed, as well as the premium realised by the auction, shall be taken into account.

(12) In exercise of the powers conferred on him by clause (11) the Collector, before expressing his concurrence, shall satisfy himself,

Powers of Collector.

(*a*) that the whole proceedings have been conducted in strict accordance with the provisions of these rules, and

(*b*) that the annual rent and the price realized for the premium on the lease a the auction is reasonable.

If he is not satisfied on either of these points, he shall return the proceedings to the Cantonment Authority with a recommendation that the proceedings be cancelled; and thereupon fresh proceedings shall be taken and all the foregoing provisions of this rule shall apply to such fresh proceedings.

If the Collector considers that the disposal of the site itself is for any reason prejudicial to the public interest, he may, subject to any general instructions that the Local Government may issue regarding the limits within which he should exercise his discretion, return the proceedings to the Cantonment Authority with a statement of his reasons for doing so and a request that the matter may be reconsidered in accordance with his recommendations; and in the event of the Cantonment Authority failing to agree with his recommendations the proceedings shall be submitted for the orders of the Officer Commanding-in-Chief, the Command, if the estimated market value of the site does not exceed Rs. 5,000, and of the Government of India in all other cases.

(13) Notwithstanding anything contained in clauses (2) to (11), the Cantonment Authority may, in exceptional cases for reasons of a public nature to be recorded in writing, and subject to the approval of the Government of India, dispense with the deposit of the cost of survey and demarcation, as prescribed by clause (7), or with the auction of the lease, as prescribed by clause (9), or with both, and may lease any site by private agreement, at such rate of rent, and on payment of such premium, as the Government of India may approve in each case.

Disposal of sites by private agreement.

(14) (*a*) As soon as the auction has been duly confirmed, the successful applicant shall be required to execute a lease for the site in the form prescribed in schedule VI. The lease shall be executed on behalf of the Secretary of State by the officer empowered in this behalf by the Governor General in Council and a counterpart of the lease shall be retained in the office of the Cantonment Authority.

Execution of leases.

(*b*) The application in the form prescribed in schedule IV shall, when all the entries therein have been completed, be filed in a loose leaf register maintained by the Cantonment Authority for the purpose. At the end of every four years the whole volume shall be bound together and a fresh register shall be opened. This register shall be known as the Cantonment Authority's Grants Register (Building Sites).

Grants Register (Building Site).

(*c*) On conclusion of the proceedings the Executive Officer shall make the necessary entries in the Cantonment Authority's Land Register and shall see that the necessary entries are also made in the Register of Mutations.

Record of grant.

(15) It shall be open to the Cantonment Authority, at any time before notice of the disposal of a site issues, to frame special conditions in the form of the lease, but no alteration in the prescribed form shall be made without previous consultation with the Collector and without the previous sanction of the Officer Commanding-in-Chief, the Command, in the case of sites in class II, and of the Government of India in the case of sites in class I.

BUILDING SITES - Special Leases—Special conditions.

(16) (*a*) A lease of a building site for a period not exceeding 30 years or a lease in perpetuity, may be granted by the Cantonment Authority in the forms prescribed in schedules VII or VIII, where for special reasons such a course appears to be advantageous to the Government; provided that no such lease shall be granted without previous consultation with the Collector and without the previous sanction of the Officer Commanding-in-Chief, the Command, in the case of sites in class II, and of the Government of India in the case of sites in class I; provided also that in every other respect the procedure prescribed in clauses (2) to (15) shall apply.

Leases for special periods and on special terms.

(*b*) A lease of a building site in perpetuity may be granted by the Cantonment Authority in the form prescribed in schedule IX and in the manner prescribed in clause (13) above; provided that no such lease shall be granted without previous consultation with the Collector and unless the Government of India are satisfied that the site is needed

for a definite public or religious purpose and that the use of the more favourable form of lease prescribed in Schedule IX is justifiable.

Town planning schemes.

(17) Notwithstanding the provisions of clauses (2) to (16), it shall be open to the Cantonment Authority to prepare special schemes for the development and disposal of compact areas of building land entrusted to its management. Such schemes shall be accompanied by a lay out plan of the area and by a recital of the conditions under which the sites may be disposed of, and shall be submitted to the Collector for such advice as he may see fit to offer.

Subject to the approval of the scheme by the Government of India, the Cantonment Authority may proceed to dispose of the sites in the area in accordance with the conditions of the scheme and without further reference to any other authority; provided only that progress reports shall be submitted from time to time to the Government of India, or to such other authority as the Government of India may appoint in each case for this purpose, and that, in the event of the progress not being considered satisfactory, the appointed authority may direct that no further progress be made with the execution of the scheme and that the provisions of clauses (1 to 16) shall apply to the grant of lands not already granted under the scheme.

BUILDING SITES—Sales prohibited.

(18) The sale of building sites by the Cantonment Authority is prohibited.

AGRICULTURAL LAND—Leases

(19) The method of disposing of Agricultural land entrusted to the management of the Cantonment Authority shall be by lease without a premium, and the rent payable under the lease shall be put up to auction. The lease shall ordinarily be for one year, but may, at the discretion of the Cantonment Authority, extend to any period not exceeding four years.

Method of disposal.

(20) It shall not be necessary to await or invite applications for the lease of Agricultural land, but the Cantonment Authority shall, in ample time before the commencement of the cultivation season, decide which lands are to be disposed of in the current year, and the Executive Officer shall thereupon publish a notice in the form prescribed in schedule X, giving particulars of the lands available for disposal, and the date on which, the time and place at which, and the conditions under which, they will be disposed of. The Executive Officer shall also, with reference to the table of rates prepared under rule 10, fix a reserve price for the rent of each separate holding, which shall not be disclosed to the public, and on the date and at the time and place appointed shall put up the lands to auction to the highest bidder. The result of the auction shall be reported immediately to the Cantonment Authority for its approval: provided that in no case shall the lease be sold unless the reserve price has been reached.

Confirmation of leases—when necessary.

(21) Leases of agricultural land for periods exceeding four years shall require the concurrence of the Collector and the approval of the Officer Commanding-in-Chief, the Command; and leases of Agricultural land for periods exceeding 10 years shall require the concurrence of the Collector and the approval of the Government of India, in the manner prescribed by clauses (11) and (12) for building sites.

Record of agricultural leases.

(22) The Cantonment Authority shall maintain a separate register in the form prescribed in schedule XI, which shall form a continuous record of the disposal of agricultural lands. This register shall be known as the Cantonment Authority's Grants Register (Agricultural Lands). For the purposes of this register agricultural land shall be divided into blocks of convenient size containing not more than five or six separate holdings; one page in the register shall be given to each block of land and a plan of the block, traced from the survey map, shall be entered on the opposite page.

Execution of leases.

(23) Lessees of agricultural land shall execute leases therefor in the form prescribed in schedule XII. The lease shall be executed on behalf of the Secretary of State by the officer empowered in this behalf by the Governor General in Council, and a counterpart of the lease shall be retained in the office of the Cantonment Authority.

On conclusion of the proceedings, the Executive Officer shall make the necessary entries in the Cantonment Authority's Grants Register (Agricultural Lands), and the Cantonment Authority's Land Register and shall see that the necessary entries are also made in the Register of Mutations; provided that no lease of agricultural land for a period not exceeding four years need be entered in the Register of Mutations.

AGRICULTURAL LAND—Sales prohibited

(24) The sale of agricultural land by the Cantonment Authority is prohibited.

(25) Notwithstanding the provisions of any of the foregoing clauses, the Cantonment Authority may, at its discretion, grant licenses for periods not exceeding 12 months for the temporary use or occupation of any land entrusted to its management. The amount of the fees to be charged for such licences and the form of the licences themselves shall be determined by the Cantonment Authority. The Cantonment Authority shall maintain a register in the form prescribed in schedule XIII, which shall be called the Cantonment Authority's Grants Register (Temporary Licences), and in which the grant of such licences shall be entered, but it shall not be necessary to enter the grant of such licences in any other register.

Temporary occupation of land under licence.

(26) The receipts from land entrusted to the management of the Cantonment Authority shall be classified as follows :—

Receipts from land—Classification.

(*a*) Premia on leases.

(*b*) Rents from leases.

(*c*) Proceeds from licences issued under clause 25.

(27) Subject to the reservations referred to in clause (6) of rule 11, one quarter of the gross amount payable annually under headings (*a*) and (*b*) in clause (26) shall be credited to the Government of India and the balance to the Cantonment Fund.

Credit of receipts.

All receipts which fall under heading (*c*) in clause 26 shall be credited to the Cantonment Fund.

14. The disposal of land which has been entrusted to the management of the Military Estates Officer under rule 12 shall be governed, so far as may be, by the same conditions as apply to the disposal of land entrusted to the management of the Cantonment Authority, subject to the following modifications :—

Rules for disposal of land by Military Estates Officer.

(1) The Military Estates Officer shall be deemed to be acting as the direct representative of the Government of India and shall himself take the place of, and perform the functions assigned to the Cantonment Authority or the Executive Officer, as the case may be, in clauses (1), (4), (5), (6), (8), (9), (11), (12), (13), (14), (15), (16), (17), (18), (19), (20), (22), (23), (24) and (25) of rule 13.

(2) The Military Estates Officer shall maintain Registers similar to the Registers prescribed by clauses (1), (14) (*b*), (22) and (25) of rule 13 which shall be known as the Military Estates Officer's Land Register, Grants Register (Building Sites), Grants Register (Agricultural land) and Grants Register (Temporary Licences), respectively, and the other forms prescribed in the schedules to these rules shall be adapted, as may be necessary, for the use of the Military Estates Officer.

(3) All receipts from land entrusted to the management of the Military Estates Officer shall be credited in full to the Government of India.

Credit of receipts.

(4) (*a*) The control of Class "A" land shall vest entirely in the military authorities.

Special rules for Class "A" land.

(*b*) The executive management of lands in Class "A" (1) shall, subject to the provisions of rule 12, vest in the department of the Army which is using or occupying them.

(*c*) The executive management of lands in Class "A" (2) shall vest in the Military Estates Officer.

(*d*) Land in class "A" (2) shall ordinarily be kept vacant, but may be leased by the Military Estates Officer for purely temporary purposes for periods not exceeding five years with the consent of the Officer Commanding-in-Chief, the Command, and for any other period with the consent of the Government of India.

(*e*) No building other than a construction of a purely temporary nature shall be erected on Class "A" land except with the approval of the Government of India.

(BUILDING SITES.)

(Form of application for land to be filled in by applicant.)

To

THE EXECUTIVE OFFICER,

CANTONMENT.

Date (*April 1st, 1925*).

SIR,

I have the honour to apply for the grant of (*4,000*) $\frac{\text{acres}}{\text{square feet}}$ of land situated in for the purpose of building a (*motor garage and office*).

A ground plan of the area required is attached together with detailed† plans and specifications of the proposed building.

I hold the following lands in the Cantonment :—

I am prepared to abide by such conditions regarding the disposal of the land as the Cantonment Authority may lay down, and to deposit the cost, if any, of surveying and demarcating the land, on the understanding that if the land is eventually granted to me or to any other person the amount of my deposit will be refunded to me.

* (*I request that the land may be granted to me by private agreement without auction on the ground that I am in occupation of the adjoining site and the site applied for is necessary in order to extend my business.*)

I have, etc.,

(Sd.) A. B. C.

NOTE 1.—†Detailed plans and specifications of the building are only required if the area applied for exceeds one quarter of an acre.

NOTE 2.—*This space may be utilised by the applicant for any special request that he may wish to make as to the terms on which the land may be disposed of.

No. 477-S. (2).—The following Order in Council dated the 6th February 1925, is published for general information :—

AT THE COURT AT BUCKINGHAM PALACE.

The 6th day of February, 1925.

PRESENT,

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

Whereas by Section 670 of the Merchant Shipping Act, 1894, it is enacted that when any Lighthouse, Buoy, or Beacon has either before or after passing of that Act been erected or placed on or near the coast of any British Possession by or with the consent of the Legislature of that Possession, His Majesty may, by Order in Council, fix such Dues (in that Act referred to as Colonial Light Dues) to be paid in respect of that Lighthouse, Buoy, or Beacon by the Owner or Master of every Ship which passes the same and derives benefit therefrom as His Majesty may deem reasonable, and may by like Order increase, diminish or repeal such Dues, and those Dues shall from the time mentioned in

the Order be leviable throughout His Majesty's Dominions and further that Colonial Light Dues shall not be levied in any British Possession unless the Legislature of that Possession has, by address to the Crown or by Act or Ordinance duly passed, signified its opinion that the Dues ought to be levied:

AND WHEREAS the Great Basses Lighthouse, the Little Basses Lighthouse, and the Minicoy Lighthouse are Lighthouses which have been duly erected under and pursuant to the said section:

AND WHEREAS by Orders in Council, dated respectively the 22nd day of May 1883, the 9th day of May, 1892, the 29th day of June, 1896, the 10th day of August, 1903, the 21st day of October, 1912, and the 6th day of February 1917, the Dues leviable in respect of the said Lighthouses for the Classes of Ships therein respectively mentioned were duly fixed.

AND WHEREAS by Order in Council, dated the 14th day of July 1922, His Majesty directed that, as from the 1st day of October 1922, or from the time of the receipt of notice of that Order, if that be later, by the Officers authorised to collect Light Dues, the Dues thenceforth to be levied should be as follows, that is to say, in respect of the Great Basses Lighthouse, and the Little Bases Lighthouse, three-eights of one penny per ton, and in respect of the Minicoy Lighthouse one-eighth of one penny per ton, of the burden of every ship on every voyage in which she passes or derives benefit from the said Lights respectively, subject in each case to a reduction of 25 per cent.:

AND WHEREAS it has been made to appear to His Majesty that the said Dues should be altered in manner hereinafter appearing:

NOW THEREFORE, His Majesty, in exercise of the powers so vested in Him by the above recited provisions, and by and with the advice of His Privy Council, doth by this Order in Council order, and it is hereby ordered, as follows:—

1. This Order may be cited as "The Colonial Light Dues (Great and Little Basses and Minicoy) Order, 1925."

2. As from the 1st day of April 1925 or from the time of the receipt of this Order, if that be later, by the Officers authorised to collect Light Dues, the Dues thenceforth to be levied shall be as follows, that is to say, in respect of the Great Basses Lighthouse and the Little Basses Light-house, three-sixteenths of one penny per ton, and in respect of the Minicoy Lighthouse, one-sixteenth of one penny per ton of the burden of every Ship on every voyage in which she passes or derives benefit from the said lights respectively.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of State on the 17th February 1925 :—

No. 1 OF 1925.

A Bill further to amend the Indian Ports Act, 1908.

WHEREAS it is expedient further to amend the Indian Ports Act, 1908, for the purpose hereinafter appearing ; It is hereby enacted as follows :— XV of 1908.

Short title.

1. This Act may be called the Indian Ports (Amendment) Act, 1925.

Amendment of section 6, Act XV of 1908.

2. In sub-section (*1*) of section 6 of the Indian Ports Act, 1908, after clause (*ee*), the following clause shall be added, namely :— XV of 1908.

"(*eee*) for regulating the bunkering of vessels with liquid fuel in any such port and the description of barges, pipe lines or tank vehicles to be employed in such bunkering ;"

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to enable the Local Government to issue rules under the Indian Ports Act regulating the bunkering of vessels with liquid fuel within port limits and the description of barges, pipe lines and tank vessels to be employed in any such bunkering,

2. The Indian Ports Act was passed in 1908 at a time when liquid fuel was hardly ever used for marine purposes. Consequently there is no provision in that Act empowering Local Governments to frame rules for regulating the conditions on which such bunkering can be allowed within port limits. The need for such rules has been experienced at Bombay. The number of vessels using liquid fuel which visit the port has increased, and occasions arise when bunkering with liquid fuel must be permitted from barges or from vehicles on the dock side. It is desired, in the interests of the general safety of the port, to give Local Governments power to issue rules regulating such bunkering.

	galvanised	Ton Rs. 45.
	not galvanised	Ton Rs. 30."

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to bring Schedule II to the Indian Tariff Act, 1894 (VIII of 1894), up to date by incorporating in it alterations already in force by virtue of notifications issued under section 23 of the Sea Customs Act, 1878 (VIII of 1878). These notifications represent in many cases rulings by the Government of India on questions relating to the interpretation of the Statutory Tariff Schedule. Opportunity has also been taken to include in the Bill certain other proposals. These proposals are dealt with *seriatim* below. They are included in a separate Tariff Bill instead of in the Finance Bill because they have not been made primarily with reference to the revenues of 1925-26.

2. *Sugar.*—The present import duty on sugar is an *ad valorem* duty of 25 per cent., assessed on a tariff valuation which is calculated for each calendar year on the average price during the twelve months ending the previous September. This method of assessment causes inconvenient fluctuations in the revenue receipts from year to year, which will be largely avoided by the substitution of a specific for an *ad valorem* rate of duty. Sugar is moreover an article well suited for specific duties and, in fact, specific duties on sugar are adopted by most countries. It is proposed to convert the existing 25 per cent. *ad valorem* duty into an equivalent specific duty, viz., Rs. 4-8-0 a Cwt. on sugar 23 Dutch Standard and above, Rs. 4-0-0 a Cwt. on sugar between 23 and 8 Dutch Standard.

3. *Cigarettes.*—A specific duty of Rs. 8 per thousand on cigarettes in place of the present *ad valorem* duty of 75 per cent. is proposed. *Ad valorem* duties which are based by law on market values are difficult to administer at outlying ports or customs stations, if uniformity of assessment throughout India is to be secured. Also it is not simple to determine what is the market price of unknown marked imports of cigarettes. When an *ad valorem* duty is as high as 75 per cent. these difficulties lead to unfair disparities in assessment. Cigarettes are articles well suited for specific duties, and many importers prefer them in place of *ad valorem* ones. A change to specific should thus both simplify Customs administration and meet importers' convenience.

4. *Silk mixtures.*—An intermediate rate of import duty, viz., 20 per cent., is proposed on silk mixtures. The present wide difference in rates between silk goods and other textiles causes constant difficulty to traders and at Custom Houses. It is therefore considered desirable to have a special entry in the Schedule for silk mixtures which will be defined as having silk in warp or weft or silk superimposed. If the fabric has silk in both warp and weft, it will be assessed as silk.

5. *Iron or Steel—Discs and Circles.*—This proposal merely aims at rectifying an error in the Schedule to the Steel Industry (Protection) Act, 1924. It has been held that the inclusion of the words "discs and circles" in Item 61 of the Schedule and the fact that they are not specifically mentioned in Items 147 and 148 make all discs and circles assessable at 10 per cent., although they may be cut from plates and sheets coming under Items 147 and 148.

6. The amendments, which are not already in force, are intended to come into effect from the seventh day after this Bill becomes law, except in regard to the specific rate on sugar, which will have effect from the day three months after this Bill becomes law.

(*b*) in clause (*8*) for the word "six" the word "three" shall be substituted ;

(*c*) clause (*11*) is hereby repealed ;

(*d*) in clause (*12*) for the word "solitary" the word "cellular" shall be substituted ; and

(*e*) clauses (*12*) and (*13*) shall be re-numbered, respectively, clauses (*11*) and (*12*).

Amendment of section 47, Act IX of 1894.

3. (*1*) Section 47 of the said Act shall be re-numbered sub-section (*1*) of section 47.

(*2*) In the said sub-section—

(*a*) in exception (*2*) for the word "solitary" the word "cellular" shall be substituted ;

(*b*) for exception (*3*) the following exception shall be substituted, namely :—

"(*3*) cellular confinement shall not be combined with separate confinement so as to prolong the total period of seclusion to which the prisoner shall be liable ;"

(*c*) after exception (*4*) the following exception shall be added, namely :—

"(*5*) No punishment shall be combined with any other punishment in contravention of rules made by the Governor General in Council."

(*3*) To the said sub-section the following sub-section shall be added, namely :—

"(*2*) No punishment shall be awarded for any such offence so as to combine, with the punishment awarded for any other such offence, two of the punishments which may not be awarded in combination for any such offence."

STATEMENT OF OBJECTS AND REASONS.

The Indian Jails Committee in discussing the question of prison discipline (*vide* Chap. X of their Report), recommended reforms in the following directions as regards prison offences and punishments :—

(1) that the maximum period of separate confinement should be reduced from six to three months ;

(2) that solitary confinement should be abolished as a jail punishment ;

(3) that change of labour as a punishment should be restricted to a stated period ; and

(4) that the following additions should be made to the exceptions to the combination of punishments enumerated in section 47 of the Prisons Act, 1894 (IX of 1894) :—

(*a*) penal diet in combination with standing handcuffs ;

(*b*) cross-bar fetters in combination with standing handcuffs or with bar fetters ;

(*c*) award, in combination for separate offences, of punishments which may not be combined in the case of a single offence.

2. These recommendations have been accepted and effect given to them by Government, and the Bill is intended to make certain consequential amendments which are required in the Prisons Act. These amendments are confined to sections 46 and 47 of the Act, and require no detailed explanation.

THE following Bill was introduced in the Legislative Assembly on the 24th February 1925 :—

No. 21 OF 1925.

A Bill to amend the Cantonments (House-Accommodation) Act, 1923.

WHEREAS it is expedient to amend the Cantonments (House-Accommodation) Act, 1923, for the purposes hereinafter appearing : It is hereby enacted as follows :— VI of 1923

Short title

1. This Act may be called the Cantonments (House-Accommodation Amendment) Act, 1925.

Amendment of section 2, Act VI of 1923

2. In sub-section (*1*) of section 2 of the Cantonments (House-Accommodation) Act, 1923 (hereinafter referred to as the said Act), — VI of 1923

(*a*) in clause (*b*) for the word "Committee" the word "Board" shall be substituted ;

(*b*) after clause (*b*) the following clause shall be inserted, namely :—

"(*bb*) 'Cantonment Board' means a Cantonment Board constituted under the Cantonments Act, 1924 ;" II of 1924

(*c*) in clause (*g*) for the words "a Cantonment Magistrate" the words "an officer of the Cantonments Department" shall be substituted.

Amendment of sections 17 and 22, Act VI of 1923

3. In section 17 and in clause (*a*) of sub-section (*1*) of section 22 of the said Act, for the words "Military Works," wherever they occur, the words "Military Engineer" shall be substituted.

Amendment of section 34, Act VI of 1923

4. In section 34 of the said Act, for the words "under the Cantonments Act, 1910, or any rule made thereunder" the following shall be substituted, namely :—

"in accordance with a bye-law made under clause (*29*) of section 282 of the Cantonments Act, 1924."

Amendment of section 37, Act VI of 1923

5. In section 37 of the said Act, for the word "Committee" the word "Board" shall be substituted.

Substitution of title "Officer Commanding the station"

6. For the words "Commanding Officer of the Cantonment," wherever they occur in the said Act, the words "Officer Commanding the station" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

With the passing of the Cantonments Act, 1924 (II of 1924), it has become necessary to make certain consequential changes in the Cantonments (House-Accommodation) Act, 1923 (VI of 1923). The object of this Bill is to provide for these changes and also to provide for a change in the official nomenclature of the Military Works Services which is now designated the Military Engineer Services.

The following Bill was introduced in the Legislative Assembly on the 3rd February 1925 :—

No. 9 OF 1925.

A Bill further to amend the Indian Coinage Act, 1906.

WHEREAS it is expedient further to amend the Indian Coinage Act, 1906 ; It is hereby enacted as follows :— III of 1906.

Short title. **1.** This Act may be called the Indian Coinage (Amendment) Act, 192 .

Amendment of section 11, Act III of 1906. **2.** In section 11 of the Indian Coinage Act, 1906, for the word "ten," the word "fifteen" shall be substituted. III of 1906.

STATEMENT OF OBJECTS AND REASONS.

The Indian Coinage Act, 1906, was amended in 1920 in pursuance of the policy recommended by the Currency and Exchange Committee, and it was declared that the sovereign would be legal tender in India at the rate of ten rupees to the sovereign instead of fifteen to the sovereign which had previously been the legal ratio. The experience of the past four years has now proved that the ratio recommended by the Indian Currency and Exchange Committee is unsuited to the conditions of this country, as exchange has been much more in the proximity of the old legal ratio than the existing legal ratio during all these years, with the sole exception of 1919-20, when world conditions were abnormal everywhere. It is therefore now proposed to reverse the legislation of 1920, and restore the ratio that prevailed up to the date of that legislation.

THE following Bill was introduced in the Legislative Assembly on the 3rd February, 1925 :—

NO. 6 OF 1925.

A Bill to declare the rights of Hindus to make settlements of property by way of trust in favour of their families, children and descendants.

WHEREAS doubts have arisen regarding the validity of trusts created by persons professing the Hindu faith in favour of themselves, their families, children and descendants and ultimately for other religious, pious or charitable purposes ; and whereas it is expedient to remove such doubts ; It is hereby enacted as follows :—

Short title and extent.

1. (*1*) This Act may be called the Hindu Trust (Validating Act, 192 .

(*2*) It extends to the whole of British India.

Definition.

2. In this Act, unless there is anything repugnant in the subject or context,—

"trust" means the permanent dedication by a person professing the Hindu faith of any property for any purpose recognised by the Hindu law as religious, pious or charitable.

Power of Hindus to create certain trusts.

3. It shall be lawful for any person professing the Hindu faith to create a trust which in all other respects is in accordance with the provisions of the Hindu law for, among other purposes, the maintenance and support wholly or partially of his family, children or descendants :

Provided that the ultimate benefit is in such cases expressly or impliedly reserved for any other purpose recognised by the Hindu law as a religious, pious or charitable purpose of a permanent character.

Trusts not to be invalid by reason of remoteness of benefit to religion, etc

4. No such trust shall be deemed to be invalid merely because the benefit reserved therein for religious, pious or charitable purposes of a permanent nature is postponed until after the extinction of the family, children or descendants of the person creating the trust.

Savings.

5. Nothing in this Act shall affect any custom or usage whether local or prevalent among Hindus of any particular class or sect, nor shall it validate any trust in respect of property over which the author of the trust had not full power of disposal.

STATEMENT OF OBJECTS AND REASONS.

Both the Hindu and Mahomedan laws had originally the following things in common. Under both systems of law, a gift could not take effect unless it was accompanied by possession nor could there be a gift to take effect at any future definite period (*Usuf Ali* v. *Collector of Tipperah*, 9 Cal. 138). Secondly, under both systems, a bequest was invalid unless the devisee was alive and capable of taking the bequest at the death of the testator (*Abdul Cadur* v. *Turner, Official Assignee*, 9 Bom. 158). Thirdly, the powers of the owner to bequeath property was as circumscribed under Hindu and Mahomedan laws. Under the former a person was only entitled to bequeath the property over which he at present had the power of disposal. Under the Mahomedan law no bequest was valid unless it was assented to by the heirs, and it must be limited to one-third of the estate. A perpetuity was, therefore, as opposed to Hindu law as to the Mahomedan law. The Mussulman Wakf (Validating) Act, 1913 (VI of 1913), has relieved Mahomedans of their disabilities which their personal law imposes upon them. A similar measure would seem to be necessary to relieve the Hindus of their disabilities.

2. The Hindu law of Wills is a judicial deduction from the Hindu law of Gifts; and so is a trust. In the *Tagore* case their Lordships of the Privy Council for the first time laid down (*inter alia*) the following propositions *to wit:* (1) that a devise cannot be made to a person not in existence at the devisor's death; (2) that a devise so invalid cannot be made valid by the intervention of trustees; (3) that trusts are not unknown to the Hindu law and can be created for carrying out such intention as the law recognizes. The Hindu law favours religious endowments as such but it is silent as to in what way and to what extent such endowments might be created. The Transfer of Property Act which expressly enacts a rule against perpetuities expressly saves any rule of the Hindu law to the contrary. I am aware of no rule which directly contravenes the rule against perpetuity, but the restrictions settled in the *Tagore* case are much narrower than are possible if Hindu bequests had been made expressly subject to that rule. An attempt was made by the Hindu Transfers and Bequests Act, 1914 (Madras Act I of 1914), and the Hindu Disposition of Property Act (XV of 1916) to enlarge the scope of Hindu devises, but neither the Hindu nor the statutory rule legalizes or invalidates a dedication of Property to the family deity with the sole object of creating a perpetuity. This practice is widely prevalent in Bengal and it suffices to create a perpetual trust, the legality of which has never been questioned. In this respect the Hindu law has succeeded in establishing a rule which is closely akin to the Mahomedan rule which the Privy Council had condemned as creating an illusory trust. The reasoning of their Lordships of the Privy Council in the cases of *Ashunulla Chowdhry* v. *Amarchand Kundu*, L. R. 17 Ind. Ap. 37, *Abdul Gufur* v. *Nizamuddin*, L. R. 19 Ind. Ap. 170, *Abul Fata* v. *Russomoy Dhur*, L. R. 22 Ind. Ap. 76, *Mujibun-Nisa* v. *Abdul Rahim*, I. L. R. 23 All. 233 P. C. (see also *Ramanadahan* v. *Veda Levrai Marakayar*) in which it was so decided would seem to apply equally to Hindus. But the Central Legislature has by enacting Act VI of 1913 placed the legality of their bequests beyond further question.

3. The Statement of Objects and Reasons appended to the Bill which became Act VI 1913 clearly shows that the measure was intended to overrule a series of decisions of their Lordships of the Privy Council. The present Bill does also contravene the decisions of the Privy Council, but at the same time it also seeks to remove the uncertainty in law and restores the true principle and correct view of Hindu usage. There is nothing, therefore, between the principles of the two Bills to distinguish the one from the other. By passing the Musalman Wakf (Validating) Act, 1913, the Legislature has recognised its right to re-establish or improve the personal law of the communities concerned. As such, by the enactment of 1913, the Mahomedan law has been placed beyond question. The present Bill is drawn to place the Hindu rule equally beyond question.

4. The Bill, if enacted, would of course, only apply to property over which a Hindu possesses absolute right of disposition.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 11th February, 1925 :—

No. 17 OF 1925.

A Bill to define and limit the powers of certain Courts in punishing contempts of Courts.

WHEREAS doubts have arisen as to the powers of a High Court of Judicature to punish contempts of subordinate Courts ;

And whereas it is expedient to resolve these doubts and to define and limit the powers exerciseable by a High Court and other superior Course in punishing contempts of Courts ; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Contempt of Courts Act, 1925.

(*2*) It shall extend to the whole of British India.

(*3*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Punishment for contempt of court.

2. (*1*) Whoever, by words either spoken or written or by signs or by visible representation or otherwise, interferes with or obstructs or attempts to interfere with or obstruct the administration of justice in, or brings or attempts to bring into contempt, or lowers or attempts to lower the authority of, a Court specified in the Schedule or a Court subordinate thereto, is said to commit contempt of court.

(*2*) Whoever commits any contempt of court in respect of a Court specified in the Schedule or of a Court subordinate thereto may be punished with imprisonment for a term which may extend to six months, or with fine or with both.

Power to take cognisance of offences under the Act.

3. (*1*) A Court specified in the Schedule may on or without application take cognisance of an offence punishable under section 2, when such offence is alleged to have been committed in respect of such Court.

(*2*) A Court specified in the Schedule may take cognisance of an offence punishable under section 2, when such offence is alleged to have been committed in respect of a Court subordinate thereto of its own motion or on application by the Crown.

(*3*) Save as provided in sub-sections (*1*) and (*2*), no Court shall take cognisance of an offence punishable under section 2.

Powers and procedure of Courts.

4. (*1*) A Court specified in the Schedule may prescribe by rule the procedure to be followed by the Court in proceedings in respect of an offence under this Act.

(*2*) The provisions of the Code of Criminal Procedure, 1898, so far only as they are not inconsistent with the provisions of this Act or the procedure prescribed under sub-section (*1*), shall apply to such proceedings ; and a Court specified in the Schedule shall have in such proceedings all the powers conferred by the Code on the Court in the exercise of its original criminal jurisdiction. V of 1898.

Limitation of powers of certain Courts.

5. Save as provided by the Code of Criminal Procedure, 1898, the powers of the Courts specified in the Schedule to punish contempt of court are hereby declared to be limited to the powers vested in them by this Act. V of 1898

THE SCHEDULE.

(*See section 3.*)

The High Court of Judicature at Fort William in Bengal.

The High Court of Judicature at Madras.

The High Court of Judicature at Bombay.

The High Court of Judicature at Allahabad.

The High Court of Judicature at Patna.

The High Court of Judicature at Lahore.

The High Court of Judicature at Rangoon.

The Court of the Judicial Commissioner of the Central Provinces.

The Court of the Judicial Commissioner of Oudh.

The Court of the Judicial Commissioner of Sind.

STATEMENT OF OBJECTS AND REASONS.

The several high courts of judicature established by letters patent are superior courts of record, and as such they have power to attach and commit for acts amounting to contempt of their own proceedings as contempt of court, and without reference to whether the acts alleged constitute an offence under the Indian Penal Code. Different views have, however, been held by the various high courts in regard to their power to punish for such contempts committed in regard to proceedings in courts which are subordinate to them. The Madras High Court in the case of in *re* Venkata Rao (21, Madras Law Journal 832) and the Bombay High Court in the case of King-Emperor *v.* P. G. Kulkarni (24, Bombay Law Reporter, 16) have held that they possess this power to protect their subordinate courts against such contempts. The Calcutta High Court, on the other hand, in the cases of King-Emperor *v.* Girindra Mohan Das and others (17, Calcutta Weekly Notes, 1285) and of Legal Remembrancer *v.* Moti Lal Ghose (I. L. R. 41 Calcutta, 173) has taken a contrary view. In cases in which it is held that the power to attach and commit exists the powers of the courts are as unrestricted as are the powers of superior courts of record in England. It has not been decided whether the Courts of the Judicial Commissioners of the Central Provinces, Oudh and Sind, have these general powers either in regard to contempt of their own proceedings or of the proceedings of courts subordinate to them. In England in addition to the powers of the superior courts of record to attach and commit for contempt of court, contempts of courts are also indictable misdemeanours at common law. In India, on the other hand, though the Indian Penal Code makes certain acts which would be punishable as contempts of court in England specific offences, it does not provide generally for the punishment of contempts of the authority of judicial officers not committed in their presence.

2. The condition of the law in India as summarised above has long been regarded as unsatisfactory, and in 1914 a Bill was introduced in the Indian Legislative Council which would have increased the classes of cases of contempts of court punishable as offences under the Indian Penal Code, but it was not proceeded with owing to the war. The present Bill proposes to declare and amend the law on other lines. Instead of increasing the classes of cases punishable as contempts of court after trial by magistrates, the Bill restricts the power to protect subordinate courts against contempts which are not already provided for in the Indian Penal Code to the high courts themselves. The Bill resolves any doubts as to the powers of the high courts of judicature in regard to the protection of their subordinate courts from such contempts. It will show clearly that the Courts of the Judicial Commissioners of the Central Provinces, Oudh and Sind, will have the same powers of punishing for contempts committed in regard to their own proceedings or of the proceedings of courts subordinate to them. In lieu of the existing unrestricted powers of the high courts of judicature it will define the nature of the offence of contempt of court and the extent of the punishment which may be awarded. Finally, it bars the inherent powers of the high courts to deal with such offences.

J. C. ROY, for *Director of Agriculture, Bengal.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for February 1925.

I. **Character of the season.**—During the first half of the month rainfall was practically general throughout the province, precipitation being above the average in eight districts and below normal elsewhere. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of early spring crops was finished and that of the late varieties continued. Preparatory tillage for autumn crops was carried on under favourable weather conditions, especially in the low land tracts of East Bengal.

III. **State of standing crops.**—The standing crops including vegetables were, on the whole, thriving well.

IV. **Prospects and probable outturn.**—The outlook of the late spring crops including wheat and summer rice was reported to be favourable owing to occasional showers during the first part of the month.

V. **Damage to standing crops.**—No appreciable damage to the standing crops was reported from any district.

VI. **Condition of Agricultural stock.**—The condition of agricultural stock was reported to be fair. Sporadic cases of cattle-disease were, however, reported from nine districts.

VII. **Failure of pasturage and fodder.**—No insufficiency of fodder was reported from any part of the province.

VIII. **Prices of food grains.**—During the second-half of the month the price of common rice of the cheapest quality rose in six districts, fell in eight and remained stationary in the rest of the province. It ranged from 5 seers and 4 chitaks per rupee at Mymensingh to 8 seers per rupee at Midnapore.

IX. **Condition of agricultural population.**—The condition of agricultural population was, on the whole, fair.
